These Fees are the only charges made, all Stationery being  
 supplied by the College without expense to the pupil.

Boarders are received into the Head Master's house, on  
 moderate terms.

Parents desirous of procuring vacant presentations, will  
 have every facility afforded them on application to the  
 Honorary Secretary, or to the Head Master.

Arrangements have been made whereby the whole of the  
 Pupils will have the advantage of being taught Singing by  
 MR. NATHAN, and Drawing by a Master of tried ability.

\* \* \* The Students, without exception, are requested to  
 re-assemble in the COLLEGE HALL, on MONDAY, the *1<sup>st</sup>*  
 day of *July*, 184*4*.

We are indebted to a former master, Mr. R. H. Bode, for  
 the illustration of Sydney College, 1844. It was found among  
 the papers of his late cousin, Mr. T. Barker, son of one of the  
 founders of Sydney College. Comparison with the present  
 school building is interesting.—Editor.

## PRIZE DAY

---

THE Annual Prize-giving took place on Wednesday, 16th December, 1942. The Chairman of Trustees, Sir John Peden, extended a cordial welcome to His Excellency the Governor, Lord Wakehurst, who distributed the prizes and addressed the boys.

The speech of His Excellency and the Headmaster's Report are printed in this issue.

After the ceremony, members of the Women's Association served afternoon tea to the large gathering.

SPEECH BY HIS EXCELLENCY THE GOVERNOR AT THE  
PRIZE GIVING, WEDNESDAY, 16TH DECEMBER, 1942

"I AM very happy to be with you once more and to have the pleasure of again presenting the prizes at this gathering, though I think it is really time you had a change. I congratulate the prize-winners most heartily, but I must not omit a word of encouragement to those who, without being fortunate enough to win a prize, have done their best. No more can be expected of anyone. As I have often told you, I believe that the least gifted of us can always hope to make up for what he lacks in brilliance by qualities of character. And herein lies the essential difference between our educational system and that of the totalitarian countries.

"In the totalitarian countries there is an official standard of orthodoxy in thought, whereas in the democratic countries the object is to train people to select the best from a number of competing courses of action. The dictatorships proceed on exclusive lines. The individual is to be taught his place in a fixed scheme of things. If

he won't conform he becomes an outlaw and an outcast. The democracies proceed on an inclusive line. The accepted scheme of things at any particular moment is that which a consensus of majority opinion approves, but in which the opinions of minorities are not disregarded. Minorities are given the same opportunities of expression as majorities. They may and often do become majorities themselves. And it is because any school of thought may be a majority at one moment and a minority at another that there is a common interest in limiting the rights of majorities and in safeguarding the rights of minorities. In this way has grown up a system by which change can take place by persuasion and discussion, a system which is most completely exemplified in our Parliamentary institutions.

"The success of our democratic system depends on our ability to turn out citizens imbued with elasticity of thought and integrity of mind. Our education should, therefore, aim particularly at encouraging the search for truth, not that we can hope to grasp absolute truth, but because in the search for truth we learn to appreciate values, to respect the opinions of others, to discriminate between sincerity and humbug, to distinguish issues clearly, to reason honestly, and to insist on fair play. It is this informed independence of judgment that makes the product of our educational system so different from that of Germany.

"I would ask you, therefore, carefully to ponder some words of Edmund Burke which express for all time the meaning of that British way of life which British peoples have felt they would rather die for than give up. When Britain was mortally threatened at the close of the 18th century by Napoleon, Burke helped to steel the British mind against dictatorship and aggression, just as Churchill and Roosevelt are doing to-day. He said, and these are my concluding words:—

"As long as you have the wisdom to keep the sovereign authority of this country as the sanctuary of liberty, the sacred temple consecrated to our common faith, wherever the chosen race and sons of England worship freedom, they will turn their faces towards you. . . . Slavery they can have anywhere. It is a weed that grows in every soil. They may have it from Germany (Prussia), they may have it from Italy (Spain). But until you become lost to all feeling of your true interest and your national dignity, freedom they can have from none but you. This is the commodity of price of which you have the monopoly. . . It is the spirit of the British (English) Constitution, which, infused through the mighty mass, pervades, feeds, unites, invigorates, vivifies every part of the Empire, down to the minutest number. . .

"All this, I know well enough, will sound wild and chimerical to the . . . sort of people who think that nothing exists but what is gross and material; and who, therefore, far from being qualified to be the directors of the great movement of Empire, are not fit to turn a wheel in the machine. . . A great empire and little minds go ill together. If we are conscious of our station, and glow with zeal to fill our places as becomes our situation and ourselves, we ought to . . . elevate our minds to the greatness of that trust to which the order of Providence has called us, whereby we have made the only honourable conquests, not by destroying, but by promoting the wealth, the number, the happiness, of the human race."—(Burke, 1775).

### HEADMASTER'S REPORT, 1942

---

A FEW days ago, in turning over the pages of a long-since forgotten document—I refer to the Headmaster's Report for 1941—I found the following statement regarding the prospects for 1942: "Since the entry of Japan into the war it is impossible to forecast under what conditions work will be resumed after the vacation."

Fortunately, however, our worst fears were not realised. We have been able to carry on without serious interruption and although plans were made for a possible evacuation of our premises, these had not to be put into effect. I had anticipated a decline in numbers, and this occurred, not so much because boys were removed to safe country areas, but because many boys left at an earlier age than usual to be able to spend eighteen months or two years in business before enlisting. The enrolment of new boys was well up to the average of recent years: 170 new boys entered the School, and for the first time since 1923 the number of boys on the roll was greater at the end of the year than at the beginning.

I am pleased to say that the School House is prospering: The Board has spent a considerable sum in renovations, and the many visitors have been impressed by the facilities which the House offers, and also by the obvious satisfaction of the boys in what is to them a home.

The work of the School has been maintained at standards of recent years. It is difficult to say how great an influence war conditions have had on the boys. For the first time war has come to our shores; its evidences are apparent every day; its toll of loss and suffering has been felt in many homes, while older boys themselves

are eagerly looking forward to the time when they can play an active part in the war. Outwardly they seem unaffected, and it is a tribute to their self-control that they have apparently carried on as usual. The capable boy and the earnest offer no problem: there is still the boy who doesn't want to work and who possesses the same fertility of excuse as the generations before him. He still affects not to understand why the master is not impressed by the heroic quality of his efforts, even though in the meantime he has assured uneasy parents that no homework was set; while thinking of higher things, possibly, he absent-mindedly leaves at home the homework which a master demands with disturbing persistence; or at a critical moment a treasured textbook has unaccountably vanished, or the electric light failed (in his district, solely, inquiries show). Occasionally some youth frankly states the direct truth as one, who in replying to a note of congratulation on passing the Intermediate thought that he himself deserved little credit, but that "three of the best" during first Term had contributed largely. Another, after an interview which concluded with an injunction to show some more interest in his lessons, confessed "I always work better when I've been socked." I don't know how some reformers will explain this degeneracy.

The results in Public Examinations were satisfactory. Ninety boys passed the Intermediate, seven gaining six or more "A's." At the Leaving Certificate 80 boys passed, gaining thirteen 1st Class Honours and 22 2nd Class, the highest proportion being in Mathematics. Three candidates obtained the maximum pass with two Honours and four "A's"; another gained first place in the State in History.

A development of considerable importance to the schools has recently been announced. The University senate has approved of an alteration in the requirements for Matriculation—a pass must be gained in four subjects, one of which must be English and one subject at least must be passed at the "A" standard. That is to say, a Foreign Language and Mathematics are no longer compulsory. The announcement has not met with unanimous approval, for there is a fear that the teaching of Latin, e.g., will gradually shrink, and that a valuable part of cultural training will disappear from the schools. Experience will show whether this fear is justified. On the other hand it is contended that boys of quite good ability in some subjects are handicapped by having to pass in other subjects for which they have no aptitude. As a case in point, one boy at the last Leaving obtained "A's" in Mathematics and Science, but could reach only the lower standard in French. Although a hard-working boy he failed again for the same reason to obtain his Matriculation pass at a further attempt in February. His record

showed that he was capable of doing the Science course he wished to take at the University, but he was debarred by failure in French, which he could read reasonably well, but which he could not write grammatically. There is much to be said on behalf of such boys and there are many of them. With the removal of compulsory subjects (except English) they should be able to reach higher standards in the more congenial work, and be better fitted to meet University First Year requirements.

I turn to sport, a theme which interests the younger part of my audience much more than anything I have yet said or am likely to say. The School has gained more successes than usual this year. The First XI won all matches but one, including the game against Melbourne Grammar. Owing to travel restrictions we were not able to go to Melbourne at this time, but hope to resume the games next year. The Eight won a place in the unofficial Head of the River regatta. The First XV gained some meritorious wins. The Tennis teams won Senior and Junior Championships in the G.P.S. games. The Athletic team gained what would have been first place if a competition had been held. The Swimming team won the Senior Championship in New South Wales schools. We are all indebted to masters and boys whose enthusiasm has made this record possible.

The Chairman has mentioned the loss of an old friend in the person of Mr. C. J. D. Goldie, whose association with the School went back some 60 years. It is a pleasure to recall that at the last Prize-giving he had the satisfaction of hearing his grandson's name called out in the list of prize-winners.

During the year we have lost two rowing masters, on service, Mr. Ward and Mr. Bretherton, but I am happy to say that we have been able to make satisfactory arrangements for carrying on the rowing activities. We welcome the return of Mr. McKnight, who has been engaged in war work, and a new master, Mr. G. S. Stiles, who has been in charge of the First XI during Mr. McKnight's absence.

In such a difficult year as this has been I am anxious to express my special appreciation of the generous help I have received on all sides—from Mr. Lumsdaine, the Master of the Lower School, the subject masters and the Form masters. Miss Dickin, in addition to her official duties as Headmaster's Secretary, has bound up our wounds, poured in oil and has supplied that stitch in time which not only saves nine but has also saved a good deal of juvenile embarrassment. And I should like to include the School Sergeant, who finds his pleasure in helping wherever possible.

You will be interested in examining the Carter Prize exhibits on view in the classroom by the Stanley Street entrance. This prize was founded by a former master of the School in memory of a son who lost his life during the last war.

This leads me naturally to the war effort of the School. The boys have contributed regularly from their own pocket money to war funds, and donations have been made to the Red Cross, Legacy Club, Prisoners of War and other funds. Classes in First Aid have been held with very successful results, and a number of boys are making camouflage nets.

The Cadet Corps continues to flourish in both Senior and Junior Sections, and the Air Training Cadets were the first of the G.P.S. Flights to gain their proficiency certificates. A second group is already in training and members should gain their certificates early in the New Year.

Such is, in outline, the record of the year's work. If I were the managing director of a company I might try to estimate the profits on the year's activities. What would they amount to? So many examinations passed, so many distinctions won; successes in sport, contributions to War Funds, publicity—things seen or heard. What dividends do the shareholders get?

A schoolmaster cannot answer the question, for the dividends are found among the intangibles. The answer lies in the future: he sees the dawn but cannot tell what high noon or sunset will show. Will those boys be like the Moslem beggars who stand on the steps of S. Sophia at Constantinople crying, "Backsheesh! Backsheesh!" but blind and indifferent to the beauty and dignity and symbolism behind them inside the mosque? Have they learned to cherish the creative and shaping power of the ideal in a world which blatantly defies the sanctities and declares that truth, honour and purity are no longer guiding principles in successful living? Yet these verities, like great pictures in a gallery, are no longer on trial: it is their critics whose reputation is at stake.

To bring about that New Order for which mankind has always been striving, and is destined to go on striving, the work of the School is clearly defined. It must teach boys to look up and not down, to dwell on the attractiveness of virtue and not on the dangers of vice, to replace selfishness by co-operation and prejudice by understanding. Is it possible to point to any gleam of success? I close by quoting from the letter of a boy who left at this time last year.

"Sometimes as I lie in my tent my thoughts turn to bygone years and I try to remember the lessons I was taught. Not only those on the blackboard or out of the text-book, but those from the Assembly and from the chaps I knew. And considering all things that I have still retained in my mind, the truth that 'to take the standards of an inside group,—such as a school, into the world and thus raise the standards of the outside world is harder by far than to bring the standards of the streets into the school'—that truth has been the most useful in practice. As you know, a lad who has just left the security of the small group does not realise till later the importance of that truth. It has definitely been one of the most important factors for consideration in my present mode of life, and it was not till recently that I realised how hard the task of the reformer must be."

Profits: dividends of school life: who shall estimate them? They are of the eternal things and only eternity will reveal them.

## THE LATE E. M. MITCHELL

WITH deep sorrow the Trustees record the death on the 26th April, 1943, of the Honourable Ernest Meyer Mitchell, K.C., M.L.C., B.A., LL.B.

A man of great natural gifts, he gave of his best in many spheres, and welcomed every opportunity to help and encourage others. Not only did he gain a high and honoured place in the community, and admiration for his intellectual qualities and achievements, but he won trust and affection from those with whom he was brought in contact, as well as from his closest friends, in a measure that has been given to few men.

With distinction of mind, robust and fearless outlook, zest for friendship and love of sport, he took a full share throughout his student days in all the activities of the School and the University.

In later years as a member of the Board of Trustees of the School, and at an earlier period as a Fellow of the Senate of the University of Sydney, he had the complete confidence of colleagues, staff and students.

When he was no longer a young man, and had by many years of hard and able work, built up a large practice at the Bar, he enlisted for active service in the Great War. Before his enlistment, and from his return, his advice was sought by the Commonwealth and the State on constitutional questions of the utmost importance to the community.

In the Legislative Council he gave the most earnest and careful study and thought to the work of the House, spoke with knowledge and a sense of responsibility, and dealt with every matter on its merits. No member ever doubted his sincerity or candour.

From his boyhood he was a leader, but not from self-seeking ambition. No one was more modest or had a kinder heart or more generous consideration for others. He was a leader, because he was true to himself and his great qualities. He has left a memory of service, sincerity, courage and kindness, which will be part of the history and tradition of the School.

To Mrs. Mitchell and his relatives the Trustees offer their deep sympathy.

(Extract from the minutes at a meeting of the Trustees on Monday, May 3rd, 1943).

SCHOOL NOTES

---

WE extend to all new boys a cordial welcome and hope that their succeeding years at Grammar will prove successful to them and to the School.

We were fortunate in that five Prefects, viz., M. D. Finlay (who has been appointed senior), B. E. Smyth, A. F. Delarue, M. A. Gleeson-White and N. V. Downes returned. The new Prefects are P. K. Rudder, R. W. Close, G. H. Harris, J. A. Newman, D. G. B. Champion, J. V. M. Coppleson, A. T. Bolton, J. D. Crawford and S. R. Ravenscroft.

The First XI, again led by A. F. Delarue, has had a most successful season, winning three matches outright, and the other, against St. Joseph's College, on the first innings.

The organising of the Swimming Carnival was again in the capable hands of Mr. Dent, whose untiring efforts enabled the afternoon to be most enjoyable.

Rowers this year were very unfortunate to lose two of their coaches, Mr. Ward and Mr. Bretherton, both of whom have joined the forces. Fortunately, in their place they were able to welcome Mr. R. P. Hickson, an Old Boy of the School, and a very able coach, under whose guidance the eight is progressing favourably.

We regret to learn that Mr. Robertson has had a recurrence of his illness, but it is hoped that he will soon be well enough to return to his place. Mr. Bellhouse is now in charge of tennis.

The cadets this year have had a more intensified training than usual. The Corps is again in the capable hands of Mr. Lumsdaine, with Mr. Dent as his second-in-command. We are glad to hear also that the Junior Cadets are flourishing with W.O.2 Morrison in charge.

The A.T.C. is again having a successful year under the guidance of Mr. Lenthall and Mr. Robertson.

We are pleased to welcome a new master, Mr. Greenwood, also Mr. Austin, who returns to the staff after 18 months active service overseas.

The Crusaders' Union has held regular meetings and outside speakers have come to address the members.

Old Sydneians will be pleased to notice the formation of a Chess Club, which has some 100 members, and also a Music Club.

The War Fund Collection, taken every Monday, realises an average collection of £7/15/- each week.

The Sydneian Committee for 1943 consists of P. Crocker (Editor), Gleeson-White, Finlay, Coppleson, Stephen, Lyons, Garton, Shrubbs, Barnett and McCullagh.

A very pleasing enrolment is reported by the Upper School Library Committee.

We wish to thank the Women's Association, that ever willing body of capable friends of the School, for the very successful Dance held at the School after the Regatta on April 17th.

This year promises to be one of the most promising in work and sport that Grammar has had in recent years. Every one has his chance to see that that promise is realised.

### BOY THIRTEEN, MODEST HERO

ALTHOUGH buffeted by waves and in danger of being dashed on to the rocks, Joe Pearson (13), of McKeon Street, Maroubra Bay, saved the life of Alec Anderson (10), of Maroubra Bay, when he was washed off the rocks at the Bay yesterday and carried out 50 to 60 yards.

Pearson dived to the rescue unhesitatingly and after ten minutes brought Anderson ashore.

Pearson did not tell his parents or school companions at Sydney Grammar School of his exploit. When interviewed all he said was: "I'm a pretty good swimmer and did the best I could."—Extract from *Daily Mirror*.

### HOUSE NOTES

OUR numbers show a substantial increase on those of last year. Of those who were enrolled last year, 33 returned, while 21 new boys have increased our total to 54—a record for the House. We welcome the following new boys:—Abrahams, Donaldson, Gard, J. C. Holcombe, R. C. Holcombe, G. E. Johnson, B. A. Johnson, Lee, Levi, Lloyd, Prineas, Rhodes, Richardson, Ruhfus, Sampson, Saxby, Scott, Shepherd, Steel, White and Younger. We hope that these boys will remain with us till the end of their school careers.

We miss the familiar faces of those who left us at the end of last year: Burgess, R. C. Campbell, Cave, Goldie, J. W. Johnson, McIlroy, Perrott and Ravell. We wish them the best of luck and hope they will come to see us often.

Of last year's House Prefects, Whitfeld, Close and Abigail, returned. Leck and Solling were appointed early this Term. The House Cup for 1942 was awarded to J. R. Whitfeld. Close has been made a School Prefect.

We congratulate all the House boys who were successful in passing the Leaving and Intermediate Examinations of 1942. We obtained four passes in the Leaving Examination and nine passes in the Intermediate. The best pass was that of Solling, who obtained six "A's" and one "B."

The House was well represented in this year's Regatta. Hooper gained a place in the eight, while Younger and Whitfeld rowed in the second fours. Other representatives were Killen, Marr and J. C. Holcombe.

A party of House boys attended the Regatta Dance at the School.

At the Swimming Carnival the usual House races were held. Abigail won the senior event and Buckle the junior.

At cricket this Term we have three representatives in the senior teams, Close and Tulloch in the Seconds and Buckle in the Thirds, while Gard is playing well in the Under 14 Firsts.

A large number of House boys have joined either the A.T.C. or the Cadets. Among the recent promotions in the Cadets were Close, Killen and Younger to Sergeants, and Corbett, Hope and Marr to Corporals.

We have welcomed many Old Boys this Term, among our visitors being:—Toby Barton, Bert Brett, Boyd Burgess, Geoff. Calvert, Chas. Goldie, Nev. Johnstone, Eric Johnstone, Dick Llewellyn, Bill Marr, Bill Muntz, Fin Spy, R. Trewenack, B. D. White and John Herring.

We regret that Sparks has again been in hospital as a result of a recurrence of his former trouble. We wish him a speedy recovery and look forward to having him with us next Term.

The House now boasts of two fire squads complete with stirrup pumps. Chandler is in charge of operations, and several lectures and practices have resulted in a satisfactory standard of efficiency. The House is grateful to those boys who so willingly volunteered for this work, which will be carried on next Term.

Old Boys who have returned to the House have noticed some pleasing changes. The dining room, which was renovated about a year ago, has been adorned with new curtains and new lights. Moreover, the bathroom now looks quite modern with a newly-tiled floor and repainted walls. The circular window seat in the Hospital has been upholstered in blue leather cloth—the gift of the members of S.G.S. Women's Association—to whom we express our gratitude.

We express our thanks also to Mr. R. E. Ludowici for the gift of a ping-pong table, and to Mr. Doug. Ferguson for a gift of books to the library.

As our library is by no means complete we should welcome further gifts of books by Old Sydneians. We have obtained permission for any such gifts to be left at the Old Boys' Club. The House boys will see that they reach their proper destination.

#### THE SCHOOL CHOIR

---

LAST year's choir, formed and trained by Mr. Bellhouse, earned high praise for its performances at Assemblies, in entertaining the Women's Association, and for its rendering of "The Soldiers' Chorus" on Prize Day. Plans had been made for a more extended range of songs this year, and it was with great regret that we learned that Mr. Bellhouse had been accepted for full-time service with the R.A.A.F. We should like to thank him sincerely for his work with the choir, and to wish him the best of success in his new sphere. The School will look forward to his return after the war to continue this valuable and interesting activity in our School life.

#### AN OLD SYDNEIAN'S OFFER

---

WE have pleasure in publishing the following letter from an Old Sydneian who wishes to remain anonymous—

Dear Mr. Phillips,

This note is to confirm my offer to pay the School fees for two years of a son of an Old Sydneian, who was at school 1912-1915 inclusive, and who is not in a position to send his son to Grammar.

I make no further condition and the offer remains open for three years. If it is not availed of during this period, I hope to be in a position to continue my offer.

# CRICKET

FRANK BENNETT

## FIRST XI

---

FROM last year's Eleven we have Delarue, Downes, A. Walker, Newman, Harris, Crawford and Coppleson. The vacancies have been filled by Taylor, Farnsworth, Killip and Smyth. Bradshaw replaced Smyth in the last match.

We are pleased to record a win in each of the four inter-school matches contested this Term.

Three were won outright by an innings, and a similar result v. St. Joseph's College, hitherto unbeaten, appeared likely, had time permitted.

The batting of the team has been consistently good—indeed there is no “tail.” Delarue, Walker and Taylor have reached the half-century on two occasions; Downes and Newman once in only four visits to the wickets.

The standard of the bowling and fielding may be judged by the fact that every one of the opposing teams has been dismissed for less than one hundred runs in its first innings. Delarue, Walker and Harris have been most successful with the ball, ably supported by Crawford and Farnsworth. Newman has performed well behind the stumps; his best effort being his four stumpings v. High. Taylor deserved special mention for his slip fielding. He dismissed four Shore batsmen, three by remarkable catches. We look forward to the final Term's cricket with confidence when we hope to report a similar list of successes. We take this opportunity to express our appreciation of the help and advice, so freely given, by Mr. G. P. Barbour—also to thank those parents and friends, who have been with us each Saturday. Their presence and encouragement have been a constant and valuable help.

A.W.A.

We regret that we are not able to give scores of matches against Newington and Old Boys last Term. The scoring book has been mislaid.

## SECOND XI

ALTHOUGH this team has not been as successful as in past years, all the matches have been keenly contested, and two have been decided on the last ball of the day. Findlay has proved himself a capable Captain, and maintained his usual high standard of wicket-keeping. Close, as Vice-Captain, bowled well enough to secure 26 wickets at an average of less than 7 runs per wicket. Among the younger players Ritchie and Harrison have been the most consistent, the former showing particular promise in batting. With a little more support from the other players it is expected that the team will show a marked improvement in the third Term.

We should like to record our thanks to Waverley C.B.C. for a very pleasant all-day match earlier in the Term at which lunch was provided for our team.

- v. Shore 11B.—Won. Shore 106. Bowling: Hughes 1 wicket, Harrison 3, Shrubb 2, Olsen 2, Close 1. S.G.S. 8-164 (Willis 49, Harrison 34, Close 24, Hughes 17, Ritchie 16, Findlay 12).
- v. Waverley C.B.C.—Lost. S.G.S., 1st Innings, 84 (Ritchie 34, Findlay 31); 2nd Innings, 5-31 (McMahon 12). C.B.C. 160. Bowling: Olsen 4 wickets, Close 3, Tulloch 2, Harrison 1.
- v. Shore.—Lost. S.G.S., 1st Innings, 84 (Pecover 36, Ritchie 12); 2nd Innings, 79 (Ritchie 15, Close 15, Findlay 11). Shore, 1st Innings, 68. Bowling: Close 8 wickets, McMahon 1, Pecover 1. Second Innings, 5-103. Bowling: McMahon 3 wickets, Pecover 1, Ritchie 1.

- v. Kings.—Lost. S.G.S., 1st Innings, 136 (Smith 35 not out, McMahon 24, Bradshaw 17, Ritchie 16, Close 13); 2nd Innings, closed 4-130 (Ritchie 50, Harrison 49 not out, Bradshaw 17). King's, 1st Innings, 167. Bowling: Close 3 wickets, Ritchie 3, Harrison 2, McMahon 1, Olsen 1; 2nd Innings, 8-75. Bowling: Close 5 wickets, Harrison 2, Olsen 1.
- v. St. Joseph's.—Drawn. S.G.S., 149 (Ritchie 63, Findlay 29, Harrison 17). S.J.C., 9-90. Bowling: Close 6 wickets, Olsen 2, Harrison 1.

---

### THIRD XI

Of the four two-day matches in the first half of the season two were won and two were lost. The most consistent batsman was E. Close, while Guest and Stubley secured the greatest number of wickets, and we were very fortunate in having four or five other useful change bowlers.

Considerable enthusiasm has been shown, and if every member of the team determines to learn some particular point about his fielding, bowling and batting in each practice and match, and profits by his failures, success should be assured.

—G.S.S.

### THIRD XI

Coach: Mr. Stiles. Captain: Nielsen. Vice-Captain: Nolan.

- v. Lindfield Juniors (27/2/43).—Lost. S.G.S., 1st Innings, 46 (Greenaway 14); 2nd Innings, 130 (Greenaway 28, Nielsen 56, Stubley 11, Hooton 11). Lindfield Juniors, 1st Innings, 132 (Guest 2-23, Potts 2-27, McNamara 2-12, Nielsen 4-3); 2nd Innings, 134 (McNamara 5-25, Hooton 2-17).
- v. Shore (6th and 13th March).—Won outright. Shore, 1st Innings 91 (Buckle 2-32, Stubley 3-11, Nielsen 2-10); 2nd Innings, 66 (Buckle 2-9, McNamara 3-14). S.G.S., 1st Innings, 195 (Fry 32, Chauncey 22, Hooton 50, McNamara 34, Buckle not out 22).
- v. T.K.S. (20th and 27th March).—Won outright. S.G.S., 1st Innings, 147 (Nielsen 53, Close 27, Vickery 24); 2nd Innings, 112 (Close 41, Greenaway 23 not out). T.K.S., 1st Innings, 89 (Guest 3-20, Vickery 4-38); 2nd Innings, 62 (Guest 4-18, Stubley 5-20).
- v. S.J.C. (10/4/43).—Lost on 1st Innings. S.J.C., 1st Innings, 130 (Guest 2-31, Buckle 2-26). S.G.S., 1st Innings, 62 (Close 28, Stubley 17).

## THE HIGH, THE MIDDLE AND THE LOW

---

WELL, gentle wayfarers, here we are again, as the cat said when she fell into the fish-bowl. Of the writing of these notes there is no end.

The most important event to record is the return of Mr. Austin from the A.I.F. to the First XI. A hearty welcome from us all. Mr. McKnight now has charge of the Seconds; Mr. Stiles of the Thirds; and Mr. Finch of the "Letters." The junior teams are coached as during the last Term of 1942.

Of the "Letters," "A" has won three of the five matches played. We cheer loudly Bradshaw's terrific knock of 121 in the game against Shore. Mackillop, Francis, Pike and Bain also got among the runs fairly frequently. Mackillop and Lewis bowled well. "B" won the first match, that against Shore 6ths, but, alas, the effort was too much for them, and they did not head their opponents again. 1

Best scores for the team were put up by Gardner (47, retired, against Shore), Bowman (42, retired, against the same side), Graham and Cush. Outstanding bowler was Bowman, who should be promoted to "A."

Mr. Dent's teams are graded 5th and 7th XI's, but they are still adorned with the old-time titles of "Colts" and "Reserve Colts." Well, "a rose by any name. . . ." Old Boys will remember Grammar Colts in their hey-day. What a team they were! In those days, of course, the Colts were the coaching eleven for the Firsts, but that honour goes now to the Thirds.

The side has done very well indeed, having lost only the second game against Upper School "A." Incidentally that contest decided which eleven was to be officially the School 4ths. Maxie Cureton, better known as full-back for last year's Under 14 First XV, has been a tower of strength to his side with scores of 60, 58 and 60. We believe that he has been promoted to the School Second XI, or was it the Thirds?

Pickering and Barnett-Smith also batted well. The former should be worth a place with Mr. Stiles.

Storey, Law, Morgan and Cureton bowled consistently.

The Reserves won the first of the four matches played. Harris and Johnson have batted well on occasions. Wright's eight wickets against Shore Ninths is worthy of mention. Other bowlers of some credit were Walcott and Collings.

Mr. Soden's veterans of the Under 14 Firsts continue upon their winning way. We have heard it said that the teams bearing this designation have not suffered a defeat for the past five years or so. We should like to have this matter cleared up.

Holland proved himself a good leader. He is also a budding journalist. We had the pleasure of reading his report to Mr. Soden on his team. We shall have it published if possible.

Every member of the side is good, as one might expect; and some are excellent. Highest scores were obtained by Sanders, Crouch and Conoulty, while bowling honours appear to have gone to Bryen, Conoulty, Mardardy and Holland.

This side defeated, on 27th March, Cranbrook's Under 15 First XI. A fine achievement, which for some reason or other has not been recorded. We hope that the omission is made good ere we go to press.

Carelessness in handing in reports and, worse still, carelessness in not recording their reports, cause the writer of these notes a lot of quite unnecessary trouble. Moreover, it is not fair to the teams concerned.

The Under 14 Seconds have also won all their matches. Well done! It is one of the best second teams we have had for some time.

Best Bats.—Robson-Scott (45 not out against Waverley College Under 14 Seconds), Dunkeley, Hunt, Morphett, Corbett and Millner.

Best Bowlers.—Morphett, Hunt (6 for 2 against Shore, and 5 for 4 against T.K.S.)

Mr. Clinch, with his usual energy, organised and coached no less than four "under fourteen" sides below the Under 14 Seconds. It is a pleasure to see him at the nets.

The Under 14 Thirds lost but one game (against S.J.C.) and that by the narrow margin of 18 runs.

Best Bats.—Reisman, Mardardy, Bangs (he does!), Anderson and Macdonald.

Best Bowlers.—Bangs, Lindsay (5 wickets against Scots), Taylor and White.

The Under 14 Fourths has won two of its games. Best bats appear to have been Hughes, Cliff, Hanlon (40 against S.J.C.), Crouch and Steel; while bowlers noted were Hanson, Ormerod, Cliff and Steel.

The Under 14 Fifths won two of the four matches played.

Best Bats.—The Captain, Thom, Anning, Nash (82 not out against S.J.C.)

Best Bowlers.—Cameron, Thom, Zeall and Nash.

Under 14 Sixths did not play on Saturdays.

Arriving at the Lower School we find that the outstanding all-rounder is young Ron Wells, whose brothers were both good players not so long ago. He should be sure of a place in the Under 14 Firsts next year.

Good scores were notched by Gilkes (30 against Shore), Wells (40 not out against Lower School "A"), Campbell and Jones; whilst we applaud loudly the 5 for 5 effort of Wells against Shore Under 13 "A." There were some good bowling in that game. We note with approval: Ball 4 for 7 and Treloar 3 for 8. Other bowlers worthy of mention were Campbell and Johnson.

The "B" team appears to have played two matches only, and to have lost the both of them. We note a good Grammar name here: that of young Chegwyn, who bats and bowls very well. If he does as well as his well-known father, he will do very well indeed. (Well, well!)

And now, more in sorrow than in anger, for we have been excellently served on most occasions, we wish to tender our humble protest against the reporters and/or recorders for the careless way in which they did their work. Only for their "help" we should have been finished much earlier. (This is not our night at N.E.S. Control Centre).

We have handed many bouquets in the past; but here is an outside in brick-bats. We hope it hits someone.

—W.E.C.

### THE WEIGALL MEMORIAL GROUND

---

SINCE our last issue the top-dressing of No. 1 area has been effectively carried out. Lime and fertiliser have been applied, and a quantity of soil has been spread.

Our sincere thanks are due to Mr. Arnold, O.S., for his kindness in procuring dolomite and soil for us, and for supervising operations generally.

We are grateful also for the generous donation of £60 from the Grammar Women's Association, and for the promise of a great deal more from the Old Sydneians' Union, not only to defray the balance of expenses, but to pay for the ambitious water scheme, which is at last under way.

The contractor has laid practically all the necessary piping, and it only remains now to sink for the water and place in position the pump and motor.

There has been considerable delay through the usual man-power shortage; but we may confidently expect a "gusher" in the near future and Weigall to blossom like the rose (or words to that effect).

In connection with this work we should like to record our appreciation of the efforts of Mr. L. Robertson, our honorary architect, who designed and put into operation the scheme adopted; and of Mr. F. F. Buchanan, Honorary Secretary of the O.S.U., whose interest and advice have proved most helpful.

We intend to spell No. 1 field until after the May vacation, and to save its surface further our Ground Committee has decided that, for this season at least, there shall be no outside letting.

### ROWING NOTES

---

THIS season's rowing started in the last two weeks of Christmas vacation, with the second week being residential camp. The eight and one four were in camp and, under the guidance of our new coach, Mr. R. P. Hickson, rowing progressed favourably.

Much valuable work was done after School resumed; training was carried out on three afternoons a week and Saturdays. Serious work commenced on March 29th, when camp started, and found the three crews well advanced in training.

We here wish to thank Old Boys "Zom" Marshall and Frank Buckley for their very great assistance in coaching the first and second fours respectively, and also for their helpful comments on the eight.

Visitors' Day was held on Saturday, 27th March, and proved a great success; many old friends being present. Visitors to the shed during training included Messrs. Phillips, Doug. Ferguson, Marshall, Buchanan, Rudder and Younger.

For assistance with the launch, which this year is operating on substitute fuel, and gifts of apples and other shed needs, we sincerely thank Old Boys and parents who have come to our aid, and also Tommy Hanley for his conditioning exercises and advice.

Special thanks go to Mesdames Smyth and Ravell who have again done the racing singlets and pennants, and to Mr. Marks for his excellent camp organisation.

We go to press before the main race this year. The crews are showing great promise at present, but more of this next Term.

The crews are:—

*Eight*.—(Bow) Dill-Macky, (2) Jauncey, (3) Lyons, (4) Gleeson-White, (5) Hooper; (6) Finlay, Captain; (7) Rudder, Vice-Captain; (stroke) Bolton, (cox.) Alewood.

*First Four*.—(Bow) Fay, (2) Ravell, (3) Hughes, (stroke) Morrison, (cox.) Buckley.

*Second Four*.—(Bow) Tait, (2) Callaghan, (3), Whitfeld, (stroke) Younger, (cox.) Lyons.

### CRITIQUE OF EIGHT

- Bow: J. Dill-Macky.—A stylish oarsman; has to be driven hard.
2. L. Jauncey.—A good oarsman in the making. Inclined to drop his hands over the stretcher.
  3. H. Lyons.—A powerful oarsman; has tendency to overswing in the early part of the recovery.
  4. M. Gleeson-White.—A powerful oarsman in the making. A good performance from one so new to eight-oar rowing.
  5. M. Hooper.—A natural oarsman; filled No. 5 seat most admirably.
  6. M. Finlay (Captain).—As Captain of the Boats—excellent. A stylish and powerful oarsman. Faults almost negligible.
  7. P. Rudder (Vice-Captain).—Filled No. 7 seat splendidly. Inclined to shoot his slide from over-eagerness at times.
- Stroke: A. Bolton.—A good stroke with plenty of dash. Overcame his tendency to drop his hands over the toes.
- Cox.: V. Alewood.—As coxwain performed his task with credit. Will probably qualify for the stroke seat in 1946.

Not a shirker in the whole crew: gameness outstanding. Failed to swing out in the race after the first minute. The big men, 3, 4, 5, 6, had no chance to make proper use of their weight.

—R.P.H.

Details of the Regatta will be published in our next issue. But in the meantime we offer our congratulations to Shore on their brilliant performances. Their eight this year is considered by experts to be the finest they have had to represent them—and they have boated many fine crews in recent years.—Editors.

## JUNIOR ATHLETICS

THE 12th Annual Meeting was held at the Weigall Memorial Ground on Tuesday, April 20th. The boys showed enthusiasm in the meeting; the All Age 100 Yards attracting well over 100 starters. The ready assistance of masters and prefects helped to bring the meeting to a successful conclusion. Special thanks are due to the Women's Association for a bounteous afternoon tea served to visitors, free of charge.

The following are the results:—

### UNDER 14 YEARS 6 MONTHS

100 Yards.—P. Martin 1, G. W. Glenwright 2, G. J. Attkins 3. Time, 12 secs.

220 Yards.—G. J. Attkins 1, G. Crouch 2, P. Martin 3. Time, 29 4-5 secs.

440 Yards.—G. Crouch 1, Robson-Scott 2, Sommerlad 3. Time, 65 2-5 secs.

### UNDER 13 YEARS 6 MONTHS

75 Yards.—D. Slade 1, F. Millner 2, R. Adamson 3. Time, 9 1-10 secs.

100 Yards.—R. Adamson 1, B. Nash 2, B. Cotton 3. Time, 12 3-5 secs.

220 Yards.—R. Adamson 1, B. Cotton 2, F. Millner 3. Time, 31 1-5 secs.

440 Yards.—Abrahams 1, K. Harris 2, A. Chinn 3. Time, 77 4-5 secs.

*High Jump*.—B. Cotton 1, Estella and Cook 2. Height, 4 ft. 3½ ins.

### UNDER 12 YEARS 6 MONTHS

75 Yards.—P. Harvey 1, R. Wells 2, K. Harris 3. Time, 10 secs.

100 Yards.—D. Harvey 1, K. Harris 2, R. Wells 3. Time, 13 2-5 secs.

220 Yards.—I. Hunter 1, T. Davis 2, I. Campbell 3. Time, 33 3-5 secs.

*High Jump*.—N. Atherton 1, McKessar 2. Height 4 ft. 1½ ins.

### UNDER 11 YEARS 6 MONTHS

50 Yards.—A. Chinn 1, C. Savage 2, W. Leadley 3. Time, 6 4-5 secs.

75 Yards.—A. Chinn 1, C. Savage 2, M. Stoddart 3. Time, 10 secs.

## UNDER 10 YEARS 6 MONTHS

50 Yards.—W. Grounds 1, B. Stublely 2, G. Hung 3. Time, 7 4-5 secs.

75 Yards.—J. Kay 1, W. Grounds 2, B. Stublely 3. Time, 11 1-10 secs.

## 2R LOWER

50 Yards.—W. Leadley 1, A. Macintosh 2, W. Grounds 3. Time, 7½ secs.

75 Yards.—W. Leadley 1, A. Macintosh 2, W. Grounds 3. Time, 10 3-5 secs.

100 Yards All Age Handicap.—A. Chinn (13yds) 1, G. Atkins 2, H. McDonald 3. Time, 11 1-10 secs.

*Siamese Race*.—B. Cobb and R. Wells 1.

 TENNIS
 

---

THE School was very sorry to hear that Mr. Robertson would be unable to continue as coach owing to his School duties and indifferent health, which we all hope will rapidly improve. For many years his skill and knowledge of the game helped the boys on to the victories they gained, and so we say—thank you.

We now welcome Mr. Bellhouse, who is carrying on in his place, and we wish him every success.

The annual G.P.S. Tournament was postponed owing to the shortage of balls, and in its place we are planning to have matches against the various schools.

From last year's team, Newman (capt.), Bradshaw and Taylor returned, and the remaining three for this year's senior team will be chosen from Crawford, Delarue, Smyth and Abigail.

Owing to the dry weather the court has only just now reached a satisfactory condition, and we are very indebted to the Sergeant for getting it into playing order.

Our own tournaments have not been forgotten and will be started in the near future if some balls are obtained. (Later—they have started). Finally we wish to thank all who have given us balls to keep the tennis going.

## CADET NOTES

THIS Term the strength of the Corps is 204, which is a substantial increase on last year's enrolment. During the Christmas vacation two Eastern Command instructional courses were held at Port Kembla, and we were well represented at both. Our congratulations to L/Cpl. P. Harvey for topping the N.C.O's course.

An important feature of this Term's work has been the holding of our own non-com's course, and it is intended that similar courses be held throughout the year under the direction of Warrant Officer Wells.

As a result of the Headmaster's permission it was possible to hold a field day at Seven Hills. Although we had no other instructors from Headquarters, W.O. Ellis proved our tower of strength throughout the day's exercises. In the morning a demonstration section stalk was prepared under his direction, and this proved a valuable aid for the afternoon's work.

Platoons 1, 3 and 5 attacked 2 and 4, who were defending, fortunately, a mythical field gun. The earlier reconnaissance work was well carried out, but the attack itself revealed a lack of experience in fieldcraft and field discipline among the more junior attackers.

"A" Company, having attained the required standard of parade ground efficiency, has had an interesting series of lectures on more advanced subjects. Particularly are we indebted to Mr. Bloom for his most instructive map-reading lectures. We regret losing W.O. Ellis, and welcome in his stead S./Sgt. Smith, who has already given interesting demonstrations on the Bren gun.

A list of promotions will be published next Term.

 AIR TRAINING CORPS
 

---

ALTHOUGH the strength of the Flight has fallen to 51, this Term has been a very successful one.

Both on and off the parade ground the keenness and enthusiasm of the cadets have resulted in a high standard of efficiency.

Flight-Lieutenant Lenthall and Flying-Officer Robertson are again in charge, and the Flight is greatly indebted to them for their untiring efforts, whilst Corporals Newman, Rudder and Hughes, the N.C.O's who returned from last year, were promoted to Flight-Sergeant and Sergeants respectively.

Early in the term an N.C.O's School for all the School Squadrons was held, from the results of which Cadets Finlay, Morrison and Taylor became Corporals. These, with Corporals McMahon, Jauncey and Gengos, comprise the N.C.O's of the Flight.

During the recent summer vacation several of our cadets attended various R.A.A.F. stations, and have thus gained useful knowledge and experience.

The Flight appreciates the efforts of Mr. Bonwick, who has gone to great trouble in preparing the cadets for their preliminary and proficiency examinations, the results of which were very creditable.

Each week instruction in Morse and lectures in aircraft recognition, service knowledge and astronomy have been given by various officers of the squadron.

We are pleased to report that from last year the following joined the R.A.A.F. and are progressing favourably:—L.A.C. Donnan (pilot), L.A.C. Thomson (pilot), L.A.C. Stevenson (observer), L.A.C. Arnott (W.A.G.), and Mather, Hunt and Soulos are A.C.2's.

At the end of the Term the Flight will go into camp for a week at Avalon, the A.T.C's new site, to obtain knowledge for stage 2 examination, which will be held soon afterwards.

Our Flight attended its First Squadron Parade for this Term at Rose Bay on 28th March, where the procedure for the Combined Schools Squadrons' Parade on 18th April was practised. Our drill flight has been selected and is very keen to do well in the drill competition at the above parade.

The results of this competition will be too late for press but will be in next issue.

#### LIBRARY NOTES

---

THE Upper School Library has commenced the year with a large number of subscribers and is in a very satisfactory financial position. We are fortunate in having last year's president, M. D. Finlay, back with us, while S. Ravenscroft and R. J. Findlay are respectively Secretary and Treasurer. Our congratulations to J. Crawford and L. Jauncey on their recent election to the Committee. We gratefully acknowledge donations from Old Sydneians J. B. Hales and I. S. Hunt, and thank the Upper School for its support this term.

 CHESS CLUB
 

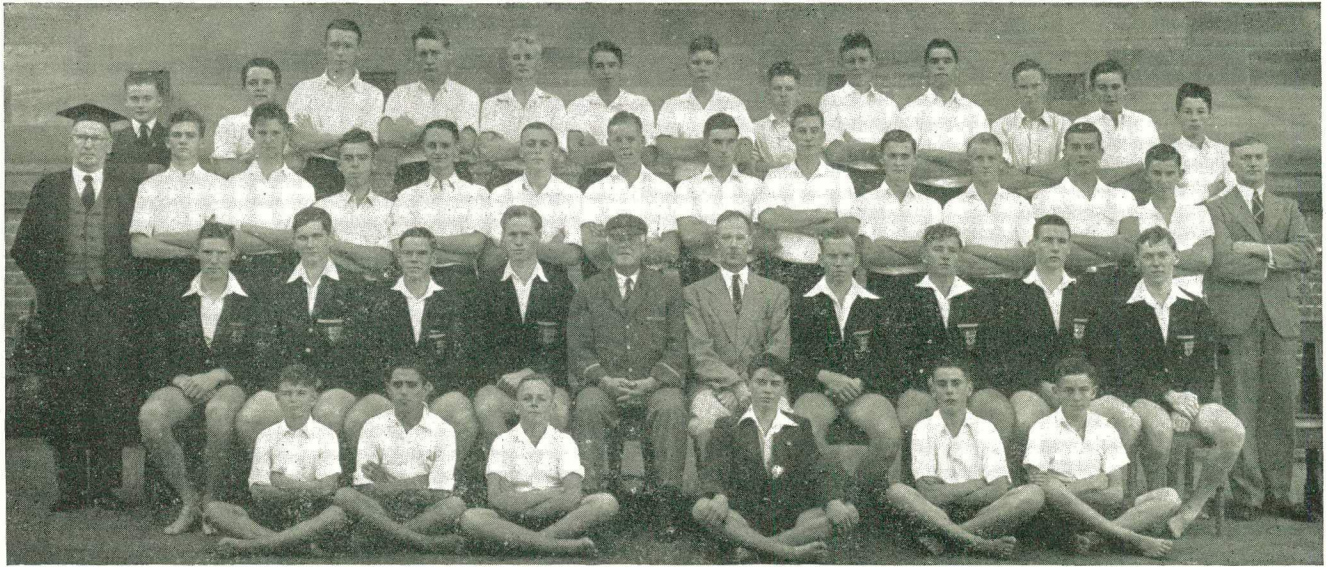

---

MAINLY owing to the initiative of N. Downes and the interest taken by the Chess Committee, the Chess Club this Term has made a happy start. Mr. Keeble has consented to act as Honorary President, and his keenness for the game is well known. He has already given an instructive talk, and his experience and advice will prove very valuable.

Enthusiasm for the Club has not been lacking, and as there has been a good response from the School to a request for sets, it has not been found necessary to pawn the castle. Meetings are held every afternoon in 6A room, and anyone who wishes to play or to receive instruction is invited to attend. Later in the year it is proposed to hold a tournament, and, judging by the present conditions, there seems to be no chance of a stalemate.

## ANSWERS TO CONTRIBUTORS

- "The Old Tiger"—Still has a spring in him, but must delay it till next issue.
- "Care of Your Car"—Conveys information useful to an invader.
- "Anything I Like"—We liked it, too, and nearly printed it.
- "Culture"—Good: held over till next issue.
- "Sanguinary Altercations"—Has many good points, but doesn't quite make the distance.
- "Be Prepared"—Earnest, but not suitable.
- "Word of Advice"—Not original.
- "Queen Wilhelmina"—A very pleasing drawing. Well done.
- "Everyday Faces"—Interesting, but might give offence, in spite of your admiration of the other sex.
- "How They Brought the Good News"—Well drawn, but they didn't use an auto-racing track.
- "Repetition"—Masters may recognise their own portraits and yours.
- "Bolero"—Glad to print it, as a sign of new interest in the School.
- "Holidays"—We know you and expose your self-confessed infamy.
- "Deep in the Heart of Berlin"—Making good use of the original.

 HOLIDAYS

I HAD (undeniably) enjoyed myself during my first week at the Beverley's. Soon after I arrived, the Beverleys—Percy and Gladys—began their campaign against me, or us, I should say, for Armstrong and two others were there.

"Just a little sailing, you know," they said, smiling at us in a deceivably amicable manner. When we had all recovered, the pair again came up, and, taking us unfairly after dinner, while we were too full to protest, inveigled us into consenting to play cricket.

Thus it was that I came to take part in what has gone down in the annals of the village cricket as the "Loonies' Luck" game. Not what you might call a fact for me to be proud of, seeing that I was on the lucky side, but still, many others have had less; take for instance, Thomas Armstrong. Well, anyhow, try to take him; he's eighteen stone. But I digress. Consider him and his golf story.

If you'd had that petty thing told in your presence as many times as I have. . . Well! Anyhow, I wasn't feeling well that day, and oughn't to have played at all.

I had played in a Beverly team before, so I knew what to expect. Their teams consist of fourteen. Eleven players, one umpire, one scorer, and one refreshment provider. Of these three, the last has the most work, the third always the least, but the result of the match rests largely on the first two. Our team, consisting of the Beverleys, their visitors, and sundry Beverly relations, sallied forth next morning to do battle with the village stalwarts.

It is a sad thing to relate, but our teams, though absolutely bubbling over with superlative stroke finesse and whatnot, seldom win a village match. Our victories were marked by their absence. Well, anyhow we lost the toss but were put in. Percy and I went in, Percy, in his own words, to "take the edge off the bowling." This bowling, however, being unorthodox in every way, did not seem to have an edge, and Percy, after a moment of pained surprise at such unsportsmanlike behaviour on the bowling's part, departed in a huff. After 30 minutes I magnanimously decided to keep him company. I had hoped for a gentlemanly exit, but the fates decreed otherwise. Actually, I perished in a moment of exuberance, by trying a very fine leg glance. But the footwork overcame me and I expired precipitately in a glorious mess of stumps, bails, bat, cap and me. Things went on, each batsman unaccountably being bowled by the best ball of the game, and eventually we were all out for 73. Thomas received a tremendous ovation when he came out, for he had achieved top score of 27 not out by strokes all round his abundant, to say the least, person. The fact that his total consisted of 23 leg-byes, and a four gained by a wild lunge in a moment of pain was overlooked. Thomas took the congratulations in a regrettably suspicious manner and retired to the pavilion for massage. We all considered this, the end of our innings, an opportune time for tea, and so made the thought an action.

After tea, full of hope and ham sandwiches, we trotted out, rather sluggishly, I'm told, in a little bunch. Remembering that it was not football, we stopped trotting and began to throw the ball about in a leisurely fashion, ambling along in the vague direction of the wicket, all trying to look as if we would never even think of trotting. We reached the pitch, and Percy, who was captain, asked us offhandedly to take up our positions in the field. We protested at the generalisation, and informed him we desired him to be more specific. Percy was nettled, but gave us a look of contempt. The effect was spoiled by the absurd appearance of his cricket hat, so, as a last resort, he sent us to our places, the first

to the points he knew to be correct and the rest to the spaces in between. Thus settled, the two village openers each took a laborious stance and their innings began.

It began badly, for them. Their nerves became unstrung. The sight of Thomas thundering along to you on his 30-yard run is, of course, alarming by itself, and, if his bowling fulfilled the implications induced by his run, well, anything might happen. But it is an anti-climax, for Thomas always stops dead at the crease, and, with a grunt which makes the batsman look fearfully around him, delivers the ball. It is usually quite slow and quite crooked. After four balls of this type, the first man, a blacksmith, started reciting Grey's *Elegy* and trod on his wicket. Thomas was responsible for dismissing five of the opposing team in this manner, with subtle variations, such as underhand balls, and running up and bowling backwards. This latter invariably surprises the batsman, who doesn't expect it, not unnaturally. Thomas is also surprised, but he doesn't admit it. But they eventually got quite inured to Thomas. The score was 5 for 32. Then I was put on. The score became 5 for 52. I wasn't put on any more. As a last resort, when they were 7 for 63, we employed our prize trick. It was simple. Percy, who was first slip, was a bit of an animal mimic. We often told him he lived all his parts, which he did not like, but here he was useful. When the ball was bowled, Percy made a sharp, clicking noise, and then we all cried: "Well held!" and the poor batsman went out, caught at wicket, a bit bewildered and suspicious, but definitely "out," thanks to our umpire. Owing to the inability to practise this trick much and at the same time prevent a riot among the village team, we let them get several runs in between wickets, and found that we had unwittingly allowed them to get 72 runs. We were in a great fluster. One man to get out, and one run for him to make! At last, after a hurried conference, we managed to get him run out. In this plan, our slip's spacious shirt helped, but the less said of this the better.

So, for the first time in history, the Beverly team won. We had a feast to celebrate our victory. It wasn't a small feast either. In fact, the whole team decided to stay in bed next day, resting on their laurels. Personally, I don't believe the "laurels" bit. I think that it was a mispronunciation of "Bottles," but maybe I'm just prejudiced. . .

#### REPETITION

REPETITION, as someone said, is the mother of education. One is often struck by the truth of that saying in life. Take, for example, the man who sits nonchalantly in the railway enquiry bureau all day long. He can, without a thought, recite the required informa-

tion in exactly the same manner as a schoolboy, who has just spent a tedious half-hour of boredom learning a passage of Caesar.

Another instance is the girl at the switchboard. One's first impression on seeing her is that she is playing a lone game of darts, until one discovers that the so-called darts are plugs which are being thrust with an exasperating accuracy into various holes in the board. Throughout this exhibition of manual dexterity she still appears to retain enough "sang-froid" to speak in a normal voice to one person after another, and to do so in a business-like manner.

The school teacher, too, is another fine example of repetition. The average educational instructor is regarded as a dreary, bespectacled person whose vocabulary seems to consist chiefly of such phrases as "Take out some paper," "Great goat!" "Detention!" which continue automatically until the supply of stock expressions comes to an end like a gramophone record, then starts all over again when wound up.

And what of the pupils? Day after day and year after year they sit trying to absorb things which the teacher has repeated so often that he finds it unbelievable that anyone else should encounter any difficulties.

So, to keep a detention at bay and pass the following day in reasonable comfort, the average schoolboy spends a considerable time each evening wearing out the carpet and repeating: "Reflexive verbs take—what do they take?—Ah, etre!" and a multitudinous supply of similar phrases which have been impressed on the unfortunate scholar by the brutal imposition issued by the heartless teacher.

There is a relentless repetition about homework which cannot be escaped. I have found out the truth of that during the vacation periods. I am told that outlook in tackling the job on hand, however trying such may be, makes all the difference—so let's face it cheerfully.

### THREE'S A CROWD, BUT FOUR'S BEDLAM

PALMER, Elliot, Adams and me have managed to grab dormitory "C" this Term. Two chaps who got there before us have been ejected with very little bloodshed, and our exclusive clique is installed comfortably in its four beds.

This Term we have decided not to fool about at night, but something has gone wrong with our plan. First of all Adams brings

a frog into the "dorm," and I tell him to put it in Elliott's bed. So he does. But then Bronco, the housemaster, comes in and says he expects good conduct from us this Term, and we say, "Oh yes, sir, we're going to set a good example." But then he sits on the end of Elliott's bed and we pray that he hasn't sat on the frog.

Now Elliott comes in and gets into bed and gives an awful yell and leaps out of it. "What's the matter?" says Bronco. "There's a snake in my bed," says Elliott. So Bronco rushes out, grabs a stick, flings off Elliott's blankets only to find—one frog. We say, "Fancy a frog getting into the house and crawling into Elliott's bed. Maybe pigs and frogs really do have wings." Bronco does not think so. We get the sock.

Elliott does not get the sock, and we do not like his attitude. He laughs too much. So next night we get all his clean clothes and tie them in knots and strew them over the floor. When he comes in after "lights out" and finds them so, he says, "Whodunnit?" and we say, "Whodunwhat?" And he says, "Somebody's tied knots in my clothes." And we say, "You don't say." So he goes mad and grabs Palmer and sticks him under his bed with all his bedclothes on top of him. Then he says to me, "You're next," and I say, "That's what you think," and jump on him. But at that moment Bronco comes in and we jump into bed and pretend to be asleep. He switches on the light and sees Palmer under his bed and all Elliott's clothes lying about in knots. He says grimly, "What on earth is all this mess?" Nobody answers, for we are all pretending to be asleep. He shouts, and we gradually awake with terrific wind-tunnel yawns. He looks at me and says, "What's this?" and I say, "What's what, sir?" and he shouts, "All this mess; clothes lying about and Palmer under his bed." I say, "Oh! Elliott must have tied his clothes up in his sleep, and Palmer is probably sleeping under his bed to trick the wasps." But he says, "Do not be more of a fool than you can help," and I say, "I can't," and he says, "I know." And we get the sock.

To-night we decided not to fool about. I said, "Me, I am not doing any more fooling," and they all said they weren't.

Last night Bronco lost his pyjamas. He found them to-day behind his bookcase. We said we couldn't have done it—or could we!

(To avoid misconceptions, the Editor would point out that these experiences belong to undegenerate days in an English Prep. School).

(Recent news of raids over Germany suggested the following—  
with apologies to the composer of "Deep in the Heart of Texas").

### DEEP IN THE HEART OF BERLIN

The Germans quail, as the sirens wail,  
Deep in the heart of Berlin.  
The R.A.F. is making 'em deaf,  
Deep in the heart of Berlin.  
The bombs drop down upon the town,  
Deep in the Heart of Berlin.  
And Adolf's poise goes at the noise,  
Deep in the heart of Berlin.  
Loud the guns bark, up in the dark,  
Deep in the heart of Berlin.  
They send up their fighters, we shoot down the blighters,  
Deep in the heart of Berlin.  
And some day soon, will the Nazis croon,  
Deep in the heart of Berlin,  
"You've called our bluff, we've had enough,  
Deep in the heart of Berlin."

### BOLERO

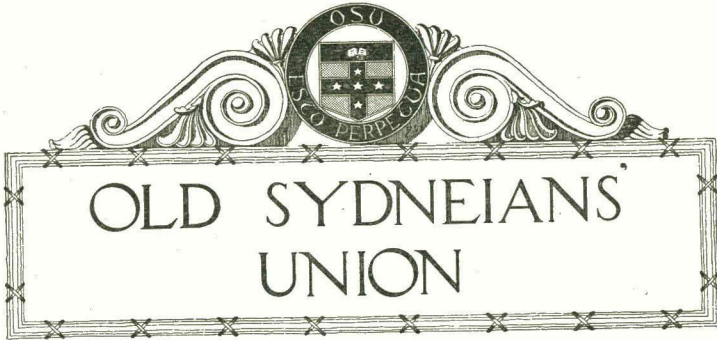

No one was more surprised than Maurice Ravel when his Bolero took the whole musical world by storm. People of every walk of life were fascinated by the stirring rhythm of its simple but complete theme.

In the United States the success of Bolero was greater and far more instantaneous than on the Continent. The first performance of the work was held in Paris in 1929 under the baton of Arturo Toscanini; all seats were sold out weeks in advance, some bringing as high as 300 hundred francs each. The first portion of the programme was completed before the composer could be accommodated with a seat.

When Bolero was first played, the tempo was much faster than indicated in the score. Ravel was bitterly disappointed at this tampering with the composition and angrily left the hall. Toscanini continued, and the entire audience rose to its feet cheering and applauding.

Until Ravel's death in 1937 his life, and to a very great extent, his work, remained a mystery. He was shy and reserved in character, having few really true friends because he shunned publicity. But he is assured of a prominent place among great musicians.

## SUBSCRIPTION TO THE UNION.

**The annual subscription to the Union is 7/6, payable in advance on June 1st, each year.**

Life subscription is £5/5/- in one payment or £6/6/- in consecutive annual instalments of £1/1/-.

Subscriptions includes *The Sydneian*, which is forwarded only to end of the calendar year for which a member is financial.

## THE OLD SYDNEIANS' CLUB.

THE Old Sydneians' Club was founded in 1921. Its objects as set out in the Constitution are to provide facilities which will tend to strengthen the bonds between Old Sydneians; to establish a meeting place, and therefore foster a more intimate relationship between Old Sydneians; to assist the School financially and otherwise, and to safeguard the School's traditions.

All Old Sydneians are eligible for membership, provided they are also members of the Old Sydneians' Union.

At the present time there is no Entrance Fee and the Annual rate of subscription (in addition to the Union Annual Subscription of 7/6) is:—

|                            |        |
|----------------------------|--------|
| Full membership .. .. .    | £1 1 0 |
| Country Members .. .       | 10 6   |
| Under 21 years of age .. . | 10 6   |

**There is a special concession of free membership for 12 months or more to boys who join up within 12 months of leaving School.**

Nomination forms may be obtained from the Office, Warwick Building, Hamilton Street, Sydney, or from the O.S.C. representatives at the School.

Members of The Old Sydneians' Club are entitled, without additional subscription, to the privileges of School Clubs Ltd., of which it is one of the constituent clubs, the remaining clubs interested being the Old Boys' Clubs of Shore, Newington, King's and Scots. The five clubs share in common the premises of School Clubs Ltd., viz., a comfortable lounge and reading room with newspapers, magazines, etc., writing tables and club notepaper, an excellent dining room, where mid-day luncheon and evening dinner may be obtained, a card room, three billiard tables, ping-pong

table, canteen, changing room and hot shower. Notice of all Union, Club, G.P.S., and Grammar functions is posted on the notice boards, and there is a box for the receipt of Old Boys' notes for *The Sydneian*. The premises are open from 9 a.m. until 10.30 p.m. on week days, and until 4 p.m. on Saturday. As School Clubs Ltd. has no share capital, its profits and income are devoted entirely to the benefit of members.

When visiting other States and England members are eligible for honorary membership of the Public Schools' Clubs in such States and in London during their visit.

## NEWS AND NOTES OF OLD SYDNEIANS

NEWS has been received of additional Old Sydneians who have received decorations for war service. Our congratulations are offered to the following:—

COLONEL R. A. MONEY, M.C., E.D., has been awarded the C.B.E.

BRIGADIER W. J. V. WINDEYER has received a bar to his D.S.O.

LIEUT.-COMMANDER F. W. BAYLDON has been awarded the M.B.E.

LIEUT RON PLATER has been awarded the M.C.

FLIGHT-LIEUT. NORMAN FADER has been awarded the A.F.C.

FLIGHT-LIEUT. P. H. E. BLIGHT, R.A.A.F., has been awarded the D.S.O. and D.F.C.

R. E. BABER, R.A.N.V.R., has been awarded the D.S.M.

We trust that the names of other Old Sydneians have not been omitted. However, your editors are at present working under the prevailing "manpower" difficulties and we therefore seek our readers' indulgence.

In the December issue of *The Sydneian* mention was made of Lieut.-Commander John Stuart Mould, R.A.N.V.R., having been awarded both the George Medal and George Cross. It is now learned that the citation in respect of the award of the George Cross reads as follows: "For gallantry and undaunted devotion to duty" in stripping live enemy mines. The King conferred the decoration at a Buckingham Palace investiture, and afterwards talked at some length with the recipient. Lieut.-Commander Mould originally joined the A.I.F., then transferred to the R.A.N.V.R. with the first group of Australian yachtsmen to offer their services to the Royal Navy.

MAJOR E. A. BREARLEY, Vice-Chairman of Trustees and an ex-president of the O.S.U., recently returned from war service abroad and gave an interesting talk at the monthly club luncheon in March.

LIEUT.-COL. COTTER HARVEY (A.A.M.C.) is a prisoner of war in the hands of the Japanese, and FRANK BUTTFIELD is interned at Manilla, in the Phillipines.

KEN CHAPMAN, A.I.F., is reported to be a prisoner of war in Malaya.

SERGEANT H. J. F. PETERS, A.I.F., who has been reported missing, is believed to be a prisoner of war

PILOT-OFFICER D. G. R. WILLIAMS, R.A.F., has been posted missing in air raid over Essen in January last.

SERGEANT-PILOT BRUCE O. K. ROBERTS, R.A.A.F., was reported missing after successful engagement with enemy.

MAX BABBAGE, who owned a plantation on Bougainville, Solomon Islands, prior to being driven out by the Japanese, recently returned to Sydney after many dangerous adventures. He and a small party of Europeans were eventually evacuated by our American allies to Guadalcanar, whence they subsequently were conveyed to New Zealand without mishap. Max did an extremely good job of work while on Bougainville, and he is to be congratulated on this, no less, than on his fortunate rescue. He gave a talk at the April luncheon which was much appreciated by a large attendance of members.

KEN DE SAXE, who is in the Merchant Navy, had a rough time also when his ship was torpedoed off New Guinea. The crew took to the boats and were towed to shore by an Air Force Crash Unit. A destroyer eventually sank the submarine and escorted the damaged ship to port.

An interesting letter was received from FLIGHT-SERGEANT PETER MACKENZIE, who is now attached to a Bomber Squadron in England. He had a very interesting vacation in Scotland, where he, as a true Scotsman, was quite thrilled with both the country and the people. He also seemed unusually attracted to a castle, near Loch Lomond, which was named "Lumsdaine" Castle! We wonder if this was merely the interest of a tourist or whether there was a deeper motive involved.

FLIGHT-LIEUT. A. J. "Tony" STUART has made quite a reputation in London as an orator, as well as an airman. He evidently did excellent work in connection with the appeal held in Trafalgar Square, having collected £1,400 from one investor. We presume that "Tony" was an important member of the School Debating Society about ten years ago!

The following is an extract from a letter received from Lieut. E. L. Sommerlad, formerly a School Editor of *The Sydneian*:—

"As you see I am in the light A/A, and very interesting it is too, although it has proved rather static. For the last few months I have been with the Armoured Division doing a job of instructing. What is ahead, of course, no one knows. Barry Egan, A.I.F., is a lieutenant in our unit. I was quite thrilled to learn that my brother, David, was now at Grammar. He is a great little lad, and the School has done a lot for him already, and I am confident that he will do a lot for Grammar. He is certainly keeping up the family tradition."

We have reports of some of those who left the School last December, amongst whom are K. M. BARNETT, who is now at the Royal Australian Naval College.

R. L. CUNNEEN is on the staff of W.D. & H.O. Wills (Aust.) Ltd.

C. J. GOLDIE has joined the Colonial Sugar Refining Coy.

FRED FOSTER is with George Foster & Sons Pty. Ltd., of St. Peters.

MALCOLM INGLIS and JOHN SHERWOOD are in the Shipping Department of Burns, Philp & Coy. Ltd.

R. E. HENDERSON and W. J. McLERIE have joined the staff of the Perpetual Trustee Coy. Ltd.

J. N. MILES is studying accountancy at the office of Messrs. H. B. Allard, Way & Hardie.

J. P. WALKER is attached to the Water Conservation and Irrigation Commission.

We are again indebted to Mr. Crocker for passing on to us letters he has received from LIEUT. D. F. JONES, A.I.F., and FLIGHT-LIEUT. K. L. EDWARDS, R.A.A.F., masters of the School. LIEUT. JONES, from somewhere in Australia, writes as follows:—

“By the way, if you have any old discarded literature same would be much appreciated here, where most are starving for something to read. If I could get some books to distribute the boys would be much appreciated. Penguin series particularly welcome.

“I have had a very busy time here since Christmas. Perhaps you read in *The Sydney Morning Herald* (I saw it in a copy forwarded to me) of the efforts of the ‘crack’ shots to obtain poultry for the boys’ New Year dinner. I was one of the elect. We spent a week far afield armed with shot-guns. Geese and ducks were there in thousands all right, but very elusive, as it’s the mating season. We got a bag of several hundred and a few dingoes, but it was hard work trudging amongst the swamps anything from ankle to waist deep.

“On my return I was sent out on a patrol. Took 30 men. We covered over 60 miles cross-country (and what country!) in the first four days—Then—as we had the show well in hand—eased up and finished with about 80. Sixteen of the eighteen meals were bully-beef and biscuits. We had only one casualty.

“I came straight from there to do a special job with a company of men in conjunction with the R.A.A.F. This has given me a comparatively restful period. I have been able to get about with my shirt off in the sun. This has done wonders with the prickly heat, the only one of the numerous ills induced by the wet, to which I have fallen prey. I had a great experience last week when I went for two long flights in bombers. Can’t give you any details, of course, but it was most exciting from the time we left the ground.

"The only entertainment we get is the occasional opportunity to see a show by the Mobile Film Unit—otherwise recreation is nil.

FLIGHT-LIEUT. EDWARDS reports that there is no confirmation yet as prisoners of war of "Huck" FINLAY and GUS MACPHERSON, but BOB CARTER is definitely in Jap hands.

G. R. (Paddy) DETTMANN has been seriously ill with heart trouble, but his many friends will be glad to hear that he has now recovered. His son, JOHN F., of the A.I.F., is the proud father of a 13 months old son.

SERGT. STAN NEIL writes cheerfully from the Armoured Division somewhere in Australia. He says that "Gerry" McPHEE is a tough sergeant in the A.I.F. commandos.

FLYING-OFFICER JOHN HEMSWORTH writes from the Middle East, where he has been since September, 1941. He is the eldest of the four "Flying Hemsworths," of Manly. Second brother, "Geoff," has been missing since 6th May, 1942. He spotted the Jap fleet for the first Coral Sea battle, where he was a squadron-leader, and was awarded the A.F.C.

"Nev" is a flight-lieut. and was in Singapore but got away safely, and has done a lot of "ops" since. Now O.K. in Australia.

Baby Hugh is finishing his course in Canada.

(I think that in the R.A.A.F. this S.G.S. family record will take some beating. In fact, in any arm it is only headed by the "Fighting Murchisons": three in the A.I.F., one in the R.A.A.F., and one in the R.A.N.).

JOHN HEMSWORTH will be remembered as a keen referee and coach at Weigall, and later as a prominent member of the New South Wales Rugby Union Referees' Association. He had the whistle for the first game played in Tripolitania, and hopes to have a similar job in Tunis.

RON PLATER, M.C., looking well after recovering from wounds received in New Guinea, recently called at the office.

Our congratulations are extended to H. G. CARTER on his election as President of the Institution of Engineers (Australia).

MAJOR CHARLES GOLDING, in Sydney recently on leave from New Guinea, has returned to the north.

WALTER GOLDING, A.C.1 in the R.A.A.F., tells in his letters about the Northern Territory:—

"I have been in a troop train since leaving Melbourne, a trip most enjoyable with the men, and specially so when we passed trains of chaps coming south who, in fine generosity handed us tins

of delicacies for soldiers with the remark, 'You'll need them'—words that proved only too true. I have travelled more than 2,800 miles since leaving home; and we are all in tropical kit. After transferring to army trucks we soon learned why water is such a valuable liquid; and emus and camels, dingoes and kangaroos again and again made up a daily Australian picture.

"At this place in the N.T. the days are hot and humid, and 'shorts' solo are the fashionable attire. The green grass is feet high, and forms the 'lost ball' boundary for 'fours' in fiery cricket matches. Just recently I got a piece of aluminium from a Jap bomber that 'had a great fall' somewhere in Australia. The other day, my first off in a month, six of us set out for a swimming pool in the river some miles away, and running swiftly in the shallows. The usual sentry with a loaded rifle was absent from the bank that day, and the crocodiles were reported as probably present about the bottom. However, after a brisk bombing with stones we decided to 'give it a go.' How did we enjoy drifting with the current and then 'shooting the rapids,' all in suppressed excitement, for those local inhabitants only bite once! The tropical evening was beautifully cool as we hitch-hiked miles back into camp. I go on duty on the instruments at 1 a.m., and go flat out, wearing a tin hat, and, beside me, my rifle and 120 rounds."

From G. S. McS.—"I have achieved my desire to be an airman, and with it have arrived at what is probably the second worst camp in Australia. I have only just settled in enough to realise that letter-writing is an important part in our camp life. Every night now we crowd into the Y.M.C.A. hut and write as many letters as possible before 'lights out.' Also we can play darts, billiards or get library books. Please blame Mr. ——— (name of English master deleted by *Sydneian* censors). After cleaning our boots and hanging up our pyjamas, we fold up our blankets according to regulation something or other, paragraph something else, and run for breakfast. This we have in a long hut, which is used only for meals, and is called a 'mess'—which is pretty right. Then after a short interval we are marched up and down for half the morning in what we call the 'bull-ring' (i.e. the parade ground); the Sergeant playing the part of the bull."

R.H.T.B. writes of his arrival in New Guinea, where he and four other O.S. were received by another O.S., Lieut. Tom Arnold:—

"When we were out one day on a map-reading expedition we discovered that our truck driver and a N.C.O. were also O.S. It looks as if it is true again: 'Wherever men have striven, sons of Grammar have gone forth.'

"It's pretty nervy work here at times, and it must be that wherever you are, but you have only to look at the veterans of our

mob to realise what a solid training they have done and how hard they are. It's a long way to catch up, but here's hoping."

From I.H.—"Last year I was so keen to get to this job in the R.A.A.F. that I was 'fed up' with school and masters (a proper sentiment—at the time—Editors). But now I am settling in here I am beginning to realise that perhaps after all I wasn't quite right, and have no doubt that before long I shall be convinced that I wasn't right at all."

Letters also from W. D. Hay and J. Monro.

The Headmaster has been glad to welcome at the School a number of Old Boys back on leave from overseas and in Australia.

After 34 years of service, MR. HARRINGTON COWPER has resigned his position as Secretary to the Trustees. Masters and boys say good-bye to him with regret and with many happy memories of his help and kindness.

#### UNIVERSITY LETTER

Dear *Sydneian*,

The University year now consists of four short Terms, and work is continuously under full pressure. So into this atmosphere of strife we welcome the following to their various faculties:—

F. Buckley, W. Charlton, B. Fraser, W. Kelly, I. Hales, H. B. Harvey, "Angus" Holland, B. Hunt, D. Maddison, R. Munro, B. Noake, I. Wonders to Medicine.

R. Mackerras, R. Molineaux, H. Morgan, G. S. Wallace to Engineering.

Alcock, Aitken, K. Rigelsford to Dentistry.

A. Clayton, A. F. Mason, P. Utz to Arts; A Manzie and F. McNulty to Economics, and "Sandy" Cameron to Architecture.

Peter Manzie, of fourth year Medicine, has recently been elected President of the Students' Representative Council. George MacCallum, also of fourth year, has been elected as Medical Representative to the same body, and John Fegent is the Pharmacy Representative.

Old Sydneians are figuring prominently on the Council of the Engineering Association. Rod Noble is President, Peter Perry, Treasurer, and L. G. Gerrand is Editor of the Faculty Magazine.

Heartiest congratulations to Dr. Walter and brother "Doug" Keller, who have been awarded Football Blues, also to Arnold Davis for his Hockey Blue.

We also wish to congratulate W. M. Dill-Macky and D. V. Begg, who have graduated in the Faculty of Engineering; also P. C. Perry and L. D. Hatfield, two engineers, who have just taken their Science Degrees.

Congratulations to the School Cricket Team on its splendid effort, and we wish the Football Team may have as much success in the coming season.

Ever yours,

"UNDERGRAD."

OBITUARIES

## AUGUSTUS LUCIAN FAITHFULL

MR. A. LUCIAN FAITHFULL, of Springfield, Goulburn, passed away on the 28th November, 1942, at the age of 87 years. He was the youngest son of the late Mr. William Pitt Faithfull, who founded the well-known Springfield Merino stud in 1838. Mr. A. L. Faithfull was born at Springfield in 1855 and received his education at Sydney Grammar School. On leaving school he went to Rawden, Mudgee, the property of the late Mr. Richard Cox. The valuable experience gained while working with such an outstanding sheepman as Mr. Cox was very useful to him on taking over the management of the stud flock at Springfield in 1871. When his father died, in 1896, the whole estate passed into his possession. Mr. Faithfull was a splendid type of Australian and will be greatly missed by many friends, particularly in the Goulburn district where his good works and influence were sincerely appreciated.

## JUDGE A. G. HILL

JUDGE A. G. HILL, of the District Court Bench, died suddenly in Sydney on 26th December, 1942, at the age of 46.

Loss of a leg at Gallipoli caused Judge Hill to take up law instead of going on the land, as had been planned.

He was one of the first to enlist in the last war, and when he was invalided home, he realised that he would be

unable to continue on the land.

He entered the office of the Crown Solicitor, and, after being called to the Bar, built up an extensive practice.

He was appointed to the Bench five years ago.

Judge Hill was a keen golfer despite his physical handicap, and he won an A.I.F. cup at the Royal Sydney links. He took a keen interest in N.E.S. work.

He was a native of Sydney, and was educated at Sydney Grammar School and University.

A widow and three sons survive him.

#### R. G. H. EPPS

RAYNOR EPPS died on the 11th January, 1943, at the age of 56 years. He was educated at the Sydney Grammar School and, on leaving school, joined the staff of the Perpetual Trustee Coy. Ltd., where he remained throughout his life, and was for some years in control of the Insurance Department.

Raynor Epps had not been in good health and, acting on medical advice, retired shortly before his death.

He was an enthusiastic member of the Old Sydneians' Union and Club, and was in the habit of lunching at the Club regularly. He was also a keen golfer, and was one of the first members at Roseville. Later he joined the Pymble Golf Club.

He had a philosophical disposition and a quiet sense of humour, and will be greatly missed by his family and many friends.

#### MR. W. A. WINDEYER

MR. W. A. WINDEYER, whose death occurred on March 25th at a private hospital after a short illness, was a member of a well-known Sydney legal family. He was senior member of the firm of Windeyer & Co., and had been a solicitor and notary public since 1896.

Mr. Windeyer was the second son of the late Sir William and Lady Windeyer. He was born in Sydney on April 9th, 1871, and received his education at Sydney Grammar School. For many years he was actively engaged in municipal affairs, and took a great interest in patriotic and charitable organisations.

He was an alderman of Hunter's Hill Municipal Council for 23 years and Mayor for nine years. He succeeded the late Sir Kelso King as chairman of the Boy Scouts' Association, of which he had been deputy-chairman since 1923.

Mr. Windeyer's work for returned soldiers was recognised by the Federal Council of the Returned Soldiers' League, which, in 1936, awarded him the Certificate of Merit for New South Wales. In 1902 he was awarded the silver medal of the Royal Humane and Shipwreck Society.

Mr. Windeyer, who married a daughter of the late Dr. John le Gay Brereton, of Sydney, is survived by his widow, two sons—Brigadier W. J. V. Windeyer, D.S.O. and Bar, E.D., and Mr. A. C. Windeyer, a Sydney solicitor—and a daughter, Miss Mary Windeyer. Another son, Captain H. F. Windeyer, died of wounds received at Tobruk.

#### SIR PHILIP GOLDFINCH

SIR PHILIP GOLDFINCH, general manager of the Colonial Sugar Refining Co. Ltd., and chairman of the board of area management in New South Wales in the Ministry of Munitions, died on April 7, 1943, at Roseville. He was 59.

Sir Philip Goldfinch joined the staff of the Colonial Sugar Co. Ltd. in 1902 as a junior chemist after receiving his education at the Sydney Grammar School, and he became general manager in 1928. For the past two years he has devoted most of his energies to the work of the Ministry of Munitions.

He was born in Hampshire, England, and was the son of the late Lieutenant H. E. Goldfinch, R.N. Lady Goldfinch, Flying-Officer J. H. Goldfinch, who is serving abroad, and two daughters, Miss Nancy Goldfinch and Mrs. B. Mendl, survive him.

The Minister for Munitions, Mr. Makin, in Melbourne recently paid a tribute to the work Sir Philip had done.

"He brought to his task that energy, enthusiasm, and executive ability which previously had won for him an outstanding position in Australian industry," said Mr. Makin.

"It is at least some satisfaction to know that before he died and while still in the prime of life, Sir Philip Goldfinch had the satisfaction of seeing the results of his labours in the form of maximum production along the whole line," Mr. Makin added.

Mr. Makin said that although Sir Phillip's health had caused concern for some time, he had worked late one night last month, although, even then, the illness from which he died had begun to manifest itself.

Sir Philip Goldfinch held the Gordon seat in the Legislative Assembly, but resigned soon after his election because, as he stated in a letter to the then Premier, Mr. Stevens, it was impossible for him to carry out his Parliamentary duties and those attaching to his position as general manager of the Colonial Sugar Company.

In 1934 Sir Philip was created a K.B.E. The honour was conferred on him largely for his work in fostering migration from Britain to Australia.

MR. E. M. MITCHELL

MR. E. M. MITCHELL, K.C., M.L.C., died suddenly while working in his chambers in Philip Street on the 21st April, 1943.

Mr. Mitchell, who was 68, is survived by Mrs. Mitchell.

He received his early education at Sydney Grammar School, where he became Captain of the School and winner of the Senior Knox Prize. He was a Trustee of the School and a former President of the Old Sydneians' Union.

He had a brilliant career at the University of Sydney, winning many prizes and scholarships.

He won his Rowing Blue and was Sub-Editor and Treasurer of "Hermes."

In 1907 he was appointed Challis Lecturer in Common Law subjects, but resigned to enlist in 1916.

On his return to Sydney Mr. Mitchell began his brilliant career at the Bar. He was briefed in many big constitutional cases in the High Court, and his contribution to the interpretation of section 92 of the Constitution was an important one.

He was the chief adviser to Commonwealth and State Governments on many enactments dealing with the marketing of primary products, excise, and taxation.

Mr. Mitchell refused many offers of judicial appointments.

He was elected to the Legislative Council in 1934.

During his membership of the House his character and ability secured for him the highest reputation, and made him a most popular figure.

Sir Henry Manning, K.C., said of him: "By his death Parliament has lost a most brilliant constitutionalist and the legal profession one of the greatest of its lawyers."

As a mark of respect, the Legislative Council adjourned.
