## TRUSTEES OF THE SCHOOL

Chairman: NORMAN COWPER, Esq., C.B.E., B.A., LLB.

### Vice-Chairman:

W. E. R. FRANCIS, Esq., C.B.E., B.A., LLB.

### (Official)

THE HONOURABLE THE ATTORNEY-GENERAL  
THE HONOURABLE THE PRESIDENT OF THE LEGISLATIVE COUNCIL  
THE HONOURABLE THE SPEAKER OF THE LEGISLATIVE ASSEMBLY  
THE HONOURABLE SIR VICTOR WINDEYER, K.B.E., C.B., D.S.O., E.D., M.A., LL.B.,  
appointed by the Governor as a representative of the University of Sydney  
THE PRINCIPAL PROFESSOR OF CLASSICS OF THE UNIVERSITY OF SYDNEY  
THE SENIOR PROFESSOR OF MATHEMATICS OF THE UNIVERSITY OF SYDNEY

### (Elected)

NORMAN COWPER, Esq., C.B.E., B.A., LLB.  
D. G. MUNRO, Esq.  
J. M. VICARS, Esq.  
W. E. R. FRANCIS, Esq., C.B.E., B.A., LLB.  
G. E. BRYANT, Esq., B.E.  
K. P. STOREY, Esq., F.C.A. (Aust).

### STAFF:

#### Headmaster:

C. O. HEALEY, O.B.E., T.D., M.A. (Oxon), M.A.C.E.

#### Master of the Lower School:

A. M. MACKERRAS, M.A. (Cantab.), B.A., (Syd.), M.A.C.E.

Sports Master: I. M. EDWARDS, M.A. (Oxon.)

Modern Language Master: D. A. CARR, M.A., Dip.Ed. (N.Z.) Univ. of Grenoble, M.A.C.E.

History Master: A. J. HILL, M.B.E., E.D., M.A. (Oxon), B.A. (Syd.), M.A.C.E.

Economics Master and Assistant to the Headmaster: R. L. ROFE, B.Ec. (Syd.), M.A.C.E.

Mathematics Master: K. P. HARDIE, B.A. (Qld.)

Science Master: R. W. MACLAY, M.Sc. (N.S.W.), B.Sc. (Lond.), Dip.Ed. (Univ. of N.E.)  
F.R.A.C.I., F.R.I.C., M.A.C.E.

Geography Master: P. G. YOUNG, M.A. (Oxon), B.Sc. (Syd.), Dip.Ed., M.A.C.E.

Housemaster: M. SEARLE, M.A. (Oxon), M.A.C.E.

Librarian: G. F. R. COWDERY, B.A., (Syd.), M.A.C.E.

English Master: H. A. MACDONALD, B.A. (Syd.), M.A.C.E.

Second Science Master: F. A. LENTHALL, B.Sc. (Syd.)

Second Modern Language Master: H. N. DORAN, B.A. (Syd.)

Second Master, Geology: F. C. EARLE, B.Sc. (Syd.)

Second Classics Master: R. I. ROSS, B.A. (Melb.)

Second History Master: A. R. FRASER, B.A., B.Ec., (Syd.)

Additional Second Science Master: L. G. LITTLE, B.A. (Syd.)

Second English Master: K. B. POTTEN, M.A. (Oxon), M.A.C.E.

Art Master: G. S. MCAUSLAN.

#### Assistant Masters:

C. D. TAYLOR, A.A.S.A.

L. W. WEBSTER, E.D.

P. McM. TRIMBLE

D. E. LLOYD

R. M. GLENVALE, B.A. (Lond.)

A. K. SWAN, B.A. (Adelaide), Assistant to  
the Master of the Lower School.

R. C. KNOCK, B.A. (Syd.)

R. J. T. HOLLAND, M.A. (Syd.), L.T.C.L.

L. O. SCOTT, Th.L., (A.C.T.)

J. DUFFY (S.T.C. & S.T.P.C.)

G. BROWNE O'BYRNE, B.A. (Syd.),

M.Ed. (Syd.), Dip.Ed.

W. M. C. TOWNLEY, B.A. (Syd.), Dip.Ed.

No. 348

JUNE · 1962

School Editor: R. F. WINDEYER

## Editorial

After the recent success of the Sydney Grammar School Centenary Building Fund Extension Appeal the school can advance further in its building programme.

Because of the small area of the land we possess it is important that this limited space be put to the best possible use. The existence of some form of plan ensures that no land is wasted and that buildings are not indiscriminately erected, only to be demolished later.

There are many people who could not have foreseen such a great school as ours is, being built on such a small block of land; and there are still fewer who could envisage such a school as it one day, undoubtedly will be. It is, indeed, very satisfactory that the Headmaster and Trustees of the school have been able to determine not only what is now necessary, ensuring that the plan for the development of the school is adaptable to requirements and conditions at the time of building, but also to provide scope for the future.

It is, of course, impossible for a plan to be made and adhered to in every detail, for who can tell what the needs of a school will be in fifty, or even fifteen years' time? But it is wise to have some form of plan, even if only a broad outline, as it ensures the best use of land and existing buildings being made, and so there is a minimum of expenditure.

The school buildings will eventually form a quadrangle with classrooms facing inwards so that classes will no longer be disturbed by the noise of traffic. One day new buildings will be erected on the site of the present Palladium building. They will include many classrooms;

a large hall, which it is hoped will hold visitors as well as the whole school; a gymnasium, which may be combined with the hall; a swimming pool, perhaps; changing rooms, cloak rooms and shower rooms; rooms for such activities as music, art, carpentry and metalwork. Already the old 'Prep.' building is being demolished to make way for an extension to the Science block. The buildings along Stanley Street ought to be demolished and a new, more useful one erected in their place.

But the interests and activities of the school extend far beyond College Street. At the Weigall Ground we need a new pavilion and better accommodation for spectators. At the Boatshed there are various improvements needed and at the School House at Randwick we need more study rooms. There are also improvements which ought to be made at Edgecliff and St. Ives.

Our fathers and our grandfathers have seen great improvements made in the school during their lifetimes. Let us hope that we, and our children, may see even greater changes and improvements made.

Indeed, if what we have heard of the plans for the development of this school are carried out, we can be assured that the future pupil of Sydney Grammar School will be well catered for.

## LETTERS TO THE EDITOR

Dear Sir,

We frequently hear of car accidents involving young and inexperienced drivers. Surely something could be done in this school, and in others, to give pupils, who are nearing the age at which they can apply for a licence, some experience at driving before they first handle a car on our roads.

Even a boy in his early twenties, cannot be expected to have the experience and knowledge of a good driver as he has only been permitted by law to drive for three or four years.

If one looks into the activities of most teenagers, the reason for the attraction of a car becomes evident. When thirteen or fourteen, a boy realises what value a car has as a means of transport to and from school functions, parties and so on. This realisation grows not only into a fascination for the car, but also a yearning to be permitted to drive. This then is, undoubtedly, why more adventurous boys might take the family car 'for a spin' without parents' knowledge or consent. This leads to more rash acts when a boy becomes licensed to drive.

With these problems in mind, a school driving instruction scheme would be a 'driving' force in reducing such enthusiasm and over-anxiety.

When a boy enters the Middle School, for instance, films covering simple parts and mechanical principles of a car could be presented intermittently. Similarly, in the fourth and fifth forms more detailed lectures concerning the engines, capabilities and general structure of the car could be given. Discussions could then be held and solutions to practical problems, both in the car itself and on the road, could be suggested. However, all this leads up to experience which is a vital factor in the handling and control of a car.

To possess experience two basic attributes are essential. One must know the capacity of his car, and must have an instinct for the correct thing to do at a time of crisis. Considering the handling of a car, one must know what it feels like to be in complete control when driving. This practical experience in managing a car could be obtained to a limited extent in the school grounds, and to a larger extent in an area such as Centennial Park. The latter could be closed to all traffic one afternoon each month so that such an exercise could take place.

Members of the Road Safety Council would undoubtedly be pleased to assist and instruct sixth form boys in driving techniques.

So that experience may be obtained in critical circumstances, films of the Cinerama type could be shown, giving the sensation of traffic on the roads, skids and so on. By resolving such practical situations that may need split-second action, one could be taught how to act instinctively in such crises.

As a conclusion to this course of pre-licence driving, a simple test could be carried out to ensure that boys are able to drive before they are licensed to use public roads. A standard should be established, and all should be compelled to reach this standard before being allowed to secure a permit. A requirement before the issue of a permit could be a certificate of proficiency from the school, without which a permit would not be granted.

In this way a boy, when he is permitted to drive as a learner or one who has recently acquired his licence, begins driving with a fundamental knowledge and experience which he is unlikely to have under the present system.

Yours etc.,  
'Safety First'.

Dear Sir,

I feel that it would be a good idea to introduce driving lessons for fifth formers. These could be held after the yearly exams. I am not suggesting that the boys should actually drive a car around the playground, but I think that they could be taught the rules of the road and the care and maintenance of the car. I feel that lessons such as these, given by either instructors from a driving school or men from the N.R.M.A. would help lessen the road toll and perhaps teach the younger generation of drivers to be more careful.

Yours etc.,

J. W. P.

Dear Sir,

The playing of music within the school should definitely be encouraged, but only that of the classical vein is heard at the moment. Would it be possible for more popular music to be performed?

If a dance band were formed it could give concerts during some lunch hours, if, of course, it was good enough. (I understand that this has been done at Shore, and that these concerts have given much entertainment to the boys.) Perhaps school dances would be more enjoyable if such a band were used.

Yours etc.,

J. B. W.

## **CENTENARY BUILDING FUND EXTENSION APPEAL**

During the latter part of 1961 a Campaign, which the School will always remember, successfully raised £95,000 towards necessary capital expenditure.

A School Dinner at the Trocadero on 13th October launched the Campaign through the Fathers of Grammar boys. The Headmaster clearly outlined the needs of the School and the first stages in the overall development plan.

### **At College Street**

The purchase and development of the Palladium site which includes the provision of:

A large building to include a hall big enough for use as a Gymnasium, Theatre, place of assembly for the whole School, indoor games, in

fact a Physical and Cultural Education Centre. Perhaps in the same building, or adjacent to it, a swimming pool.

Changing and Shower Rooms.

Offices, First-aid Room, Stores.

Music Rooms for the teaching of choir, orchestra and individuals.

Craftwork (Woodwork, Metalwork, etc.) and improved Art Room.

Improved facilities for meals.

Additional and improved Class-rooms with better facilities for storing boys' books and clothes, and with provision for future development in such 'aids' as T.V.

Better accommodation for maintenance and administration staff.

#### **At Edgecliff**

Provision for purchase, alteration and development, if an alternative and better site can be acquired.

#### **At St. Ives**

Two new Class Rooms to provide extra 3rd and 4th grade forms, an Arts and Crafts Room, Stores and Lavatories.

To achieve all this requires a considerable sum of money.

An enthusiastic team of one hundred Grammar Fathers, after they had themselves indicated their own gifts, then spread the story far and wide amongst other Parents. Over a period of eight weeks Grammar Fathers worked at nights and at week ends approaching all Parents. Their efforts resulted in the magnificent total of £99,961.

The outstanding success of the Centenary Building Fund Extension Appeal is indeed a tribute to the Fathers of Grammar. The School has been aided immeasurably by this Appeal and the planning of the School's future is assured.

Our Headmaster has very aptly conveyed the thanks of the School in his comments about the Grammar Fathers.

'The gratitude of the School is theirs for their work and generosity, as it is for the faith they have displayed in the School and the confidence they have shown in its Trustees.'

N.J.C.

### **PRIZE GIVING 1961**

On 13th December, 1961 His Excellency the Governor of New South Wales, Lieutenant-General Sir Eric Woodward, presented the prizes at the annual Speech Day.

When the Trustees and members of the staff had been presented to His Excellency, the academic procession entered the Town Hall. The Chairman of Trustees, N. L. Cowper, Esq., addressed the gathering and the Vice-Chairman, W. E. R. Francis, Esq., drew attention to the benefactions and endowments. The Headmaster then gave an address, after which the Governor presented the prizes and spoke briefly to the school.

After the ceremony, afternoon tea was served in the Big School-room by the Women's Association.

## THE HEADMASTER'S REPORT

NUMBERS at College Street and St. Ives have remained about the same as last year, but the addition of MacCallum House at Edgecliff has raised the numbers there to about 240, so that we have about 1500 boys in our schools. The ratio of masters to boys at College Street is just under one to eighteen. First Year classes are mostly still large, but most other classes and even some in First Year are of a reasonable size.

The school suffered a severe blow in the death of Mr. A. Hanson-Norman, Master of the Lower School, on the 30th May. Though he had been in poor health for some time, he had never relaxed his efforts and his final illness was sudden and brief. An account of his many services both to the school and to the public will be found in the latest number of *The Sydneian*; it is fitting to record in this report the school's sense of loss and its sympathy with Mrs. Hanson-Norman and her family.

Mr. A. M. Mackerras has become Master of the Lower School. Mr. I. M. Edwards has given up the post of English Master, but remains Sportsmaster: Mr. H. A. Macdonald is now English Master and Mr. K. B. Potten second English Master. The production of Shaw's 'St. Joan' by Mr. Potten and the Globe Players this year will long be remembered as a superb work and proof of the excellence which can be attained in this school both in spoken English and in dramatic art.

We have recently welcomed to the classical staff Mr. D. J. Ferraro, B.A., in place of Mr. J. S. Sheldon who in September went to Cambridge with a Cooper Scholarship; and Mr. P. Riley, B.Sc., to teach Mathematics, Physics and Modern Languages. Mr. R. J. Stevenson, greatly loved Master of the Preparatory Form, famous for his devotion to football and for his almost unbeatable 'Midgets' teams, retires after eighteen years of service to the school. Mr. E. R. Brown, whose work for 2R Upper has been so valuable, also leaves us. Mr. P. Trimble will transfer to the Preparatory Form and Mr. T. Blackburn comes from Tasmania to look after the primary work: Mr. K. Saxby, an Old Sydneian and at present resident in the School House, will join the Mathematical Staff; and Mr. M. W. S. MacGillivray has been appointed to teach Geography; both are from the University of Sydney.

Most of the interior painting of the school class-rooms has been completed and part of the exterior. A beginning has been made of the installation of stained-glass windows, the gift of Mrs. Chase, in the Big School Room. The Pavilion has been improved by awnings, the gift of Mr. J. D. Robertson. The Trustees have instructed our architects' to proceed with the completion of the Science Building by the addition of a further block: this will contain four laboratories for advanced work in Physics and Chemistry and five other rooms, two of which will for the present be used as class-rooms, but will be fitted up for Geology or Biology before long. Towards the cost of this new provision for Science the Industrial Fund for the Advancement of Scientific Education in Schools has promised a substantial sum (a little under 30% of the cost); the remainder of the cost mostly will be provided from the balance of the original Centenary Building Fund. It is most satisfactory that the school is being helped by Industry, after the initiative and efforts of the Old Sydneians have shown the way; and it is an encouragement to the Sydney Grammar School Science Association to find their enthusiasm supported so visibly.

The scholastic record of the school has been good. 144 Intermediate Certificates and 134 Leaving Certificates were gained in 1960: 31 First Class Honours and 37 Second Class Honours were awarded; 29 Commonwealth Scholarships were won. R. C. Buttfield was 9th and B. M. Symons 87th in the list of the First Hundred. G. I. O. Rowling was 1st in the State in Greek and P. E. Butler 2nd. At the same time considerable successes were won at the Universities by young Old Boys; the following list is not a complete one, but it may serve to indicate that the school is producing scholars: B. K. Dickey won the University Medal in History in the University of Sydney; he has gone to Cambridge with a British Commonwealth Scholarship; A. H. D. Brown, R. G. Rees and W. A. Layton won University prizes in Agricultural Science; G. B. Segal continued to occupy first, second or third place in most of his subjects in Science and Mathematics at Sydney University; J. B. Windeyer was second in his year in History; J. M. N. Rolfe was again distinguished in the Law School. First-year students J. R. F. Lehane and H. M. Gastineau-Hills were high in the lists of History and Mathematics respectively. In Second Year Science, H. A. Doran had 4th place in two subjects; M. J. Ives won the G. S. Caird Scholarship in Geography. In the University of New England A. A. Doran gained almost every possible prize and distinction in Science. M. C. Kafalias, M.D.S., has gone to the U.S.A. from Sydney, with a Full-bright Scholarship to the University of Indiana. D. H. Hodgson, who was 3rd in the Leaving Certificate's 'First Hundred' in 1955, has become our sixteenth Rhodes Scholar: he will be going to Oxford next year.

Within the school, Science has continued to progress. The fourteenth annual Science Day, on 23rd March 1961, had Textile Technology as its main theme, with Professor Chaikin of the University of N.S.W. as the principal lecturer. Later in the year the following boys of the school earned distinction in science: G. Kelen (Vth Form) was awarded a scholarship to the Nuclear Research Foundation course in January 1962; P. Stiles, M. Sibree and H. Dutton (VIth Form) won prizes in the N.S.W. Science Teachers' 'Talent Quest'.

The year has been satisfactory in sport and its end marked with the ac-

ceptance by the Honourable Mr. Justice L. J. Herron, a former President of the Old Sydneians' Union, of the Presidency of the Athletic Association of the G.P.S. The outstanding success of the year was the winning by the school team of the G.P.S. Premiership in Rifle-Shooting, with a record score in the Rawson Cup competition. Promising for the future, we hope, was the winning, for the second year in succession, of the Junior G.P.S. Athletics competition. The Athletics Standards competition continues to be well managed by senior boys: 1788 standards were gained by 380 boys out of the 425 who entered. This competition should be entered by all boys: it is held in first term and third term.

In football 272 matches were played: 151 were won, 97 lost. The 1st XV finished 4th in its competition; though mostly small in size, its members were fast, courageous and sporting; they deserved the enthusiastic praise of their admirers, especially for their victory over St. Joseph's. The greatest number of teams on any one day was 31, occupying 465 boys; 14 boys were awarded Referees' Badges.

In cricket there have been 44 wins, 5 draws and 28 losses in all teams: the 2nd XI is again in leading place in its competition. The 1st XI has not had an easy season because of the tricks of weather and pitches (not our own!); it is at the time of writing 3rd in the competition: but its only competition loss was by a narrow margin to St. Joseph's. The match against Melbourne (away) was most keenly fought, Melbourne winning on the 1st innings by 10 runs.

Our Swimming Team has not been quite so successful as in the past, but it is among the leaders. Tennis has had a good season, over 100 boys now playing regularly. Unfortunately the G.P.S. Competition had to be abandoned because of bad weather.

The Rowing season was somewhat disappointing, sickness causing late changes in the crews. The VIII finished 7th in the G.P.S. Regatta: of the Fours, the 4th gained third place. The school owes a great debt to Mr. A. B. Gould, who has coached the VIII since 1951, and to Messrs. J. Gourlay, O. E. Peters and G. Carlson. With more masters on the staff able to take part in rowing a re-organization has been made; the co-ordination of coaching is in the hands of Mr. J. B. Burrell, formerly of 'Shore'. The proper maintenance of the Boatshed and its equipment has been put in the hands of a Committee nominated by the Trustees; Mr. O. E. Peters has been most generous in giving his time to preparing a scheme for this Committee to follow. As ever, the Boat Club is indebted to the generous help, in money and in service, given by the Parents and Friends of the Boat Club Association, especially to the ladies who look after the meals and to the anonymous donor of the air-conditioning plant for the kitchen.

The Sports Fund Committee, whose chairman is Mr. S. J. Marshall, is especially to be congratulated on pressing forward with the improvement of the Weigall Ground and especially the enlargement of the practice-nets area and the gradual raising of the ground to the level of the 1st XI pitch.

Gymnastics, especially remedial work, are becoming popular. At present classes must be limited to those whose need is greatest: a 'circuit' system

of exercises has been initiated. This activity must be greatly developed in the future: it is in the hands of Mr. Moore and Mr. Hinks.

Interest in the Outward Bound Memorial Foundation has become steady and the development of the Duke of Edinburgh's Award Scheme has been satisfactory, 50 boys participating. More understanding of the aims of these schemes is desirable on the part of boys, parents and staff.

Equally important is it to foster interest in current affairs, some knowledge of which we attempt to impart by lectures to Sixth and Fifth forms. Music has not been prominent this year, but Choir and Orchestra continue to function and there is to be a visit by artists of the Grand Opera Company late in November. With the institution of the Six-Year curriculum — and when more buildings are available — Music, like Art, will receive a greater attention. The Art Department is now providing for an increasing number of pupils, though there is far too little serious interest yet on the part of older boys and adults.

Mr. S. W. Mann is rapidly developing the department of Careers-Advice and general Guidance: he has arranged successful meetings at which leaders of industry and professions have addressed boys and parents. With increased accommodation this activity too will be greatly developed.

There have been changes in the Cadet organizations. Major A. J. Hill, M.B.E., handed over command to Major R. L. Rofe early in 1961. A new site for the annual camp, at Gan Gan, was tried and proved most successful, according much more scope for tactical ingenuity in the field. The annual Ceremonial Parade took place on 30th October: the Corps was again inspected by Brig. F. G. Galleghan, D.S.O., O.B.E., I.S.O., E.D., Honorary Colonel of the Australian Cadet Corps (N.S.W.). During the year a former Cadet-Lieutenant of the Corps, Captain J. Fletcher, received the George Medal which was awarded him for gallantry in 1960.

Flight Lieutenant L. Webster has handed over command of the school's A.T.C. flight to Flying Officer B. Randall, an Old Sydneian.

School Societies come and go, but the Chess Club and the Debating Society are as vigorous as ever. In second term 48 boys went to Riverview and 30 to St. Joseph's to participate in debates. Open debates in the lunch hour have been popular, with good support from masters and prefects.

The School House continues to be a vital part of the school: it has been well led by its captain, C. S. Boag and the other house prefects. The Senior Prefect, J. C. Ancher, has also been excellent in his control of the school and of his team of prefects. In fact, it has been a year of good leadership in School, House, Groups and Teams (the names of Prefects and of Captains of Teams are to be found at the head of the school roll in the Prize List.)

As forecast last year the school now holds a weekly religious assembly, undenominational in character, consisting of a lesson, a hymn and prayers: the longer special assemblies, at the beginning and end of term and on Remembrance Day continue as before. I am glad to report that a practical application of religious principle can be perceived in the institution of the Service Committee, under the chairmanship of a prefect, J. T. D. Wood: this

has already made a good start by collecting clothes for gift to 'The Smith Family' and to the Red Cross. I hope that this work of the Service Committee will grow and that its development will be the free work of boys.

At the end of last year Mr. H. A. Ritchie, Senior Master, retired after nearly 45 years on the staff. We are glad that an operation on his eyes, which he has since undergone, has been successful and that he is a regular and much-welcomed visitor to the school.

I regret to announce the deaths of the following past members of the staff: Mr. F. A. Booth, Mathematics Master from 1924 to 1953; Mr. K. B. F. Lumsdaine, a former Master of the Lower School who was a member of the staff from 1915 to 1946; and Mr. M. W. Robertson, a member of the Science Staff from 1921 to 1957.

C. O. HEALEY,

13th December, 1961

## THE HEADMASTER'S ADDRESS

Speech Day, 13th December, 1961

YOUR EXCELLENCY, LADY WOODWARD, MR. CHAIRMAN, GENTLEMEN OF THE BOARD OF TRUSTEES, LADIES AND GENTLEMEN.

It gives us great pleasure to welcome you, Sir, as our Visitor once again and to be honoured also by the presence of Lady Woodward.

The first thing I must say is how overwhelming to me personally is the success of the recent Appeal for funds, announced on Monday. I can only very simply and humbly express my thanks to you, the parents, who have worked for and given to our Centenary Fund Extension. To the large sum already raised by Old Sydneians in 1957 you have now added another £95,000 in gifts and promises. That this sum should come solely from parents is a remarkable measure of the confidence you place in the School, its Governing Body and its Staff. But perhaps even more remarkable and valuable are the friendship and understanding which this campaign has strengthened and even created among us all. This is as valuable as money.

Included within the Prize List is a printed report covering most of the school's activities. I very much hope that all who are present today will find time to read it, since it presents, I hope, a full picture of the school's many-sided life. I hope, too, that you will all look through the Prize List itself. The Vice-Chairman has already directed your attention to the list of benefactions, according to custom; but there is much else of interest in it besides the actual list of prizes. For instance there is clear evidence of the magnitude of the scholarships offered by the school: few people realise that the value of these and of the free places and assistance given to those needing help amount, in 1961, to about £10,500 in the one year, of which the bulk is in the form of a remission of fees, only about £1400 a year being provided by endowments or gifts: and in addition to this a reduction of £12 per annum (soon to be £18 per annum) is made for brothers. I mention this particularly because suggestions

have been made that we should be more generous with our scholarships; indeed, I hope that the example of past benefactors will be followed in the future.

The Prize List is, in fact, a very important historical record: you may notice that it contains the roll of the school and a list of its boy-officials. The information it contains is not sufficiently appreciated. I would also draw the attention of parents to the school magazine: it is not perused as fully as it deserves; it too contains valuable information as to the life of the school, including a record of the speeches and announcements of policy made on this present occasion and others.

It is with pleasure that we welcome back from abroad my predecessor, Mr. F. G. Phillips. And it is also good to see Mr. H. A. Ritchie here today, restored to health after his eye-operation.

Most of you will know of the death, at the end of May, of Mr. A. Hanson-Norman, Master of the Lower School. Tributes to him will be found in the December number of *The Sydneian*. Few people realised what a fine man he was, for he contrived to perform his considerable duties modestly and without ostentation. During a large part of his life he was prominent in the public affairs of the Manly district. He was Mayor of Manly for several years, Chairman of the Mackellar County Council, and Chairman of the Manly Hospital Board. Most of us here knew him as an amazingly efficient teacher, possessed of a courtesy, a sense of humour and a sense of justice, which were a model to us all. Those of us who attended his funeral perhaps only realised then how high was the esteem in which his friends and the public held him in Manly. To Mrs. Hanson-Norman and to his family we all here again express our sympathy.

In my report I have given some details of the academic successes of some of our young Sydneians who are at the Universities. I would like particularly to draw attention to the award of the Rhodes Scholarship to one of our Old Boys, D. H. Hodgson: he is the sixteenth Old Sydneian to receive the award.

Cecil Rhodes left £2,000,000 in trust to provide scholarships to bring young men from the various Dominions of the British Commonwealth and from the U.S.A. to Oxford. These scholars are chosen very carefully by Committees of Selection in the various states and countries according to the ideals set out in Rhodes's Will: he mentioned four groups of qualities which he desired in his scholars, the first two of which he considered the most important: (1) Literary and scholastic ability and attainments: (2) Qualities of manhood, truth, courage, devotion to duty, sympathy for and protection of the weak, kindness, unselfishness and fellowship; (3) Exhibition during school-days of moral force of character and of instincts to lead and to take an interest in his school mates; (4) Fondness for and success in manly outdoor sports such as cricket, football and the like.

Cecil Rhodes was an idealist; but he was also a very hard-headed and practical man. We may not nowadays approve of some of his actions or even motives; but his Will is a great document, setting out — as he saw then — the qualities which we, the various British peoples — have regarded as those which make 'the proper man'. Some of these qualities and ideals are nowadays

under attack. The concept of the 'all-rounder' is rejected, either as unattainable or as containing trumpety virtues of no real account. It is, however, an ancient congeries of ideal qualities which is by no means outdated, though perhaps beyond the comprehension of little minds in a world of little people dominated by fears for their survival and worries about things that are not really important. If we think of some of the great men who have passed through this school — men, for instance, such as Sir Norman Gregg — we may see how this school has been faithful to this ideal. I hope that we shall not be prevented by outside pressures from pursuing this ideal.

Often the attacks on the ideal are unintentional. I learned with surprise that some people actually think our scholastic standards are too high! I have pointed out in my report that the opportunities for Art and Music are too much ignored. I thought it significant of this attitude that the superb performances of Shaw's 'St. Joan' were not attended by as many people as the room could hold. The same attack on the ideal is revealed by questioning as to the value of sport or the cadet corps.

The attitude of the general public to a manly understanding of duty is bound to be reflected in schools. I entirely agree with Professor John Blatt when, in his lecture recently to the Teachers' Guild of N.S.W., he pointed out that the world is a hard place and that it is our duty to train our children to face the obstacles of life: this, he said, was one of the virtues of the English Public School system, now so much under criticism. You will think of the long out-moded horrors of fagging, at the mention of those English schools! I do not refer to that by-gone institution! Perhaps I can best illustrate what I mean by a story of myself. After much striving and hoping, I became a member of the school Cross-Country Running Team; one Saturday afternoon I had run a good race over five miles of testing hill and marshland against a team from Charterhouse. After supper, I went to my house-master and asked leave to go to bed early, missing the second hour and a half of 'homework', as I felt tired. He told me that if I did so, I need never expect to be in the team again; that I had no business to make a sport an excuse for avoiding work. So — I did not go to bed early. And please note that we were expected to do two and a half hours work on Saturday evenings, whatever we had done during the day. Do we nowadays have this standard of duty?

What are our aims in sport? I entirely agree that highly competitive sport must be kept under control by the school. Some of you know of the apparent attempt by a certain Association to force us into a competition we do not want: it is quite clear that this body has little or no understanding of the purpose of sports at school. We do not cultivate athletics or any other sport just to produce a few champions in an open field; we wish to give benefit to the maximum number of participants; of course, you need some sort of goal for your endeavours, and to that extent competition is valuable. We have our own association of old friends and old rivals, and see no reason to accept pressure to engage in a larger field to the physical and mental disadvantage of our boys. The 1st XV, the 1st XI, the VIII, the Athletic Team and other teams are a goal for many boys, just as a Commonwealth Scholarship is; but they are unattainable for the majority. We insist that every boy should learn or take part in

some physical pursuit, if possible a team-game or a school activity, so that he may develop the good-fellowship and the sportmanship thereby engendered. I myself see with pleasure the development of gymnastics and the Athletic Standards competition; I believe that every boy should learn how to use his body — to run, to jump, to swim, to be agile. Too many boys never learn, not because they could not, but because physical activities are coming to be looked on as highly competitive pursuits for experts. I am sure that the boy in an 'E' grade football team, or the boy who just gets a third-class athletic standard, benefits as much as the boy who gets his 1st XV colours. And I think that adults as well as boys — perhaps even more than the boys — have much to learn as to how to take success and failure in the field of sport; and that it is a valuable lesson, carrying with it the lessons of respect for others, modesty, subordination of self and dignity, which are often lacking in the modern world — especially in sport.

It is a pity to ignore the value of manly sports, which teach hardihood, subordination of self to team, and subjugation of self to purpose.

It is a pity to fail to realise how vital to the development of our youth are such projects and activities as 'Outward Bound', with its emphasis on spiritual strength, integrity and devotion to duty: this institution has been mistaken for a Commando-type toughening course. I shall risk repeating the comment of the Warden of the Outward Bound School, Mr. Deacock: 'Only when one has seen a cocky, soft, selfish 'beach boy' walk in at the beginning, and a mature sensible lad walk out at the end, does one realise what can be done by Outward Bound.' I have had some experience of Sydney Grammar School doing the same thing. And in both cases one has seen the appalling obstacle presented by lack of early discipline and a hard resentment of all authority. To say that our Australian boys (or the boys of any modern society) do not need such training, through properly controlled work and sports, Outward Bound and so on, is a sign of blind complacency. I am very glad that the Duke of Edinburgh's Award Scheme has at last gained a foothold in the school. It is another means of leading boys towards that ideal of the 'whole' or 'proper' man. One boy, M. C. Dillon, has already qualified for the Silver Award.

Here I would like to pay tribute to Major A. J. Hill, whose long care of the cadet corps has been so valuable in the training of boys in leadership: under Major R. L. Rofe I am sure it will continue this tradition; and I am particularly grateful to Lt.-Col. Ian Hutchison, our Brigade Commander, for his enlightened care of our cadets' needs.

I have spent a deal of time speaking of physical and moral matters. This is because I think that the printed report and this prize-giving present a sufficient picture of our academic health. However, in thinking of the mental health of the school, one is inclined to use an old-fashioned phrase and call it 'rude health'. There is no doubt that preparation for examinations and for universities is good. But we are concerned at the lack of polish. We see interest in books, in music and in the arts dwindle as boys get older; or it may be that these interests are drowned by the flood-pressure of examinations and vocational needs. I believe that the new curriculum will help us to cure this weakness; but it needs more than a mere curriculum. We have to conquer an actual and

explicit discouragement of intellectual and cultural interests which is, whether consciously or unconsciously, exercised by a majority of older boys, whose vision is limited to success in examinations and games. Some people believe that the new Six-Year Curriculum may prove too soft. I do not agree and I have no intention of allowing this to happen. The new curriculum will be better suited to a greater range of abilities. However there will be little change in the curriculum next year. We shall continue to teach Latin and French to the abler boys in first year, as before. It is gradually coming to be recognised that Independent Schools, far from carrying staffs of quality inferior to those of public schools, have qualified staffs well able to carry their pupils to higher standards and deeper studies than are at present attained. I do not believe that clever boys will be kept back to the pace of the less clever. This has not happened in our school, in which we have a very great range of abilities and I see no reason why it should happen in the future. I am sure that the Universities will set high standards for us to attain for matriculants, the less able boys will profit by some changes in their curriculum, and all will benefit from courses which will be less exclusive of some of the knowledge which civilised and cultivated people should have.

The object of this school has always been a liberal education; it has sometimes been difficult to achieve this object. The remarkable generosity of parents, in their response to the new phase of the Centenary Building Fund, following that noble effort of the Old Sydneians, shows how we shall be able to develop the school, so as to provide fully for the arts as well as physical needs, for religion as well as mathematics. It has given me very great pleasure to record in my Report the foundation of the Service Committee, consisting entirely of boys, to administer the good works of the school. This City School must learn to serve, and it should serve the needs of the people nearest to it. It is my earnest hope that this committee will spread its work beyond the 'Smith Family' and the 'Red Cross', to other such charitable organisations, so that each one of us in our homes may participate with the boys of this school in helping our less fortunate neighbour, whatever his status, whatever the nature or cause of his need.

I wish to impress on you all the debts which we owe to various organizations which help the school: the Old Sydneians' Union — I cannot understand why any Old Boy, who has gone successfully through the school, does not join it or allows his membership to lapse; the Womens' Association — why does not every mother at least support with her subscription an association which does so much for her son? The Parents and Friends of the Boat Club Association. And lastly, how grateful the Trustees, the Staff and all future Sydneians must be to you, the parents, for your generous gifts now to the school's building fund — and especially to those hundred of you who worked day after day to make this latest appeal so successful a sequel to the Old Sydneians' previous effort. Out of your efforts, too, will come some useful, if incidental gains: for instance, the regular issue of the periodical 'Grammar Father' will keep you better informed of the life of the school; through it, too, questions may be answered and problems solved.

May I thank the senior boys of the school and the prefects, group captains

and team captains for their excellent leadership this year? I am sometimes glad that my study does not lie beneath the prefects' room; I only suffer from the chess-club's exuberance above me: even this sometimes sounds a very athletic pastime! The wise and thoughtful guidance of the Senior Prefect, John Ancher, has been in the best traditions. Finally may I thank the staff for their hard work and Mr. Rofe, who has assisted me most efficiently in the administration of the school:

## PRIZE LIST 1961

- Senior Knox Prize for Proficiency in Sixth Form: *P. J. Stiles.*  
Junior Knox Prize for Proficiency in Fourth Form: *R. C. Baxter, I. A. Campbell.*  
Wigram Allen Prize for Mathematics in Sixth Form: *Not Awarded.*  
Wigram Allen Prize for Science in Sixth Form: *P. J. Stiles.*  
Wallach Memorial Prize for Proficiency in Literary Subjects in Sixth Form (Captaincy of the School): *P. J. Goldsworthy, J. T. D. Wood.*  
Jack Rich Memorial Prize for Proficiency: Fifth Form, *G. B. Elkington;* Third Form, *G. N. Epstein.*  
Old Sydneians' Lodge Prize for Proficiency in Second Form: *D. R. Walker.*  
Freeman Meeks Memorial Prize for English in Sixth Form: *R. J. Desiatnik, P. J. Goldsworthy.*  
Cyril Rennie Memorial Prize for English: Fifth Form, *W. D. Edmonds;* Fourth Form, *J. G. Powys.*  
William Sheppard Laidley Memorial Prize for English Essay in Sixth Form: *N. T. Robson, R. V. G. V. Lehane.*  
Arthur Moorhouse Watkins Memorial Prize for English Essay in Fifth Form: *W. D. Edmonds, R. F. Clark.*  
Russell Jones Prize for Greek in Sixth Form: *W. A. Stening.*  
Sir John Sheppard Prize for Interest in Greek Literature: *P. H. Guinness.*  
George Knox Prize for Latin Prose in Sixth Form: *Not Awarded.*  
Mary Fairfax Prize for Latin: Sixth Form, *Not Awarded;* Fifth Form, *G. J. A. Kelen.*  
Geoffrey McLaughlin Memorial Prize for French in Sixth Form: *M. C. Carrick.*  
Citizens' Prize for Modern Languages in Sixth Form: *T. J. Playfair.*  
George Docker Memorial Prize for Modern History in Sixth Form: *P. J. Goldsworthy, J. T. D. Wood.*  
John Estell Memorial Prize for Modern History in Fifth Form: *W. D. Edmonds.*  
William Yabsley Prize for Mathematics in Fifth Form: *G. B. Elkington.*  
Charles Stanley Forster Memorial Prize for Physics: Sixth Form, *P. J. Stiles, M. K. Smithers;* Fourth Form, *G. L. Teale, W. G. S. Boyd.*  
Edward Rennie Memorial Prize for Science: Fifth Form, *G. B. Elkington, T. M. Little;* Fourth Form, *R. C. Baxter, J. M. Morris.*  
Robert Vicars Prize for Science in Fifth Form: *G. B. Elkington, T. M. Little.*  
Brian Kentwell Memorial Prize for Science in Fourth Form: *I. G. Hedberg.*  
Godfrey Cureton Memorial Prize for Applied Mathematics: Sixth Form, *Not Awarded;* Fifth Form, *P. R. Hield.*

Sylvia Weigall Chase Prizes for Chemistry (The S.G.S. Science Association):  
 Sixth Form, *W. A. Stening, P. J. Stiles*; Fourth Form, *I. A. Campbell*.

Godfrey Cureton Memorial Prize for Ancient History: Sixth Form, *J. R. Taylor*; Fifth Form, *J. F. Cartwright*.

Edward Carter Memorial Prize for Constructive Talent: *R. P. Roe, P. D. Barron*.

Christopher Tayler Prizes for Spoken English: Sixth Form, *R. J. Cattlin, A. Mawer, N. T. Robson, W. S. Whitby*; Fifth Form, *W. D. Edmonds, G. J. A. Kelen*.

Alroy Cohen Prize for Oratory: *R. J. Desiatnik*.

C. E. Ranger Prize for Art: *M. C. Dillon*.

The Old Sydneians' Lodge Prize for Spoken French: Sixth Form, *N. T. Robson*; Fifth Form, *G. B. Elkington*; Fourth Form, *R. C. Baxter*.

Citizens' Prizes for Spoken German: Sixth Form, *R. J. Desiatnik*; Fifth Form, *G. B. Elkington*; Fourth Form, *I. A. Campbell*.

Wallach Memorial Prizes for Credits: Form V, *D. O. Zines*; Form III, *D. N. Vuaran*; Form II, *P. B. Weaver, M. T. Williams, J. R. Sommerlad*.

John F. Fenwick Prizes: *A. Mawer, J. H. R. McEvoy*.

Isabel Van Heuckelum Prize: *D. J. Davies*.

Arthur Giles Memorial Prize: *P. W. Anderson*.

School House Cup: *C. S. Boag*.

The Rawson Cup: Awarded to the Senior Prefect: *J. C. Ancher*.

Farrar English Prizes: Form VI, *A. Mawer, P. J. Stiles, D. S. Schreiber, R. V. G. V. Lehane*; Form V, *G. B. Elkington, N. R. Cowdery, D. B. Stewart-Richardson*; Form IV, *R. C. Baxter, I. A. Campbell, K. D. Wilhelm, R. J. Howson, J. M. Morris, R. Nathans*; Form III, *N. B. Ainsworth, K. J. Mutton, D. H. Sonnabend*; Form II, *J. D. Heraghty, P. W. Anderson, N. J. Fitzpatrick*.

Latin Prizes: Form V, *E. R. Lippey, D. B. Stewart-Richardson, W. D. Edmonds*; Form IV, *R. C. Baxter, I. A. Campbell*; Form III, *G. N. Epstein, P. G. Lennox, D. H. Sonnabend, M. L. Cohen, K. E. Ward*; Form II, *P. W. Anderson, I. C. Francis, T. A. Clubb, M. E. J. Krygier*.

Greek Prizes: Form V, *P. H. Guinness*; Form IV, *J. M. Morris, G. L. Teale*; Form III, *P. G. Lennox, D. W. Storey*.

Citizens French Prizes: Form VI, *T. J. Playfair, N. T. Robson, P. J. Stiles*; Form V, *G. B. Elkington, W. D. Edmonds*; Form IV, *I. A. Campbell, R. J. Howson, R. C. Baxter*; Form III, *M. L. Cohen, D. W. Storey, K. E. Ward*; Form II, *I. C. Francis, T. A. Gregory, D. R. Walker*.

Citizens' German Prizes: Form VI, *R. J. Desiatnik, T. J. Playfair, D. R. Parker*; Form V, *G. B. Elkington, G. T. Eckstein*; Form IV, *I. A. Campbell, R. C. Baxter, J. H. Kent*; Form III, *M. L. Cohen, K. E. Ward*.

Modern History Prizes: Form VI, *G. R. Craig, G. N. Hughes, A. Mawer*; Form V, *J. C. Hlavaty, G. R. Butler*; Form IV, *J. G. Powys, J. M. Goodman*; Form III, *F. A. Fegent, S. M. P. Reeves*; Form II, *D. R. Walker, J. Elmgreen, M. E. J. Krygier*.

Ancient History Prizes: Form VI, *P. J. Goldsworthy, P. J. Harris*; Form V, *W. D. Edmonds*.

Sixth Form Special Essay Prizes: G. N. Hughes, R. H. Storey, T. C. Healey, B. R. Reader, I. K. Ross.

Geography Prizes: Form VI, J. T. D. Wood, J. M. Macready; Form V, I. M. Edwards; Form IV, H. N. Tanner, J. C. Golding, P. C. Howard; Form III, M. S. Shuhevych, P. J. Caisley, J. A. Fegent, J. Reksten; Form II, J. J. McSweeney.

Economics Prizes: Form VI, G. R. Craig, J. A. D. Haddon, D. S. Duke, T. C. Healey; Form V, D. W. Wrench, I. W. Aitken, J. C. Lawrence, P. W. Glasson.

Accountancy Prizes: Form VI, J. R. Bumpstead; Form V, G. R. Butler.

Business Principles Prizes: Form IV, P. R. Caney, R. S. Danos; Form III, C. J. Green, R. D. Walley; Form II, W. H. G. Whittaker.

Mathematics Prizes: Form VI, M. K. Smithers, J. A. D. Haddon, P. J. Stiles, R. H. Gastineau-Hills, M. W. Sibree, T. J. Playfair; Form V, J. A. E. Anderson, M. B. Dally, G. J. A. Kelen; Form IV, I. A. Campbell, G. L. Teale, R. C. Baxter; Form III, G. N. Epstein, P. G. Lennox, A. P. Read; Form II, J. Elmgreen, D. R. Walker, G. C. Perry.

Physics Prizes: Form VI, M. W. Sibree, R. V. G. V. Lehane; Form V, A. M. Hyden, M. B. Dally.

Chemistry Prizes: Form VI, M. W. Sibree; Form V, G. J. A. Kelen, M. Gardner.

Combined Physics and Chemistry Prizes: Form IV, J. Loh, G. J. Conomos, J. H. Kent, T. S. McCulloch; Form III, M. L. Cohen; Form II, T. A. Gregory, J. Elmgreen, S. J. Gracie.

Science Prizes: Form III, D. W. Storey, E. Wajuryb, G. N. Epstein.

Biology Prizes: Form V, R. D. Hull; Form IV, J. G. Powys; Form III, D. H. Sonnabend.

Geology Prizes: Form VI, A. N. Wilson; Form V, P. W. Glasson.

Debating Prizes: N. T. Robson, M. W. Sibree.

'Sydneyan' Prizes: J. T. D. Wood, W. D. Edmonds.

Manual Hobbies Prize: P. A. Cockburn.

Bible Study Prizes: Form V, W. D. Edmonds; Form IV, J. M. Goodman; G. L. Teale; Form III, J. H. Wade; Form II, R. G. Mostyn.

Junior Writing Prizes: R. H. Vaughan, J. H. R. McEvoy.

Junior Art Prize: C. J. Healey.

Remove: General Proficiency, V. M. Coleman; English, D. J. Cooper; Mathematics: V. M. Coleman; Art, A. N. Gunn.

Second Remove, Upper and Lower: Dux 2R Upper, A. M. Blow; Dux 2R Lower, M. J. Berry; English, K. A. Langemyr; History, D. L. Brown; Geography, L. B. Hegarty; Mathematics, S. A. Kent; Writing, L. B. Hegarty; French, A. M. Blow; Latin, A. M. Blow; Art, D. L. Brown; Science, T. E. Keely.

Preparatory Form: Dux, R. B. Elkington; Dux of Lower Division, R. D. Wilkins. English, J. R. deM. Maclay; Mathematics, J. R. deM. Maclay; History, A. R. Kent; Geography, P. R. Gaydon; Reading, A. J. Ford; Writing, A. C. Highfield; Manual Hobbies, C. F. McIlrath; Art, R. H. Harris, Wallach Memorial Prize for Credits, H. K. S. Perndt.

**DAVID H. HODGSON**  
**RHODES SCHOLAR**

Left 1955, Senior Knox Prize, Wigram Allen Prize, the Salting Exhibition, the Horner Exhibition, the Barker Scholarship No. 3, 3rd in State 1955 Leaving Certificate.

He graduated in Law in 1962 with first class honours. He won the George and Matilda Harris Scholarship, the Margaret Ethel Peden Prize and the John Geddes Prize for equity. He has been associate to Mr. Justice Windeyer (Major-General the Hon. Sir Victor Windeyer, a Trustee of the School) and leaves early in July for England. He is the sixteenth Old Sydneian to become a Rhodes Scholar.

## FAREWELL MR. R. J. STEVENSON

**Mr. R. J. Stevenson**

Mr. R. J. Stevenson retired from the staff at the end of 1961, after some eighteen years as Master of the Preparatory Form. In the Lower School he taught Business Principles, which subject gave him ample opportunity to draw on his long experience as a practising lawyer in New Zealand.

Mr. Stevenson was commissioned in the field as an Infantry Officer in France while serving with the New Zealand Expeditionary Force during the 1914-1918 War.

As Master in charge of Lower School Grounds he was responsible for all sport in the Lower School, taking an active part himself in coaching cricket and football, especially football. Coming from New Zealand he lacked none of the enthusiasm which they have for the game of Rugby Football and the advice he has given to younger coaches and their teams has been largely responsible for the very high

standard of play in Lower School Football during his many years in charge. His own team, the almost unbeatable 'Midgets' XV, with a long list of successes over the many years, showed what could be done with a pack of fast forwards.

We all at Grammar wish 'Stevo' a long and happy retirement and look forward to seeing him.

P.MeM.T.

## OBITUARY

### ROBERT VICARS

Mr. Robert Vicars died on Sunday, 11th March at the age of 94. He had been Chairman of Trustees many years ago and President of the Old Sydneians' Union; probably he was the oldest Sydneian at the time of his death. A full and proper account of his life and service to the School will, I hope, be published in the next number of the '*Sydneian*'. In this brief notice now published, I feel that it is proper for me as Headmaster to record the sympathy of the School with the family of Mr. Vicars and also the admiration with which all those who knew him regarded his long life and the strength and happiness which were so visibly his gift to his family. It was an honour to know Mr. Vicars and to realize his deep interest in all that concerned the School.

C. O. HEALEY, *Headmaster*.

### FREDERICK GEORGE PHILLIPS

We record with the deepest regret the death on 29th June, 1962 of Mr. F. G. Phillips, Headmaster of Sydney Grammar School from 1940 to 1950.

As on that day the *Sydneian* was due to go to press, a full and proper tribute will be printed in our next issue.

We offer our sincere sympathy to his son and relatives.

## AMOS LEONARD EVERINGHAM

Mr. A. L. Everingham passed away on Thursday 14th December, 1961 at the age of seventy-two. He was a master at Grammar from 1941 to 1953 and secretary to the Sports Fund Committee from 1946 until his death.

He had previously taught for a while at the Blind School in City Road, and for about thirty years at Cranbrook School. His wife had predeceased him by two years, and, although he found his solitary state trying, he had retained his customary cheerfulness. He is survived by two sons, of whom one, A. K. Everingham was for a short time on the staff.

His chief outside interest lay in Lodge University of Sydney, of which he was Secretary for many years. His kindness and good humour endeared him to his colleagues and his brethren, and he maintained his interest in the school after he had left the staff.

G. F. R. C.

## VETERINARY SCIENCE

*It has been decided to print a series of articles concerning careers that might be of interest to boys leaving school. Here Professor McFarlane, Professor of Veterinary Medicine and Dean of the Faculty of Veterinary Science at the University of Sydney, discusses the opportunities that Veterinary Science has to offer as a career.*

In reply to the question, if you had the chance of reliving your life would you again choose to be a Vet? — my answer has always been — Yes!

The reasons given are, firstly, as a veterinary surgeon I am a university graduate in a Faculty concentrating in the biological sciences, secondly, a graduate in Veterinary Science has a very wide range of opportunities available to him (or her) and thirdly, Veterinary Science has as its basic contribution to mankind the health and production of livestock which are one of our main sources of food.

You may wonder why I place being a university graduate at the head of my list. The Scot is traditionally a believer in and a fighter for education and this no doubt contributes strongly to my views. There are, however, many cogent reasons why university education is vitally important to the community. The essence of a university

training is to ensure that through his years at university the undergraduate is led to understand and accept the necessity to view the world he lives in and the occurrences in it with fresh, critical and unbiased senses, and to apply logical thought processes in the use of knowledge and facts in arriving at assessments and decisions. If this basic objective is not achieved through the fault either of the student or his Faculty, the university graduate will lack this essential hallmark which will distinguish him for the rest of his life wherever he may find himself.

It is difficult or impossible to convince the young that a well trained and efficient brain as compared to an untrained and potentially efficient brain will handle the problems of yesterday, today and tomorrow with about the same difference in competence as the trained and efficient prizefighter will K.O. an untrained but potentially efficient prizefighter. It is well to remember that the problems of day to day living and our future survival are capable of resolution only by actions based on effective thinking. The greater the proportion of effective thinkers we have in our community and in the world at large, the greater are our chances of survival at progressively improving standards of living. I hasten to say that one does not have to be a graduate to be an effective thinker but I believe that the large majority of university graduates are effective thinkers, and that the university education is the most certain way of ensuring that the young people of today, who will be the leaders of tomorrow, will have an opportunity to develop their minds to their full potential.

The range of opportunities available to a graduate in Veterinary Science is unbelievably wide, spanning not only the major fields of practice, preventive medicine, research and teaching but also, for graduates of the British Commonwealth all the countries in the Commonwealth.

Veterinary practice is of a varied nature. Many of our profession specialise in small animals, yet others in horses. In these groups of animals the individual is all important; the problems of diagnosis and treatment in many ways resemble the problems of human medicine. The same diagnostic aids are used, the same drugs used in treatment. Radiography, anaesthesia and surgery are as refined in this class of work as in any comparable human field. A rapidly growing number of veterinary surgeons practise in country towns in the heart of rich dairying districts and have as their main patients dairy cows,

though the towns in which they live provide small animal work so essential in providing variety and keeping the diagnostic and surgical skills well practised. As yet, few graduates have specialised with success in sheep and beef cattle areas. This is the challenge of tomorrow. We have a great deal of information of value to the cattle and sheep farmer and it is only now that economic pressures are beginning to make it clear that the efficiency of meat and wool production must be raised. Already we have a small, highly specialised group of graduates specialising in poultry work; this number will grow as the poultry industry grows.

The protection of our farm livestock and pets from the major scourges present in other countries, the control and eradication of those few serious diseases we have in Australia are the problems in preventive medicine. The Commonwealth and State Governments and the Pastures Protection Board in New South Wales are responsible for this tremendously important aspect of livestock production and many veterinarians are employed by them to do this work.

Teaching and research offer fewer opportunities than do those already mentioned because of the limited numbers engaged in this type of work. The qualities that go towards making good teachers and research workers are not common. In general such people are dedicated to their work and have a deeply rooted belief in passing on the torch of learning to which they have added the light of knowledge gained by their investigations of the unknown.

The fact that a veterinary graduate of any of the universities of the Commonwealth can practice in any country of the Commonwealth is valuable. It means the individual graduate can choose both the field in which he will work and to some extent the country. The wide variety of opportunities mentioned and the fact that there is a world-wide shortage of veterinarians ensures a freedom of choice of work. This is an important freedom.

The last point mentioned in my introductory paragraph was that the basic contribution of Veterinary Science to mankind is assisting in food production. Physics, chemistry and the mathematical subjects have come to hold a dominating place in modern secondary education, displacing to a large extent the ancient languages of Greek and Latin. The biological sciences have been slow to start. This, in my opinion, is unfortunate. The distinctive characteristic of this planet so far as we are concerned, is life and if we are to appreciate our environment

effectively an understanding of biology is at least as important as an understanding of the inanimate. I carry my beliefs further. If we had used as much of our available resources in feeding, clothing and educating the starving, illiterate masses in the world as we have on atomic one upmanship, atoms for war would have been unnecessary. The contribution of the Veterinary Scientist to world food supplies has been outstanding; much remains to be done. To those of us interested in human welfare, and world peace Veterinary Science offers a real opportunity to contribute.

There is little left to say. Almost any type of young person with the desire and drive has a worthwhile future in Veterinary Science. The five year course is difficult and a good Leaving Certificate pass is highly desirable. Physics and Chemistry or Biology, if done at school make the first year at university less of a hurdle. I do not propose to finish by giving you information which can easily be obtained from Student Advisers but rather by suggesting that if you are interested in Veterinary Science find out as much about the work as you can from local practitioners, government officers, from Student Advisers and members of the Faculty of Veterinary Science at Sydney University. To any of you who may decide to become veterinarians I can promise rich and rewarding opportunities to serve the community.

## **THE SYDNEY GRAMMAR SCHOOL WOMEN'S ASSOCIATION**

An association which should appeal to the mothers of all boys at the School is the Sydney Grammar School Women's Association. This was formed in 1925, and since then has grown in numbers and in activity. Its aims are to help the School in any way possible by providing amenities outside the Trustees' obligations.

On the scholastic side a scholarship is awarded annually to a boy obtaining the Intermediate standard who wishes to proceed to the Leaving. In the field of sport regular contributions are made to cricket, football, tennis and rowing teams. Gifts to the school and its branches include table and piano in Big School, a boat and amenities at the Rowing Shed, furnishing of the Library, assistance with the furnishing of the Masters' Common Room and the Prefects' Room, seats for the boys in the playground, stage curtains for the Globe Players,

flag for Weigall Grounds, items of equipment and gifts of various nature to the School House.

The Tuck shop at Weigall Ground is open for sales whenever the boys are there either for practice or for matches, while in the Dining Room cricket and football teams with their opponents are entertained at luncheon in the cricket season and afternoon tea in the football season. This service is purely voluntary and helpers are always welcome.

If any mother feels she would like to share in this work she can procure further information from the President, Mrs. Layton, 1 Margaret Street, Roseville (JA 8602), the Treasurer, Mrs. Hobbs, 27 Bancroft Avenue, Roseville (JA 5304) and the Secretary Mrs. Joyce, 36 Beresford Road, Strathfield. (UM 8942).

---

# SCHOOL.

## Notes

---

The quiet scene of the playground was quickly interrupted by the demolition of the Prep. and the building of a ramp, changing the playground into a speedway for semi-trailers and cement trucks. The construction of a five storied extension to the Science Block began at the start of term and all boys showed a keen interest in the proceedings. The School appreciates and thanks the Committee of fathers lead by Mr. J. R. Kerr, and the generous fathers who helped meet the finances for the new Science Block. We will always be proud of our new five storied building as we are the only School with such a towering structure.

The School was very proud and pleased to hear that Mr. W. E. R. Francis had the honour of receiving a C.B.E. and Mr. Alroy M. Cohen an O.B.E. in the Queen's Honours list this year. Mr. Cohen was also made a Queen's Counsel. We are proud to know that these men received their early training at Sydney Grammar School a high standard for which all boys can aspire.

The School regrets the retirement of Mr. R. J. Stevenson, who for many years was in charge of the Prep. Mr. Stevenson was responsible for preparing boys for a very enjoyable life at the School; boys who were taught under Mr. Stevenson feel sorry for the boys who will not come to know him. The Midgets, in particular, will miss his spirited and enthusiastic support. I am sure Mr. Trimble, who has been appointed in his place, will be just as keen a supporter.

Mr. Mackerras seems to have the Lower School in check, and we hope he will drive them along as did the late Mr. Hanson-Norman.

We welcome to the School Mr. McGillivray, who is known by many boys as an instructor with the Outward Bound Movement. Also Mr. Blackborrow who has taught in England and Tasmania.

We congratulate Mr. Potten on his promotion to second English Master, and appreciate the way the many new masters to the School in the last few years have upheld the high standard of teaching with their enthusiasm and interest.

The new six-years system of education started this year with 228 in 1st Form. These young boys have been given a sound example by last year's Leaving Certificate results, the highest percentage ever of passes since the School was founded; 83 per cent passed and 41 Commonwealth Scholarships were won. P. Stiles gained distinction in the first 200 by coming 47th in the State.

Six prefects have returned again this year; they are R. Bourke, T. Healey, R. Hindmarsh, B. Hungerford, D. Hunt and E. Tindall. The Senior Prefect is R. Hindmarsh. The following sub-prefects have returned M. Doran, P. Ellis, D. Parker, H. Munro. Sub-prefects appointed this year are J. Barkell, J. Cartwright, R. Cranna, B. Cross, M. Dally, P. Dezarnaulds, J. Haddon, P. Harris, D. Horsfield, A. Loewenthal, J. Maltby, T. McCurdie, B. McMillan, C. Pearce, I. Ross, R. Storey, F. Windeyer.

The highlight of first term 1962 was the introduction of the Arts and Interests Organization. A committee of masters, under Mr. Searle, has presented each boy with an opportunity to cultivate his particular interest and follow activities such as dramatics, music, photography, metal work, drawing and so on. The new scheme was given a real boost by performances by Mr. G. Watson, an Australian pianist from overseas, and Mr. D. Gray, an Old Sydneian, who played 'Freddie' in *My Fair Lady*. The boys showed their appreciation by an

ovation at the end of each performance; never has there been such applause. I am sure the School is right behind this new scheme, and on behalf of the School I would like to thank the Headmaster and Mr. Searle and his committee for their insight and enthusiasm in this new venture.

The Science Association has been very active in stimulating the interests of the parents by lectures and the Science Day. These were well attended and enjoyed by all.

After the inspiring presentation of St. Joan, the Globe Players have again met with great zeal to rehearse for their performance of Henry V on 10th, 11th and 13th August, 1962.

Debating took a new turn this term with a debate against S.C.E.G.G.S. Darlinghurst. Many boys suddenly became interested in debating but their interest was soon dashed when only those personally invited by Mr. Knock could attend!

Many boys attended the Outward Bound courses during the Christmas break and interest seems to be increasing. This interest has been spurred on by the Duke of Edinburgh Award. A total of nine bronze and a silver medal were presented to the boys last year by the Headmaster, the first silver medal to be awarded in Australia. It is hoped that many boys will find this a helpful and healthy interest this year.

The chess club under the guidance of Mr. McGuinness still stamps and jumps chess men about on black and white squares above the Headmaster's study.

The Cadet Corps has resumed with its usual vigour and efficiency. After the success of the camp as a single unit at Gan-Gan, and the high places attained in the courses over the holidays, the Corps looks forward to a Bivouac on 26th and 27th April and possibly another camp at the scenic Gan-Gan site. Because of the new building programme the Senior Companies train at the Domain. This has allowed the band to show its form in marching the cadets to and from the Domain.

The Air Force and Naval Cadets continue their struggle with the Cadet Corps for supremacy, the Air Force with its drill and the Naval Cadets by the variety of their training. A visit to the yacht Gretel proved of great interest.

The Service Committee under the leadership of R. Bourke and the enthusiastic support of the Headmaster, has diversified its activities

this year. An outing with the children from Cowles House, Cronulla at National Park and the collection of clothes for the Smith Family winter appeal were keenly supported by the boys.

Cricket started this year with great interest and zeal. The nets have been improved and 30 boys practised before school started. The strong First Eleven, chosen from the 30, are at the moment trailing St. Joseph's, but are waiting their chance to pass them and clinch the premiership. The School wishes them a good and enjoyable season in the third term.

A great day was held when the Old Sydneians fielded 4 teams against the School. All had a great time together and a grand lunch and afternoon tea which was provided by the Women's Association. The School is indebted to Mrs. Layton and her band of workers for this.

Another highlight of the first term was the visit of the Melbourne Grammar School Cricket Team. The boys were billeted by the members of the First Eleven, played cricket and attended the Regatta. We hope that with the added supporters we will out-cheer all others.

Rowing started with the same zeal as the cricket, plus a good deal more sore backs, legs and arms during the Christmas camp. The boatshed is under a new system of coaching this year and hopes to show the result in future years. The Eight has not excelled itself but there have been many hard and intense workouts. We all wish them every success at the Regatta, and remember that it's sometimes the dark horse that comes home first.

An enjoyable night was spent at the Boatshed Barbecue; a cricketer's Four highlighted the night with a vigorous row. For the wonderful occasion we extend our thanks to the parents and friends of the boat shed.

The Athletics Standards Competition was again held this term. The undaunted enthusiasm of D. Stewart-Richardson and his committee was an inspiration to a great number of boys to compete, although it is not a major sport for first term. The enjoyment and spirit of the boys is the only thanks high enough that can be given to the committee for its work.

The tennis team for 1962 is being coached by Mr. Riley and has shown improved form to draw with the strong Shore team in sets, only to be beaten in the count of games. We wish them every success over their rivals in the G.P.S. competition.

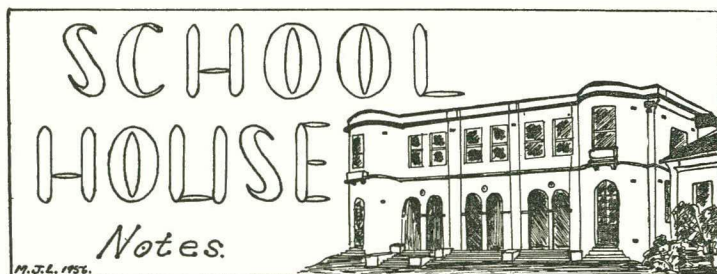

The gymnasium has been under constant use this term. Gymnasts, athletes and footballers have put in much time at the Gym. The coaches, however, keep warning them that giants and supermen cannot be produced overnight.

The swimming team, under the guidance of Mr. Glenvale, is to be congratulated on securing the Premiership for 1962, a very good achievement. The season was climaxed by the School carnival where P. C. Howard, the No. 1 swimmer of the School, swam a close second to J. Pick of Scots in the invitation race. It was regretted that Mr. Knock could not hold off a brilliant challenge by Mr. Goldstein in the Old Sydneians' race.

Again our sincere thanks must be extended to the President, Mrs. Layton, and to all members of the Women's Association for the tremendous amount of work and interest they give to the School. The Tuck shop and Dining Room at Weigall are amenities which play a big part in the enjoyment of sport.

I would also like to take this opportunity to thank Mrs. Swan and her assistants for their untiring work and cheerful spirits in daily supplying the needs of the hungry boys, not forgetting also Sergeant Wells with his constant vigilance over the School.

R. W. H.

We welcome the following new boys to the School House this year: P. J. Bowron, R. D. Clarke, A. G. Clubb, R. C. Cox, G. E. Davies, P. E. Deck, T. S. V. de Franck, C. J. Dunston, J. K. A. Gardiner, D. J. Gowing, B. T. Hungerford, R. J. R. Irvine, R. P. Kydd, D. N. Milverton, S. J. R. Murray, J. R. Nicholas, R. J. Rankin, L. N. Russell, J. L. Todd, J. H. Turner, H. C. White and R. L. Whittington. All have settled in well and we wish them an enjoyable stay at the House.

Mr. Grantham has returned to the House. We welcome Mr. Menzies, a medical student at Sydney University, who has joined Mr. Grantham as a resident master.

We congratulate the following on being appointed House Prefects for 1962: I. G. S. Blair, R. G. Cranna, R. J. Church, N. R. Cowdery and B. T. Hungerford. H. D. Munro has returned as House Captain and R. G. Cranna has been appointed a School Sub-Prefect.

In school sport this year the School House has been represented quite well. Peter Deck is rowing in the Eight and David Murray and David Raffan in the 2nd IV. Brian Lukin is cox of the 1st IV. In cricket Hamish Munro is playing in the 1st XI, Ian Blair in the seconds and Stewart Murray in the thirds.

Of the House boys in the Cadet Corps, Ian Blair, the Drum Major, holds the highest rank.

With the help of John Hall's stirring encouragement the group has again won this term's Athletics Standards Competition. A shield has been donated to be presented to the group gaining the most points in this competition. House Group has the honour of being the first to win it.

Last year House boys gained thirteen out of a possible sixteen passes in the Leaving Certificate. Geoff Hughes and Kim Murchison are to be congratulated on gaining Commonwealth Scholarships. In the Intermediate Certificate nine out of our eleven candidates passed.

This term the appearance of the School House has been greatly improved by the painting of the exterior and the front wall. It is now grey with a tangerine front gate. The dining room has been improved by the addition of smart plastic table cloths.

We have been very pleased to receive visits from the following old boys; George Conomos, who is studying Commerce at the University of New South Wales; Kim Murchison, a first year Engineering student at Sydney University, who is boarding at St. Andrew's College; Geoff Hughes and Lionel Warat, who are studying Arts at Sydney University; Chris Orton who is studying Medicine at the University of New South Wales and Richard Turner who was on his way to Wagga to take up a job as a Jackeroo.

We look forward to an enjoyable and successful year for House boys both scholastically and in sport.

H.D.M.

## GILES GROUP

Tutor, Mr. L. O. Scott; Committee, Captain, D. B. F. McMillan; Vice-Captain, R. E. Bradley; Secretary, H. T. Andrew; Treasurer, R. H. Roden.

The Group extends its congratulations to last year's members who were successful in the Leaving Certificate: H. T. Andrew, J. D. Blair, J. H. Piven-Large, P. C. Schmidt, P. J. Stiles, D. J. Walker, F. J. Walker, W. S. Whitby, R. J. Zutton.

At the beginning of the year the group welcomed nineteen new boys and returning sixth formers, Andrew and Schmidt.

Although there are no 1st XI members this year, McMillan, Long, Lomas and Sare play for the 2nds and 3rds. In the third form, Anderson Sheidow and Hindle play in the Under 14 A's. The group is comparatively weak in swimming this year, although P. C. Schmidt gained a very worthy 3rd in the Open Championship at the swimming carnival. The Athletics Standards were well attended in the first term, especially following stimulating encouragement from the Standards representative, Ross Clark. Keen athletes who gained most of our points in the group competition include D. M. Good, J. Kent, P. Anderson, B. McConaghy, J. Lamplough, M. Champion, S. Pollitt and P. Proud.

The group is well represented in rowing this year. Dick Bradley and David Pritchett are strokes of the 1st and 2nd fours respectively, while

Bob Roden rows in the 3rd four. All three are to be congratulated for their outstanding efforts in the G.P.S. Regatta.

Group One has made a satisfactory beginning to the year and with the football season now under way, is taking a more active part in all its interests, under the patient guidance and encouragement of Mr. Scott.

D.B.F.M.

## CHASE GROUP

The committee this year consists of: D. E. Lloyd, Tutor; P. Ellis, Captain; G. R. Hobbs, Secretary; R. Storey, Treasurer and R. Baxter Vice-captain. We hope it will lead the group with a certain amount of vigour.

Congratulations should be extended to those 6th and 4th formers who attained passes in the Leaving and Intermediate Certificates last year, especially to R. Baxter who was dux of the 4th form and to R. Storey who gained a Commonwealth Scholarship. The group is also proud that one of its members, G. Epstein, was dux of the third form.

A welcome should be extended here to those 3rd formers who constitute new blood in the group and we hope that they will enter into the spirit of this daily rendezvous. If the group could achieve part of the spirit contained by its namesake it would be outstanding in every sphere.

The sporting side of the group this year promises to be steady if not outstanding. We are represented in the 1st XI by R. Storey, who is Captain, and by P. Ellis.

In rowing we are represented in the Junior Eight by Jim Madden. Robert Storey is once again a senior member of the Tennis Team. Athletics Standards this term saw the group finish in second place beaten by the House Group. An outstanding feature was the large number of boys from the group, who, although not good athletes, entered and did their best.

Congratulations are due to R. Storey who was appointed a sub-prefect at the beginning of the year.

The Group extends sincere sympathy to the parents of Peter Montgomery and all that knew him regret his passing.

We are looking forward to the football season and we hope that our representation this year will equal, or surpass, that of last year.

P.C.E.

## GROUP THREE

With our Tutor, Mr. Webster, this year's committee consists of: A. R. Rourke, Captain; R. R. Gould, Vice-captain; T. M. Little, Secretary; W. H. Norman, Treasurer; R. S. Danos, Assistant-treasurer; P. C. Burton-Gibbs, I. M. Edwards and S. G. Kennedy all being group prefects.

We started off 1962 being well represented in sports with Kennedy rowing in the Third Four, coxed by Marich, who is beginning his first year in the group. Strath of the fifth form has performed very creditably in the Second XI, being one of the leading bowlers of the team.

Overall the group has participated very well in all forms of sporting activity.

We are well represented in cadets, having several corporals in the corps and Richard Gould holding a senior rank in the A.T.C.

We welcome the third formers and hope they will fit in and enjoy their stay with the group.

A.R.R.

## GROUP FOUR

1961 was an outstanding year for the group and we look forward this year to even better performances. We welcome a promising new third form who will undoubtedly benefit, with the remainder of the group, from the understanding guidance of our Tutor, Mr. Young.

As usual, the group is functioning very well and from the progress of monetary collection, leaving sixth formers, once again, seem assured of receiving their first year's subscription to the Old Sydneians' Union.

Congratulations to Ross Hindmarsh, this year's Senior Prefect and O.S.U. Scholarship winner of 1961. Congratulations also go to J. Cartwright, M. Dally, J. Haddon, P. Harris, A. Loewenthal, T. McCurdie, J. Maltby and I. Ross on their appointments as sub-prefects at the beginning of the year. We are proud to have in the Group a total of no less than eleven prefects and sub-prefects.

In last year's Leaving Certificate, from a total of sixteen sixth formers in Group Four, eleven gained Commonwealth Scholarships — a truly remarkable effort. The award winners were Haddon, Harris, Hindmarsh, Hunt, Parker, Ross and Schilizzi.

This year's Group Committee is D. Hunt, Captain; R. James, Vice-captain; R. Schilizzi Secretary and G. Hercus, Treasurer. They are ably supported by the group's prefects and sub-prefects.

In the sporting field we are very well represented, especially in cricket. The four members of the First XI are McCurdie, Parker, Hunt and Kenny, who, at the end of the fourth competition match, is the leading G.P.S. wicket-taker. Hindmarsh, Anderson, Cartwright, James, Arnott and Mayo are in the second XI; Caisley, Keeler and Wirrell in the Colts A XI, and Aiken, Barnes, Chadwick and Gilchrist are in the 14A. We are also well represented in all the minor teams. In the rowing Phil Harris is a member of the VIII for the second time and this year is Vice-Captain of Boats. J. Glasson is cox of the IV Four and we also have a few promising rowers and coxswains in the junior crews. In tennis, J. Haddon is Captain of the Senior Team of which J. Anderson and D. Hunt are members. Other members of the Group who competed in the Athletics Standards performed creditably and we were among the leaders in the group competition.

Leading cadets in the group are CUO's Hindmarsh, Maltby, Parker, Thompson and Dally and our Leading seaman is Cadet Petty Officer Loewenthal.

We have our share of representatives in the newly-formed Service Committee. Schilizzi is secretary and Hindmarsh, Parker, Ross and Hunt are members of the committee.

After an auspicious beginning to the year we can now look forward to further successes in the academic and football fields.

D.A.H.

## GROUP FIVE

The Group having returned from surf and sun has settled back into school life. The Group this year numbers fifty five and we welcome the nine new third formers and one new fifth former to the Group.

This year's committee consists of Mr. Macdonald, Tutor; G. R. Bushby Captain; P. S. Blanton, Vice-captain; C. G. A. Pearce, Secretary; and R. Bennett, Treasurer.

In the Intermediate and Leaving Certificate exams last year, the Group had considerable success. Commonwealth Scholarships were won by Colin Pearce, Nick Robson and Geoff Craig.

We are well represented in sport this year. Guy Bevan is in the 4th IV; Warwick Sharpe is a member of the Rifle Shooting Committee; and Colin Pearce on the Tennis committee. The group entered some good swimmers in the carnival and managed to come fourth.

In Cadets we have two under officers, Colin Pearce and Geoff Bushby and many others holding N.C.O. ranks.

The Group congratulates Colin Pearce on his appointment as a sub-prefect.

With the first term almost gone the Group looks forward to the next two with hopes of further success.

G.R.B.

## **GROUP SIX**

Officials G. Blok; J. Gourlay; J. Willis, Vice-Captain; W. Tuthill, Captain.

The group this year appears to be progressing steadily and is taking an increasing part in school activities. Its scholastic efforts are seldom poor but sporting activities tended to lag for a time. The group gained 3rd place in the swimming carnival, good swims being made by Long and Spencer. The Standards competition was well supported and we managed to come 5th. In the major sports we have I. Robertson in the First XI and J. Willis and W. Tuthill in the VIII. We also have some high ranking cadets, J. Willis and P. Glasson are CUO's and A. Warat a Sergeant.

Our sympathies are extended to Andrew Rich, a member of the group, who was in a car accident some weeks ago. We hope to see him fit and back with us in the very near future.

W.E.F.T.

## **GROUP SEVEN**

Before we commence this terms report we must congratulate our sixth formers of last year who all passed the Leaving Certificate.

This year we welcome back four sixth formers and in addition we have several new third formers.

This year's group committee is: A. Bancroft, Captain; R. Stevens, Vice-captain; P. Hield, Secretary; T. Helsby, Treasurer and P. Smith, Fifth Form representative. We must congratulate P. Dezarnaulds on his appointment as a sub-prefect. He and E. Tindall, a returning prefect, are ex-officio members of the committee.

J. Bowie Wilson and P. Hield are members of the service committee while G. Kelen is representative on the recently formed Arts and Interests Society in the School.

In the cadets we are most prominently represented by P. Jenkin who is a C.U.O. and P. Smith, the School R.S.M. We congratulate these two on their appointments to their respective positions.

In the sporting field we have R. Stevens batting well in the 1st XI while P. Dezarnaulds is Captain of the 2nd XI and A. Bancroft and G. Frumar are members of the 3rd XI. D. Ross is in the 14A XI and we have many other boys representing the school in other teams. In rowing R. Beeman is once again cox of the VIII and R. Tanner and G. Glenwright are in the second and third fours respectively. Also there are numerous boys in tub crews.

E. Tindall and G. Cornwell were members of the school's victorious swimming team. With G. Cornwell, an outstanding swimmer, the Group won the annual swimming carnival held at North Sydney Olympic Pool. However, it was not only Cornwell's great swimming that won the group the championship but the number of boys who, though not brilliant swimmers, entered events and gained minor places.

A.B.

## GROUP EIGHT

On returning to school this year we found ourselves devoid of repeating 6th formers. Not one out of the eleven that sat for the Leaving Certificate returned except B. Hungerford who has now joined the School House while his parents are overseas. We congratulate J. C. Ancher, J. N. Crofts and P. Goldsworthy on their Commonwealth Scholarships.

This year for the first time Group 8 has introduced a Group fund. The weekly subscription is sixpence and is kept well up to date by the Vice-Captain, D. J. Fisher, and the Treasurer, J. W. Cleland. The remaining two members of the committee are R. A. Schmidt, Captain and B. M. Kinsey, Secretary.

Although not as many as hoped entered the Athletics Standards, two members of the group, M. L. Cohen and H. P. Haynes, gained 1st class standards. In cricket we are very proud to have Brian Kinsey

a member of the 1st XI. J. Littler is in the 5th XI and Shaw, Stewart and Ward are in the 15B's of which Martin is Captain. This year the group has two representatives in the G.P.S. regatta, Richard Schmidt, Vice-captain of Boats, being a member of the VIII and Mark Gardner of the 1st IV. Members of the group, M. L. Mitchell and P. L. Blake are in the 15A Tennis Team.

Finally, we must thank Mr. Carr our Tutor, who is always so helpful and encouraging in all our work.

R.A.S.

## MARKS GROUP

We are fortunate once again to have Mr. Taylor as our Tutor and can only hope that he has not been shaken too much by the thought of having the responsibility of Group Nine for another year.

The Group Officers for 1962 are Captain, R. Alexander; Vice-Captain, B. S. Patrick; Secretary, G. G. Huntley; and Treasurer, R. S. Hughes as the executive body. The following are form representatives: J. A. Seymour, Sixth; I. A. Campbell, Fifth; B. H. Freeman, Fourth and D. B. Kellett, Third Form.

Our Group, fifty four in number, has settled down well. B. D. Carr, R. C. Freeman, J. K. Wickham and G. B. Veitch are repeat Six formers. The first two named are our representatives in Arts and Interests. The Group is showing an active interest in this new school activity.

We welcome seventeen third formers who joined the Group this year. They are a bright, friendly crowd.

It is pleasing to record the much increased interest in swimming this year. At the carnival we finished in fourth position. Last year we just got into twelfth position. Our swimming successes were:

First in 110 yds. (under 15) Freestyle; Second in 55 yds (under 15) Backstroke; Second in 55 yds. (under 15) Freestyle: W. Glenvale. First in 55 yds. (under 15) Backstroke: J. W. Liddell. First in 55 yds. (Under 14) Novice: P. Breeze.

Excellent participation has also been noted in the Athletic standards. We have no member outstanding in Rowing or Cricket, but we are well represented and we should have a very good football season.

A successful year to all members.

K.A.

## GROUP TEN

The Group this year welcomed seventeen new boys at a dinner, the guest of honour being David Hodgson, our first Rhodes' Scholar.

This year's office bearers are, David Horsfield, Captain; Peter Howard, Vice-captain; John Service, Treasurer; and Connor McKnight Secretary.

Our congratulations are extended to Brian Cross and David Horsfield on their appointments as sub-prefects and also to Bob Bourke who has been made a Company Commander in the Cadet Corps. The Naval cadets are also well represented in the group.

The school's swimming team was led to victory this year by John Service, and Peter Howard was the school's representative in the schools' championship. Our veteran 1st XI campaigner, David Horsfield, is enjoying his 5th season this year in the team in the capacity of vice-captain. Brian Cross is Captain of Boats and rowing in the Eight while Geoff Heicher, Glen Bennets and Geoff Wilson are representing us in the Fours.

Notwithstanding our success in representative sport, Don Stewart-Richardson is Standards Secretary and Bob Bourke, Michael Withycombe and Winifred Fowles are doing a splendid job on the Services' committee.

The Group as a body is functioning particularly well this year, due to the efforts of our Tutor, Mr. Maclay, and his assistant, Mr. Little, but it is to the untiring efforts of our Captain, David Horsfield, that a large measure of our success must be attributed.

C.A.M.

## BARTON GROUP

One famous man, whose name I cannot recall, once said, 'All power corrupts; absolute power corrupts absolutely.' The members of this year's group committee are King, Barkell, Crocker, Silvester and Bacon. Next item, please.

This year our members of the Gestapo are Healey and Barkell. (Big Brother is watching you). Both Healey and Barkell are members of the Service Committee.

And so we pass to the cadets. Tim Healey is the Senior Under Officer (stand up the boy who said, 'So what?'). Jim Barkell is also a CUO, and Tony King (a great rower by the way) is signals officer. The platoon sergeant is another Bartonian, Peter Austin, and between them they are making the Signals Platoon a roaring success. Our other sergeants are Richard Hill and Stephen Scarlett, that well-known typewriter pilot who is keeping up the Group tradition in his capacity of Orderly Room Sergeant.

There are several librarians in the group. They are Austin, Johnston, Marfleet, Scarlett and Smith. (What's the Dewey number of 'Lady Chatterley's Lover'?).

Peter Jennings can be seen sabotaging the games of the 4th XI, while in tennis, Ken Crocker has decided not to turn professional since he is earning too much money as an amateur.

If any member of Barton Group is annoyed because his name has been left out of this report, he must not feel unhappy or think that he has been forgotten, because his name has been omitted deliberately.

S.H.S.

## GROUP TWELVE

The boys returning to the group must thank Mr. Lane for his help and guidance throughout a very successful year in 1961 and hope that this year may be equally enjoyable.

We would like to congratulate Frank Windeyer, Jeff Moore, Chris Piggott, Robert Tong, Dan Buchler and Martin Doran on their passes in the Leaving Certificate and wish those who have left us success for the future. As repeating sixth formers, we welcome Martin Doran, Bill Carson and Frank Windeyer. Our congratulations to Frank Windeyer for his appointment as Sub-Prefect, and as a C.U.O. in the Cadet Corps early this year and as Editor of the *Sydneian*.

Two members of the group represent us in the G.P.S. Regatta to be held on April 14th. They are Peter Brownrigg (VIII) and Alistair Rourke (3rd IV).

The group welcomes the new third form boys and we trust that they will get as much out of the group as we have in the past years.

Appointments at the beginning of the year were: Martin Doran, Captain; Bill Carson and Frank Windeyer, (Vice-Captains) and John Battley (Secretary).

M.H.D.

# Memorial library

While it is not customary to comment in this column on happenings external to the School, the resignation of Dr. Andrew Osborne from the Fisher Library and the loss to his native land of a most able and distinguished librarian must give anyone with the library movement at heart some pause. After his appointment ex-assistants of this Library, then undergraduates at Sydney University, came into this office full of hopes for their future as users of Fisher and singing Dr. Osborne's praises. There is no doubt that even the few years he has spent in this country have left their mark, and that his Parthian shots have gone home. In some slight degree what he has said about the availability of books applies even to a school, inasmuch as it is easier for a good boy to get a better pass at any stage — and especially at Leaving Honours — if he has available the right books in sufficient quantity; and within the limits of the labour employed to bring books forward, it is virtually impossible to spend too much on a library.

In 1961 we added 1209 volumes to our stock, and another 250 in first term this year. The use of the Reading Room has been very heavy and the borrowing level satisfactorily high. We could well use a few more assistants from the Third Form but are managing as well as can be expected with a small staff, many of whom are still in training. The probationers' examination was held on April 13th and a satisfactory number were made assistants as a result of it.

Those taking responsibility this year are M. Dally (Senior), B. S. Bourne (Staff Supervisor), J. MacMahon (Reading Room), J. M. Morris (Records), S. Scarlett (Periodicals), G. I. Smith (Repairs) and P. A. Johnston (Stack and Store). Others giving some special assistance are P. W. Austin, A. G. Blaxland, R. C. Baxter, J. W. Parker, J. G. Hedberg, G. J. D. Richardson, J. A. Laing-Peach.

We can never thank Mrs. Chase enough. She has made a special effort this year and has provided some books we particularly needed. Her generosity is never ending and her kindness infinite.

We wish to record our thanks to the following for generous gifts since our last writing:

The late P. C. Basche, N. L. Cowper, Esq. C.B.E., Mrs. R. G. Henderson, The Headmaster, Alroy M. Cohen, Esq., O.B.E., Q.C., S. J. Marshall, Esq., J. K. Stephen, Esq., P. J. Switzer, Esq., J. K. Hill, Esq., R. W. Maclay, Esq., P. Dutoit, Esq., Rev. B. B. Chapman; Mr. Hugh Munro, Mr. David Stephens, Mr. Giles Rowling; R. Tong, W. A. Stening, H. J. R. Dutton, N. T. Robson, M. K. Smithers, R. J. Tanner, J. D. Blair, L. N. Warat, P. McNamara, R. Colvin, O. C. Langemyr; The German Embassy, The University of New South Wales, the Nuclear Physics department of the University of Sydney, the Australian Petroleum Company, the Naturalists' Society of New South Wales, and G. W. Hall and Company.

We also acknowledge a special grant through the Geography Department and an anonymous gift of two pounds; and hope that no name which should appear has been omitted.

G.F.R.C.

## SYDNEY GRAMMAR SCHOOL SCIENCE ASSOCIATION

### Outline of President's Report 4th Annual Meeting

#### Main Events During 1961-62.

*Lecture on 'Healing of Wounds'* by Professor Wilhelm, 25th July, 1962.

*Talent Quest* — 'For Scientific Work' — to be held amongst boys of the School, to be judged on Science Day 1962. Prizes being donated by the Association.

*Informal Talks with Schools' Science Staff* — in the form of a Social gathering — 8th May, 1962.

Lectures and discussion on '*Opportunities for Professional and Technical Careers*' for parents and boys on 21st September, 1961.

Speakers: Mr. R. F. Elworthy, Assistant Chief Staff Officer, Colonial Sugar Refining Company. Mr. H. T. C. Howard, Principal, Sydney Technical College. Professor H. R. Carne, Dean of the Faculty of Vet. Science, University of Sydney.

These talks were held in conjunction with Mr. A. W. Mann, Careers Master of the School.

*Trip to Sydney Observatory* — October 1961.

*Christmas Vacation Lectures*. 4th, 6th and 8th December, 1961.

*Science Lectures for Parents*. 5th, 12th, 19th, 26th March and 2nd April.

#### **Donations by Association**

Purchase of three films from overseas for the Biological Department at a cost of £32.0s.0d.

Purchase of a set of books on popular Science by the Grolier Society for £27.10s.0d.

Repairs to a Oscilloscope for £22.18s.11d.

Subsidy of £30.0s.0d. for School Science Magazine.

Sylvia Chase Scholarship — supplement to — £25.0s.0d.

Prizes for Science. £10.0s.0d.

Total — £147.8s.11d.

#### **Membership 60**

The Annual Election of Officers resulted as follows — Patron, Sir Ernest Fisk; President, Dr. E. P. George; Vice-President: Dr. R. G. Giovanelli; Secretary, Mr. P. Brown; Treasurer, Mr. J. W. Hinde; Committee, The Science Master (ex officio), Mr. W. S. Chambers, Mr. J. E. Pfeiffer, Professor D. L. Wilhelm, Mr. L. G. Little.

#### **Refresher Courses in Science**

These were held in the Science Lecture Theatre on Mondays March 5th, 12th, 19th, 26th and April 2nd, 1962. These lectures followed the success of a similar series in 1960 and many requests that they be repeated in some appropriate form. The programme was as follows:

*Monday, 5th March*: THE SCOPE OF SCIENCE. Professor J. P. Baxter, Vice Chancellor, University of New South Wales.

*Monday, 12th March*: SCIENCE IN FIRST YEAR, 1962. Mr. R. W. Maclay  
NEW FRONTIERS IN ASTRONOMY: Dr. R. G. Giovanelli, Chief of Div. of Physics, C.S.I.R.O., Vice-President S.G.S. Science Association.

*Monday 19th March*: RECENT DEVELOPMENTS IN THE TEACHING OF PHYSICS. Mr. L. G. Little.

RECENT DEVELOPMENTS IN THE TEACHING OF CHEMISTRY. Mr. M. Bishop, Senior Science Master, Cranbrook School.

*Monday 26th March:* RECENT DEVELOPMENTS IN THE TEACHING OF BIOLOGY, Mrs. K. Lenthall.

PARTICLES AND ENERGY IN PHYSICS. Dr. E. P. George, Director of the Physics Department, St. Vincent's Hospital, President of the Sydney Grammar School Science Association.

*Monday, 2nd April:* PARTICLES AND ENERGY IN CHEMISTRY. Mr. R. J. HOLLAND.

THE CELL: Professor D. L. Wilhelm, Dept. of Pathology, University of N.S.W., Member of the S.G.S. Science Association Committee.

There was a regular attendance of 40 to 60 and many parents expressed their appreciation to the extent that the courses be held more often and that they would also be interested in courses for parents in subjects other than scientific ones. Disappointment was expressed also that comparatively few parents did attend.

## SCIENCE DAY 1962

The theme this year was Mathematics and it was a struggle to find the customers for the Evening Session which was down by at least 100 on the usual attendance. This was a pity. Probably another 200 Fifth and Sixth Formers would have received much of value from Professor Bullen's address. It is true that there were competing interests: the Regatta and the Melbourne Grammar cricket match as well as a number training for football. For those unable to be there, it was an opportunity lost of hearing a distinguished educationist, not merely a craftsman professor in his own specialised subject.

As usual there were the special sessions for each year and a Talent Quest for good measure as an innovation.

### Session I — Fifth Forms

Dr. J. N. Lyness, Lecturer in Applied Mathematics, University of New South Wales.

Dr. Lyness discussed the career opportunities and general significance of the subject as suggested by his title, WHY STUDY MATHEMATICS.

R.J.H.

### **Session 2 — Second Forms — ‘Hot Work’**

A lecture demonstration by Mr. L. G. Little.

A number of experiments were done showing how heat may be converted into mechanical energy.

Items demonstrated included a hot air balloon, a steam engine, a geyser and a turbine. Numerous chemically-produced explosions also provided an added interest to the demonstration.

R.G.A.

### **Session 3 — Sixth Forms**

Professor J. M. Blatt, Department of Applied Mathematics, University of N.S.W.

Professor Blatt is a very acceptable popular lecturer and his title was SUPERCONDUCTIVITY, that property of loss of electrical resistance shown by many substances at very low temperatures.

Professor Blatt explained the phenomenon in terms of electron pairs with their associated waves of electromagnetic nature. He explained that computers were using this property.

### **Session 4 — Fourth Forms — ‘Modern Electronic Computers’**

Mr. Hill, Officer in Charge of Computing Laboratories at the University of New South Wales, gave a most interesting talk on the present day uses of modern computers — designing atomic power stations, making railway bookings, drawing up payrolls, playing chess, these were only some of the fascinating uses. The lecture abounded in references to fantastic problems solved at fantastic rates, information which proved of great interest to the mathematicians of the group.

In this age of electronics the talk on computers was most valuable and was appreciated by the boys.

L.G.L.

### **Session 5 — Fourth Forms**

Appropriate films were shown.

### **Session 6 — Third Forms**

The Senior Science Master of Cranbrook School, Mr. M. Bishop, calling his lecture demonstration ‘Saucepans and Things’ dealt with, and convincingly demonstrated, some of the less familiar facts about the very familiar metal, aluminium. Aluminium is far more abundant in nature than is iron but, because it is so very reactive it is much

more expensive to extract from its ores. Its reactivity was demonstrated spectacularly by some variations of the 'thermite reaction', by the beautiful display it makes when reacting with iodine (actually started off by a drop of water!) and by the curious way in which it grows 'whiskers' when exposed to air after being in contact with mercury.

E.J.E.

### Session 7 — Open Demonstrations

#### *Science Association Talent Quest.*

This year, for the first time, the Sydney Grammar School Science Association organised a talent quest giving prizes to the value of £26.5s.od., to the best two entries in each of three divisions, each division based on form years. Each experiment was examined in such factors as presentation, originality, practical and theoretical effort.

The examiners were: Dr. H. D. Rathgeber, School of Physics, University of Sydney; Dr. D. P. Graddon, School of Chemistry, University of New South Wales and Mr. R. C. Cull, Senior Science Master, Normanhurst Boys' High School. A considerable amount of time was spent by the examiners in dealing with the ten entries. Many questions were asked relative to function, ideas and development of experiments. Suggestions were made in some cases where small improvements could result in better function. In all cases the boys were able to learn a little more about their experiments. Final analysis of results were:

*Sixth Form.* 1st place: The Fuel Cell, T. M. Little & M. Gardner.  
2nd place: Van de Graaf Generator, A. J. S. Loewenthal.

*Fifth Form.* 1st place: Ionisation Potential, J. M. Morris.  
2nd place: Ripple Tank, G. G. Drummond & R. N. England.

*Fourth and Third Forms.* 1st place: Micro Analysis, D. A. Epstein, T. D. Holgate and P. G. Lennox.  
2nd place: Indicator and pH studies, S. J. Gracie.

Some of these experiments will be submitted in the Science Teachers' Association Talent Quest to be held later in the year.

We look forward to a better and larger showing in next year's quest.

J.M.B.

The Sydneian

During this session the usual meals were served in the School Dining Room, a function arranged by the Mothers of boys of Tutor Group 10 and Mrs. Swan. We are grateful for their hard work and willing giving of food and money. Two O.S.U. members in the baking line, Messrs. J. and K. Packham, made their annual donation of bread rolls for the table. This has been a quiet and generous gesture these many years of Science Days.

#### **Professor K. E. Bullen — Open Session 8**

Our Principal Speaker for 1962 gave unostentatious but convincing evidence of his poise of perspective in the mathematical and scientific scene of our times. He began by reviewing the history of Applied Mathematics with its slow emergence from authoritarianism to empiricism. He stressed the sterility of mathematics unrelated to verifiable experience and the futile academic discussions by scholars before Newton and after Archimedes. His address revealed consistence with current physical and chemical practice in stressing the impotence of the 'model', in this case the model mathematical equation, and the necessity of the student realising the limitations of the model and its strict relation to the environment in which it was formulated.

His later exposition showed something of his own special field, how models of the earth's structure were suggested and the consequences of the choice of a particular model tested, leading to a layered structure of the earth's interior. He referred to current weaknesses in the teaching of the sciences in schools and universities and the tendency to be careless of the principles already outlined.

We expected a well-presented and provocative address and were not disappointed, hoping that Professor Bullen will make himself available for the guidance of science teachers in coming conferences on the teaching of Physics.

After taking the Chair of Applied Mathematics at Sydney University, Professor Bullen intensified his researches on the Physics of the Earth's interior, resulting in his election as Fellow of the Royal Society of London in 1949. Other distinctions include his being one of only six Australians who are foreign members of the American Academy of Arts and Sciences and with Sir Macfarlane Burnet, he is one of the only two Australian Associates of the United States National Academy of Science.

## CONFERENCES ON THE TEACHING OF PHYSICS

After nine months of negotiation, the Council of the N.S.W. Science Teachers' Association has agreed that the Sydney Grammar School Science Association should be the co-ordinating body for arranging conferences on the teaching of Physics, following its pioneering work with the teaching of Chemistry in 1958 and 1959.

Approaches will be made to the Universities, the C.S.I.R.O., the Institute of Physics, the Department of Education and others.

R.W.M.

## SCHOOL ACTIVITIES

### SERVICE COMMITTEE

In the Editorial of the 1961 July edition of the *Sydneian* the editor stated that the community, especially the teenagers, should do more to help its various charities, and it was suggested that a school committee be formed to help selected charities in the best way that it could. The suggestion was followed up and a school Service Committee was established under the chairmanship of J. Wood. The Committee met as often as it could in the Headmaster's study to discuss and organize its appeals.

In order that the boys could learn more about the misfortunes of life outside the school and their own homes, they organized a visit to the City Night Refuge and Soup Kitchen. It proved to be a very interesting and worthwhile experience, and it gave them some idea of the tragedy of human failure.

This place is a refuge to men wounded, discouraged and apparently defeated in the battle of life. Breakfast is provided for approximately two hundred men each morning, and in the afternoon the men congregate in the recreation room to book their beds and wait for the evening meal which is served to over three hundred men each evening. Every Wednesday evening they see a film and receive a Christian message.

The Refuge turns no man, whatever colour or creed, away, but the majority of men there are alcoholics and those with a will to fail. There

are other types including unemployables, the sick and the maimed who find it very difficult to help themselves. At first one would think it is a useless task trying to rehabilitate these kinds of men, but in actual fact the Refuge staff have experienced the great joy of helping men get on their feet again.

The Committee also paid a visit to the Smith Family building in Crown Street and saw the fantastic array of clothing and furniture, enough to furnish a number of complete homes. This organization does a great deal of good for the poor people of Sydney. It clothes them with complete winter outfits, and with anything else they need, completely free.

Following this the Committee held a clothes appeal within the school which was a tremendous success. It was also successful from the point of view that practically every boy in the school gave a small bundle of clothing instead of it all coming from only a few, as is often the case. The clothing was divided equally between the Smith Family and the Red Cross. At the end of the year a food appeal proved to be a success.

This year a new Committee has been formed with R. O. Bourke as the Chairman, and R. Schilizzi as Vice-chairman.

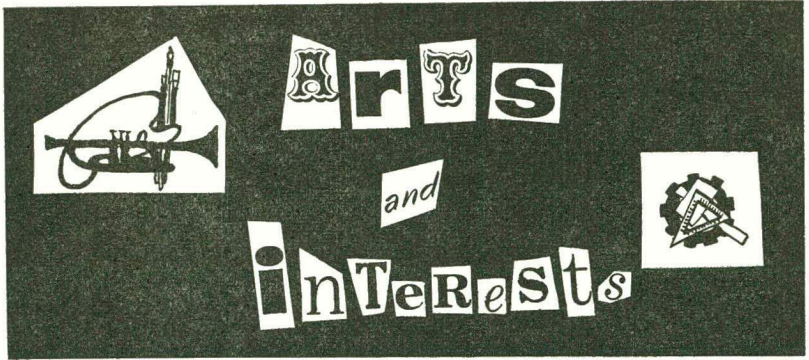

The Committee extended an invitation to the children at the City Mission's home at Cronulla, inviting them to a barbecue picnic at the Royal National Park, near Sutherland. They accepted and the 24th April has been set aside for the outing. The Committee raised the sum of £42 for the picnic from the boys of the school, and the committee extends its sincere thanks to them.

The Committee is now in the process of organizing a winter clothes appeal for the North Shore and Eastern Suburbs districts. This is part of the Lord Mayor's Winter Clothes Appeal and is indirectly connected with the Smith Family.

The boys in each district are going to form a group, and then working as a team, make a door to door clothes collection. This is a very big undertaking but the Committee is confident that it can be done and special arrangements are being made with the Smith Family in connection with this.

The Service Committee has attracted wide interest in the school and so much so in the lower school that it has been necessary to form a Junior Service Committee. The Service Committee has made an interesting start, which could be carried on to a worthwhile ending.

R.O.B.

At the end of last year it was decided that more should be done in the school to help boys to appreciate and enjoy certain intellectual and other valuable activities which are not adequately covered by arrangements already existing within the school e.g. class work, sport, cadets, and other interests. Examples of some of the activities under consideration are drama, music, visual arts, philosophy, archaeology, films, philately, carpentry, metal work and so on. Some of these activities already have a well-established place in the life of the school due mainly to the enthusiasm of masters and successive generations of Sydneians who have given up much of their spare time to them. It is felt however, that what is already going on should be given more time and opportunity and that instruction in and encouragement of additional activities should be started.

As a result a committee of masters was appointed to investigate the problem and Mr. Searle was appointed Master in Charge of Arts and Interests with the task of co-ordinating and encouraging these activities in consultation with the committee, in the same way as the Sportsmaster co-ordinates the various sporting activities of the school.

The scheme is still in its infancy so that it would not be appropriate at this stage to do more than report without comment what has so far been done and what is planned for the immediate future.

In order to encourage an appreciation of good music a short musical recital is held at the end of each weekly assembly on Friday afternoons. The series was started by Mr. Gordon Watson, the celebrity pianist, who played works by Mozart, Liszt and Poulenc. Another visiting

artist was the Old Sydneian, David Gray, who sang some songs from light opera and similar sources. From within the school we have had recitals by Mr. Riley who played two pieces by Chopin, and by Graeme Teale who was the first member of the school to perform at one of these recitals when he played two works for us on his violin.

On Wednesday 9th May an Arts and Interests Day is to be held when all boys in the school are invited to bring in something which they have made themselves, whether it be a painting, a photograph, a model plane, a poem, a piece of pottery, a collection of stamps or anything else, and put it on display in Big School so that others may derive interest and perhaps inspiration from seeing what their fellows can make.

Next term a series of Arts and Interests Courses will start in the Fifth and Third Forms. There will be a choice of six courses in each of these forms and one period each week will be devoted to them.

At the end of each week an Arts and Interests Bulletin is produced which provides information about plays, films, radio and T.V. shows, art exhibitions, any performances or displays which have merit from an Arts and Interests point of view and which are going on in Sydney during the current week.

Other activities are under consideration or are about to be started. A report on these will be included in the next issue of the *Sydneian*. Meanwhile thanks are due to the many masters and boys who have given time and thought to getting this new project under weigh.

M.S.

## DEBATING

Debating seems to be following Parkinson's Law, with activities expanding to fill everyone's spare time. Fortunately the work done seems to be of value, and has provided masters and boys with considerable enjoyment. Certainly this scope and variety would be impossible without the help of Mr. Ferraro and Mr. McGuinness to whom Grammar debaters are deeply indebted.

After school, on Tuesdays to Fridays, there has been the usual team debating and occasional oratory practice which has been assisted by the tape recorder. It is thought that hearing one's speeches replayed is of more value than a lengthy adjudication. There have also been several debates with only five minutes preparation. There have been round-table discussions, not necessarily for debaters, between boys

from the third form upwards, on topics such as 'The older generation and us', 'Better Red than dead', 'Space research', 'School discipline', and on particular S.M.H. editorials. On two occasions a fervent discussion has led to a prepared debate on the same topic and with the same speakers. Messrs. Harrison, Nelson and Hill have assisted as chairmen, and Mr. Lloyd adjudicated an important debate. At last the valuable advice that Mr. Lloyd always gives has been embodied in a handbook on debating which all our debaters should obtain.

There have been two inter-school debates so far. At the first, against S.C.E.G.G.S., Darlington, in March, our representatives were J. and P. Goodman, Baxter, Sharpe, Sonnabend and Mutton. Although our fair opposition were members of a newly formed debating club, their oratory called in question the time-honoured appellation of 'the weaker sex', and in providing afternoon tea they proved themselves far superior to Sydneians. As a final comment on this debate, it is worth noting that Grammar boys, whose heavy obligations usually prevent them from attending G.P.S. debates, were on this occasion quite willing to be present as audience.

Our Riverview debates are being held in two sections in 1962. The Junior section will be held in second term, the five Upper School debates were held on April 6th. Our speakers were Edmonds, Windeyer, Clark, Kelen, Hlavaty, Goodman, Baxter, Campbell, Sharpe, Bush, Tall, Turner, Rybak, Hedberg and Flegg. The fact that we won only two of the five debates certainly testifies to the impartiality of our Old Sydneian adjudicators, Giles Rowling and David Stephens. Mr. Gallagher, Father Jones and the boys of St. Ignatius', again must be thanked for a delightful evening. We must also thank those parents who transported us to the wilds of Riverview.

All these debates, within and without the school, are helping in the selection of our G.P.S. team, for which there are some strong candidates.

The Middle School has some vigorous speakers whose enthusiasm seems never to be lacking. The Middle School Competition, which will be decided by the 3A v 4A final, has been a very interesting one. 4B lost to 4A by only two points, 4E had two creditable wins, and 3A, with an extremely questionable definition, were very lucky to beat 3C1. 1A is also providing teams and an occasional audience.

Open debates have been held at irregular intervals, but the subjects and speakers have been good. This is largely due to the work of the

committee (and especially one member, Bush). Messrs. Nelson and Riley have both been opening speakers. It was significant that, with the subject 'In this age of sex equality men should keep their seats', the Affirmative, despite two excellent speakers, could muster only four votes. Apparently the age of chivalry is not dead. R.C.K.

## MUSIC IN THE SCHOOL

This year has seen a considerable interest in music in the school thanks mainly to the provision of time during Friday assembly for live performances by musicians. The series during first term was opened by Mr. Gordon Watson, an Australian pianist of world renown who is visiting his home country. Other outside visitors have been Mr. David Gray, tenor, an old boy of the school who has recently been playing a leading role in 'My Fair Lady', and Mr. Anthony Morrison, guitarist, another Australian who has spent two years in Spain. In addition to these artists, Graeme Teale of the Fifth Form delighted us all with his violin and Messrs. Riley and Holland have played the piano for us.

A recorded music group has been formed and meets regularly during Thursday lunch time in C2 room to listen to a wide variety of popular classical music. Two groups in the Third and Fifth Forms are at present engaged in Arts and Interests courses on musical topics. The Choir has been restricted to Lower School boys this year and a keen group practises regularly on Mondays and Tuesdays.

The singing in assemblies has been greatly improved by the cooperation of some hundred boys who gather on Wednesday mornings to learn the hymn for the next Assembly and who lead the singing from the back of Big School. R.J.H.

## YOUNG ELIZABETHAN PLAYERS

On 18th February, 1962 in the Big School-room the Young Elizabethan Players performed two of Shakespeare's plays, 'Julius Caesar' and 'King Henry V'. These are the plays being studied this year for the Leaving and Intermediate Certificates respectively.

As there were only seven actors in this group each had to perform several parts in the plays. A change of costume for these actors merely involved changing a robe or perhaps a crown. The scenery, also, was very limited. Under such conditions it required considerable skill to

Some old boys of the club are also doing well. Richard Gastineau-Hills and Mark De Groen finished third equal in the Australian Junior Championship. Richard also finished first equal in the State Junior Championship but was defeated in the play-off. His older brother finished fifth in the State Senior Championship. These two brothers won two lightening competitions held at Cranbrook at the end of last year.

This term a chess competition was held in which forty boys entered. The competition was played at lunch times, in direct opposition to cadet meetings, rifle club meetings and other assorted moots. It took less than six weeks to complete the twelve rounds. The tournament resulted in a tie for first between Eric Lippey and Nick Fischer. The award for the best play by a junior went to John Milston and for the best play by a first former to Roger Stedman.

The Chess Club is indebted to Mr. McGuinness for his magisterial interest in the language, basket-ball and tap-dancing ability of our supporters. He has been active in forming an almost voluntary floor sweeping service. To all boys who participated we wish many happy returns.

It is hoped, with the new term starting, that there will be keen rivalry for vacancies in our five or six teams.

R.H.R.

## THE ART ROOM

As a sudden cultural interest has hit the school and the phrase 'Arts and Interests' is becoming more and more familiar, every day many boys are asking, 'What goes on in the Art Room?'

The Art Room, formerly Z Room, is now very interesting and gay. It is adorned with paintings and clay pots and materials all waiting to be used in the various crafts done under the guidance of Mr. McAuslan. Art as a subject can be taken for the Intermediate and Leaving Certificates. It covers the history of art, architecture and sculpture together with practical work in various crafts. That is why the Art Room looks like a combination of classroom, pottery and art gallery.

For pottery there is a wheel and a kiln. It is common at lunchtimes, or after school, to see a pupil busily shaping a bowl or, perhaps, a jug. Another activity is that of silk screen printing, where printing is

done on fabric. In this field students have made curtains, table-mats, and covers for class magazines. Linocutting, another skill that is taught, is a craft in which block printing is done from linocuts, not only as an art form, but also on fabric. There is also some mosaic work attempted, done mainly from cut paper. Oil painting and pottery are done in classes held after school. The lower school have periods set aside for art.

Each year Mr. McAuslan supervises the award of the Edward Carter Memorial Hobbies Prizes, which are given for constructive talent. Last year it was won by Richard Roe for a collection of uniforms. In the past it has been won by boys with such hobbies as gardening, wrought iron work, painting, moccasin making and orchid growing.

And so, every day, 'Z' room is the playground of many boys who busily create almost anything they can, that is slightly artistic.

D.R.P.

## PHOTOGRAPHY

Upwards of twenty boys, drawn from all forms, have met during lunch hours to hear lectures by Mr. J. Richardson of the Kodak School Lecture Service. In his monthly visits he has given talks on the history of photography and on some points to watch out for when actually taking a photograph, each being well illustrated by interesting and sometimes amusing slides. At the April meeting, due to take place a few days after the time of writing this report, there will be a practical demonstration of the processing of films.

Though it is necessary to use, for such a demonstration, film that has already been processed, it has been found that in the Science Lecture Theatre where these meetings are usually held, it is possible to darken the room enough to make actual enlargements from negatives, provided that care is taken to keep sensitive material covered as much as possible. Of course, little would be gained by succeeding in darkening the place enough to handle films there, for what is the point in a demonstration that not even the demonstrator can see? However, we are indeed fortunate in having available the facilities of the Science Lecture Theatre.

Much of the material dealt with at these meetings is of a very elementary nature but this is done so that boys new to this work may have a chance of learning the rudiments of it. Not all meetings will be devoted to such material. Later it is our intention to go more deeply into the problems of photography and enlist the services of various members of staff and also of the keen photographers among the senior boys. Some form of photographic competition within the school has been suggested, possibly in conjunction with some form of excursion.

Boys, who have in mind any particular activity in which they would like the photographic group to engage, should come forward and make their ideas known.

E.J.E.

## CRUSADERS

Since the beginning of the year our Crusader Group has been progressing well. The attendance at the Wednesday meetings have been fifty per cent higher than those of last year, and attendance at the Bible studies and Prayer meetings have also been higher than previously. The increased numbers are largely because we have had very interesting speakers at the Wednesday meetings, which are held during the lunch-hour in the Science Auditorium. Among the speakers have been two missionaries who spoke and showed slides of their work in Africa and North Borneo; an Archdeacon and the Dean of a Theological College. Their subjects have ranged from 'Christianity, a Man's Religion' to 'The Temptations of Christ' and 'Why I Believe in God'.

We must thank Mr. Little and Mr. Macdonald for leading the Bible Studies this term and for the hard work they put into preparing them. At present Mr. Macdonald is leading a very interesting discussion on the subject 'Part of the Team' with the sub-title 'The Christian and . . .'. So far we have discussed 'The Christian and His Local Church' and 'The Christian and His Home'.

Last Christmas quite a number of boys from all sections of the school attended the Crusader Camps at Lake Macquarie, where, I am sure, they had a good time. In the coming holiday, twenty or so boys from this school will be cycling to Orange and back on the 'Bike Hike', and we wish them good fun.

R.T.S.

# DUKE OF EDINBURGH'S AWARD NOTES

At the present time fifty six boys are participating in the scheme. Among them are two Old Sydneians, one doing his award by correspondence from Victoria.

A number of boys are nearing the completion of their tests in all classes of awards. Twelve boys have received Bronze Awards and one has received a Silver Award. They are Ross Mathiesen from Giles Group; Christopher Lee, Michael Dillon (Silver) from Chase Group; Julian Golding from Group Three; Nicholas Vine-Hall, Geoffrey Butler, Colin Bright, Guy Huntley from Marks Group; Peter Jennings, Robert Locke, David Begg, John Steel from Barton Group; Adrian Warat from School House.

By March 7 this year twenty expeditions had been completed. These include three by canoe and two by cycle. The Hawkesbury River and Commodore Heights have proved popular areas for expeditions as has National Park, the South Coast and the Blue Mountains. A trial Gold expedition took place in the Snowy Mountains and one boy is doing his trial Silver expedition in Queensland during a school excursion to Carrington National Park.

Anyone wanting information about the scheme may obtain it from Mr. Cooper, Mr. MacGillivray, or Michael Dillon. Qualifications and details of the Awards have been outlined in a previous *Sydneian*. In most cases boys fourteen or over begin at the Bronze level but First Class Scouts, fifteen or over, may try directly for the Silver Award.

Several courses are being run in conjunction with the scheme. The St. John's Ambulance Association is holding two courses in First Aid and it is hoped that the New South Wales Forestry Commission will conduct a course in Bushfire Prevention and Control. In March the Royal Life Saving Society demonstrated Mouth to Mouth Resuscitation.

Mr. MacGillivray this year joins Mr. Cooper in the involved task of supervising the scheme. Michael Dillon is assisting them.

M.C.D.

## R.A.N.R. CADETS

This year's training has begun well for our Reserve Cadets. With only eight returning cadets, fourteen new recruits were accepted making a total of twenty two. This number may be revised at a later date.

The usually onerous tasks of medical inspections and kit-up were executed smartly and so full training was started on the third week of term.

Lt. Lattin, R.A.N., our training officer, spent the first few parades with new recruits showing them over the depot and teaching them drill. The combined force has since then learned the elements of sailing and pulling and how to rig a whaler. This has been accomplished under the guiding hand of P.O. Jamieson.

We look forward to a fruitful winter term.

A.L.

## CADET CORPS

The Cadet Corps looks forward to a happy year with the usual enthusiasm. We welcome Captain K. M. Saxby of the Sydney University Regiment, an Old Sydneian, who is now a master at the school. Captain Saxby will take over Captain J. H. Moore's job as Group Commander of Sp and HQ Coys. Captain Moore has taken leave and we thank him for his help and particularly for his training programmes. We farewell Major J. Godwin M.B.E., the Battalion Commander who has always been so helpful and co-operative and we welcome his successor Captain B. J. Heenan. WO II L. Galloway from 7 Cadet Battalion is our new Warrant Officer.

The Ceremonial and Inspection by the Honorary Colonel of the Australian Cadet Corps (N.S.W.), Brigadier F. G. Galleghan, D.S.O., O.B.E., I.S.O., E.D., on 28th October 1961 was held at Weigall. The Brigadier presented all the Cadet Under Officers with their certificates of appointment and made the following presentations: Cpl. G. R. Bushby, 1 sec 4 Pl., The Mitchell Trophy for the best L.M.G. section; CUO J. N. Maltby, 4 Pl B coy, the Walcott Cup for the best platoon in A and B Coys.; CUO M. S. Turner, MMG Pl, the Morgan Shield for the best platoon in Sp and HQ Coys. Cadet W. H. Norman the Fussell Cup for the most proficient cadet in HQ and

Sp. Coys; CUO J. C. Ancher, O.C. B Coy. and CUO R. B. Halliday Aslt. Pnr. Pl., the Henry Sword of Honour. Also S. Sgt. R. P. Howell was presented to the Brigadier for meritorious work in the Orderly Room.

Various courses were held over the Christmas holidays and the results were outstanding. The number attending, the keenness and the high standard attained is indicative of the spirit and enthusiasm of members of the corps. Sgt. J. J. Barkell was placed second and Cpl. M. B. Dally sixth out of 155 cadets on Phase One of the CUO's course while WO II R. W. Hindmarsh was first out of 260 cadets on Phase Two. The results were equally good in the Senior NCO's course Cpl. W. L. Fowles gaining first position out of 270 cadets.

An excellent Junior NCO's course was held in December by the unit at Weigall under Captain D. E. Lloyd, Captain R. G. Adcock and WO II Galloway.

There was an all time record number of applicants — 89, and thus there was good competition. Results indicated this and it was therefore decided that not only would section commanders be appointed but also second-in-commands. In this way all those who deserved to pass gained one or two chevrons. Cadet R. Bacon topped the course.

The following senior promotions were made at the beginning of the year and the organisation of the unit is as follows:

#### **A Coy**

Senior Under Officer and OC A Coy. CUO T. C. Healey; Second I/C CUO D. W. Horsfield; CSM R. E. Bradley; 1 Pl. CUO R. W. Hindmarsh; Sgt. W. L. Fowles; 2 Pl. CUO P. W. Glasson; Sgt. R. L. Hill; 3 Pl. CUO C. G. A. Pearce; Sgt. A. D. Warat.

#### **B Coy**

OC B Coy. CUO J. N. Maltby; CSM J. F. Cartwright; 4 Pl. CUO R. F. Windeyer; Sgt. P. C. Taylor; 5 Pl. CUO J. J. Barkell; Sgt. W. G. S. Boyd; 6 Pl. CUO G. R. Bushby; Sgt. G. C. Bevan.

#### **SP. Coy.**

OC Sp. Coy CUO R. O. Bourke; CSM G. J. Kelen; Mor. Pl. CUO P. M. Thompson; Sgt. W. L. Gengos; MMG Pl. CUO D. B. Mac-Millan; Sgt. L. D. Clark; Aslt. Pnr. Pl. CUO J. D. C. Willis; Sgt. G. R. Hobbs.

### HQ Coy.

OC HQ Coy. CUO D. R. Parker; CSM P. H. Guinness; Sigs. Pl. CUO A. E. L. King; Sgt. P. W. Austin; Int-Med. Pl. CUO M. B. Dally; Sgt. G. E. Player; Band Drum Mjr. I. G. S. Blair, Sgt. B. M. Potter; Sgt. M. J. Soulos.

Ast. Adjt. QM, CUO P. E. Jenkin, Sgt. S. H. Scarlett.

RSM, P. R. Smith.

RQMS, W. G. Sharpe.

Training is continuing with an emphasis on basic infantry work for all companies. The unit will move to Bivouac at Greenhills on 26th to 27th April. The main aim here will be to give cadets experience in living in the field and to teach elementary field-craft.

There are three Old Sydneians at Duntroon and Sgt. R. M. Keep graduated last year. Captain J. Fletcher G.M. and Lieutenant D. Fussell are serving in Malaya and Lieutenant D. Ford G.M. is there with a British Army unit.

T.C.H.

### A.T.C. NOTES

No. 6 Flight looks forward to a prosperous year in 1962 under Flying Officer B. M. Randall, an old boy of the school, who took command of the flight after the retirement of Flight Lieutenant L. W. Webster in the latter part of 1961. Padre L. O. Scott is the Adjutant, and Flying Officer H. O. Lynch is Armament Officer. The lecturing is being done by the Officers, while the cadet NCO's, under the watchful eye of Cpl. N. Whitehead of Headquarters ATC staff, instruct in drill.

The flight WOD is Sgt. Gould, while Sgt. Madden is Flight Sergeant of the proficiency stage cadets, and Cpl. Madden the NCO in charge of the basic stage cadets. The Orderly room and Equipment NCO is Sgt. Andrew aided by LCA's Langemyr and Strath.

Thirty new cadets were enlisted this year, bringing the flight up to its full establishment; it is unfortunate that such a large number of applications had to be refused.

During the Christmas holidays the flight was well represented at the general ATC camps. Sgt.'s Dutton, Gould and Andrew were the

senior NCO's for the camps at Williamstown, Richmond and Canberra; at the same camps approximately half the cadets of the flight attended. The usual general service training was conducted at these camps; armament, drill, aircraft recognition, physical and recreational training, flying as well as extensive training in ground defence against nuclear warfare.

During August 1962 there will be a camp for all members of the flight, at the same time as the army cadets. This is something new for this flight to have a 'Flight' camp. It is anticipated that it will prove more efficient and fruitful than the old method of splitting the flight into smaller groups.

On the 3rd and 4th of March this year, Flying Officer Randall and Sgt.'s Gould and Andrew, Cpl. Madden, LAC's Bourne, Cameron, Langemyr, Mullins, Maver, Burke, Epstein, Dengate and Wirrell attended a week-end camp at the ATC School of Ground Defence at Camden. The training by day included rope climbing, foot and rifle drill, personal concealment, manoeuvres and P & RT, while the night was occupied by guard duty and a manoeuvre. The cadets who attended this camp are indebted to Squadron Leader Edwards (who is well known to all former members of the flight) and his Instructors for the efficiency of the running of the camp and the very high standard of food served. Flying Officer Randall is a permanent instructor at Camden. All the cadets were very tired when they returned home on Sunday afternoon, but felt that they had learned a lot in a very short time.

# CRICKET

## THIRD TERM, 1961

### FIRST ELEVEN

There were only two competition matches in the Third Term, because the King's match was washed out in the November deluge. This watery occasion brought the Grammar Eleven its second draw during the year and deprived it of an important opportunity to become runners-up. The Competition table reads as follows:

	WO	WI	D	LI	LO	Total
St. Joseph's	5	1	1			60
The Kings	4	1	1		1	50
Grammar	4		2		1	46
Shore	2	2	1	1	1	38

Both matches played in Third Term were won by an innings and ninety or so runs. They included two picturesque innings by Horsfield and some savage leg-spin bowling by Wilson.

Cattlin was made captain of the G.P.S. First Eleven, like Hugh Munro before him, after three most valuable years in the School Eleven (including two as captain). His record of only three first innings failures, as an opening batsman in twenty-one G.P.S. matches, is rarely seen. Few have contributed as much to the School's success in cricket in recent years.

Wilson took 15 wickets for 74 runs in the last games and went on to dominate the bowling for the G.P.S. Eleven in the University match, where he took 7 for 22. Serious practice and a fine bowling temperament have won him good control of a leg-break and wrong 'un, which both carry a great amount of spin.

Horsfield also played in the G.P.S. Firsts. Stevens was 12th man for the Seconds, having scored heavily in the Third Term.

P.G.Y.

Horsfield . . .	21	5	44	4	11.00
France . . .	56	20	138	7	19.71

## FIRST ELEVEN COMPETITION MATCHES

v. THE SCOTS COLLEGE at Weigall, 21st-28th October.

Grammar won outright.

Grammar won the toss and sent Scots in. McConnell opened the bowling but Kenny, bowling into a southerly wind, took a wicket in his first over, 1 for 2. McConnell was replaced by France after Kenny, who was swinging the ball both ways, had claimed his second wicket, 2 for 29. A catch by Wilson off France made the score 3 for 51 but Wilson, who replaced Kenny, found the blustery wind troublesome. However Horsfield, with his accurate left arm over the wicket deliveries, had immediate success with 2 wickets in his first over. At lunch Scots were 9 for 84 and on the resumption of play were quickly all out for 85.

Cattlin and Ancher started confidently with Ancher batting hard, which eventually resulted in his being caught 1 for 34. Horsfield, after an early chance, settled down and played some hard cover drives and cuts, he and Cattlin taking the score to within 2 runs of Scots total. Later Stevens combined with Horsfield to score at a fast rate bringing 200 up in even time at 5.15 p.m. To everyone's dis-

appointment Horsfield, after an excellent stand was bowled by Lindsay for 99, which included 11 fours.

For an hour the second day Stevens never let the bowlers settle down and scored an unfinished 69, including 10 fours, the Grammar total reaching 268.

McConnell and Kenny again opened, McConnell bowling more efficiently this innings although not securing a wicket. Kenny took 2 wickets in his third over, 2 for 19, and Wilson, who had replaced McConnell, with the wind, claimed one although his length was faulty. However when Wilson was switched to the other end after lunch he was a different bowler and finished with 7 for 36 after his first wicket had cost 24 runs. Scots again totalled 85.

v. ST. IGNATIUS COLLEGE at Weigall, 4th-11th November.

Grammar won outright.

Grammar again sent the opposition in, but after an early wicket to McConnell, the fast bowlers, although accurate, could not move the patient Riverview batsmen. After an hour Cattlin came on into the breeze and curving the ball in the air before the off-break tempted the batsmen to leave the crease. Stevens, close in on the off side, took two good catches and in half an hour the score changed from 2 for 45 to 6 for 65. Cattlin 5 for 33 off 8 overs. Just before lunch Kenny replaced Cattlin and took two wickets in his first over, leaving Riverview 8 for 79 at the interval.

Grammar's innings started at 1.52 p.m. The openers were a little impatient and both out with the score at 22 but Storey and Horsfield settled down to take the score to 4 for 72. Horsfield and Stevens again showed their form with strong hitting and after a 50 partnership Horsfield, 72 with 13 fours, was caught. Stevens and Wilson combined late in the afternoon and were the main ones in taking the Grammar total to 239.

Riverview started their second innings at 10.15 a.m. on the next Saturday. France opened the bowling, with a following southerly wind, partnered by Kenny but their success was limited. As soon as the shine was off the ball the spinners took over, 2 for 38. Wilson's varied flight and direction of spin always had the batsmen guessing

while Cattlin maintained the pressure at the other end. Riverview's innings folded up to finish before lunch for 62.

Following the established rule a practice match was played in the afternoon.

v. THE KING'S SCHOOL at Parramatta, 18th-25th November.

Match drawn.

Owing to heavy rain during the week play was impossible on the first Saturday while on the following one although the wicket was playable parts of the oval were under water from the previous day's storms. The opportunity of improving our position in the competition was therefore lost.

### Practice Matches

#### Third Term, 1961

v. BARKER COLLEGE, 23rd September.

S.G.S. — 1st Innings 185 (Horsfield 52, McConnell 36, McCurdie 32).

B.C. — 1st Innings 5/191 (Kenny 2-31, Cattlin 2-30).

v. I. ZINGARI, 30th September.

S.G.S. — 1st Innings, 67.

I. ZINGARI — 1st Innings, 83 (Horsfield 5-10, Wilson 4-25).

S.G.S. — 2nd Innings, 7-93 dec. (Horsfield 33).

I. Zingari — 2nd Innings, 6-82 (Horsfield 3-11, Wilson 2-34).

v. T.S.C. O.B.C.C., 2nd October.

S.G.S. — 1st Innings, 7-189 dec. (Stevens 69 n.o., Horsfield 34, McCurdie 22).

T.S.C. O.B.C.C. — 1st Innings, 141 (Horsfield 3-13, Kenny 3-35, Wilson 3-41).

R.J.W.C.

### SECOND ELEVEN

The 2nd XI completed the 1961 cricket season in fine style to become premiers for the second year in succession. Outright wins were notched against Scots and Riverview, followed by a first innings win against King's in a match curtailed by rain to one day. It was a strong, well-balanced side and much of its success was due to Blair, who, despite a disappointing term as far as his own batting was concerned, led the team keenly and thoughtfully and gave a sound performance as wicket-keeper.

Of the batsmen, Ellis scored consistently, his personal highlight being an excellent 103 against Scots; Robertson took some time to settle down as an opening batsman but his 32 not out on a turning wicket against King's was, technically, the best innings of the term; Lesnie and Munro played many vigorous innings in the middle of the order, and Taylor, after a poor term, rounded off his batting career at Grammar with a swashbuckling century in 64 minutes against Trinity.

The opening bowlers, Munro and Barkell, bore the brunt of the bowling and did a fine job. They were efficiently backed up by McMillan, Long, Ellis, Dezarnaulds, Anderson, good catching and ground fielding.

The following boys played in the competition team: J. D. Blair (Capt.), J. A. Anderson, P. D. Dezarnaulds, P. C. Ellis, W. M. France, H. D. Lesnie, D. A. Long, D. B. McMillan, H. D. Munro, I. G. Robertson, J. R. Taylor.

The team against Trinity Grammar School included I. G. Blair and B. R. Kinsey.

K.B.P.

### THIRD ELEVEN

Results of G.P.S. matches were:

S.G.S. 8-206 (Blair 80, James 36) d. T.S.C. 91 (Kinsey 4-20, James 4-19) and 68 (James 4-20, Kinsey 3-18).

S.G.S. 187 (Cartwright 51) and 5-64 d. S.I.C. 168 and 144 (James 6-29).

The team was J. Cartwright (Capt.), I. Blair, J. Bumpstead, G. Bushby, W. Carson, G. Green, R. James, B. Kinsey, J. Maltby, P. Thompson, J. Wood.

### OTHER TEAMS

Colts A played as follows:

S.G.S. 7-168 (declared) — Lomas 76, Lever 23, Sare 22, and 2-112 (declared) — McGilvray 54 n.o., Arnott 28 n.o., defeated T.S.C. 103 — Mockbell 4-27, Lever 3-21 and 4-72, Sare 3-22.

S.G.S. 150 (Evans 43) and 2-34 defeated S.I.C. 97 (Sare 4-21, Dettmann 3-25) and 7-126 (Strath 3-47, Sare 3-21).

v. T.K.S. and Cranbrook — no play.

v. Trinity Grammar School. S.G.S. 5-130 (declared) — McGilvray 28, Lomas 22 defeated T.G.S. 62 (Wilson 7-6).

Colts B report only one defeat in the year and make special mention of the captaincy of S. Murray, the bowling of J. Warman and the batting of W. Webb.

Match results: S.G.S. 102 and 4-39 defeated T.S.C. 57 (Strath 5-8) and 5-50.

S.G.S. 111 and 2-96 defeated S.I.C. 142 and 2-52.

S.G.S. 5-111 defeated T.G.S. 56.

Under 14A. The team: J. Tait (Capt.), S. Schilizzi, M. de Saxe, A. Terrey, P. Terrey, G. Keeler, R. Bevan, P. Caisley, G. Wirrell, S. Barnes, P. Hardy, P. Radford, G. Smith, all of whom are reported promising, with special mention of Smith's innings against Scots.

Results:

S.J.C. 102 (Barnes 4-19) defeated S.G.S. 66 (Schilizzi 21 n.o.)

S.G.S. 170 (Smith 76) defeated T.S.C. 51 (de Saxe 4-30, Wirrell 4-20) and 101 (Keeler 4-11).

S.G.S. 8-192 (Tait 53, P. Terrey 29) defeated S.I.C. 87 (A. Terrey 5-28).

T.G.S. defeated S.G.S.

Lower School A won 2, drew 2 and lost one match. The best of good performances were the batting of Barnes and Anderson and the bowling of Chadwick and Hindle. Anderson was a particularly sound captain and Barnes scored a bright 82 against Trinity in 62 minutes.

Lower School B defeated Shore, Scots, St. Ignatius and Trinity and lost to Newington and St. Joseph's. Names of leading performers were Malone, Hyde Page, McDowell, Sheidow, Gregory and Lewis.

Lower School C won 4 and lost 2. Names are Mountford, Gilder, Conway, Stewart, Critchley, Boyd, Clubb and Howard.

## FIRST TERM, 1962

### FIRST ELEVEN

After four rounds of the 1962 Competition, the First Eleven is in second place close to the leaders. The Table reads as follows:

	WO	WI	D	LI	LO	TOTAL
St. Joseph's	4					40
Grammar	3	1				37
Newington	2			1	1	21
Shore	1	1			2	17
Scots'		2	1		1	17

Possibly the best way to account for this state of affairs is to refer to the Melbourne Grammar match, for the innings victory over these ancient and respected rivals displayed very distinctly the resources of this year's Eleven. Horsfield, who has had a very good summer with the bat, went for 74 with the score at 6-131, from which there was a recovery to an innings total of 214; this pointed to the depth, or quantity, of batting, which made good scores from unpromising positions against Newington, Old Sydneians and Shore. In the second place, Kenny produced a quite remarkable bowling performance, to which other bowlers, coming and going at the other end, gave reasonably inexpensive support. Thirdly, there were many fine catches close to the wicket, another feature of this year's play; however, the slips, who have been outstanding — Hunt has ten catches in four matches — had nothing to catch in this match. Storey directed the operation with the thoughtfulness and fine judgment which have earned for him the whole-hearted support of his team and an honourable place in a fine succession of captains. All look forward to the settlement with St. Joseph's on 20th and 27th October next at Weigall.

P.G.Y.

Munro . . .	39	14	76	5	15.20
Horsfield . . .	35	7	105	5	21.00

## EARLY MATCHES

v. I. Zingari, at Weigall, 10th February.

I. Zingari 163 (Kenny 4-37) drew with Grammar 6-153 (Ellis 51, Horsfield 29, Storey 26, Munro 24).

v. O.S.U., 28th February.

School 6-204 closed (Ellis 102 retired, McCurdie 44, Robertson 19 not out) defeated O.S.U. 198 (Kinsey 5-35, Kenny 2-58).

## COMPETITION MATCHES

v. NEWINGTON at Stanmore. 17th-24th February.

The first day of this match was completely washed out and the second day's play began three-quarters of an hour late on a wet wicket. Newington won the toss and elected to bat. At lunch they were 8-26, Kenny having taken 7-11 after a wonderful exhibition of bowling, helped by magnificent fielding. Newington were dismissed shortly after lunch for 42 (Kenny 7-26, Kinsey 2-3).

Grammar batted on a wicket, still damp and difficult. Horsfield and Storey came together at 2-3 and Horsfield was dismissed for 21, after a valuable innings at 32. Runs came steadily but too slowly due to accurate bowling from Swan (4-30). Grammar declared at 5-105 at 4.35, Storey with a valuable 33 and Munro 24 the not-out batsmen.

Newington batted with 45 minutes remaining and at stumps were 7-17, due to fine bowling by Kenny 4-12, Kinsey 2-1.

### v. THE KING'S SCHOOL at Weigall, 3rd-10th March.

Won outright.

Grammar won the toss and sent Kings in to bat. Kings were dismissed shortly after lunch for 137, Kenny taking 5-50 and Kinsey 3-33. Grammar then batted and after being 2-1, Horsfield and Storey once again retrieved Grammar from a difficult position. Horsfield went for 33 and Storey and Munro became associated in a long partnership, undefeated at the end of the first day's play, when Grammar were 3-175.

The second day's play began with Grammar losing two quick wickets, Storey 67 and Munro 63. However, Stevens scored 41 to make Grammar's total reach 242. Brazier was King's most successful bowler, taking 6-55.

Kings batted as the weather became threatening; they finished with 113, Kenny 5-57 after rain had interrupted play once.

Grammar gained the necessary runs to win outright in drizzling rain.

v. SYDNEY HIGH SCHOOL. 17th-24th March.

High batted first and offered no resistance to Kenny who took 6-20, being all out for 35.

Grammar batted and scored 147 for 4 Ellis (31), Storey (40) and Munro (31 n.o.) being seen to advantage.

High were sent in and at stumps were 3-97 after batting very stubbornly. They continued to bat that way till just after lunch, being dismissed for 188. Storey was the most successful bowler with 4-50.

Grammar batted again, needing 76 to win outright, runs which were quickly obtained. Munro finished the match with a towering six.

v. S.C.E.G.S. at Weigall, 31st March-7th April.

After Shore's close loss to other leaders, St. Joseph's, a close match was expected and was played, Grammar winning outright with two minutes to spare. Shore batted first and were dismissed shortly after lunch, Kenny being the most successful bowler with 4-47. Grammar batted and at stumps were 6-140. McCurdie scored a very valuable 67, and Horsfield 44.

Play resumed on the second day with Hunt (18) and Robertson (33) consolidating Grammar's position. Grammar were dismissed for 199. Shore batted again and were dismissed for 125, Kenny getting 5-36 and Storey 4-25. This left Grammar 47 runs to win in the remaining 30 minutes. Grammar did this with two minutes to spare.

v. M.C.E.G.S. at Weigall, 12th-13th April.

Grammar were sent in to bat on a wet wicket and were dismissed about 3.30 p.m. for 214. For Grammar Horsfield scored a valuable 74, Hunt 22, Robertson 26, Munro 28.

Melbourne on a wicket which was still wet and in conditions quite foreign to their experience, floundered against excellent bowling by Kenny. At stumps on the first day, Melbourne were 4-39.

On the second day, Melbourne, batting on a damp wicket, were dismissed for 97 before lunch. Kenny took 7-44. Melbourne followed on and collapsed for 111, Kenny taking 8-34, giving him 15-78 for the match, an excellent performance.

## 2ND XI NOTES

The 2nd XI has had a successful term and, with two outright wins against King's and High and a first innings win against Newington to its credit, is at present leading St. Joseph's by one point at the head of the competition. The one defeat of the team came at the hands of Shore, when an excellent eighth wicket partnership of 70 lifted their score from 7 for 81 to enable them to win by 3 wickets on the first innings.

The team's batting was, ironically enough, at its best in this last game against Shore, when Anderson, Dezarnaulds, Blair, James and Mayo all batted solidly against an accurate attack, faster than any that had previously been faced. At other times, Hindmarsh, Cartwright and McMillan have played valuable innings and Arnott has shown promise but, too often, the batting has depended on one or two players only. Of the batsmen, Blair has been by far the most impressive with three innings of over 40 and an average of 28 for the term. Overall, however, the standard of batting has improved considerably throughout the season; a main lesson still to be learnt is that concentration must be doubled when 20 wins have been scored.

Strath, promoted from the 3rd XI after the first match, has spear-headed the attack, and has bowled with accuracy and penetration. His tally of 24 wickets at an average of 5.4 runs per wicket, speaks for itself. McMillan, Dezarnaulds, Wilson and Anderson have all bowled well at times, though often they have lacked any real penetration. The supporting fielding has been good on the whole, few chances have been missed, and Cartwright at slips and Mayo, the wicket-keeper, deserve special mention.

The following have played:

P. D. Dezarnaulds (Capt.), R. W. Hindmarsh (V.-Capt.), J. A. Anderson, D. B. Arnott, I. G. Blair, J. F. Cartwright, R. F. James, D. A. Long, D. B. McMillan, P. J. Mayo, H. G. Strath, G. F. Wilson.

Results:

v. NEWINGTON. Won on the first innings by 3 wickets.

N.C. 1st innings — 101 (McMillan 3-22, Long 3-32).

S.G.S. 1st innings — 7-104 (McMillan 30 not out).

v. THE KING'S SCHOOL. Won outright by 5 wickets.

T.K.S. 1st innings — 109 (Strath 4-27).

T.K.S. 2nd innings — 8-85 declared (Strath 6-21).

S.G.S. 1st innings — 85

S.G.S. 2nd innings — 5-118 (Hindmarsh 36 not out, McMillan 28, Dezarnaulds 22).

- v. SYDNEY HIGH SCHOOL. Won outright by 101 runs.  
 S.H.S. 1st innings — 91 (Wilson 4-30, Strath 3-28).  
 S.H.S. 2nd innings — 32 (Strath 8-14).  
 S.G.S. 1st innings — 155 (Blair 54, Anderson 29, Cartwright 23 not out).  
 S.G.S. 2nd innings — 5-69 declared (Hindmarsh 21 not out).
- v. SHORE. Lost by 3 wickets on the 1st innings.  
 SHORE 1st innings — 175 (Dezarnaulds 3-31, Strath 3-41).  
 S.G.S. 1st Innings — 150 (Blair 48, Anderson 23, James 21, Dezarnaulds 20).  
 S.G.S. 2nd innings — 4-50.

K.B.P.

### THIRD XI

This has been perhaps the strongest 3rd XI in many years. The season has been highlighted by several good individual performances with both bat and ball, and by a remarkable team effort resulting in a close win against Shore.

Scores:

- S.G.S. 7-145 (Lomas 48, Bushby 41, Thompson 32) d. N.C. 72 (Strath 8-33).  
 S.G.S. 3-139 (dec.) (Bancroft 30 ret., Thompson 38 ret.) lost to Old Boys 143 (Strath 3-29, Sare 4-32).  
 S.G.S. 4-144 (Frumar 49, Bushby 34 n.o.) d. T.K.S. 101 (McGilvray 4-37, Long 4-35).  
 S.G.S. 3-199 (dec.) (Lomas 29, Frumar 72 n.o., Bancroft 28, Thompson 51) d. S.H.S. 69 (McGilvray 3-17, Sare 5-9) and 56 (Sare 5-34).  
 S.G.S. 121 (Frumar 55) and 2-135 (Lomas 73, Frumar 37) d. S.C.E.G.S. 109 (Mockbell 6-46) and 9-140 (Mockbell 5-31).

Players: G. Bushby (Capt.), A. Bancroft, N. Dettmann, A. Evans, G. Frumar, I. Lever, J. Lomas, D. Long, B. McGilvray, R. Mockbell, S. Murray, W. Sare, H. Strath, P. Thompson.

### OTHER TEAMS

4th, 5th and 6th XIs played several rounds with a share of success, the respective captains being M. Doran, J. Warman and T. Ross. The Fourths played an Old Boys team but was not strong enough. A. Blair scored 94 in a competent innings and other talent was fair.

Colts A. Two games were washed out by rain but two excellent wins were recorded.

- S.G.S. 5-70 (Smith 28, A. Terrey 18) defeated S.H.S. 33 (Wirrell 7-13).  
 S.G.S. 227 (de Saxe 121, Tait 33) defeated Shore 219 (Hardy 6-50), Hardy's bowling on the first day's good wicket being a marathon performance and de Saxe's courageous innings on a damp wicket including 2 sixes and 16 fours.

Players were: J. Tait (Capt.), G. Smith, M. de Saxe, A. Terrey, P. Terrey, J. Elmgreen, G. Keeler, P. Caisley, S. Barnes, P. Hardy.

Colts B.:

N.C. 104 (Robinson 2-18) defeated S.G.S. 81 (Epstein 18).

S.G.S. 7-128 (Ward 22) v. T.K.S., unfinished.

C.B.C. (Chatswood) Colts A 86 (Shaw 3-18) and 6-48 defeated S.G.S. 53 and 8-125 (Schilizzi 38, Jarman 23 n.o.).

SHORE 9-210 defeated S.G.S. 98 and 7-117.

Under 14A, because of rain, had no play until the third Saturday.

T.K.S. (80) v. S.G.S. (2-30) unfinished.

S.G.S. (94 and 5-60) lost to Shore (9-156). Chadwick 4-29, Hindle 3-24.

Lower School A defeated Tudor House, lost to Shore and drew with T.K.S. and S.H.S. in one-day matches. Marsh and Kelly were the soundest batsmen and Hookham and Peterson the best bowlers. Kelly's captaincy was lively and imaginative.

Lower School B.:

S.G.S. 6-52 defeated T.K.S. (33)

S.G.S. (74 and 4-84) defeated Shore (69 and 2-47).

Best batsmen were A. R. May and P. A. Murphy; and best bowlers, P. C. Wynn, A. N. Maver, R. Read; and L. Brown kept wickets very well.

## ATHLETICS STANDARDS

The School's fifth Athletics Standards Competition was held in March and it proved to be the most successful held to date. Special mention must be made of the work of the Committee led by a very industrious Secretary, D. B. Stewart-Richardson.

A Standards Shield has now been instituted and was won on this first occasion by School House Group with 123 points. Chase Group (2) was second with 106 points.

All told, 1168 Standards were gained — 97 First Class, 358 Second Class, and 713 Third Class. This represents a considerable increase on last year's first term Competition results.

Mention is merited of the success of R. G. Colvin, VI Form, who gained 19 points and of A. C. Highfield of 2RU who gained 13 points in the Lower School Competition.

The following boys gained First Class Standards:

GROUP 1

P. W. Anderson. Under 13, 220 yards.  
J. R. Lamplough. Under 15, 220 yards.  
B. Kinsey. Under 16, Shot Putt.  
B. McConaghy. Under 14, 100 yards.

GROUP 2

D. M. Mathieson. Under 14, 440 yards, 220 yards.  
R. G. Colvin. Under 16, Mile, Cross Country, 100 yards.

GROUP 3

A. J. Petrou. Under 15, Shot Putt.  
D. G. Wilson. Under 15, 220 yards.  
A. C. Strong. Under 13, 220 yards.

GROUP 4

J. G. Gilchrist. Under 13, 220 yards.  
O. W. Nicol. Under 15, Mile.  
J. A. D. Haddon. Open Cross Country.  
T. P. Gildhart. Under 14, Shot Putt.

GROUP 5

P. H. Guinness. Under 16, Mile.  
M. O. Cummings. Under 16, Mile.  
A. Hyde Page. Under 15, 220 yards, Broad jump.  
D. H. Louden. Under 16, Shot Putt, 440 yards.

GROUP 6

J. K. Ferris. Under 15, 220 yards.  
P. J. Hardy. Under 15, 220 yards.

GROUP 7

P. R. Smith. Under 16, 220 yards.  
H. G. Schauer. Under 15, 220 yards.

GROUP 8

H. P. Haynes. Under 13, 220 yards.  
M. L. Cohen. Under 14, 220 yards.

GROUP 9

W. Madden. Under 17, 880 yards.  
J. Elmgreen. Under 14, Mile.  
G. B. Evans. Under 14, 220 yards.  
R. P. McDowell. Under 13, 220 yards.

GROUP 10

D. B. Stewart-Richardson. Under 17, Mile, 880 yards, 440 yards, 220 yards,  
100 yards.  
S. Battersby. Under 17, 100 yards.

#### GROUP 11

- V. E. Baskir. Under 13, 220 yards.  
J. J. Barkell. Under 17, Mile.  
A. P. Read. Under 15, 220 yards.  
J. A. Fegent. Under 15, Shot Putt, 220 yards.

#### GROUP 12

- A. C. SIMPSON. Under 15, 440 yards.

#### HOUSE GROUP

- R. WARD. Under 16, Shot Putt.  
A. Fenbury. Under 13, 220 yards.

### LOWER SCHOOL

#### CLASS 1A

- I. R. Indyk. Under 13, 220 yards.  
W. H. Fowler. Under 13, 220 yards.  
D. A. Rhydderch. Under 13, 220 yards.  
P. J. Kerr. Under 13, 220 yards.  
R. S. Stroud. Under 13, 220 yards.  
H. C. White. Under 13, 220 yards.

#### CLASS 1B

- M. J. Lorimer. Under 12, 880 yards.  
A. P. Freeman. Under 13, 220 yards.  
A. N. Maver. Under 13, 220 yards.  
P. R. Gulley. Under 13, 220 yards.  
J. C. Gold. Under 13, 220 yards.  
A. B. Canvin. Under 13, 220 yards.  
G. R. Andrew. Under 13, 220 yards.  
M. C. D. Lewington. Under 13, 220 yards.  
N. V. Clubb. Under 13, 220 yards.

#### CLASS 1C

- J. S. Eastes. Under 13, 220 yards.  
G. R. N. Bathgate. Under 14, 220 yards.  
J. H. Hume. Under 13, 220 yards.  
P. C. Sourry. Under 13, 220 yards.  
S. J. Briggs. Under 13, 220 yards.  
P. B. Mortlock. Under 13, 220 yards.  
P. A. Williams. Under 13, 220 yards.

#### CLASS 1D

- G. M. Bangel. Under 14, Mile.  
G. B. Reitzin. Under 13, 220 yards.  
R. A. Futcher. Under 13, 220 yards.

#### CLASS 1E

- K. J. A. Gardiner. Under 13, 220 yards.  
K. D. Lipman. Under 13, 220 yards.  
R. W. Tresidder. Under 13, 220 yards.

#### CLASS 2RU

A. C. Highfield. Under 11, 50 yards, 880 yards.

P. S. Harris. Under 11, 880 yards.

G. N. Stockwell. Under 11, 50 yards.

A. C. Weale. Under 12, 50 yards.

#### CLASS 2RL

P. Stamell. Under 11, 50 yards.

R. A. Helsby. Under 11, 50 yards.

R. P. Johnston. Under 12, 50 yards.

G. W. Scholes. Under 12, 50 yards; under 13, 220 yards.

#### PREP.

J. C. Vincent. Under 11, 50 yards.

M. C. Harris. Under 11, 880 yards.

M. E. J. Perry. Under 11, 50 yards.

D. R. Creagh. Under 11, 50 yards.

R. D. Hastings. Under 11, 50 yards.

R. G. L. Hardy. Under 11, 50 yards.

M. J. Warat. Under 11, 50 yards.

M. A. George. Under 11, 50 yards; under 11, 880 yards.

R. J. Gillespie. Under 13, 220 yards.

G. I. Bradshaw. Under 11, 50 yards.

G. K. Stewart. Under 11, 50 yards.

D.B.S.R. & J.H.M.

## RIFLE CLUB

Many old faces will be seen on the mound again this year with the return of four of last year's premiership team and five of last year's Seconds.

Over sixty keen, new members have been enrolled and it is expected that the standard will be very high once again.

The club is most grateful to Ian Hottes for his generous gift of two new rifles and we look forward to seeing him on the range in the future.

The club officers, elected early in the year, are P. D. Dezarnaulds, Captain; W. M. Carson, Vice-captain; P. R. Hield and W. Sharpe, committeemen.

Owing to the extension of the Science block, the miniature range is out of action but regular miniature shooting has commenced at Victoria Barracks. The club will soon be obtaining four new rifles of its own for miniature shooting.

P.D.D.

## SWIMMING

### G.P.S. CHAMPIONSHIP RELAYS

Since, after a long period of supremacy, the School teams were defeated in the relays last year, it is pleasing to be able to record the following results of these events for 1962:

S.C.E.G.S. Carnival, 220 (4 x 55) Yards Relay: 1. S.G.S.; 2. N.C.; 3. S.H.S.  
S.H.S. Carnival, 220 (4 x 55) Yards Medley Relay: 1. S.G.S.; 2. S.H.S.;  
3. T.S.C.

T.S.C. Carnival, 550 Yards (5 x 110) Relay: 1. N.C.; 2. S.G.S.; 3. T.S.C.

Thus with two Firsts and a Second the School recaptured the swimming supremacy. Unfortunately invitation carnivals at Trinity Grammar School and Waverley College were washed out, but the full scale invitation carnival conducted by S.C.E.G.S. suggests that, while we have a number of good young swimmers in the process of development, they have a long way to go. It is hoped that they will develop in a good even way.

### ANNUAL CARNIVAL

The annual carnival was held at North Sydney Olympic Pool in fine weather on Monday 26th March. It is unreasonable to demand much record-breaking at every carnival and with this reservation the standard of performance was high. Guy Cornwell made new figures in the Under 16, 55 yards. The most successful competitor in the Open division was Peter Howard. John Service, Phillip Schmidt and Guy Cornwell (competing out of his age class) were also favourably noticed. In the under sixteen class Guy Cornwell was quite the dominant figure.

In the lower age groups Victor Keller with his brothers Hugh and Rowlie, with Roderick Tindall, Bill Glenvale and John Polkinghorne showed a great deal of promise for the future.

Class relays were all keenly and often closely contested, contributing a generous share of the interest. In the VIth Form event the lighter note struck by the Prefects B Team (the Surfies) was greatly appreciated. Unfortunately they had to be disqualified. There are three rules in the N.S.W.A.S.A. handbook which they forgot to break.

Major results of the meeting were:

Group Championship: 1. Group 7 — 53 points. 2. Group 10 — 54 points.  
3. Group 6 — 18 points.

Lower School Competition: 1. 2R Upper — 29 points. 2, 1B — 10 points.  
3. 1A — 9 points.

Blashki Medal (Senior Championship): 1. P. Howard — 24 points. 2. J. Service — 13 points. 3. P. Schmidt — 9 points.

### OPEN DIVISION

- 55 YARDS FREESTYLE: 1. P. Howard; 2. J. Service; 3. P. Schmidt. 28.0 secs.  
110 YARDS FREESTYLE: 1. P. Howard; 2. G. Pollock; 3. J. Service. 63.9 secs.  
220 YARDS FREESTYLE: 1. P. Howard; 2. G. Cornwell; 3. J. Service. 2 mins.  
26.4 secs.  
440 YARDS FREESTYLE: 1. P. Howard; 2. J. Service; 3. G. Cornwell. 5 mins.

### OTHER EVENTS

- INVITATION 110 YARDS FREESTYLE CHAMPIONSHIP: 1. J. Pick (T.S.C.); 2. P. Howard (S.G.S.); 3. J. Miskell (S.J.S.) — 1 min 1.1 secs.  
OLD SYDNEIANS' 55 YARDS HANDICAP: 1. I. Goldstein; 2. W. Keller; 3. B. Phillips.

This is how Regatta Trains looked for the first five years that the race was held on the Nepean. The Decorations were supplied by David Jones and arranged by an Old Sydneian.

## ROWING

The season has been an excellent one with very few mishaps. The Christmas Camp was extremely successful with no sickness and almost perfect weather.

Three rowers returned from last year's VIII, John Willis, Phil Harris and Brian Cross. The coxswain, Richard Beeman, coxed the VIII for his second year.

In the past the mothers have been asked to come down to camp and prepare our meals. Thanks to our Rowing Master, Mr. P. E. Dutoit, we have been able to hire a chef and so lessen the burden placed upon the mothers. The rowers would like to thank Mrs. Doris Cozens, the Parents and Friends Association and ladies of the Women's Association for their assistance during the season. Mr. Dutoit has been a tower of strength and we thank him also for his help and guidance. To the coaches, Messrs. J. B. Burrell and J. Argue of the VIII, Mr. W. Monks of the 1st and 2nd IV's, Mr. P. Spencer of the 3rd and 4th IV's, and the coaches of the Junior crews we express our sincere appreciation of the magnificent work they have done during the season.

Regatta performances were as follows:

Balmain Rowing Club Regatta — 24th February.

The water was rough with a strong wind. The VIII did not race but the fours put up quite a creditable performance. The 1st IV came first in the Novice Four event. The 2nd IV came fourth in the School Regulation 1st and 2nd IV's. The 3rd IV came first in the School Regulation 3rd and 4th IV's event. This was a fine start to the season.

Haberfield Rowing Club Regatta — 3rd March.

The weather was perfect on the Iron Cove Course. The VIII did not race, but we must congratulate Scots on coming first in the Maiden Eights race.

The 1st Four again displayed fine rowing in winning the Novice Four event. The 2nd Four came second in the School Regulation 1st and 2nd Fours. The 3rd Four came fourth in the School Regulation 3rd and 4th Fours.

Metropolitan Regatta — 10th March.

It was Visitors' Day at the Shed, so many supporters came. They enjoyed the afternoon tea that was prepared by the ladies.

On the Sydney Rowing Club course the water was extremely rough with gusty winds. The VIII rowed up to the start and waited in drizz-

**THE EIGHT**

*Right to Left:* Bow, A. E. L. KING; 2, P. B. BROWNRIGG; 3, R. A. SCHMIDT; 4, J. D. C. WILLIS; 5, B. N. CROSS;  
6, P. J. HARRIS; 7, W. E. F. TUTHILL; Stroke, P. E. DECK; Cox, R. J. BEEMAN.

ling rain. They had drawn No. 1 lane. The first start was a good one and after twelve strokes they were leading the field; then Sydney broke an oar. The crews were brought back for the second start. After ten or twelve strokes with Grammar leading again, No. 6's rigger pin broke and so they did not finish the race. Sydney went on to win from Newington and North Shore. Sydney High crabbed at Cabarita wharf and did not finish.

#### Leichhardt Rowing Club Regatta — 17th March.

Unlike the Metropolitan Regatta the water was quite calm with a following wind and tide, although at about 3.30 p.m. the water became slightly rough.

The Senior VIII was entered in the N.S.W. Championship Junior Eights. In the heat Grammar started badly but picked up again and finished well to come third to Scots and Sydney. Scots and Grammar were the only two G.P.S. crews to make the final. In the final after some bad luck at the start, we were unable to keep together and with shallow blades finished last.

The 2nd IV was entered in the School Regulation 1st and 2nd Fours, but did not make the final. The 4th Four was entered in the School Regulation Fours, its first race for the season, but was unable to make the final.

In the school tub IV's our 3rd tub came third in the final.

Our Junior VIII after being up with the leaders for three quarters of the race, crabbed in No. 4 seat and limped over the finishing line unplaced.

#### University Regatta — 24th March.

Although there were a few dark clouds the water remained calm with a strong following wind developing later in the afternoon.

The VIII did not race, but again we congratulate Scots on a fine win in the Maiden VIII's.

Our only successful crew was the 1st Four in the School Regulation 1st and 2nd Fours, who won their heat and came third in the final with High's 1st and 2nd Fours taking the 1st and 2nd positions.

#### Riverview Gold Cup Regatta — 31st March.

The conditions were good with a fresh tail breeze and incoming tide.

The VIII drew the second heat with Newington, the only other G.P.S. crew in the heat. It was a disappointing row by the VIII who came last in the heat. Newington won the race from Sydney.

**FIRST FOUR — SECOND 1962**

Bow, G. H. HEICHER; 2, R. L. HILL; 3, M. GARDNER; Stroke, R. E. BRADLEY;  
Cox, B. M. LUKIN.

**SECOND FOUR — WINNERS 1962**

Bow, D. D. MURRAY; 2, D. R. PRITCHETT; 3, D. D. RAFFAN;  
Stroke, P. A. TANNER; Cox, R. L. BRUCE.

The 1st IV narrowly won their heat from Shore and came 2nd in the final to St. Joseph's.

The 2nd Four easily won their heat and came second in the final to High. The 3rd Four was narrowly beaten into third place in the heat, so therefore did not reach the final. The 4th Four did not row well and came last in the heat. The tubs put up good performances, gaining a first, two seconds and one third place.

G.P.S. Head of the River — 14th April.

The day was a fine one, but slightly on the cold side. There was a south-east wind.

The 1st Four after nearly catching a crab at the start found they were a length to the rear of the field. By the first quarter they were fourth and by the first half were up with the leaders, Kings, St. Joseph's and Shore. At the three-quarter post Grammar was a canvas ahead of Kings and St. Joseph's, Shore now dropping back. The last forty strokes were a battle between Grammar, St. Joseph's and Kings for first place. Near the finish Kings pulled away to win by a quarter length.

Kings 1, Grammar 2, St. Joseph's 3. Time: 5 min. 39 sec.

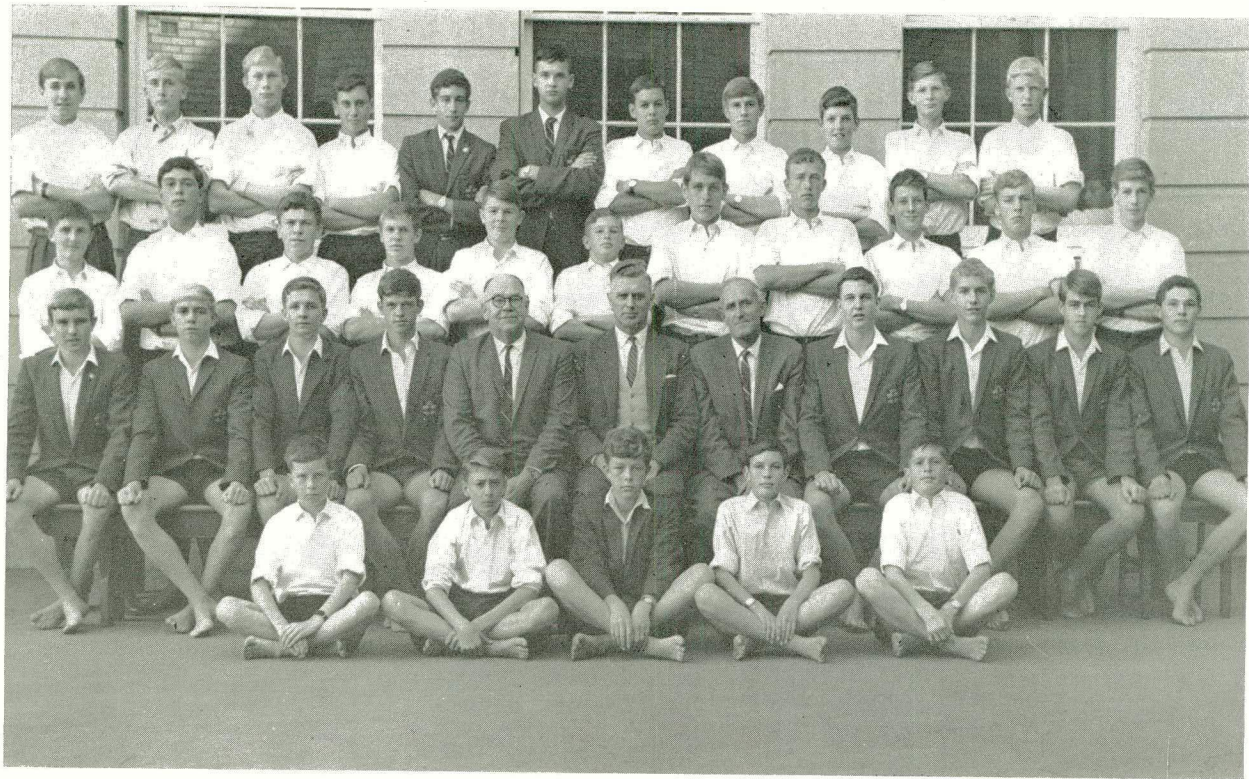

The 2nd Four was away to a reasonable start but by the three-quarter post was a length behind the leaders, Newington, Shore and High. Half a mile from the finish Newington was still leading with Kings and Grammar a canvas astern in second place while Shore and High were further back. By the last quarter post Grammar had taken the lead by half a length with Kings closely behind. From here on it was clear that Grammar would win as they drew further ahead.

We all heartily congratulate the 2nd Four on their fine win.

Grammar 1, Kings 2, St. Joseph's 3. Won by  $1\frac{1}{4}$  lengths. Time 5 min. 53.6 sec.

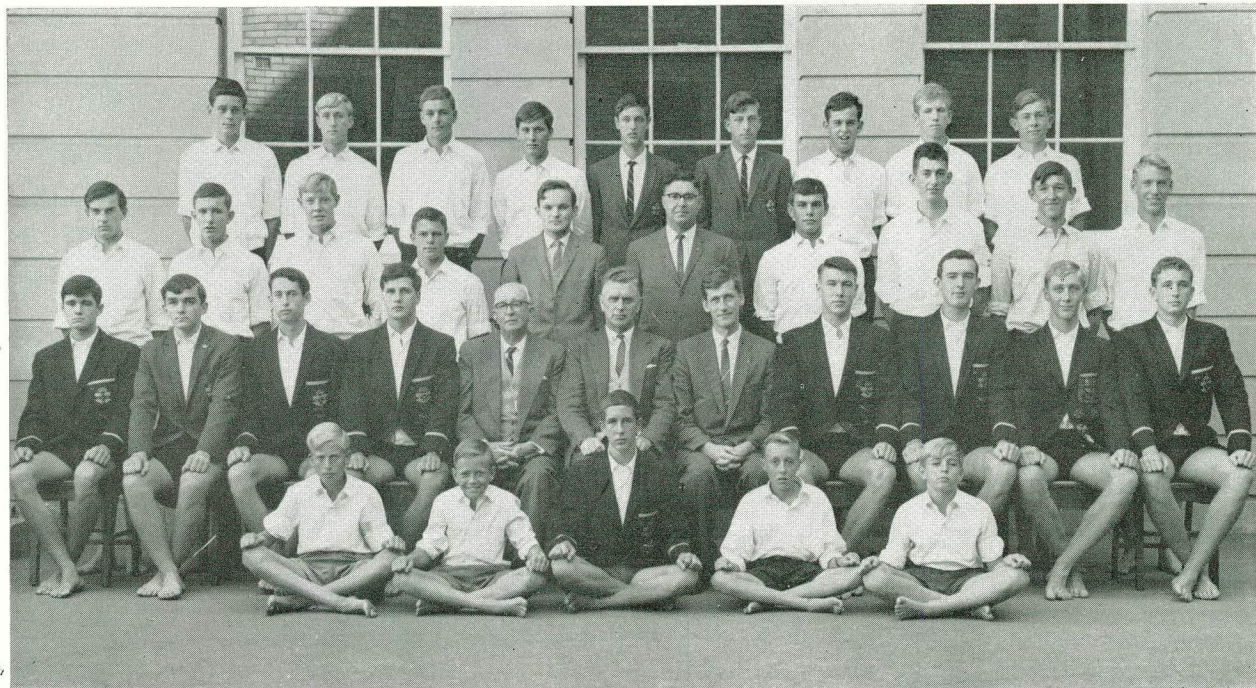

The 3rd Four after a couple of unsuccessful attempts to start the race, got away to a poor start. Scots took the lead from the start with Shore close behind. At the first quarter post Grammar was fifth with Scots, Shore, St. Joseph's and Kings in front. Riverview, after catching a crab, dropped back to last. With two or three hundred yards to go, Grammar brought their rating up to 42 bringing success.

Scots 1, Shore 2, Grammar and St. Joseph's 3. Won by  $1\frac{1}{2}$  lengths. Time: 4 min. 14.8 sec.

**JUNIOR CREWS, 1962**

*Back Row:* J. M. WEIHEN, P. A. JOHNSTON, N. J. VINEHALL, A. W. MULHEARN, P. G. WIRRELL, H. N. REID, H. ARTHUR, K. ASKEW, R. L. SMALLWOOD, S. GRANT, A. G. CLUBB. *Third Row:* P. G. KENNEDY, N. S. VIDA, T. McNAMARA, D. O. KEITH, D. D. GOURLAY, D. B. KELLETT, S. H. O. SMITH, R. F. GAYDON, P. F. STEVENS, P. F. HOLMES, O. J. HINDE. *Seated:* L. B. JOHNSON, P. W. GLASSON, W. E. FOWLES, R. J. SPENCER, R. C. CASWELL, Esq., P. DUTOIT, Esq., T. G. KENNEDY, Esq., R. A. BENNETT, I. E. BALLARD, N. R. COWDERY, J. W. MADDEN. *Front Row:* I. C. FRANCIS, D. E. J. R. SPRATT, S. M. MALLARKY, M. M. SPENCE, P. H. GILDER.

**BOAT CAMP, 1962**

*Back Row:* G. G. HUNTLEY, G. F. BENNETTS, G. C. BEVAN, G. C. WILSON, J. A. MCCAUSLAND, D. W. SELBY, R. H. RODEN, A. J. ROURKE, G. C. GLENWRIGHT. *Standing:* D. D. MURRAY, D. R. PRITCHETT, D. N. RAFFAN, P. A. TANNER, P. SPENCER, Esq., J. W. MONKS, Esq., R. E. BRADLEY, M. GARDNER, R. L. HILL, G. H. HEICHER. *Sitting:* A. E. L. KING, P. B. BROWNRIGG, R. A. SCHMIDT (*Vice Capt.*), J. D. C. WILLIS, J. B. BURRELL, Esq., P. E. DUTOIT, Esq., J. R. ARGUE, Esq., B. N. CROSS (*Capt. of Boats*), P. J. HARRIS (*Vice Capt.*), W. E. TUTHILL, P. E. DECK. *Front Row:* R. G. MARICH, B. M. LUKIN, R. J. BEEMAN, R. L. BRUCE, J. M. GLASSON.

The 4th Four start was not very good and half-way down the course they were a canvas behind the rest of the crews. However at the last quarter they made a strong bid and finished equal fourth with Shore.

High 1, Scots 2, Kings 3. Won by  $\frac{1}{4}$  length. Time: 4 min. 21.8 sec.

In the major event of the day trouble seemed to be the thing at the start. Newington, on their way down, had broken a rigger in the bow seat. A launch had to be rushed to the finish to get another rigger.

Then due to floods at the beginning of the year the starting cable had been washed away, another not being put in its place. With no cable and a south-easterly wind it took the starter forty minutes to get the race under way.

Grammar's actual start was excellent, taking the lead with Shore and St. Joseph's. By the first quarter St. Joseph's had forged a canvas ahead of Shore with Newington, Kings, St. Ignatius and Grammar a few feet behind and High a length behind Scots. By the half-mile post Grammar had brought their rating down to a deep bladed swinging thirty-five. St. Joseph's was still leading. Half a mile from the finish, St. Joseph's and Shore, after leading the field from the start, dropped back and Scots, for the first time, began to move up and take the lead with Kings and Newington very close behind. At this stage Grammar was a length astern of Scots. High were trailing by three or four lengths.

At the last quarter mile post Scots were still leading, with the six other crews within one and a half lengths of them. Two hundred yards from the finish Grammar was fifth. At this stage Grammar brought on a brilliant finish and came within three-quarters of a length of the winning crew, Scots, to finish third.

Scots 1, Newington 2, Grammar 3. Won by a  $\frac{1}{2}$  length and a canvas. Time: 7 min. 53.2 sec.

B.N.C.

## TENNIS

Mr. Carr's many years in charge have built up a strong tennis tradition, with over a hundred players, many of them of high standard. This year Mr. Carr's many other commitments decided him to pass over the day-to-day care of the sport to Mr. Riley, but he continued to act as convener of the yearly tournament of four G.P.S. schools at the White City. For this event maximum use is made of available

talent, and our Senior Team for the G.P.S. tournament would have been very hard to beat, if the event had not been washed out by rain and waterlogged courts. Grammar had not previously won the Senior event, but we feel that the team of A. R. Rourke, J. A. Anderson, R. H. Storey, D. A. Hunt, J. A. D. Haddon, C. M. Lee, C. G. A. Pearce, D. O. Zines, K. Crocker and B. T. Hungerford had a very good chance of doing so. We have won the Junior (under 16) event on the last seven occasions, and this year's team of N. B. Ainsworth, M. Mitchell, P. Anderson, P. Blake, I. Colburt, J. Wade, N. Trevor, R. Mullins, J. Clark and E. Kopsen were strong enough to have made a strong bid to maintain this record.

J. A. D. Haddon has proved an efficient and conscientious Captain ably assisted by C. G. A. Pearce as Vice-Captain, and the Senior team in the Saturday competition matches has functioned like clockwork. So far this season they have won three matches, drawn one and lost one (the first), with two cancelled, but by the end of the year I have no doubt that the record will look even more impressive.

The following have represented the School during the summer: J. A. D. Haddon, C. G. A. Pearce, C. M. Lee, D. O. Zines, B. T. Hungerford, K. Crocker and P. R. Anderson.

The 'next generation' of tennis players is headed by N. B. Ainsworth, who has put in a great deal of work as captain of the Under 15A team, in addition to being unbeaten himself so far. This team has won all matches except one, which was a scratch combination. The following have represented the School: N. B. Ainsworth, P. Blake, M. Mitchell, I. Colburt, R. Mullins, J. Wade, J. Clark, S. M. Reeves, also (as substitutes), G. M. Abeshouse and C. C. Schmidt.

E. Kopsen was the conscientious captain of the Under 15B team which has won one match and lost four so far, though of course their opponents are 'A' teams. The following have represented the School: E. Kopsen, D. H. Sonnabend, S. M. Reeves, W. H. Saxby, K. J. Mutton, P. Steel, R. M. England, D. J. Davies, J. M. Goodman, I. Freeman and M. P. Roe.

The Under 14 division contains much promising talent. R. Mullins, N. J. Trevor, J. H. Wade, and J. E. Clark were good enough to be in the Junior G.P.S. (under 16) team. In addition, under the able captaincy of N. J. Trevor, the following have represented the School: M. P. Roe, R. B. Badgery, G. M. Abeshouse, M. Arthur, C. C. Schmidt,

S. A. Whitfield, S. L. Manley and G. B. Evans. In Saturday matches this team has won 4 and lost 2 so far.

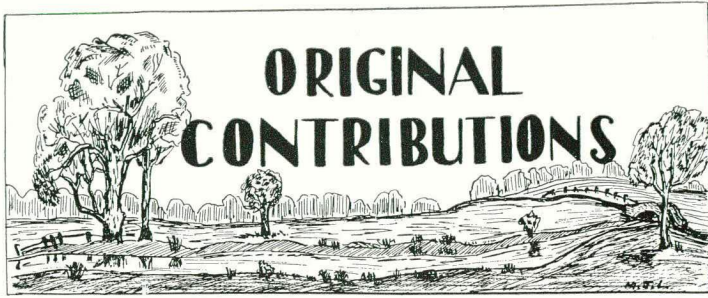

The Open Singles Championship has been played on the School court before school and during the lunch break. The semi-finalists are A. R. Rourke, C. G. A. Pearce, R. H. Storey and J. A. Anderson, and as soon as the weather allows, the semi-finals and final will be decided, leaving the way open for the Junior Singles Championship, and then the Open Doubles.

In addition to those players trying for teams, some sixty players have been competing in Class tennis, and for the smooth functioning of these arrangements we are indebted in particular to the 'Court Captains' J. S. Rogers, J. S. Austin and G. Sved. We should not forget, either, the work of 'Court Captains' of the team-practice courts: J. M. Reid, I. Freeman and of course, N. B. Ainsworth and J. A. D. Haddon in this capacity.

On Mondays we have a tennis-coaching class at Weigall under Mr. Barry Hampson at which over twenty Third Formers have been learning the elements of the game.

This report would not be complete without a vote of thanks for the masters who have assisted in training or administration during the year — Messrs. Carbines, Harrison, MacGillivray and Lloyd in addition, of course, to Mr. Carr.

P.R.

## HILL END

One weekend some friends and I went to Hill End, a deserted gold mining town about sixty miles from Bathurst. We arrived at three o'clock on Saturday morning, after a six hour drive from Sydney. During the afternoon we explored the town, mines and wells.

Hill End was officially named in 1871, having been called Forbes, or Bald Hill, for twenty odd years. The gold rush to this area began in the mid nineteenth century, after a vein of gold was discovered there. In 1872, the peak period for miners at Hill End, Beyer's and Holtermann's Company discovered a nugget which is the largest single nugget of gold ever discovered. It was seven feet high, two feet wide and had an average thickness of four inches. It weighed six hundred and thirty pounds. Unfortunately, as it was being lifted to the surface, much gold broke away leaving a piece only four feet, nine inches long.

At the peak of the gold rushes there were fifty two hotels at Hill End, and thirty thousand inhabitants. In fact, the town was almost raised to city status and one of the local churches almost declared a cathedral in the early 1870's. But today the place is very different. There is only one hotel doing business, and only about fifty people live there.

The town itself is very picturesque as is the surrounding country. Nearby is the Turon River, a delightful spot, where we spent a considerable time.

We arrived home at about eleven o'clock on Sunday night, after an enjoyable and most interesting trip. Hill End, which is now the home of several artists, is indeed an echo of Australia's romantic past.

## THE ASSASSINATION OF MARAT

In 1712, Jean-Jacques Rousseau,  
Was born into a world he meant to alter;  
France was ruled by Aristo's then  
And they ruled with many a falter.  
He wrote a book this young Rousseau  
Whose ideas were copied by Mirabeau;  
He called his book the 'Social Contrat',  
And its models were moded by the mighty Marat.  
Then the Maquis de Mirabeau,  
The maker of the revolution  
In seventeen hundred and ninety one  
Got his fair retribution.  
After his death a faint gleam of hope,  
Shone through the hearts of those who did mope,  
But the new dictator the mighty Marat,  
Instead of releasing, cut them in ha'.  
Then young Corday, knife in hand,  
Ended the life of Marat so grand.  
For this killing the mob did say,  
This wretched young girl with her life would pay;  
And so this young girl, as brave as could be seen,  
Perished under the blade of the brutal guillotine.  
And thus ended the life of Marat,  
And with it from Europe rose a loud 'Hurrah!'  
After the death of Jean Paul Marat,  
Another young man, one Joseph Lebas,  
Rose to power in the Paris commune;  
But little did he know his death would follow soon.  
Lebas and his friend Robespierre,  
As well as St. Just and Couthon too,  
Attacked Danton, and Desmoulins too.  
Then in 1794  
Their end did come, and they did succumb  
Yes, they succumbed to the Triumvirate.  
And they were compelled to fall  
Under the blade of the guillotine,  
Just as had the head of their Austrian Queen.

LOUSY  
BLIGHTER

VERCHEATIN!

HE'S  
WINNING  
TOO MUCH

O.K. YOU WIN

I'LL COP  
HIM

HOW DID  
THAT HAPPEN

WELL BLOW ME  
DOWN, HE  
WON.

C.J.H. — 3B — GROUP II

This space was to have been filled by a discerning article by a fifth form contributor commenting on the reporting of several Sydney newspapers. While we feel that most of our readers would agree with the views expressed in the article, we believe that the dignity of this magazine should not be lowered by any criticism of inferior publications.

## THE GREMLIN GOES BERSERK

(To the tune of 'Lizzie Borden')

Yesterday the school went crazy (so I'm told by my friend Max),  
For a Gremlin had run wild with his double-bladed axe,  
He sliced up many masters into little bits, they say,  
And the kids all went home early, there was no more school that day.

Oh you can't chop the masters up at Sydney Grammar  
(A master killer's much worse than a thief)  
For if you chop the masters up at Sydney Grammar,  
I'll bet that you'll be taken to the Chief.

Mr. Lloyd was down in G room, teaching English on that day;  
And he taught the gremlin grammar in a very funny way.  
'Split infinitives are bad,' these were the last words that he said,  
The gremlin heeding his advice, split Mr. Lloyd instead.  
But you can't chop the masters up at Sydney Grammar  
Although you think that they're a lot of fools  
No you can't chop the masters up at Sydney Grammar  
I'm sure that kind of thing's against the rules.

Said a group of masters bravely, 'We will punish this young oaf,'  
But one swipe from that axe took off the head of Mr. Rofe.  
That gremlin hacked and chopped 'em and really made things hot;  
One Classics master copped the closest shave he'd ever got.

Oh you can't chop the masters up at Sydney Grammar,  
Not even if you cannot stand their looks,  
No you can't chop the masters up at Sydney Grammar  
That will not get you into their good books.

Mr. Hill drove through the playground, said this major bold and brave:  
'I'll run down this wicked gremlin, he will not give ME a shave.'  
But then the gremlin caught him, and he had a cause to fear  
(Does anybody want to buy a bloodstained Karman-Ghia?)

No you can't chop the masters up at Sydney Grammar,  
That sort of thing just isn't very good.  
No you can't chop the masters up at Sydney Grammar,  
But me-oh-my, how I wish that we could.

No you can't chop the masters up at Sydney Grammar —  
(Eeny, meeny, miny, memlin, look out now, here comes a gremlin)  
No you can't chop the masters up at Sydney Grammar —  
(Now it isn't hard to find a master with an open mind)  
No you can't chop the masters up at Sydney Grammar —  
(The gremlin hasn't finished, nearly — look who's left, there's Mr.  
Healey!)

No you can't chop the masters up at Sydney Grammar  
But me-oh-my, how I wish that we could.

## A STRANGE SIGHT

As I turned the corner a strange sight met my eyes. There on the horizon the sun was setting behind the distant hills. Now and then the sun would disappear from sight for a second or two. Then, suddenly, up it burst like a wild ball of fire.

Across the low, rickety fence and across the knee high grass which spread for miles across gulleys and meadows I came to the place from where I thought the brilliant light shone. Without hesitation, I looked around. I found myself near an extremely dense wood. The leaves attracted my attention for they were so green and shiny.

On making a closer examination of the trees I found that the brilliant green leaves looked like flashing mirrors reflecting the sun.

Night fell quickly and the trees stopped glittering until the following morning.

To me trees are the most beautiful things on our earth and from my experience I learnt that in previous years I had missed out on the beauty of nature.

P.W. — IC

## A WALK IN THE FOREST

I walked softly across the carpet of pine needles that covered the floor of the forest and thought deeply of days gone by, and of the many hours I had spent in contented play among these towering giants and flowing streams.

I ventured further and soon the song of King Fishers and the appearance of much luxuriant growth, heralded the approach of one of the many streams that sauntered through the forest. Clearing away the brush I espied the stream and pool that had been my fast flowing rapids and seven seas many years ago and the rotting logs that had been my galleons and canoes.

The storm, which had been gathering for some time, unnoticed by me, broke, and I instinctively ran for the cover of a cave barely fifty yards away. Once inside the cave I realized that it was the 'secret hideout' I had treasured so dearly in my childhood. It was exactly as I had left it on that Sunday afternoon when Father had come for me. The old hurricane lamp standing on a box in one corner, the rickety table and chair in the centre and the padlocked cupboard containing such precious articles as a broken silver watch and three butterflies, were all there and only the food that was to have been my lunch had vanished, eaten by the forest's many inhabitants. I sat reminiscing for some minutes, then remembering the dampness of my clothes, lit a small fire in one corner of the cave and sat, in thoughtful silence, drying my clothes, for nearly an hour. By the time both my clothes and I were dry and warm the rain had abated and darkness was setting its mantle over the forest so I turned for home in a very melancholy mood.

I looked towards the dying sun and wished that the war had never come.

## JIM

There was a young fellow named Jim,  
Who went to the river to swim,  
He went in thrice  
And came out twice,  
Now I wonder what happened to him?

G.B.F. — IIIB

## FLIGHT

History was made in 'sixty-two,  
When John Glenn went into orbit.  
At two-forty seven on Thursday morn,  
Space victory of the Free World was born.

Delays poured in as was quite understood,  
As every precaution was made that could  
Protect John Glenn, who was as cool and calm,  
As a Hawaiian coconut palm.

The firers lily-white hands were shaking,  
At the thought of the history he was making;  
And as Friendship Seven left the pad,  
Only she was really sad.

Colonel Glenn was in that capsule,  
Which was as stubborn as a mule,  
To orbit the earth three times, three times  
As the people in London heard the chimes.

High up above the Atlantic seas  
The parachute small caught a breeze;  
Then with a wham the larger one spanned,  
And down to the sea floated brave John Glenn.  
'Am alive, Am alive, Am feeling fine . . .  
Terrific up here, am feeling fine.'

Telephone cables and radio stations,  
Buzzed with good cheer from friends and relations.  
Because he managed to keep his life  
A rest was waiting for him and his wife.

A hero's welcome through New York streets,  
As all U.S. Navy survival fleets  
Returned to base to see his face,  
— Colonel John Glenn of America.

C.B.B. — IVE — HOUSE GROUP

## THE RESCUE

The radiant sun was shining brightly and the breakers were rolling eternally inwards spreading frothing foam over the golden sand and then silently ebbing. I never could have regretted my decision to follow the pleasure-seeking crowds to the ever-popular beaches.

While some sun-tanned surfers were basking in the glorious sunlight others were skimming over the foaming crests of waves. Some were just enjoying the cool fresh water while little children played joyously at the edge of the water.

Suddenly a long distance from the limits of the flags a hand rose just above the crests of the immense 'mountains'. The keen-eyes of the ever-watchful life-saver immediately noticed the person and he sprang into action so beginning one of the many rescues that he so heroically performed.

The beltman sped courageously into the surf his team-mates efficiently assisting him from the shore. The past happiness of the crowd suddenly turned to anxiety and the cool fresh waves apparently turned to a foaming frenzy. The beltman continued bravely on proceeding slowly but steadily. Thundering waves crashed down on him, but his perseverance assisted him in conquering each formidable enemy.

Time and again he seemed to be swept backwards but he continued on. The drowning man still miraculously managed to stay afloat. The frantic efforts of the life-saver finally prevailed and the drowning person was brought within reach. His condition showed that he would have stayed afloat but one minute longer.

The crowd waited uneasily as the life-saver with some-what renewed courage started for the shore.

They finally reached the shore breathless and weary. The rescued person lay gasping for breath on the sand; safe at last!

## DUNTRON

The Royal Military College, Duntroon, is situated in Canberra about two miles from Parliament House. Officially opened on 27th June, 1911 by the then Governor-General of Australia, Lord Dudley, Duntroon has since turned out many fine military leaders.

Historically, Duntroon dates back to 1925, when James Ainslie commenced a sheep-raising property at Pialligo, later called Duntroon.

Ainslie was employed by a leading Sydney merchant, Robert Campbell, who was a descendent of the Campbells of Duntroon Castle in Argyllshire.

1901 saw Federation, and with it came a unified Army, as control of defence was assumed by the new Federal Government. It was realised that an Australian army would need Australian trained officers in command. In accordance with this idea, Colonel (later Major-General) Sir William Throsby Bridges was sent overseas to study military college training techniques. He selected the best features of the older overseas institutions, while maintaining a system of training that was essentially Australian in character and outlook. Col. Bridges' proposals were accepted, and he was appointed the first Commandant of Duntroon.

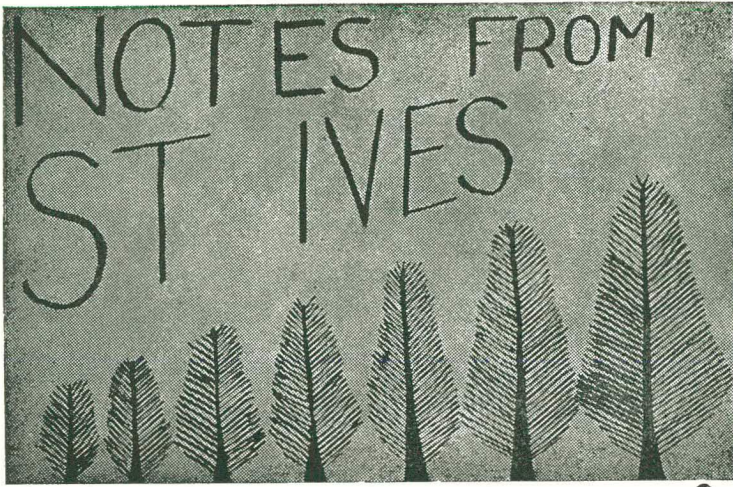

At the opening ceremony, thirty-one cadets from Australia and ten from New Zealand heard Lord Dudley announce that King George V 'had been pleased to grant the title "Royal" to the college.' Thus from its foundation day, Duntroon has been the 'Royal Military College of Australia.'

About seventy-five cadets enter the college each year, including ten from New Zealand. The course lasts four years, and successful cadets emerge as Lieutenants in the Australian Regular Army. Academic courses open to candidates are Arts, Science and Engineering, the cadet being allotted to the course which his educational background best suits him. Military training includes the use of modern weapons such as the M60 machine gun and self-loading rifle, the driving of Centurion tanks, physical training and tactical exercises.

Sports played at Duntroon include Rugby football, Australian Rules, cricket, swimming, athletics, hockey and tennis. The college has five turf-wicketed cricket grounds, a cinder track, nine tennis courts and a swimming pool. Other interests are in the photography, hiking and radio clubs. The last mentioned has its own amateur station. For bookworms, there is a 20,000 volume library at Duntroon, and for ski enthusiasts, the College owns its own chalet on Mt. Ginini.

The entire course at Duntroon is free, and cadets are paid according to the number of years of training. Duntroon offers one of the few careers with a challenge available today, and it is to be hoped that more young men with an interest in Australia's future will apply for entry.

W.L.F. — VIB — 10

Improvements effected during the Summer Vacation included the replacement of the fuel stove by a gas range, and the conversion of the hot water system to an oil burning type. The cricket practice nets were operating effectively during the season.

Mr. G. Carleton and Mr. M. Ives left the staff at the end of last year. We welcome Mr. J. Bromley and Mr. I. Davidson as resident masters. Mrs. K. Foreman also left us and in her position as Matron we welcome Miss G. Hood.

Our grateful thanks are again extended to Mrs. Chase for providing still more library books; and to the Women's Association for their continued support, particularly in running the Monday Tuck Shop, providing two large fans for the Assembly Hall, obtaining books through the holding of an 'American Tea' and by serving morning tea during Saturday sport.

The profit from last year's most successful play, 'The Sleeping Beauty' was used in repainting the Assembly Hall and in purchasing 83 library books chosen from those that have been dramatized in Literature Broadcasts and from those reviewed in the School Magazine.

#### DRAMATICS

##### 'The Sleeping Beauty'

The play was a credit to the script writers, who avoiding the mistakes of previous writers, borrowed heavily from their successes. The result

was a script bursting with action and with patches of real humour.

Nor was the pace slackened by scene changes, as all the scenes were a variation on a single set, or mass entrances and exits, a bane of previous productions. The co-operation of the stage hands among themselves made such changes, as there were, speedy.

Costumes were excellent, as one would expect with the mothers of the boys making them, and much of the play's success must be attributed to this, to the making up, and the lighting and sound effects in which C. Maver and M. Noel excelled themselves.

Highlight of the musical side was the trio of pages, while acting honours were shared by R. Nicholas' versatile witch and G. Hookham's acrobatic control as Beelzebub. However, without detracting from the starring performances it was in essence a group play containing much mime to music, and the hard work during practice led to the success of the townspeople in their dance, the guards and Beelzebub's followers in the Spell Room scene, set to the 'Danse Macabre', the wise men and court officials in the marriage scene, and the very difficult fight scene — violent action on a small stage with over 70 boys on it!

#### SYNOPSIS

SCENES — I. RODENT LAND. 2. CASTLE GATE. 3. SPELL ROOM.  
4. CASTLE HALL. 5. CASTLE HALL. 6. FINALE.

Costumes and Make-up . . . MRS. M. MARTIN, MISSES S. GLOVER,  
M. BARNETT, E. CAVANAUGH and the  
Mothers of the Players.

Scenery . . . . .	Designed and constructed by Sixth Class, 1961
Script Writers . . . . .	Fifth Class, 1960
Business . . . . .	J. LINGARD, ESQ., P. HARTLEY, D. GARDNER, I. HAYDEN, P. JOHNSTONE, D. PASCOE, S. McLEAN, D. BARRON, W. NEILL, R. TERVITT.
Programmes . . . . .	By courtesy of W. NAYLON ESQ., and A. LENNOX, ESQ.

### SPEECH NIGHT

The prizes were presented by G. E. Bryant, Esq., B.E.

### PRIZE LIST

#### DUX OF THE CLASS

Dux of Grade VIA ( <i>Weigall Chase Prize</i> ) . . . . .	R. R. NICHOLAS
Dux of Grade VA . . . . .	N. T. MATHIESEN
Dux of Grade IV . . . . .	W. G. WILSON
Dux of Grade III . . . . .	A. F. PHIPPARD
Dux of Grade II . . . . .	A. S. STUCKEN
Dux of Grade I . . . . .	J. R. GILL

#### GENERAL MERIT

Grade VIA ( <i>Old Sydneians Prize</i> ) . . . . .	D. G. FAIRLIE
Grade VIA . . . . .	R. S. STROUD, B. F. WALKER
Grade VIB . . . . .	R. E. TREVITT
Grade VA . . . . .	J. EGAN, E. W. ROBERTS, A. M. ROBERTSON
Grade VB . . . . .	J. J. NOTT
Grade IV . . . . .	D. R. SULLIVAN
Grade III . . . . .	M. C. STEDMAN
Grade II . . . . .	G. F. BETAR
Grade I . . . . .	M. I. GROSE
Kindergarten . . . . .	J. H. MACLULICH
VIA English ( <i>Weigall Chase Prize</i> ) . . . . .	J. R. NICHOLAS
Writing Prize . . . . .	R. S. STROUD
Hobbies Prize: ( <i>Havyatt Prize</i> )	
Senior . . . . .	B. F. WALKER
Junior . . . . .	A. J. COHEN

#### SYDNEY GRAMMAR SCHOOL SCHOLARSHIPS

Congratulations to the successful candidates: J. Nicholas, R. R. Nicholas and D. G. Fairlie.

## SPORT

### Cricket — 1st Term, 1962

	<i>Played</i>	<i>Won</i>	<i>Drawn</i>	<i>Lost</i>
1st XI . . .	3	0	0	3
2nd XI . . .	3	1	0	2
U. 11A . . .	4	4	0	0
U. 10A . . .	3	2	0	1
<i>Total</i> . . .	13	7	0	6

1st XI. Captain: R. Scott.

Apart from the batting in the match against St. Pius X and the bowling in the first innings against Mosman, the performance of this team has been most disappointing.

Stephen Coombes has been a successful batsman and performed well against St. Pius X and Barker.

The team must realise that the ball is there to be hit hard, and the bowlers must consistently strive for correct length and direction. The fielding of the team has been good.

J.M.

Under 11A. Captain: A. Powell.

When last year's cricket notes were published, this team had been thoroughly thrashed in their three matches. Since then it has won all its nine matches — a reflection of the hard practice and keenness displayed by its members.

While much credit must go to the opening bowlers, D. Sullivan and N. Mathiesen, they have been ably supported in various games by R. Blanton, R. Stroud, A. Garret, P. Nevell and A. Badgery.

J. Hyde has established himself as the outstanding batsman. A feature of the games has been his opening partnerships with A. Powell, R. Stroud, P. Nevell, A. Badgery, D. Sullivan, N. Mathiesen, R. Blanton and A. Garrett have supported them well.

In the field performances have varied from excellent to poor. A. Powell deserved credit in his sphere for his consistent efforts as wicket-keeper.

S.A.H-W.

Under 10A.

Under the leadership of John Barry and Richard Barron (Captain and Vice-Captain) the Under Tens settled down quickly to an enjoyable

season of cricket. Wet weather prevented an early match against Newington, and the first inter-school match (against St. Pius X, Chatswood) was lost. The following match resulted in an outright win against Mosman Church of England Prep. School, and the season concluded with a win against Barker College. Capable wicket-keeping by Scott was backed up by the good bowling, particularly by Wilson and Barron. Batsmen of note were Swan, Allerton and Babister, whilst fielding throughout the season proved to be very dangerous indeed to our opponents.

J.B.

House Cricket.

Gold defeated Blue and drew Green. Blue defeated Green.

### SWIMMING

*Inter School Carnival at North Sydney.*

Eight schools competed and T. Murray scored our only win when he was placed first in the 8 years 'B' division. Our Junior Relay Team gained second place and in addition we obtained 5 thirds and 2 fourths.

*Invitation Carnival at Knox.*

Six schools competed and in the freestyle events P. Scott and T. Murray won in the first division; A. Rusk, N. Collis-George and M. Goldstein won in the second division; and L. Dawes won in the third division. In the backstroke events R. de Franck won in the first division and V. Roberts won in the second division. In addition the team obtained 3 seconds, 7 thirds and 7 fourths.

*School Swimming Meeting.*

RESULTS:

UNDER 9, 25 YDS. FREESTYLE: 1. T. Murray; 2. M. Goldstein; 3. J. Hile. 17.0 secs. (*Record*).

UNDER 10, 25 YDS. FREESTYLE: 1. P. Scott; 2. A. Rusk; 3. L. Dawes. 15.2 secs. (*Record*).

UNDER 11, 33 YDS. FREESTYLE: 1. D. Sullivan; 2. N. Collis-George; 3. P. Nicholas. 21.0 secs. (*Record*).

UNDER 12, 33 YDS. FREESTYLE: 1. J. Lucas; 2. S. Coombes; 3. C. Begg. 21.0 secs. (*Record*).

UNDER 13, 55 YDS. FREESTYLE: 1. G. Swan. 52.0 secs.

OPEN CHAMP., 55 YDS. FREESTYLE: 1. N. Collis-George; 2. A. Rusk; 3. V. Roberts.

JUNIOR 25 YDS. BACKSTROKE: 1. M. Robertson; 2. R. de Franck; 3. V. Roberts. 20.5 secs.

JUNIOR 25 YDS. BUTTERFLY: 1. M. Robertson; 2. J. Bisley. 23.0 secs.

JUNIOR 25 YDS. BREASTROKE: 1. L. Dawes; 2. D. Sullivan; 3. R. Stroud. 21.0 secs. (*Record*).

SENIOR 33 YDS. BACKSTROKE: 1. S. Coombes; 2. J. Lucas; 3. P. Scott. 26.8 secs. (*Record*).

SENIOR 33 YDS. BUTTERFLY: 1. R. Ekas; 2. G. Swan; 3. S. Coombes. 28.2 secs. (*Record*).

SENIOR 33 YDS. BREASTROKE: 1. R. Ferster; 2. J. Lucas; 3. G. Swan.

JUNIOR DIVE: 1. R. de Franck; 2. D. Foster; 3. V. Roberts.

SENIOR DIVE: 1. C. Begg; 2. G. Swan; 3. S. Coombes.

JUNIOR HOUSE RELAY: 1. Green; 2. Gold; 3. Blue. 2 min. 57 secs.

SENIOR HOUSE RELAY: 1. Green; 2. Gold. 2 min. 43.8 secs. (*Record*).

HOUSE POINT SCORE: Gold 42. Green 40. Blue 14.

J.L.

### SOFTBALL

Matches were played against Newington and Barker, of which 5 were won and 1 lost.

#### HOUSE MATCHES.

Each house won a match and lost a match so the house points for Softball were shared evenly.

J.L.

# Sydney Grammar Preparatory School, Edgecliff

## **CHESS**

Great interest was shown this year in the Chess Tournament, in which there were 48 entries from every class. After lunchtime tussles, nearly every day, the field gradually narrowed and A. Hinkley emerged as Senior Champion with P. Hughes as Junior Champion.

I.G.

## **SPORT**

### **Cricket**

1ST XI.

Only a small number of games were played as they were all two-day games.

Some considerable improvement was achieved in the general standard of play, even though individual efforts were irregular.

As Stephen Taylor was 'keeping' this season, the team had to develop other bowlers, and it was in this department the most serious weaknesses were found.

## RESULTS:

### v. WAVERLEY: Grammar won on 1st innings.

Waverley 1st innings — 52 runs — T. Hinkley took seven wickets for 30 runs.

Edgecliff 1st innings: 151 runs — S. Taylor — 66 including 5 sixes and B. Johnston 51 including 7 sixes.

Waverley 2nd innings: 230 runs including 113 scored by one boy.  
Edgecliff 2nd innings: 8-29.

### v. ROSE BAY: Edgecliff won outright by an innings and 62 runs. Rose Bay 1st innings: 83 runs. T. Hinkley 4 for 42 and Stephen Taylor run out two.

Edgecliff 1st innings: 171 runs: S. Richards batted throughout the innings to score 69 not out. S. Taylor scored a quick 38 whilst most other batsmen made double figures.

Rose Bay 2nd innings: 26 runs. David Freeman taking 6 wickets and Bradley Johnston 41.

### v. ST. PATRICKS: Edgecliff lost outright: 24 and 50 in reply to St. Patricks 4-89 declared.

The Edgecliff team was completely outclassed by St. Patricks. However the second innings total of 50 runs was made in 47 minutes in a race against the clock.

Our thanks are due to parents who so generously assisted with transport. K.P.

## 2ND XI. The seconds played two matches this term.

The first match was against Waverley College — which we won 145 to 93.

Players worthy of note in this match were C. Bayliss, M. Oliver, C. Beelaerts and Nicholson — who batted well. Bayliss also bowled well.

The second match was against Coogee Prep. We lost 48-111. In this match a good start in fielding and bowling was not sustained, and our batting was weak. Peter Philips was the only outstanding player in this match.

Pleasing attitude of the team — both on the field and off — was a great encouragement to its coach. I.D.

## COLTS 'A' XI.

The Colts 'A' played three matches, each of two days duration. An outright win was gained in the match against Rose Bay Christian Brothers, but the other two resulted in outright defeats. The standard of the play improved and the boys developed a keener spirit as the season progressed. The final match, against St. Patricks, Strathfield, was a very enjoyable one, though an undoubted victory to the more experienced players of a somewhat larger school.

Peter Grant is to be commended for his consistency and sound results in all phases of the game.

L.C.N.

## COLTS 'B' XI.

The team played only two matches, against Waverley and Coogee Prep. Our batting was very weak indeed — in one innings we made a score of 10. But our bowling and the high standard of fielding kept down our opponent's score, so that on neither occasion did we lose badly.

I.G.

## 9A XI.

A young and very enthusiastic group who are prepared to work hard and listen.

This team has already gained a reputation for 'sound spirit' and zest.

### v. ST. PATRICKS — Strathfield:

St. Patricks — 1st Inn. 143 — 2nd Inn. 16.

Edgecliff — 1st Inn. 81 — 2nd Inn. 31.

Lost by 48 runs.

### v. CHRISTIAN BROS. — Rose Bay.

1st Inn. Christian Bros. 29 — Edgecliff 78.

2nd Inn. Christian Bros. 97 — Edgecliff 68.

Won by 3 wickets and 20 runs.

I am looking forward to seeing this group develop.

R.W.B.

## **Swimming**

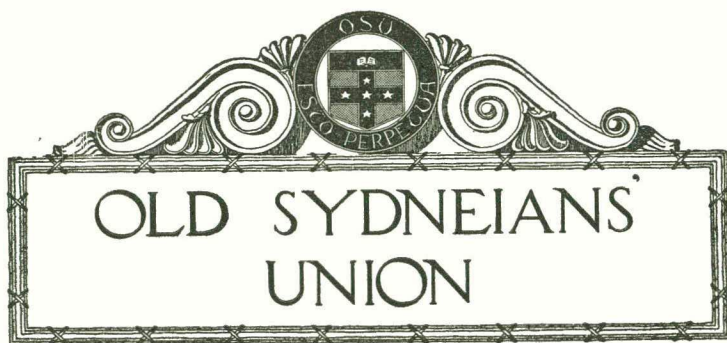

This year was not a particularly successful one for Edgecliff; in fact only two places were gained.

On Wednesday 21st March, a group of 20 boys went to Redleaf Pool where, among hundreds of swimmers, trials were held. The following day, the successful swimmers went to Rushcutters Bay Baths and competed in the College Street Elimination Heats.

The finalists then swam in the Carnival at North Sydney Olympic Pool where R. Polkinghorne gained a third place in the Under Ten Division and the 6th Class Relay Team filled 2nd place in their event.

Thanks are extended to those parents who so kindly assisted the boys with transport.

K.P.

## OFFICE BEARERS 1961-1962

### *Patron:*

THE HONOURABLE SIR KENNETH WHISTLER STREET, K.C.M.G.  
Lieutenant Governor of New South Wales

Macauley Road, North Melbourne.

## UNIVERSITY LETTER

Dear Sydneian,

It was very pleasing to see Sydneians of many vintages at the University and Prefects' Dinner held in the Union Refectory on May 11th; older members of the O.S.U., masters, undergraduates from both universities and present prefects — about 150 people attended. A very enjoyable meal was followed by speeches from such eminent Old Sydneians as L. C. Robson, former Headmaster of Shore and member of the University Senate, and Professor David Maddison, present Professor of Psychiatry. It was a very pleasant evening, most tastes being amply catered for — an excellent opportunity for the younger members to renew acquaintances and meet older members in their own and other professions.

Old Sydneian representation at the University continues to be of its usual excellent quality and quantity. This is the first year in which a quota system has operated in Sydney University. The number in first year Medicine has been reduced from the previous figure of more than 500 to 365. Next year other faculties will experience similar restrictions. However the number of Old Sydneians in their first year does not seem to have decreased, although there are possibly not so many in first year Medicine.

We congratulate those of our number who graduated last year. Some names which were noticed were Lindsay Wing, Fred Binns and Albert Singer in Medicine, Jim Goulding in Engineering, Jim Bishop in Zoology, George Smeal in Veterinary Science, Bill Birkett in Economics, and Graham Segal, who shared the University Medal for Mathematics.

In other academic years Old Sydneians were notably prominent. Those who topped their subjects were Jorgan Nielsen, History III; Tony Scotford, History I and Ian Curthoys, Psychology I.

Old Sydneians are doing well in many sporting fields. In Cricket, Malcolm Ives and Bob Grant played in First Grade. In Rugby Union, Philip Harry again is First Grade captain, Warwick Caisley is also a member of the team, having won his blue last year. John Antill competed in New Zealand with the Australian Universities Athletic team and, with Paul Vrachnas, represented at Interschool in Brisbane. Other Old Sydneian Sportsmen of note are Philip Warburton, Rifle Shooting; Jorgen Nielsen and John Matheson, Rowing; Rodney Skiller, Golf; Richard Mills, Table Tennis; Alan Obrart, Judo;

Richard Oswald-Sealy, Squash; and Michael and John Wayland, Fencing.

Stuart Cumming is on the Students Representative Council. Tony Brown is a prominent member of the Student Christian Movement. Mick Willis is president of the Engineering Undergraduates Association. The Regiment as always contains many Old Sydneians with high rank.

The Colleges still have only a small number of Old Sydneians in residence. It is a pity that only a few can enjoy this privilege, as it certainly is one of the outstanding features of 'Varsity life. We hope present Sydneians may in future consider 'living in' at the University, so that they can fully benefit from what the 'Varsity has to offer.

We congratulate the School Eight on their fine performance in the Regatta, and give our best wishes to the other sporting teams for a successful year. We are very pleased to see the School doing so well in such a wide variety of fields—we wish them much success and prosperity for the future.

Yours, UNDERGRAD.

## NEWS AND NOTES

In view of the considerable interest that is being taken, not only by Yachtsmen, in the series of races for the America's Cup. We append the names of the following Old Sydneians who are closely connected with this contest:

Alan Payne, the designer of the Australian Challenger *Gretel*.

David S. Carment, the Senior Honorary Official Measurer for Australia.

Colin G. Betts, Frank McNulty, Robert L. Thornton, members of the crew of *Gretel*.

The match will be decided by the best four out of seven races, the first of which will be sailed on September 15th, 1962, over a distance of approximately 24 nautical miles off Newport, Rhode Island, U.S.A.

★

Again an Old Sydneian fills the office of Chief Justice of the State. A former president of the Old Sydneians' Union, Mr. Justice L. J. Herron, was recently appointed as Acting-Chief Justice during the absence on leave of the holder of the office. Our congratulations go to him.

In another branch of the Law, Ken Smithers holds the office of President of the Law Society of New South Wales. The Council of that body has usually contained a fair representation of Old Sydneians.

The University letter contains the names of Old Sydneians who are prominent in sport. Among others who are playing regularly in grade football the name of Ross Maybury has been conspicuous in the Northern Suburbs Rugby Union 1st Grade team.

★

Dr. Roger Vanderfield holds his place as the leading Rugby Union referee. Those who saw the recent test between the All Blacks and Australian team appreciated not only his skill as a referee, but also his ability to diagnose quickly the nature and seriousness of injuries among the players.

★

The New Year honours included the name of the Vice-Chairman of Trustees, Wilfrid Francis, who was awarded the C.B.E. for 'worthy public service'.

★

## A LETTER FROM CAMBRIDGE

Dear Sydneian,

First, a close up, let me introduce to you the blustering Admiral on the poopdeck of his European man-of-war conning the 'natives' through his telescope in some Eastern port. It's an attitude to European imperialism that's being attacked with vigorous and critical energy by a couple of brilliant historians here. They are working on 'the Expansion of Europe' with flexible awareness of the character of the societies in Asia and Africa that were involved in this expansion, and a concern to test unthought assumptions that is exciting and stimulating. In some ways it is the history of the world since 1500 and we undergraduates are coming at it with gusto.

That in a small way, from my point of view as an undergraduate reading from the History Tripos, is what Cambridge can mean. No one demands you attend lectures, all are open to you. The stimulus to work is the weekly essay read to a supervisor. Only occasionally alas do any of them manage tea and crumpets. It is in these intimate sessions that vague ideas are exposed, that skimpy thinking and poor expression stand out in their stark offensiveness. Sometimes the supervisors are mature and wise, teaching obliquely by seemingly

irrelevant observations. Sometimes the man is a brilliant young research student, direct and critical in his slashing comments that send you away burning to have the better of him at the next encounter. One of the emphases of the system is to demand a constant effort to develop broad synthesis surely founded. It is a rewarding experience for me after five or six years of the study of history.

There are many aspects of the environment to remark on. The most obvious is the almost overpowering beauty of architecture and gardens. There could not possibly be a university as beautiful as Cambridge. King's Chapel we all sing raptures over: but there are less known corners. You can stand in a court in Caius and, within the compass of fifty yards, see buildings that ably represent five different architectural styles reaching back to 1400. Every one of the bridges over the Cam has its own character. My favourite is the simplicity of Trinity Hall's single span that rises so gracefully to arch over the swans and ducks below.

Far more important than buildings and lawns — even though the backs are unforgettable in any season and supreme in their spring coating of daffodils — is the intellectual tradition within which we work. There are hundreds of lectures to attend. We have a library of world standard to work in. We have a heritage of scholarship unbroken over 700 years. It is a heritage that is positive and living. On my own shelves are twice as many books by Cambridge scholars as of any other university. In conversation even, we are aware of this intellectual milieu: without stifling in a rarified atmosphere of ivory towers, we usually find discussions intelligent and constructive. And of course there are the usual range of societies: though I doubt if many universities can boast a yearly performance of Bach's *St. Matthew Passion* from its members.

Then there is evensong in King's Chapel, sung by a choir that are obviously seeking to be heavenly. Most people judge they succeed. The Dean of King's — superb showman, Dr. Vidler! — a unique touch as he makes his stately way to the sanctuary to pronounce the Benediction. Think too of the satisfaction of seeing and hearing authors whose works you have read and enjoyed. Or of just being in the university all the time, as part of a community of scholarship.

The closer circle of community life is enjoyed within the colleges. My, own, Selwyn, being of recent construction is neither draughty nor badly served for plumbing. We are ten minutes' walk from the city centre, so we tend to seek one another's company more. Lunch

is often communal and frugal — cheese, soup and bread — to the benefit of 'War on Want'. Coffee is a frequent excuse for discussion. Occasionally parties are more riotous. All the team sports you can think of have their devotees in the college. Nor are the dons utterly remote. A drive to admire local churches, a party for the historians in the college, or just a chat in the court one sunny afternoon.

Of course, we all have friends in other colleges. Sydneians I've got to know include Robert Wilson (Engineering) and John Sheldon (Classics — we'll count him in). Colin Mackerras will have begun his study of Chinese at Johns by the time this letter reaches Australia.

Would there were time to tell more! We are a fortunate band who study here. I'm sure you'll forgive me for being so proud of my university.

Yours, BRIAN DICKEY.

## ENGAGEMENTS, MARRIAGES & BIRTHS

*We should like to print a full and accurate list of Engagements, Marriages and Births and the Sydneian Committee relies on Old Sydneians to notify the Assistant Secretary, 31.9831 whenever they hear of an event which should be recorded in this section.*

*If full details are not known the Committee will make further enquiries.*

### Engagements

BRUWEL — O'FARRELL: Ross Bruwel to Christine O'Farrell of Milson's Point.  
EDWARDS — MEDCALF: John Edwards to Marian Medcalf of Epping.

### Marriages

WYNESS — HARDMAN: Jan Wyness to Miss Deidre Jean Hardman of Mosman, 7th February, 1962.  
MACKAY — WODDS: H. C. Mackay to Miss Barbara Wodds of Brisbane, 18th February, 1961.  
BONE — CUPITT: David R. Bone to Jennifer Ann Cupitt of Chatswood, 28th April, 1962.  
BLANCHARD — MCCANN: Colin Blanchard to Miss Helen R. McCann of Earlwood, 7th April, 1962.

### Births

MCCREDIE—Mr. and Mrs. William C. McCredie of Woollahra, a daughter, 20th November, 1961.  
BARNETT — Mr. and Mrs. David R. Barnett of Indroopilly, Q., a son, 20th November, 1961.  
MARTELL — Mr. and Mrs. Henry Martell of Box Hill, Melbourne, a daughter, 28th January, 1962.  
HERBERT — Mr. and Mrs. Rod Herbert of Turramurra, a son, 15th February, 1962.

## OBITUARY

### Robin Sterling Murray-Prior

Bob Murray-Prior, one of two brothers who attended the School from 1898-1901 died on the 31st May 1962 at the age of 81.

He was a member of the 1st XV in 1900 and President of the Old Sydneians' Union 1932-1933. On leaving school he proceeded to the University of Sydney and after graduation practised for many years as a Barrister in the Equity Court, prior to his retirement.

### Cecil Rodwell Lucas

C. R. (Ceasar) Lucas, who received his education at Grammar from 1901 to 1905 died on the 3rd April 1962, aged 75. He stroked the winning crew in 1904 and was Senior Prefect in 1905. He served with the A.I.F. in World War I and attained the rank of Major. On his return to Australia he practised as a Solicitor at Queanbeyan, for many years.

### Victor Roy Alldis

V. R. Alldis, who was at Grammar from 1902-1906 died at the age of 73. On leaving school he joined the staff of the Colonial Sugar Refining Company but after some years service at the N.S.W. and Queensland Mills, he resigned to take up survey work in the Orange district.

### 'The Sydneian' regrets to record also the deaths of the following Old Sydneians advised since the last issue:

- HENRY KEITH WREN CORDEN (1897-1899).
- LESLIE DOBELL (1904-1907).
- GLEN DOBELL (1905-1908).
- STANLEY ARTHUR LINDSAY (1930-1935).
- PETER JOHN MONTGOMERY (1955-1959).
- NEIL SHEPHERD MULFORD (1953-1958).
- KELVIN ROBERTSON (1910-1914).
- ALFRED E. STEPHEN (1891-1897).
- ARCHIBALD BRYCE STUART THOMPSON (1909-1912).
- J. J. TALBOT.
- DR. JOHN COLVIN STOREY (1898-1904).

## NEW MEMBERS OF THE OLD SYDNEIANS' UNION — AS FROM 1ST DECEMBER, 1961

- ALLEN, W. A., 16 Musgrave Street, Mosman.
- ANCHER, J. C., 15 Bogota Avenue, Neutral Bay.
- APTHORPE, K. A., 53 Gardere Avenue, Harbord.
