THE SYDNEIAN

No. 350 **JULY, 1963**

School Editor: N. DETTMANN

THE OPENING OF THE NEW SCIENCE BUILDING

On Friday 5th April, 1963 the Prime Minister of Australia, accompanied by Dame Pattie Menzies, visited the School to open the New Science Extension. We were proud and happy to welcome two such distinguished visitors.

Sir Robert and Dame Pattie were received by the Headmaster, and after inspecting the Big Schoolroom, had lunch with the Trustees and the Headmaster in the Dining Room.

At a ceremony in the Middle Playground, Sir Robert spoke to a large gathering of Old Boys, present boys, parents and friends of the School and concluded his address by declaring the building officially open. The Science Master, Mr. R. W. Maclay, then conducted the official party round the Science Building.

ADDRESS BY MR. NORMAN COWPER

Chairman of Trustees, Sydney Grammar School

WE were delighted, Sir, when we heard that you were able to come to-day. That you have found or made the time to do so is due, we believe, to your deep interest in education, which you have shown in a multitude of ways — by leading the Commonwealth to the rescue of the Universities, by nourishing great institutions such as the National University and the Academy of Science and by your constant concern for the welfare of the Schools. Yourself an old boy of a great Melbourne school, you have lately described in admirable terms the role and value of the independent schools.

Because, like another great Tory Prime Minister, you know that 'on the education of the people of this country the fate of this country depends,' we who are especially concerned with education, were especially glad when Her Majesty of her own motion conferred on you a rare and high honour.

We were also delighted when Dame Pattie accepted our invitation. We welcome her in her own right, as, indeed, in her own right she also has been honoured by the Crown. Dame Pattie's simplicity and quiet charm have endeared her to the Australian people. She, too, is 'a lady sweet and kind'.

A school, like any other organism, must grow or die. This is an old school, but it continues to grow, and we are proud of its growth. I refer, not to the

increase in its numbers, but to the raising of its standards, the extension of its activities, the improvement of its equipment.

It was among the first of the independent schools to see that its equipment for the teaching of science was inadequate for modern requirements. So that, when in 1957 the Old Sydneians' Union began under the presidency of Mr. Lyle Moore and carried on under the presidency of Mr. Wilfred Francis an appeal for a building fund to mark the centenary of the School, the principal object was the construction and furnishing of an entirely new Science Block. This has been made in two stages. The first is represented by that part which is over our heads and extends to where the taller portion begins. That stage was financed entirely from the Centenary Fund, and it was finished in 1959. The second stage is represented by the three-storey portion at the eastern end of the block. It has been financed in part by a subvention from the Industrial Fund for the Advancement of Scientific Education in Schools, but mainly from our Centenary Fund.

The Chairman of the Industrial Fund, Sir Edward Knox, an Old Sydneian, has been prevented from attending this meeting because as Chairman of the Colonial Sugar Refining Company he has to preside at a function of that Company. We welcome in his place Mr. Charles Booth, the leader of the Fund in Victoria. With him are Mr. F. E. Trigg, the Chairman of the Executive Committee, and Mr. L. C. Robson, the Chairman of the Committee of Advice, another distinguished Sydneian. We express to them our admiration for what their Fund is doing to promote the teaching of science in the independent schools, and our gratitude both for the contribution it has made to this undertaking and for the sympathetic co-operation we have received from Mr. Robson and others of its officers.

The Trustees of the School are glad of this opportunity to thank the Committee of the Old Sydneians' Union and all who worked so hard for the Centenary Fund. Without them this building would scarcely have been possible. Without their constant support the School cannot continue to grow in the ways I have suggested.

May I mention here two other sources of assistance to meet the School's needs, the Sydney Grammar School Women's Association, and the recently formed Fathers' Association? While the magnificent sum of £94,000 which the parents raised for the building fund has not been used for this Science Block, there are, as you know, other immediate needs which will fully employ it. And the reconstruction of the Palladium Building, which the School acquired at the instigation and with the help of Mr. Lyle Moore and through the good offices of the Prime Minister, will require huge sums.

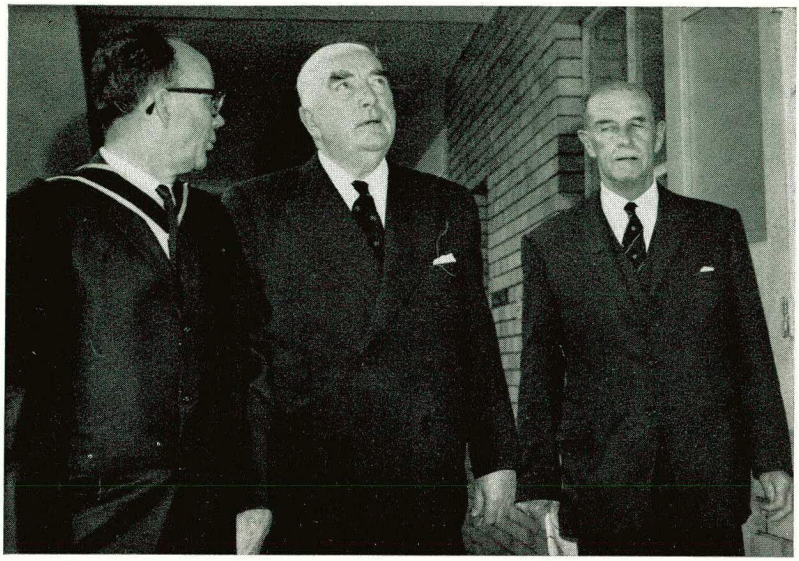

Strangers may wonder how, in this vast area, we can hope to meet the changing and growing needs of a great school. This building, which I believe gives facilities for the teaching of science equal to those afforded in any other school in Australia, is part of the answer. Those who know what we have here, what we intend in the future to provide here, and what remarkable work is done here by a competent and devoted staff under the leadership of a great headmaster, may be inclined, as they look round, to murmur with me 'infinite riches in a little room'.

I have the pleasure to ask the Headmaster to address you.

THE PRIME MINISTER TAKES A LESSON

ADDRESS BY MR. C. O. HEALEY

Headmaster, Sydney Grammar School

It gives me great pleasure to echo the Chairman's congratulations and to welcome you, Mr. Prime Minister, and Dame Pattie, to this school; not only for the honour which it does us, nor only because of your interest in education and your care for independent schools, but particularly because on at least two occasions you have said to me 'How on earth do you manage to get all those boys into that tiny space?'

You see now, perhaps, how we do manage; and how we hope to improve our means to this end. We have overcome enormous difficulties and we have yet more to overcome. Some of these you yourself, Sir, have helped us to overcome (e.g. the Palladium). I think that it may be said that we are a great school, just because we have had to struggle with physical difficulties such as few other schools of like standing have dared to contend with. Most have left the centres of cities; but we intend to stay here, in the heart of Sydney. And I believe that it is good for us to prove ourselves superior to these difficulties. Our studies are carried on in the midst of the roar of an unbridled city; our sports on a ground — at Rushcutter Bay — too small for our needs and threatened from time to time by the inroads of planners of railways and express-roadways. Our boys — even our boarders — must make their arduous

ways to school by the most uncomfortable means of transport yet devised by man, unless they are lucky enough to come by ferry.

Yet we are obviously among the leaders in intellectual achievement, just as much now, as perhaps we were even when your illustrious predecessor, the first holder of the office which you hold, Sir Edmund Barton, was a pupil here. We can be seen to be leaders in sport, especially in that game of which you, Sir, are so rightly fond. And our Old Boys were pioneers in self-help at the time of your last visit, when you were the Guest at our Centenary Dinner in 1957. Our example in the field of fund-raising has been followed by most of the other independent schools. The concession of your Government as to relief from Income Tax in respect of gifts to school building-funds is a most valuable support to this activity. And it is since that first venture of our Old Sydneians' Union that the Industrial Fund, to whom we are to-day also beholden, has come into existence. It is with pleasure that we welcome, as spokesman for that organization, a distinguished Old Sydneian, Mr. L. C. Robson, lately Headmaster of 'Shore' and a former Chairman of the Headmasters' Conference of Australia.

On this occasion I particularly wish to thank and praise our Science Master, Mr. Maclay, whose initiative and skill in planning the requirements of these laboratories have been so happily and cleverly carried out by our Architect Mr. T. M. Scott and his colleague Mr. Peter MacCallum. It is a remarkable, and in some respects unique, building.

Buildings, however, are not the only need of a school. Through the noble generosity of these our friends, our parents, our Old Boys, we can see fairly clearly the way towards creating those buildings which this great school will need. But it is men, not walls and houses, that make a city.

I am concerned at the mounting burden of fees. I should like to see this School, and the other great independent schools, create for themselves great funds for scholarships, to relieve those parents who need such help of part of the burden of fees according to their needs, so that these schools do not perforce become only the privilege of the rich. It used always to be this school's endeavour to make it possible for those of slender means to send their boys here. We do, in fact, give scholarships and remission of fees to the extent of nearly £12,000 a year — and this with only about £1,300 income apart from the fees we charge. I hope we can encourage gifts for scholarships in schools, so that in the next twenty years or so we and our fellow-schools may build up great endowments, to enable the less wealthy to continue to come into independent schools.

For I call on you all to think of this independent school, this city and this nation as having a great future, greater than their past. Until very recently schools, like the nation as a whole, have been too much embedded in the slough of their present difficulties, unable to look forward to the greatness of the future. If, while I am Chairman of the Headmasters' Conference of the Independent Schools of Australia, I could lay the foundation of such a structure for this school, as an example, I should feel that I had done something worthy of this country in whose future we should all have the greatest confidence.

ADDRESS BY MR. G. K. HERRING

President, Old Sydneians' Union

MR. CHAIRMAN,

It is with the greatest pride that I speak on behalf of the Old Sydneians' Union at this very important milestone in the history of The Sydney Grammar School. The Old Sydneians' Union pioneered the idea of raising funds to assist the School Authorities in the many building projects planned for the future welfare of Grammar. Fund raising by associations of old boys is now commonplace throughout Australia and their efforts are now being supplemented by Parents' Associations and other such groups, all interested in the general advancement of the particular school with which they are associated.

The Science Laboratories which came into being in 1959 and the new block which is to be officially opened to-day by our Prime Minister, provide tangible evidence of what can be performed when Grammar Old Boys decide to show their appreciation of their association with one of Australia's oldest Great Public Schools. Over 2,000 Old Sydneians contributed just over £100,000 to the S.G.S. Centenary Fund and it was with this sum in view that the Trustees were able to undertake the courageous project of establishing at College Street a Science Laboratory capable of coping with the most exacting requirements of modern educational standards. Old Sydneians are, therefore, justly proud of their accomplishments!

Mr. Chairman of Trustees and Mr. Headmaster: We would like you to know that the vision of Old Sydneians looks further ahead into the future. We were inspired by a recent address wherein you, Mr. Headmaster, outlined plans for numerous rebuilding projects; some for immediate requirement and some for future years. Already we have sprung into action and are now in the throes of an Alumni Campaign which to date has accumulated a sum of £57,000 in gifts from 1,200 Old Sydneians and which should certainly increase to a really worthwhile figure when remaining Old Boys exercise their privilege of contributing to the S.G.S. Building Fund through the Old Sydneians' Union. Obviously, Old Sydneians cannot cover the total amounts required, but we are inspired with the projects envisaged by the Headmaster and the Board of Trustees and desire to add our contribution. In particular we look forward to some scheme whereby the Old Sydneians' Union can become closely associated with the erection of modern school facilities on the Palladium site.

I feel I cannot overlook this opportunity of conveying to our Prime Minister the congratulations of all Old Sydneians upon the Knighthood recently conferred upon him by Her Majesty. Our best wishes, Sir Robert, for many years of happiness and contentment!

ADDRESS BY MR. L. C. ROBSON,

Representing the Council of the Industrial Fund for the Advancement of Scientific Education in Schools

It is a great pleasure for us to be here today, representing the Industrial Fund, and joining with you in celebrating the completion of this fine Science Department.

I myself have additional and very special reasons for keen interest. I can speak as an Old Sydneian, with treasured memories of six happy years spent at Grammar from 1907 to 1912. I can speak also as a former Headmaster of a brother school — now happily on the shelf — and deeply interested for many years in educational developments, not least in Science and Mathematics.

It is inevitable that I should today recall my time at this school, half a century ago. Of course, it was a different place, far less complex. We were able to cross College Street then in comparative comfort, without too grave danger from the horses and hansom cabs. Yet the more Grammar changes — and most happily the same is true of other great independent schools throughout Australia — the more it remains the same place; keeping up with the times, but standing firmly on the same secure foundations of high standards and sound values.

It may be of particular interest if I recall some comparisons appropriate to this day. I sat for the equivalent of the Leaving Certificate just 50 years ago last December. I was one of 13 boys from Grammar who passed; a number which in 50 years, even with limited enrolment, has become ten times greater. I was a curiosity in that I took both Chemistry and Physics. I suspect that I may have been the first boy from Grammar to pass in both subjects. I do at least recall that Physics was not then part of the regular curriculum and that I studied it in solitude with the help of A. H. S. Lucas, often working in the Headmaster's study. In the whole of N.S.W. in 1912 there were only 20 senior passes in Chemistry and 26 in Physics.

A further interesting point from the records is that whereas there were 13 passes in the Senior, there were 72 in the Junior; which shows what a large proportion then used to leave before the Sixth Form.

Those details may serve to highlight the vastly increased demands of science in schools — far bigger numbers overall, a far bigger proportion remaining to the Sixth Form, far more taking science. Add to these factors a huge increase in the subject matter to be covered, and a marked elevation of the standard needed for success, and you have a summary of the situation, which the Industrial Fund is trying to help schools throughout Australia to meet.

We of the Fund do not fail to realise, Mr. Chairman, that our contribution is not great compared with the total cost of this big building. Nevertheless, you will doubtless agree that it is proper that due acknowledgement should be made to those industrial and commercial organisations which have shown real foresight and imagination in creating the Fund at our request. We hope that our gift has enabled you to get at once that extra advanced accommodation which we think makes all the difference.

In order to save me from saying too much, and you from listening, some leaflets are available, explaining how the Fund came about and what it is seeking to achieve. It really succeeded because there is such widespread concern at the shortage of scientifically trained personnel in industry and in the public services; and because many of our leaders felt that they could with greater authority and confidence draw attention to this shortage if they were to take the initiative in trying to do something about it.

This today is the 20th such project in which the Fund has been interested. The 21st is being opened this very day at Brisbane Boys' College. The 22nd is coming up at Camberwell Grammar School in Victoria in a fortnight. There are 12 others building or planning. How far we go on from there depends on our getting more money. We must not blow our own trumpets too hard; but we think that the Fund is doing a work of major educational importance and we are extremely keen to take it very much further.

My colleagues and I had very definite reasons for devoting attention to the provision of good accommodation at the secondary school level, and we hope that these reasons will appeal to others who may want to do something for scientific education.

It is easy enough to realise that we must have fine laboratories and expensive apparatus at universities and of course this is so. We need plenty of good graduates and more and more post-graduate workers; and we must be as well represented as possible among the leaders, at the top level of the world's scientific work. It is not quite so easy to realise that it is of basic importance that among the ordinary people of the community such as you and me there must nowadays be a better understanding of the changes that are taking place. In future we all have to be more keenly alive to the possibilities and dangers and the changing ideas that lie ahead in the new world for which we are striving so hard to educate our children and grandchildren.

That is just a hint of what we mean when we say that one of the objects of the Fund is 'to increase scientific awareness in the community'. We think that it is a real contribution to this object to promote good work in schools.

Then again we take into account that industry needs not only graduates but also plenty of those who are prepared to rise through the ranks of the great industrial organisations.

I think also that the Fund can claim that it is helping to bring school science up to date and to elevate its standards. There is no covert criticism here; far from it, for, as I have every reason to know, school science teaching is very good in Australia. However, the older among us are apt to forget just how good it has to be in these days. Things which are still miraculous discoveries to us older people are commonplace in the thoughts and vocabularies of youngsters. I have no doubt that there are plenty of boys here today who could give a pretty good explanation of how a jet engine works, or what a transistor is, or an antibiotic, or a neutron, or a nebula. My point is that to youngsters of today science has to be taught as a lively and appealing subject; with a reasonable minimum of pumping in of facts by lecture and demonstration; with emphasis upon accuracy of performance and of observation and upon honest recording of results; with plenty of activity on the part of the pupil. It needs ample rooms, well designed and equipped. The ideas that we had 40 years ago, 20, even perhaps 10 years ago, are out of date. It needs something good to catch the imagination of the youngster of today, whose everyday life and thought take for granted much that not many years ago we scarcely dreamed of. And, make no mistake, it is at the school age that the imagination can be caught, and the spark of enthusiasm can be struck.

Mr. Chairman and Mr. Headmaster, on behalf of the members of the

Industrial Fund, and also as an Old Boy, and again as a representative of your friends in other schools, I congratulate you upon the great forward move that the school has made by the completion of this building. There is no doubt that fine work of high standard will be done in these rooms. I am satisfied that in these days in secondary schools we need to aim at standards that test the abilities of intelligent boys. Here you will be able to do that better than ever.

For many years I have been very lukewarm towards G.P.S. competitions, but I hope that your attitude to science teaching will encounter plenty of competition from your friends. Indeed, I happen to know that it will, and I am sure that you will welcome it.

We are happy to have had a part in your achievement and we give you our good wishes for the future.

SPEECH GIVEN BY THE PRIME MINISTER, THE RIGHT HONOURABLE SIR ROBERT MENZIES

Sir, I don't mind telling you, I'm speaking this afternoon with one advantage and with a couple of disadvantages. The one advantage is that at dinner time last night I polled my full majority, and therefore I haven't had to endure the mortification of being referred to by other people up here either as the ex-Prime Minister, the former Prime Minister, or as people sometimes say with a touch of graveyard humour, 'the late Prime Minister'. So here I am as you might say, all present and correct. Now that's from my point of view a singular advantage, though whether it's yours I wouldn't like to say. But the disadvantages are two at least. One is that although I have a splendid daylight view of the boys, most of them are looking a bit grim, and I would be too in their place; and the other is that except for the front row I can't see you at all. Shrouded in darkness, men of course loving the darkness because their deeds are evil. And so that's a disadvantage: I always like to be able to see the audience; you satisfy yourself that you have one if you can see it. And another disadvantage is that Mr. Robson, this most famous person connected so eloquently with this most marvellous Industrial Fund, has developed a habit of haunting me. I've been to two or three of these things and each time I look around uneasily I see Mr. Robson, Mr. Charles Booth, who used to be an old friend of mine and Mr. Trigg, and they sit there. Robson does the talking, the others do the applauding and although I don't mind hearing what he has to say four times, he must be completely fed up now over listening to me. Fortunately for me I can't remember what I said on the former occasions and therefore I'll do my best to overcome this handicap. But really, this is a marvellous event; I must confess as your Headmaster has told you that on more than one occasion as a result of being driven rapidly along the street outside, I've said to him 'How do you get them all in?' This is very true, I have, I've said it and I still don't know, but they're here and that I think is a very good thing for Sydney and a very good thing for Australia. Now I want to confess to you that my claims to speak about Science are extremely sketchy. When I was a

schoolboy I had an inordinately good memory, the kind of fellow who gets through examinations like, that you see, except in Science and Mathematics and when it came to these branches of learning which I never succeeded in understanding, I used to learn the book by heart and as I once said in the presence of Mr. Robson, I always got fifty as a result, half in theory, half in practice, and that got you through in those days and it was better than some other people did, but that was my scientific qualification. Since then my instinctive, though not cultivated scientific ideas have been recognised. I'm a Doctor of Science, believe it or not, of the University of New South Wales and seeing a couple of powerful Medical men who are friends of mine in the front row, I want to tell them that I am also a Fellow of the Royal College of Obstetricians and Gynaecologists. So you see in a sense I am not entirely unqualified for the task this afternoon, even if the only thing I deliver is a speech. But putting all that on one side the truth of the matter is that we have become, particularly in the last ten or twenty years, increasingly conscious of the demanding place of Science in education and indeed in the whole conduct of the affairs of the world; this is tremendously true. It may be, Sir, that we perhaps are a little carried away by the fascination of nuclear physics, by the spectacular achievements which are taking place no doubt at this moment somewhere up above us, but this is not to blind us to the fact that humanity, though it lives in some fear of some of these developments, has benefited enormously by the scientific work done in this century. The work of the Microbiologist, the Antibiotics, the whole modern development of Surgery, the whole modern developments in agriculture, in genetics, in pastoral industries, all these things have not only added enormously to human wealth and human happiness but they have in various aspects contributed to a remarkable extension of human life. This is something that we are not to forget in the excitement at the moment of more fashionable and fascinating ideas. I once took the opportunity of saying in one of the Universities at the time when the first Sputnik went up and was to be seen by earnest observers in the sky, that it's worth while for a lot of the people in the world who look at this and marvel at it, it is worth their while remembering that but for the work, particularly of the Medical Scientists, in this century, millions of them wouldn't have been there to see it. So as always we must praise famous men and undertsand what we are talking about when we talk of Science not narrowly, but in all its aspects. Now we in Australia have I think two tremendous interests in this matter; I'm saying now as a Nation. In the first place there is in the modern world as the process of development goes on a constant pressure on the cost level, a constant inflationary upward force on all things that enter into the cost structure and these of course are of tremendous interest, for example to the man on the land, to the farmer, to the grazier and of course of tremendous interest to many other people. And more and more we are coming to realise that the right answer to this is not a blind attempt to push back the tide, but that the right answer is to increase our efficiency of production in all its aspects and that the right way to do that is primarily by devoting more and more scientific study and technological application to the problem in hand. We've all seen it, I've seen it in my own lifetime how the production of wheat has improved, how many

acres have come under profitable cultivation that were thought to be arid. What an enormous development there's been in the wool industry, in the sheep industry broadly. What tremendous improvements are occurring every day in great industrial enterprises and if you go back far enough its very seldom just a happy accident; it is usually the result of the careful work of some Scientist in the laboratory and of some applied Scientist in the technological field. Therefore, though I myself am no Scientist, though I myself am bred in the tradition of the humanities and hope that that tradition will always survive, I am utterly convinced that we must pay an increasing attention to scientific training, scientific discovery, to scientific application if we are to be well in the march of time, if our country is to have more and more people and to be more and more prosperous. And from that point of view, the boy who uses the facilities of this new building will not just be doing something that may some day qualify him to hold a particular job, or to earn a particular income. He will in fact be one of thousands making a contribution to the ultimate advancement of the country. And the advancement of the country and the advancement of the people and the happiness of the people are more important than any individual advancement at all. Now Sir, that's my first reason and the second reason is perhaps not unassociated with it. We have a rapidly growing population, we have now about eleven million people in Australia, a lot more than when I first knew what the population of Australia was, but there are other countries in the world just coming, just emerging into selfconscious nationhood, just emerging into independence, just practising sometimes in a faltering way the great art of self government and these countries have populations which are increasing. The population of China itself will probably be a thousand millions at the turn of the century; population of India four hundred odd millions; population of Indonesia getting very near to a hundred millions. We have hundreds, becoming rapidly thousands, of millions of people in the world, not living in old settled communities, not enjoying the amenities of life that we enjoy, not familiar as we are with all the latest products of human ingenuity, but wanting them, needing them, struggling towards them and our country small as it may be will find increasingly that it must produce scientists not only for itself but for other countries in the world, because we have a tremendous contribution to make if this new world is to develop and maintain its pride, secure its independence and be able to hold up its head not as a backward country, but as a country in the full process of what we call modern civilization. And so for the individual, for this nation, for other great nations in the world, the study of science, the attaining of the highest possible standards, these things have become of vital importance. The only other thing I want to say is this, this is where I so vastly admire the imaginative work of the Industrial Fund and of these public spirited gentlemen who conduct its affairs. When I was a schoolboy scientific equipment was of a highly rudimentary kind. Today it becomes more and more complex, not as complex as in a research university or in a university of the normal type, but still complex and expensive as compared to the rudimentary apparatus of the past. It's much more costly to establish a Science Faculty in a University than it is to establish an Arts Faculty. You can teach

people Latin, with some difficulty I take it, but you can teach people Latin, with the minimum of equipment. My experience was some books and a teacher with a gimlet eye, that was the equipment and that could set you going on the road, but in Science this is now big money that is needed, this involves tremendous expenditure and in the government field dealing as I do with the Universities of Australia, I'm increasingly conscious of this fact because the outlay even since the great Murray Report was adopted by us, doubles itself every three years, and this is not inconsiderably related to the cost of equipment, and the Industrial Fund realising this as men of practical experience has come along and its own contributions, massive as they are, are very largely directed to seeing that you don't just have an agreeable building with good light coming through the windows, but that you have the means of producing with the co-operation of the students first class people up to the standard at which they go to the University, well equipped people coming out of well equipped laboratories.

Now Sir, that's all I want to say, I've spoken too long. I'll have to get Sir Norman Gregg to explain it to me one of these times, for it's a curious thing about the effect on the optic nerves, but if you look at an audience even in the dark as long as I've been looking at you, you begin to pick out a few faces and that's what's been happening to me and that's perhaps why I've spoken too long. Sir, I won't forget on this occasion; I have a very great deal of satisfaction in declaring this building open.

The Senior Prefect then presented a bouquet to Dame Pattie Menzies and led the School in giving three cheers for the Prime Minister of Australia and Dame Pattie Menzies.

The building was then inspected by the Official Party and other guests. Afternoon tea was served on the Upper Terrace.

EDITORIAL

The purpose of attending any school, and particularly one such as Grammar, is to receive a balanced education. The criterion of whether a boy's school career has been successful is not whether he emerges with a Leaving Certificate. Education is something far wider than this, it is the development of latent talents and qualities, of a set of values — it is the formation of character.

Education in this wider sense is obviously not going to be acquired just in the classroom. Extra-curricular activities play just as important a part in education as do the subjects that are laid down to be studied for examinations.

It is therefore extremely disturbing that there are in the school boys who do their best to avoid participation in any extra activity. If a boy does not want to play his part in school life, it is not very difficult for him to avoid doing so. Certainly, sport is compulsory, but a boy cannot be really forced to play any sport if he does not

want to. It is more difficult for a boy to avoid spending his two years in the Cadet Corps, but even so, enrolment in the Cadets by no means ensures that a boy will enter fully into, and derive full benefit from the activities of the Corps.

This reticent band does harm in two ways. Firstly they harm the school. We have all been told at some time 'to put something into the school and not just take from it', but by deriving benefit from taking part in extra-curricular activities, a boy is at the same time making a contribution to the School. Even though those boys who do not take part do not take anything from the school, neither do they put anything into it; thus by their very presence they lower the standard of the school's attainments. Particularly in compulsory activities such as the Cadet Corps, the unwilling boy makes things much harder for his fellows. But the real harm done by these boys is to themselves, for it is they, more than the school, that suffer from their own laziness. Grammar provides great opportunities for its pupils to get a really good education, and those who turn their backs on these opportunities are doing themselves a great disservice.

Why is it that some boys refuse to take part in the school's activities? Often the reason is that they think, quite wrongly, that they do not have the necessary ability. In too many cases the reason is laziness — they would rather do something requiring little mental or physical effort than debate, act or play sport. A few refuse to participate simply because they resent the fact that these extra activities have been made compulsory.

Whatever the reason for their reticence, these boys should realize how much they will gain by making the extra effort and joining in. Each boy should make sure that while he is at Grammar he grasps his opportunities with both hands, for to do otherwise is folly.

LETTERS TO THE EDITOR

Sir,

The Sixth Form is the senior form in the School. But how is any outsider to distinguish it? Perhaps, as at Shore, a special VI Form tie could be worn, designed along the lines of the O.S.U. tie.

Yours etc.,
A.G.B.

Sir,

All of us must make a public speech at one time or another. Most of us make a mess of it. This should certainly be avoided if possible, and I can see a revolutionary way of avoiding it.

As we all know, the education system in New South Wales has been altered and there is much time to be put to use. Why can it not be used in learning to speak publicly?

'Public Speaking and Oratory' could be introduced as a separate subject. As the pupils progressed the subjects given them to speak about would become harder. If the need for an exam arose, they could be examined practically or theoretically. For a practical exam all that would be required would be to speak to an assembly of people, probably fellow pupils. Theoretically examining a boy is slightly harder. He could write out a speech or make notes for a speech.

If 'Public Speaking and Oratory' was not made a full time subject it could be placed in the English course. This would however somewhat narrow the field of subjects and would not be even a quarter as effective as having it as a separate subject.

The greatest argument against having it as a separate subject, or even part of a subject, is that 'Public Speaking and Oratory' is already cared for in the debating done after school. This argument is not valid because only a few interested boys take part in this debating activity. But if it was made a compulsory subject all boys would benefit and the art of the orator and speaker would become far more widely spread.

We all know the torture of listening to a poor, dull, speaker who is monotonous, illogical and completely irrational. Let us then eliminate them by training pupils to speak well.

Yours etc.,
A.B.

Sir,

It would be a good idea if a board was erected outside the Masters' Common Room. On this board there would be a number of slots, each one to contain a card bearing a master's name. When a master is in the Common Room, his card would be in its slot, and when he goes out he would take out his card.

This would serve a number of purposes. Firstly, it would stop boys waiting in the lobby outside the Common Room, completely

blocking up the passage way, while the master they seek is not in the Common Room at all. Secondly, it would stop incoming masters being given the names of a number of masters, many of whom are not in the Common Room.

Thus this board would save the time of both masters and boys, and it could be erected just as quickly and easily as was the careers notice board.

Yours etc.,
J.N.E.R.

PRIZE GIVING 1962

On 12th December, 1962, His Excellency the Governor of New South Wales, Lieutenant-General Sir Eric Woodward, presented the prizes at the Annual Speech Day in the Sydney Town Hall.

After the Trustees and the Staff had been presented, the academic procession moved into the Hall. The Chairman of Trustees, Mr. N. L. Cowper, welcomed the gathering and gave his address, and the Vice-chairman, Mr. W. E. R. Francis, drew attention to the benefactors and endowments. The Headmaster then gave his address after which the Governor presented the prizes and spoke to the assembly.

After the ceremony, afternoon tea was served in the Big Schoolroom by the Women's Association.

THE HEADMASTER'S REPORT

A rise in numbers at College Street has again occurred this year, to over 1,030; the numbers at St. Ives and Edgecliff remain steady. The ratio of masters to boys at College Street has been maintained and will be slightly better than one to eighteen next year even if the number of boys increases, as is expected.

The death of Mr. F. G. Phillips, M.A., for so long associated with the school as Assistant Master, English Master, Master of the Lower School and finally as Headmaster from 1940 until his retirement in 1950, was keenly felt by his great number of affectionate friends, colleagues, and pupils. An account of his services to Grammar and tributes to him are published in the December number of *The Sydneian*. We record our sympathy with his surviving son, Dr. Leigh Phillips.

We also record with sorrow the death, at the age of 94, of Mr. Robert Vicars, who was Chairman of Trustees many years ago and a President of the Old Sydneians' Union; and of Mr. F. F. Buchanan and Mr. R. Murray-Prior, also former Presidents of the Old Sydneians' Union. Mr. Buchanan was for long the Chairman of the Sports Fund Committee and was at one

time Secretary to the Trustees. And very recently there died one who was a great supporter and benefactor of Sydney Grammar School, the founder and for very many years Principal of the Edgecliff Preparatory School, Miss Isabel van Heuckelum.

The school again gains honour through the appointment to the office of Chief Justice of New South Wales of an eminent Sydneian, the Honourable Mr. Justice L. J. Herron; and congratulates the Vice-Chairman of the Board of Trustees, Mr. W. E. R. Francis, on receiving the C.B.E.

It is with great sorrow that we say good-bye to Mr. E. R. Dent, Headmaster of Sydney Grammar Preparatory School, St. Ives; but we rejoice that he is going to be Headmaster of another Headmasters' Conference School, All Saints' Bathurst. It is difficult to record the debt of the school to Mr. Dent: before going to St. Ives he was head of the History, Economics and Geography department at College Street; and his combination of experience and scholarship in secondary education, his training and experience in primary education, and his experience of boarding schools, enabled him to bring unrivalled talents and genius to the foundation and development of the new school at St. Ives in 1954. The success of that school, not least in the field of scholarship and character training, has been his remarkable work. He and Mrs. Dent will be missed very seriously by parents, boys and colleagues alike.

We have also to say farewell to Mr. F. A. Lenthall, for many years Second Science Master: he has reached the age of retirement. There have been few more able teachers, or men more loyal in the service of the school. We all wish him a most happy retirement.

It is with great regret that we record the retirement of Mr. L. W. Webster, whose sudden and serious illness in the middle of the year has rendered him unfit for further teaching. However, it is good to know that he has made a good recovery.

At the end of last term Mr. G. Browne-O'Byrne left to take up an appointment under the Commonwealth Trade Commission. His place was filled by Mr. B. Hobart, B.A., who has already proved his ability. It is with sorrow that we also have to bid farewell to Mr. G. Broadley-Harrison, who is returning to England, and to Mr. R. Adcock, who is going back to Ispwich Grammar School in Queensland. Both have made valuable contributions to the work and happiness of the school.

Newcomers to the staff next year will be Mr. G. E. Hall, Mus.Bac., from Victoria, as Music Master; Mr. P. W. Groves, B.A., to teach English, History and Economics and to serve with the Cadet Corps; Mr. M. J. Ives, B.Sc., to teach Geography (he is an Old Sydneian), Mr. F. E. Steanes, B.Ec., to teach Science and serve with the Cadet Corps, Mr. D. Cohen from Sydney University, (where he is completing his degree) to teach English and French, and Mr. D. H. Green, from the Army, to develop physical trainiing It is also intended that we appoint a master to teach Craft, especially woodwork. It is fitting to record the debt of the Science Department to Mr. Wiseman, who has given valuable service as Laboratory Assistant, and is now leaving us; and to Mr. Keane, also Laboratory Assistant, who remains with us. Mr. D. A. Craig has been appointed to look after the technical equipment generally in the Science Department and elsewhere.

The scholastic achievements of the school have again improved. In a year not remarkable for any very outstanding individuals, the largest number of Leaving Certificates and the largest percentage of passes in the school's history were obtained, 140. Moreover the very high number of 41 Commonwealth Scholarships were gained at the same time. 170 Intermediate Certificates were awarded. The improving scholastic results within the school are repeated among Old Sydneians at the Universities; and it is interesting to note that there are at present at least six Sydneians taking post-graduate courses at Oxford and Cambridge, namely R. A. M. Wilson, C. P. Mackerras, D. Hodgson (Rhodes Scholarship), B. H. Dickey (British Commonwealth Scholarship), G. B. Segal (British Commonwealth Scholarship) and J. B. Windeyer. Similar distinctions may be expected in the future. In the list of recent Science Teachers' Association Awards, presented in August at the University of N.S.W., were the following members of the present Sixth Form: T. Little and M. Gardner, one of the two top open awards of £35 for 'An Experimental Fuel Cell'; £10 Awards to J. Morris for 'Ionization Energy' and to G. Drummond and R. England for 'Demonstration Ripple Tank'; and £5 Award to A. Loewenthal for 'A Van de Graff Generator'. Recent mathematical prizes and certificates presented by the I.B.M. for a Schools Mathematics Competition were awarded to G. B. Elkington and J. A. Haddon in the senior division and to G. N. Epstein, D. H. Sonnabend and D. W. Storey in the junior division. P. G. Lennox and E. Wajnryb won certificates.

The year has seen an experimental 'Arts and Interests Course' conducted by various masters of the school for boys in the Vth and IIIrd forms, under the guidance of Mr. M. Searle. Subjects have ranged from pottery and operatic music, through story-writing to motor mechanics. It is hoped that we may be able to retain these courses in addition to the more specific courses now prescribed in the new Curriculum for next year's 1st and 2nd forms. It should be noted that more time will have to be given to Art, Craft, Music and Physical Education in this new curriculum, but it is not intended that we neglect the older and established disciplines.

During the latter part of weekly assembly there has usually been time for visiting artists, some of them Old Sydneians, or masters or boys, to give a brief recital of music. The school is indebted to Mr. Searle and Mr. Holland for arranging these programmes. This term, too, an Eisteddfod is being held: in first term there was an exhibition of Arts and Hobbies and certificates were awarded for successful entries.

Sixth Form lectures were given during the first two terms and will continue next year. Rather more were given by our own masters, but once again we are indebted for his lucid and enthralling lectures on current affairs to Mr. H. D. Black; and we were very lucky and glad to be able to secure visits from Mr. Charles Mackerras, the celebrated conductor, and Mr. Robert Speaight who spoke of the play 'A Man for All Seasons', of which he was the leader.

In sport the year has been very satisfactory, though that in which the largest number of boys took part, football, was darkened for footballers by the sudden and tragic illness and death of Bill Glenvale, only son of the coach

of the 1st XV. The distress of all who were his friends, the sympathy we all feel for Mr. and Mrs. Glenvale, cannot be expressed adequately. The 1st XV, nevertheless, played some magnificent games against stronger and larger teams and never had any need to feel ashamed of their performance. The 2nd XV, coached by Mr. Duffy, won their competition. The 3rd XV also was a successful team. In all 172 matches were won, 22 drawn and 122 lost. The greatest number of teams provided was 38; when it is realised that Edgecliff also must use our ground at Weigall, it can be seen what great problems of organization face Mr. I. M. Edwards, the Sportsmaster.

In cricket the 1st XI is at the time of writing in a sound position in the leading place, with one match to be played. It has been excellently led by R. H. Storey, who scored a century against the Scots College, as did T. McCurdie against St. Joseph's. Mr. Young's coaching has been a strong influence for the good of cricket. The 2nd XI is one of the leading teams in its competition. A total of 16 teams are fielded as often as they can get opponents, which is not as easy as it once was; 44 matches have been won, 7 drawn, 27 lost. Melbourne Grammar School was soundly defeated by an innings.

Tennis unfortunately was deprived by bad weather of its G.P.S. Competition, but it is well provided with participants and coaches, under Mr. P. Riley. We have to thank Mr. Carr who devotedly has looked after and developed tennis for some years. Matches are played on most Saturdays, including the winter, by 5 teams. 27 matches were won, 2 drawn and 14 lost.

The Rifle Team, under Mr. Hill's coaching and P. Dezarnauld's captaincy, won the Premiership in a most exciting two days' competition. The second team won their championship too. The continued high standard of shooting, the interest of a larger number of boys in it and the help given by our Old Boys and Parents are most gratifying.

Rowing has greatly improved. Mr. J. B. Burrell, formerly of Shore, gave us a most valuable foundation with his skilled instruction of both boys and masters, aided by Mr. J. Argue, who has now taken over the coaching of next year's VIII. The VIII gained an excellent third place in the G.P.S. Regatta. The 1st IV was second, the 2nd IV first, coached by Mr. Monks. The 3rd IV and 4th IV, coached by Mr. Spencer, were third (equal) and fourth (equal) respectively. This was the best day for our rowing for many years. We owe much not only to the coaches, but to the sound organization, discipline and care of the Boatshed by Mr. P. Du Toit, supported by the generous Parents' and Friends' Association of the Boatshed.

Success in the senior Athletics still eludes us, though there was great keenness in the team. The Seniors were only 7th, but the Juniors were 2nd in their competition. Mr. Moore is to be congratulated on keeping up the standards Competition in which 1,815 standards were awarded and on maintaining a high level of individual performances. It is expected that two of the newcomers to the staff will increase the coaching strength. Last year's captain, R. Pennock, and J. V. Wiley, a former G.P.S. mile-champion, were generous with their help.

In Swimming we were the best G.P.S. School, winning two relays and being 2nd in the third.

The sporting life of the school owes much to the devoted service of the Sports Fund Committee, under the chairmanship of Mr. S. J. Marshall, and the Boatshed Committee, under the chairmanship of Mr. R. E. Ludowici.

The Outward Bound Memorial Foundation continues to receive support from parents. Seven boys attended senior courses during this year and six attended a junior adventure course. It is hoped that more will go on senior courses after they have left school.

The Duke of Edinburgh's Award Scheme is well supported by boys in the school. Mr. A. Cooper and Mr. W. MacGillivray are to be congratulated on keeping up a high standard and it was gratifying to receive confirmation of this from Sir. P. Wyn-Harris, who visited us on behalf of the central office in England: it is clear that we are maintaining a proper and high standard, as befits us. Shore and Grammar are the first two institutions in pilot schemes in Australia, though others have now begun in other States. So far one boy, M. C. Dillon, has qualified for the Gold Medal, 7 have won or qualified for Silver Medals, and 17 for Bronze Medals, out of 64 boys participating.

The Service Committee, whose chairman is R. Bourke, has performed two major services this year. It organized and paid for a barbecue and outing for the Cronulla Children's Home of the Sydney City Mission; and it organized, on behalf of the Smith Family, the collection of nearly 12 tons of clothing for the Lord Mayor's Winter Appeal for clothing for the poor. It was, therefore, particularly pleasing to be able to present the members of the committee to the Lord Mayor of Sydney, on the occasion of his visit to the school on July 26th. The Lord Mayor lunched with the Trustees, visited the school's premises at College Street and the Weigall Ground, and heard with approval of the plans for the development of this great city school.

Another distinguished visitor was the Honourable J. O. Cramer, M.P., Minister for the Army, who inspected and addressed the Cadet Corps at the annual ceremonial parade on October 29th. Also present was Brigadier F. G. Galleghan, D.S.O., O.B.E., I.S.O., E.D., Honorary Colonel of the Australian Cadet Corps (N.S.W.). The annual camp was interesting for its special bivouac expedition by the senior cadets. For this, as for much else, we owe thanks to our Brigade Commander, Lt. Col. I. Hutchison, D.S.O., O.B.E., M.C., E.D.

We are indebted to an Old Sydneian, Flying Officer B. Randall, for his command of the School A.T.C. Flight.

Space does not permit long mention of the many school societies. Debating, in particular, is increasing in popularity. The Debating Team reached the final and was narrowly defeated by St. Joseph's.

The Sydney University Graduates' Choir gave a generous recital of singing during second term.

As usual the annual Science Day was held in April, under the chairmanship of Dr. Paul George. Once again we must thank Dr. George and the members of the Sydney Grammar School Science Association for their generous interest and help. They will be pleased to see the completion of the new Science building, which will be ready for occupation next term. Its formal opening will take place early in 1963. It provides two advanced Physics laboratories and two advanced Chemistry laboratories. Eventually

there will be two Biology laboratories and a top-floor room, with a flat roof space, for solar research. Meanwhile these three rooms and two more on the ground floor afford us an extra five large class-rooms, with some smaller rooms too, to enable us to meet the need of more ordinary classroom space.

A craft-room, probably equipped for woodwork, will be established in the Palladium building: it will be ready for use next term.

The discipline of the school has been sound and the Senior Prefect, R. W. Hindmarsh, has been outstanding for his thoughtful leadership. Prefects and Sub-Prefects are not always thanked or appreciated as they should be. It is also a pleasure to report on the outstanding leadership of the Captain of the School House, H. D. Munro.

The Trustees of the School became concerned at a deterioration in the uniform as worn by the boys of the main school. The general response to the more precise instructions published in September has been satisfactory; and the publication of the clothing regulations in greater detail has enabled masters and prefects to insist on a higher standard which, it is hoped, they will now maintain.

It remains to express gratitude to our friends and benefactors. As always, Mrs. Chase must be thanked for her constant kindness and especially for the two new windows now placed in the Big Schoolroom: they contain the Arms of the School and of the University of Sydney, which began in that same room.

Mrs. N. Layton lays down office as President of the Sydney Grammar School Women's Association: to her, and to the Committee and members, we offer our most grateful thanks for all that she and they do for us, and especially Mrs. Lamrock who was until recently convenor at the Weigall Ground.

The Parents and Friends of the Boat Club Association, under the chairmanship of Mr. N. Cross, continue to help our rowing most generously.

A new association, the Grammar Fathers, has been formed, under the presidency of Mr. R. H. Stroud. It held its inaugural dinner on 27th November. Its main object will be to provide information and help with the choosing of careers for boys; thus it will greatly help the Careers Master, Mr. Mann.

Finally, we must thank and praise the outgoing President of the Old Sydneians' Union, Mr. G. J. Crouch, the new President, Mr. G. K. Herring, and the Committee and Members who have embarked on the splendid and novel re-organization of the Union on a Class-Year basis, whose object is above all to help the School in every possible way. This re-appraisal and re-affirmation of the Union's functions is watched with great interest by many similar bodies all over Australia. No boy who has passed happily through his school should fail to join his school's association, or should allow his membership to lapse, through failing interest or forgetfulness of what the school did for him.

C. O. HEALEY, *Headmaster,*
12th December, 1962.

HEADMASTER'S ADDRESS

YOUR EXCELLENCY, MR. CHAIRMAN, GENTLEMEN OF THE BOARD OF TRUSTEES, LADIES AND GENTLEMEN.

It gives me great pleasure to repeat the Chairman's welcome to you Sir, who are our Visitor; and echo his regret at the absence of Lady Woodward. I have the honour to present my Printed Report on the School; it may be found in the Prize List booklet.

The death of Mr. F. G. Phillips, Headmaster of Sydney Grammar School from 1940 to 1950, and associated with the school for so very long before that, severs yet another link with the great era of Mr. A. B. Weigall, whom he so greatly admired. Like Weigall, he was a great schoolmaster, with all that the term implies — more than just teacher; master of his profession, unswerving in his course, convinced of his ideals, kind and generous to his pupils, a scholar. He carried the great burden of the war years with a resilience which few younger men could have equalled, so crowning his service to the school, which occupied the greater part of his life. It cannot have been easy for him to see a stranger take his place and changes made with which perhaps he could not always agree. But he was as generous in his thoughts and actions towards the newcomer, as he was to the great multitude of friends whose admiration and affection for him remain so very strong.

Similarly the passing of Miss Isabel van Heuckelum, founder and principal of Edgecliff Preparatory School, is another sign of an era's end. Her insistence on good manners and right action were famous. Perhaps less well known were her many quiet acts of kindness and charity; for she loved her pupils and therefore their parents.

The third great cause for sadness this year has been the death of two of our own pupils; Bill Glenvale, only son of Mr. and Mrs. Glenvale — much loved, much respected, deeply missed; and Robert Rottenstein, entrance scholar of this school, very recently after long illness most bravely borne.

You will expect me to speak of the new curriculum. Its first year has meant little change; syllabuses arrived late and in fact we received very little direct instruction as to what must be done. But we are now beginning to perceive the details of changes that we must make. Let me again make it plain that I whole-heartedly support the idea of a six-year course and that I have great hopes of the final two years producing a far better educational basis for entry to the universities than does the present Leaving Certificate course; and that I support, in principle, the more general character of the first four years, which afford greater opportunities of teaching boys some of the arts and graces of education. Nevertheless it is also beginning to appear that, instead of having greater flexibility, Independent Schools may now have imposed on them a greater rigidity. I welcome the opportunity to develop the teaching of Music and Art, Woodwork and Pottery; and to increase the attention to Physical Education. But I deplore the tendency to deny to the ablest boys and girls the chance to tackle difficult subjects as early as possible. We, in this school, are doing our best to ensure that the spirit of the Wyndham Report is observed and, I trust, loyally followed, in the provision we are making for general and cultural pursuits, not only in the curriculum, but

also through our admirable dramatic Society, The Globe Players, through the new Arts and Interests Courses for Vth and IIIrd forms which Mr. Searle has organised, and through the VIth Form Lectures. But my Colleagues and I of the Headmasters' Conference emphatically do not agree with the incredibly out-dated restriction imposed upon the public High Schools, that no boy or girl may spend more than three periods a week — and that not before second term of first year — on a foreign language. Such a postponement and restriction of opportunity is an inexcusable waste of the wonderful opportunities offered by the original idea of new curriculum. And its ridiculous aspect does not pass unnoticed by the able boys themselves, often cynics. They are not altogether impressed by this prospect.

However, it has been a pleasure to me personally to see the large part played by many of our senior masters in the fashioning of admirable new syllabuses. It is often thought by the general public that the Independent Schools are backward and that their staffs are of indifferent quality. This is almost ludicrously untrue. The great independent schools have teachers who are highly qualified, dedicated, skilled and in the forefront of enlightened modernity. A splendid example is our tremendous Science Establishment. All departments of our school are led by men with outstanding professional status, supported by assistants of varied but impressive qualifications and experience. Any assumption to the contrary is entirely unwarranted. So, too, are some of the judgments made about the sizes of classes. We should all like to have our children taught in classes of 5 or 6! But we learn from the Teachers' Federation that the ratio of teachers to pupils in N.S.W. is 25:1. The ratio at College Street now is just under 18:1; next year it will probably be under 17:1. However, some classes do have to be very much larger, because of the necessity of providing a larger number of small classes for special subjects. But there is a good deal of nonsense talked about the size of classes: people have got it into their heads that at some magical point there occurs what is called 'individual attention'. If you want that, hire a coach, who unites in his one person the remarkable qualifications of B.A. and B.Sc., with equal excellence in English, History, Geography, two or three foreign languages, two Sciences — and skill in teaching. It will cost a good deal. And remember that your son has his part to play in learning: it is no good expecting him to receive some heavenly manna with no effort on his part. The task of the teacher is to show his pupils how to teach themselves. This can be done in classes small enough for the teachers to have time to set and correct written work regularly or small enough e.g. in Science or Art or Craft for control: and it is no bad thing for a child to learn to participate in a class — in fact to learn subordination of self.

Once again I wish to draw your attention to the importance of the Cadet Corps, Team-games, 'Outward Bound' and the Duke of Edinburgh's Award. R. F. Windeyer's Editorial in the school magazine this month should be read by all parents who are doubtful of the value of cadet-training: it is a lucid and vigorous statement by a senior boy, which you would do well to ponder. It is distressing to perceive that there are some boys, by no means young and tender, who are quite nervous of the hardships of a bivouac camp. These — and others who need for other reasons to be brought face to face

with their own real selves — require not only the Cadet Corps, but also the month's training in subordination of self and endurance of hardship, which 'Outward Bound' can give, with its motto of 'To serve, to strive and not to yield'. We are proud, however, of the response to the Duke of Edinburgh's Award scheme and that one of our boys, M. C. Dillon, is the first in Australia to qualify for the Gold Award. So, too, subordination of self and the ability to suffer not only hard physical knocks, but misfortune, ill-luck and defeat, are learnt in team-games and athletics. I am very glad that we are fortunate in securing a most inspiring teacher of Physical Training for next year, for he will train boys physically, beginning with First and Second-Year boys and the Primary Department, far more satisfactorily than has been practicable in the past.

In this field, as in that of obedience to the school regulations which are accepted when a boy enters the school, but sometimes forgotten later, the importance of steadfast discipline cannot be over-emphasized. We, who are adults, should not allow our children to believe that a duty can be evaded, or another more tolerable be substituted for a duty; that, in fact, there is always a way round the law. It is significant that, where such failure to think out the problem in all its aspects has occurred, there you will usually find an ineffectiveness of scholastic progress too. If we teach discipline, we must practise self-discipline. The good Prefect has control because he is respected just for this — for his knowledge of himself and real standards and his desire to do good. It has given me very great pleasure to see the splendid and thoughtful work of this year's Senior Prefect, R. W. Hindmarsh.

A School is a community; it will be good if all connected with it agree as to its principles and aims. This year, therefore, is especially memorable for the growth of the associations connected with the school: the re-organized and vital Old Sydneians' Union; the Sydney Grammar School Women's Association; the Parents and Friends of the Boat Club Association; the new Fathers' Association. Their greatest function is to spread understanding of what the school is trying to do. May I sound a note of warning? I fear that some people do not belong to one or other of these associations for fear that they may be forced to do more or give more than they can afford. I hope indeed that these parts of our community will not become burdensome to their members. Of course the financial and the practical help of our friends and Old Boys are of the utmost importance; but these are not the sole objects of these organizations. It is the community of spirit, the love for the School, the understanding of its aims and of all that it offers — which is not well enough known — that matter.

I have not spoken of the achievements of the school in work or in sport; you can read of them in the printed report, though I must make this addition — that we have just won the Cricket premiership for the third time in five years. But I cannot close without expressing my thanks to the Senior Prefect and School Prefects who have more tasks than privilege, and perhaps more criticism than praise — and I do not forget the Captain of the School House and his House Prefects — or without repeating our farewells to those masters who are leaving, Mr. Harrison and Mr. Adcock; and especially to Mr.

Lenthall, so greatly respected and loved a colleague of us all for so long, and Mr. Dent, who has made the school at St. Ives the best preparatory school in Australia. His wisdom, skill and profound knowledge of his profession have been of inestimable value; and about a quarter of the boys and parents in this Hall owe to him a debt far beyond the value of the fees they paid. Every good wish to him and Mrs. Dent in their new life in charge of All Saints' College, Bathurst.

PRIZE LIST 1962

Senior Knox Prize for Proficiency in Sixth Form: *G. B. Elkington.*

Junior Knox Prize for Proficiency in Fourth Form: *D. H. Sonnabend, M. L. Cohen, G. N. Epstein.*

Wigram Allen Prize for Mathematics in Sixth Form: *Not Awarded.*

Wigram Allen Prize for Science in Sixth Form: *T. M. Little.*

Wallach Memorial Prize for Proficiency in Literary Subjects in Sixth Form (Captaincy of the School): *W. D. Edmonds.*

Jack Rich Memorial Prize for Proficiency: Fifth Form, *I. A. Campbell*; Third Form, *J. Elmgreen.*

Old Sydneian's Lodge Prize for Proficiency in First Form: *R. W. Holgate.*

Freeman Meeks Memorial Prize for English in Sixth Form: *W. D. Edmonds.*

Cyril Rennie Memorial Prize for English: Fifth Form, *I. A. Campbell*; Fourth Form: *E. Wajnryb.*

William Shepheard Laidley Memorial Prize for English Essay in Sixth Form: *R. H. Storey, R. F. Clark.*

Arthur Moorhouse Watkins Memorial Prize for English Essay in Fifth Form: *I. A. Campbell, J. G. Powys.*

Russell Jones Prize for Greek in Sixth Form: *P. H. Guinness.*

Sir John Sheppard Prize for Interest in Greek Literature: *G. L. Teale.*

George Knox Prize for Latin Prose in Sixth Form: *D. B. Stewart-Richardson.*

Mary Fairfax Prize for Latin: Sixth Form, *W. D. Edmonds, D. B. Stewart-Richardson*; Fifth Form, *I. A. Campbell.*

Geoffrey McLaughlin Memorial Prize for French in Sixth Form: *N. R Cowdery.*

Citizens' Prize for Modern Languages in Sixth Form: *G. B. Elkington.*

George Docker Memorial Prize for Modern History in Sixth Form: *W. D. Edmonds.*

John Estell Memorial Prize for Modern History in Fifth Form: *T. Hyde Page.*

William Yabsley Prize for Mathematics in Fifth Form: *I. A. Campbell.*

Charles Stanley Forster Memorial Prize for Physics: Sixth Form, *G. B. Elkington*; Fourth Form, *E. Wajnryb, D. H. Sonnabend.*

Edward Rennie Memorial Prize for Science: Fifth Form, *G. L. Teale, R. C. Baxter*; Fourth Form, *D. W. Storey.*

Robert Vicars Prize for Science in Fifth Form: *I. A. Campbell, R. J. Howson.*

Brian Kentwell Memorial Prize for Science in Fourth Form: *D. W. Mc-Sweeney.*

Godfrey Cureton Memorial Prize for Applied Mathematics: Sixth Form, *Not Awarded*; Fifth Form, *Not Aawarded.*

Sylvia Weigall Chase Prizes for Chemistry (The S.G.S. Science Association): Sixth Form: *G. T. Eckstein*; Fourth Form, *M. L. Cohen.*

Godfrey Cureton Memorial Prize for Ancient History: Sixth Form, *P. J. Harris*; Fifth Form, *J. L. Sharpe.*

Edward Carter Memorial Prize for Constructive Talent: *M. C. Dillom, C. Burton.*

Christopher Tayler Prizes for Spoken English: Sixth Form, *R. F. Clark, W. D. Edmonds, B. T. Hungerford, G. J. A. Kelen*; Fifth Form: *J. P. Loh, J. G. Powys, J. L. Sharpe.*

Alroy Cohen Prize for Oratory: *R. F. Clark.*

C. E. Ranger Prize for Art: *S. T. Schilizzi.*

The Old Sydneians' Lodge Prize for Spoken French: Sixth Form, *G. B. Elkington*; Fifth Form, *R. C. Baxter*; Fourth Form, *G. N. Epstein.*

Citizens' Prizes for Spoken German: Sixth Form, *G. B. Elkington*; Fifth Form, *J. H. Kent*; Fourth Form, *P. J. Steel.*

Percy L. Williamson Prize for Modern Languages: Fourth Form, *M. L. Cohen.*

John F. Fenwick Prizes: *M. C. Dillon, D. R. Swinbourne.*

Isabel Van Heuckelum Prize: *B. F. Walker.*

Arthur Giles Memorial Prize: *R. J. B. Allsop.*

School House Cup: *H. D. Munro.*

The Rawson Cup: Awarded to the Senior Prefect: *R. W. Hindmarsh.*

Farrar English Prizes: Form VI, *G. B. Elkington, R. H. Storey, R. F. Clark, J. C. Hlavaty*; Form V, *G. L. Teale, S. H. Scarlett, P. R. Anderson, N. Dettmann*; Form IV, *M. L. Cohen, T. D. Holgate, K. E. Ward*; Form III, *D. R. Walker, H. A. Billing, M. E. J. Krygier, J. Elmgreen*; Form I, *R. W. Holgate, R. R. Nicholas, W. H. Fowler, R. J. Rankin.*

Latin Prizes: Form V, *J. M. Morris*; Form IV, *P. G. Lennox, M. L. Cohen, K. E. Ward, G. N. Epstein*; Form III, *J. Elmgreen, P. B. Weaver, M. P. Roe, I. A. Gregory*; Form I, *R. H. Shaw, W. H. Fowler, D. G. Fairlie, R. R. Nicholas, P. C. Wynn.*

Greek Prizes: Form V, *J. M. Morris*; Form IV, *P. G. Lennox*; Form III, *D. R. Walker.*

Citizens' French Prizes: Form VI, *W. D. Edmonds*; Form V, *R. C. Baxter, R. Rottenstein, R. J. Howson, J. G. Powys*; Form IV, *M. L. Cohen, K. J. Mutton, G. N. Epstein, K. E. Ward;* Form III, *M. P. Roe, D. R. Walker, P. B. Weaver*; Form I, *S. J. Rosenman, B. E. Coyle, I. J. Polkinghorne.*

Citizens' German Prizes: Form VI, *E. R. Lippey, G. T. Eckstein, D. R. Parker*; Form V, *R. C. Baxter, I. A. Campbell*; Form IV, *M. L. Cohen, P. J. Steel, K. E. Ward*; Form III, *J. Elmgreen, I. C. Francis, M. P. Roe.*

Modern History Prizes: Form VI, *H. T. Andrew, R. H. Storey*; Form V, *J. G. Powys;* Form IV, *S. M. P. Reeves, J. H. Wade, P. A. Bushby*; Form III, *M. A. Champion, R. S. Cowan, P. T. Lowe*; Form I, *D. L. M. Brown.*

Ancient History Prizes: Form VI, *H. T. Andrew, T. C. Healey, R. F. Windeyer*; Form V, *P. R. Anderson, N. Dettmann.*

Sixth Form Special Essay Prizes: *W. D. Edmonds, G. B. Elkington, R. F. Clark, M. J. Gole.*

Geography Prizes: Form VI, *R. H. Storey, M. H. Doran*; Form V, *A. J. Wilson, J. M. Goodman*; Form IV, *D. R. Heath, R. E. Bevan, O. W. Nicol*; Form III, *J. J. McSweeney, G. J. Smith, W. J. Grose*, Form I, *M. E. Patterson.*

Combined History and Geography Prizes: Form I, *R. W. Holgate, D. G. Fairley, S. C. Finley.*

Economics Prizes: Form VI, *D. W. Wrench, T. C. Healey, J. A. D. Haddon, R. F. Windeyer*; Form V, *J. P. Loh, R. J. Field.*

Accountancy Prizes: Form VI, *R. Alexander*; Form V, *P. R. Caney.*

Business Principles Prizes: Form IV, *D. W. McSweeney, J. E. Finkelsen*; Form III, *G. C. Sheidow.*

Mathematics Prizes: Form VI, *G. B. Elkington, J. A. E. Anderson, J. A. D. Haddon, R. W. Hindmarsh*; Form V, *G. L. Teale, R. C. Baxter, S. R. Frumar*; Form IV, *D. H. Sonnabend, G. N. Epstein, D. W. Storey*; Form III, *J. Elmgreen, P. M. G. Klein, G. C. Perry*; Form I, *R. W. Holgate, J. R. D. Hughes, R. R. Nicholas.*

Physics Prizes: Form VI, *I. K. Ross, H. F. Tompson;* Form V, *W. G. S. Boyd, J. G. Hedberg*; Form IV, *A. P. Read.*

Chemistry Prizes: Form VI, *M. Gardner*; Form IV, *K. J. Mutton.*

Combined Physics and Chemistry Prizes: Form VI, *I. W. Aitken, R. D. Hull*; Form V, *T. Rybak, J. W. Parker*; Form IV, *I. E. H. Ballard, K. D. Hopkins*; Form III, *B. R. O'Brien, J. Elmgreen, S. J. Gracie, D. R. Walker.*

Science Prizes: Form I, *G. P. Brown, S. J. Rosenman, J. R. Nicholas.*

Biology Prizes: Form III, *R. G. Mostyn, B. R. O'Brien, S. J. Gracie, A. Hyde Page.*

Geology Prizes: Form VI, *P. W. Glasson*; Form V, *W. J. Cryer.*

Technical Drawing Prize: Form IV, *R. D. Clarke.*

Debating Prizes: *W. D. Edmonds, G. J. A. Kelen.*

'Sydneian' Prizes: *W. D. Edmonds, M. W. Inglis.*

Manual Hobbies Prize: Form I, *P. W. Tomlinson.*

Bible Study Prizes: Form V, *J. M. Goodman*; Form IV, *D. N. Vuaran*; Form III, *D. R. Walker*; Form I, *S. M. Law, R. R. Nicholas.*

Junior Writing Prizes: *M. C. D. Lewington, T. M. Strike.*

Junior Art Prize: *G. B. Goodare.*

Music Prizes: Form I, *R. R. Nicholas, D. G. Fairlie.*

Remove, Upper and Lower: Dux Remove Upper, *R. P. Lee*; Dux, Remove Lower, *P. J. Stamell.*

Wallach Memorial Prize for Credits: *G. P. Taylor*; English, *P. M. Morris*; History, *R. P. Lee*; Geography, *B. Goldman*; Mathematics, *R. P. Lee*; French, *R. D. Wilkins*; Latin, *D. P. Norton*; Science, *R. D. Wilkins*; Bible Study, *A. C. Highfield, R. P. McMullin*; Writing, *A. C. Highfield*; Art, *R. B. Elkington*; Music, *A. C. Highfield, J. R. M. Maclay*; Manual Hobbies, *P. C. Robinson.*

Preparatory Form: Dux, *H. K. S. Perndt, J. S. Greenwood*; Dux of Lower Division: *R. C. B. Nixey.*

English, *R. J. Gillespie*; Mathematics, *G. I. Bradshaw*; History, *R. G. Hardy*; Geography, *G. I. Bradshaw*; Reading, *M. A. George*; Bible Study, *R. J. Gillespie*; Writing, *G. J. Adelstein*; Art, *M. E. J. Perry*; Manual Hobbies, *R. C. B. Nixey.*

WILSON, J. BOWIE — Sub-Prefect 1962; 1st Rifle Team 1962, Pennant 1962; Junior Referee 1962; Group Committee 1962, Service Committee 1962; Commonwealth Scholarship 1962.

AITKEN, I. W. — Women's Association Scholarship 1961.

ALEXANDER, R. — Group Captain 1962; Group Committee 1962.

ANDERSON, J. A. E. — Junior Tennis Team 1958, Pennant 1958, Senior Tennis Team 1959-62; 2nd XI 1961-62, Pennants 1961-62; Entrance Scholarship 1958, Commonwealth Scholarship 1962.

ANDREW, H. T. — Group Secretary 1962; Sergeant A.T.C.; Group Committee 1962; Commonwealth Scholarship 1961.

BATTLEY, J. R. — Group Secretary 1962.

BENNETT, R. J. — Group Treasurer 1962; 3rd XV 1961, 2nd XV 1962, Premiers, Pennant 1962.

BEVAN, G. C. — 4th IV 1962.

BLAIR, A. G. — 3rd XI 1962.

BLAIR, I. G. S. — House Prefect 1962; 3rd XI 1960-61, 2nd XI 1962; Morgan Shield; Best Drum Major 2 Cadet Brigade 1962; Group Committee.

BLOK, G. A. — 3rd XV 1961; Group Committee — Publicity Officer 1962.

BOUDRY, I. F. — 2nd IV 1960.

BRIGGS, G. — 2nd Rifle Team 1960 Premiers, Pennant 1960, 1st Rifle Team 1961 Premiers, Ralston Cup, 1st Rifle Team 1962 Premiers, G.P.S. Rifle Team 1962, Premiership Badge 1961-62, Rifle Club Committee.

BUTLER, G. R. — Duke of Edinburgh's Award Bronze and Silver Medals 1962; Commonwealth Scholarship 1962.

CARR, B. D. — Group Secretary 1962; 3rd XV 1961, 2nd XV 1962, Pennant 1962; 2nd IV 1961; Group Committee 1962.

CARSON, W. M. — Group Vice-Captain 1961-62; 2nd XV 1961, 3rd XV 1962, Pennant 1962; 1st Rifle Team Premiership 1961-62, G.P.S. 1st Rifle Team 1962, Rifle Shooting Premiership Badge 1961-62; 3rd XI 1960-61; Cadet Under Officer 1961; Athletics Committee 1962; Service Committee 1961; Group Committee 1961-62.

CLELAND, J. W. — Group Treasurer 1962; Commonwealth Scholarship 1962.

COWDERY, N. R. — House Prefect 1962; *Sydneian* Committee 1962; Globe Players 1962; Commonwealth Scholarship 1962.

CROCKER, K. D. — Group Secretary 1961; Under 16 Tennis Team 1960, Pennant 1960, Open Tennis Team 1961-62; Group Committee 1962; Junior Referees Badge; Globe Players 1961.

DECK, P. E. — House Prefect 1962; Vice-Captain of Boats 1962, 4th IV 1961, VIII 1962.

ECKSTEIN, G. T. — Globe Players 1961; Chess B Grade Captain 1962; Commonwealth Scholarship 1962.

EDMONDS, W. D. — Arts and Interests Committee 1962; Service Committee 1962; G.P.S. Debating Team 1962; Captain of the School 1962; Entrance Scholarship 1958; Commonwealth Scholarship 1962.

EDWARDS, I. M. — Group Prefect 1962; 3rdXV 1962.

ELKINGTON, G. B. — Senior Knox Prize 1962; House Manager Globe Players 1962; Entrance Scholarship 1958; Commonwealth Scholarship 1962.

FISHER, D. J. E. — Group Vice-Captain 1962, Group Committee 1962.

FOWLES, W. L. — 2 Cadet Brigade Junior Leader's Prize 1961; Globe Players 1961; Treasurer Service Committee 1962; Arts and Interests Committee 1962; Junior Referee's Badge 1961.

FREEMAN, R. C. — Group Vice-Captain 1961; 2nd XV 1961-62, Pennants 1961-62; 2nd IV 1961-62; Group Committee 1961.

FRUMAR, G. C. — 3rd XI 1962.

GAMBLE, K. B. — 3rd XV 1962.

GARDNER, M. — 4th IV 1961, 1st IV 1962, Pennant 1962; Globe Players 1962; Commonwealth Scholarship 1962.

GIBBS, P. C. BURTON — Group official 1961; Globe Players 1961-62; Debating 1960-62.

GLASSON, P. W. — Group Treasurer 1962; Junior Tennis Team 1960, Premiers 1960, Pennant 1960, Junior Tennis Team Captain 1961; 2nd Rifle Team 1960-61, Premiers, Pennant 1961; Cadet Under Officer 1962, Walcott Cup 1962; Group Committee 1962; Commonwealth Scholarship 1962.

GOLE, M. J. — Commonwealth Scholarship 1962.

GOULD, R. R. — Group Vice-Captain 1962.

GOURLAY, J. A. D. — Group Secretary 1962; 2nd XV Premiers 1962, Pennant 1962.

GUINNESS, P. H. — *Sydneian* Committee 1962; Globe Players 1960-62; Commonwealth Scholarship 1962.

HERCUS, G. L. — Group Treasurer 1962; Globe Players 1961-62.

HIELD, P. R. — Group Secretary 1962; 2nd Rifle Team Premiers 1960, Pennant 1960, 1st Rifle Team Premiers 1961, 1st Rifle Team Premiers 1962, Honour Badge, Venour Nathan Trophy, Herbert Marks Trophy, Captain G.P.S. Team 1962; Rifle Club Committee 1962.

HILL, M. J. — 2nd XV 1961, 3rd XV Vice-Captain 1962; Junior Athletics Team 1958, 1960.

HILL, R. L. — 1st IV 1962; Commonwealth Scholarship 1962.

HULL, R. D. — Senior Tennis Team 1962.

HUNTLEY, G. G. — 4th IV 1962; Globe Players 1961.

HYDEN, A. M. — Commonwealth Scholarship 1962.

JENKIN, P. E. — Cadet Under Officer 1962; Junior Referee's Badge 1961.

KEITH, J. C. — 3rd XV 1961, 2nd XV Premiers 1962, Pennant 1962; Junior Athletics 1958-59, Senior Athletics 1962.

KELEN, G. J. A. — Arts and Interest Committee; G.P.S. Debating Team 1962; Globe Players 1961-62; Old Sydneians' Scholarship 1959; Commonwealth Scholarship 1962.

KENNEDY, S. G. D. — 3rd IV 1962; 2nd Rifle Team 1962, Pennant 1962; Group Committee 1962.

KINSEY, B. M. — Group Secretary; 3rd XI 1961, 1st XI 1962, G.P.S. 2nd XI 1962; Junior Referee's Badge 1961.

LAWRENCE, J. C. — Service Committee.

LAWSON, N. V. — Commonwealth Scholarship 1962.

LIPPEY, E. R. — Chess Open Team 1961-62; Commonwealth Scholarship 1962.

LITTLE, T. M. — Group Secretary; 2nd Rifle Team 1962; Commonwealth Scholarship 1962.

LONG, D. A. — 2nd XI 1961-62, G.P.S. Premiers, Pennant 1961; Commonwealth Scholarship 1962.

LOURANDOS, H. J. — Commonwealth Scholarship 1962.

MCCOLL, S. U. — Junior Athletics 1959-60-61; Entrance Scholarship 1958.

MCMAHON, J. F. — Debating 1959-60; Globe Players 1961-62.

MADDEN, J. E. — Junior Referee's Badge 1961.

MADDEN, W. G. — Senior Athletics Team 1962; Chauvel Scholarship 1962.

MARFLEET, G. R. — Entrance Scholarship 1958.

MATHIESON, R. D. — Rifle Shooting Team 1962 Premiers, Pennant 1962.
MUIR, D. C. — G.P.S. Athletics Team 1958-59-60-61.
MURRAY, D. D. — House Prefect; 2nd IV 1962.
NORMAN, W. H. W. — Group Treasurer.
POTTER, B. M. L. — Debating 1959-60.
REID, J. M. — 3rd XV 1962.
RODEN, R. H. — Group Treasurer; 3rd XV 1962; 3rd IV 1962; 'A' Chess Team 1961-62, Captain 1962; Commonwealth Scholarship 1962.
SCHMIDT, P. C. — Swimming Team 1960-61-62, G.P.S. Premiers 1961-62.
SELBY, D. W. O. — Globe Players 1961.
SERVICE, J. C. C. — Group Treasurer; Swimming Team Captain 1960-61-62, G.P.S. Premiers 1961-62; Games Committee 1961-62.
SHARPE, W. G. — 2nd Rifle Team 1961, 1st Rifle Team 1962, Premiers 1962.
STEVENS, R. C. — Group Secretary 1961-62; 2nd XV 1961, 1st XV 1962, G.P.S. 2nd XV 1962; 2nd XI 1959-60, Pennant 1960, 1st XI 1961-62, G.P.S. 2nd XI 1961.
SYRED, P. A. — Junior Athletics Team 1957-58, Senior Athletics Team 1960.
TOMPSON, H. F. — Commonwealth Scholarship 1962.
TUTHILL, W. E. F. — Group Captain; 1st IV 1961, VIII 1962, Junior Athletics Team 1957-58, Pennant 1957; Commonwealth Scholarship 1962.
VEITCH, G. B. — 3rd XV 1960, 2nd XV 1961; G.P.S. Junior Athletics Team 1959-60, Premiers 1960; Commonwealth Scholarship 1962.
WARD, R. V. — Junior Referee's Badge.
WICKHAM, J. K. — 2nd Rifle Team 1961-62, Premiers 1962, Pennant 1962.
WITHYCOMBE, M. M. — Service Committee 1962.
WRENCH, W. D. — Group Secretary 1962.
YOUNGER, J. L. — Junior Tennis Team 1961; Commonwealth Scholarship 1962.
ZINES, D. O. — Under 16 Tennis Team 1960-61, Open Tennis Team 1961-62; 'A' Chess Team; Scholarship 1959; Commonwealth Scholarship 1962.

FAREWELL MR. F. G. LENTHALL

Association with men of long standing on the Staff of Sydney Grammar School leaves one quite inadequate in the task of writing about them on retirement. My comparatively short service of 17

years, and these in secure times, gives me little opportunity of fully appreciating the work of Mr. F. G. Lenthall whose service for the School began in 1921 as Assistant Science Master. Mr. H. A. Ritchie has kindly provided the details of his earlier career.

Mr. Lenthall came shortly after Seniority in Science had been passed on to Mr. A. T. Keeble and the succeeding years were long enough to deny him the opportunity of leading the department. He made way for a younger man when Mr. Keeble retired. At functions of the Common Room men such as Mr. Walsh, Mr. Sams, Mr. Ritchie, Mr. Austin, Mr. Webster or Mr. Stevenson continue to be the Common Room in which I and the younger men are still feeling our way. So will it be with Mr. Lenthall, 'Fred' to young and old alike.

We remember him as the friendliest of colleagues, making younger Common Room members welcome, opening the ranks of 'those who gather'. We remember him as the kindly terror of the classroom and lab., discreetly sharing his blown-off steam with a cigarette outside. We remember him pacing between East and West Common Room in days of old at the Stanley Street End, as jokes were thrust and parried to the call of 'chaos in the Science Department'.

Those still older remember him as an athlete at Sydney High and one who represented his school in the 1st XV for 3 years. This experience enabled him to be a most efficient coach of football, boys from his 5th and 6th XV transferring at times to the 1st XV in the following year. He also coached the 3rd and 4th XV for at least one season. Those of all generations will remember him as the man with the starter's gun at the Annual Athletics Day.

At Sydney University his background of Arts and medical subjects to his Science Degree gave him valuable experience and a breadth of knowledge so important to schoolmastering. Indeed he would converse in all manner of subjects with competence whether it be home repairs or building, current affairs, sport or matters related to his teaching skills. He served as Field Commanding Officer of the A.T.C. during the Second World War, becoming Flying Officer in 1942 and Flight Lieutenant in 1943. He transferred to the educational side in 1944, retaining his command till the end of the War.

I especially remember him for the gracious way in which he put up with a younger colleague assuming seniority and rearing an unconventional head in the recent era of change. Yet it was only in this era that he first had the chance of taking the brightest boys, that

he had seen grow up in Second Form, through to Leaving Certificate Honours. For many years he had distinguished success with 6B Physics and this experience bore further fruit when his later 6A divisions produced many honours passes. In turn he has been gracious to others to give them opportunity with A divisions as others inevitably had to take over. In this way the transitions, in change of control, building and moving on, have been smooth. Now Barker College inherits the benefits of his unique experience.

As Second Science Master for 16 years, he gave devoted service in organising Science in the Middle and Lower Schools and, then, Physics in the Middle and Upper Schools during his last 5 years. In the old external Intermediate Certificate he produced repeatedly a succession of boys with double A's in Physics and Chemistry. In all he served the School 42 years. Mr. Ritchie recalls the great line of succession of masters whose distinct and special characteristics have made their permanent impression: the like of Giles, Savigny, Roberts, Bonwick and Wing. We now add Mr. Lenthall.

R.W.M.

MR. L. W. WEBSTER

When Mr. L. W. Webster had a sudden heart attack in the middle of 1962, few thought that he would be unable to return. But though he has considerably recovered he cannot again come back to Group 3 or to those non-mathematicians to whom he attempted to teach that fascinating subject.

At the time of his enforced retirement, Mr. Webster was one of the masters with the longest service with the School. He joined the Staff in 1939 from Scots but soon afterwards was called up for war service. Since he served mostly with the R.A.A.F., it was fitting that later he should be in charge of the A.T.C. for a number of very successful years.

While many Old Boys will remember him as a master, and others may even remember him as a boy at Grammar, fewer today will know of his political activities. He stood for Parliament on several occasions soon after the war, on one occasion only just failing to defeat Mr. Clive Evatt.

All who knew him will wish Mr. Webster a long and happy retirement.

D.A.C.

OBITUARY

ISABEL VAN HEUCKELUM

Henrietta Isabel van Heuckelum, known to hundreds of former pupils of Edgecliff Preparatory School simply as Miss Van, died in November 1962 at the age of 92.

She was the daughter of a Dutch father and an English mother; her father came to Australia to help with Palings, the music store; Mr. Paling, the founder, was Miss Van's godfather. She was one of four girls and two boys.

She was educated in Brussels and was a fluent linguist, as any of her French pupils will testify. One was introduced to the subjunctive forms of the French verbs in 5th class at E.P.S.

It is not generally known that Miss Van was married in July 1942 to Ernest Milford, a solicitor. Her husband, who was incurably ill at the time, died very soon afterwards.

Miss Van started her educational career as governess to the children of the then Governor, Lord Carrington. Later she acted as governess in the bush. She founded a small school, Double Bay College, and finally in 1921 she started E.P.S. from which she retired in 1955 at the remarkable age of 85.

Pupils and parents alike were in awe of her; if the parents did not satisfy her high standards of deportment and manners, the child would not be accepted. Even after acceptance of the child, parents were as likely to be disciplined as the boy. She was a Victorian and not ashamed of it. On the other hand there are many in Sydney today who were only able to complete their education because of her generosity.

Miss Van was a brilliant and remorselessly efficient teacher who believed in 'old-fashioned' drills and repetitions. She had a unique gift of recognising the overtaxed and the idler and meting out the appropriate remedy.

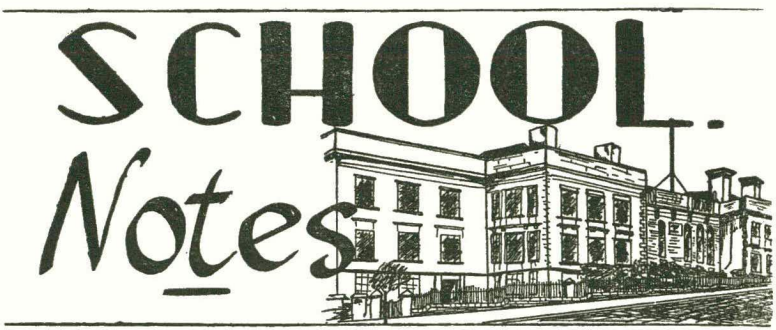

She always said what she thought. The story is told of her meeting a former pupil, then aged about forty-five, in a tram. Robinson (as we shall call him) greeted her politely and received the reply, 'Robinson, you need a haircut!'

Sydney is the poorer for her passing.

The following prayer in her own handwriting was found on her desk; it had been well used. It seems a fitting final testimony.

'O Father of Mercies and God of all Comfort, our only help in time of need, I come unto Thee for help to meet the trials of advancing years. Look graciously upon me and the more as the outward man decays, strengthen me the more continually with Thy Grace in the inner man; Give me courage and patience to bear the infirmities, privations, sorrows and loneliness of old age. Help me fight continually its temptation to be exacting, selfish, unreasonable, irritable and complaining. Preserve my mental faculties unimpaired to the end. Keep my heart and affections warm so that I may never fail to sympathise with joys, sorrows and interests of others and to be deeply grateful for the love and forbearance of those around me, and so fit and prepare me against the hour of death, that I may be able to face it fearlessly, trusting in Thy promise to be with me as I pass through the Dark Valley so that departing in peace, my soul may be received into Thine Everlasting Kingdom, through the merits and mediation of Jesus Christ my Lord and Saviour. Amen.'

D.E.L.

Following an extremely successful year in Sport and Scholarship in 1962, the manner in which the School has embarked upon 1963 is indicative of a year of equal, if not greater, prosperity, for there are several advantages over last year. The completed extension to the new Science Building is now in total operation, there is a third large playground behind the tennis court for the Lower School, and several of our new masters are specialists in fields of music, crafts and gymnastic activities so as to employ fully the new facilities of the School curriculum.

In last year's Leaving Certificate Examination one hundred and twenty-seven boys passed, the School gained thirty-two Commonwealth Scholarships and five boys were distinguished among the first two hundred in the State. They were W. D. Edmonds who

came equal fiftieth, P. J. Harris sixty-ninth, G. B. Elkington seventieth, J. A. D. Haddon eighty-eighth and M. B. Dally equal one hundred and ninety-eighth.

One hundred and seventy-three Intermediate Certificates were also gained. We hope that this high standard of scholarship will be maintained in the School this year.

The number of boys at College Street this year is one thousand and fifty-four and is ever increasing; so too has our staff of masters increased this year. Although we have farewelled Mr. G. Browne O'Byrne who has taken up a post on the Trade Commissioner's Administrative staff, Mr. R. G. Adcock who has returned to Ipswich Grammar School in Queensland, Mr. G. Broadley Harrison who is returning to England and Mr. Wiseman, who had for several years been in charge of the Science Store and has been a valuable laboratory assistant, we welcome Mr. G. E. Hall from Victoria who is appointed permanent Music Master, Mr. P. W. Groves who teaches English, History and Economics and serves with the Cadet Corps, Mr. M. J. Ives (an old Sydneian) who teaches Geography, Mr. R. E. Steanes who teaches Science and serves with the Cadet Corps, Mr. D. Cohen who teaches English and French, Mr. D. H. Green who is in charge of Physical Culture and serves in the Cadet Corps, Mr. D. A. Craig who looks after the technical equipment in the Science Department, Mr. H. Greenwood and Mr. N. C. Hodges. We sincerely hope these masters enjoy teaching at the School.

Mr. A. J. Hill has taken his long service leave and we congratulate him on his marriage during the Christmas vacation. We wish him and his wife a very happy holiday as they tour overseas.

The Prime Minister of Australia, Sir Robert Menzies, opened the new Science Building on Friday, 5th April. The importance of the building and the place of Science in the School were emphasised in a most enjoyable speech by the Prime Minister and also by the Chairman of the Advisory Committee of the Industrial Fund for the Advancement of Scientific Education in Schools, Mr. L. C. Robson. An inspection of the new building by the official party followed, and a most successful Science Day concluded with an extremely interesting lecture by Dr. E. P. George at the open evening session.

The School is very proud to record that an Old Sydneian, Mr. Justice L. J. Herron, has been appointed Chief Justice of New South Wales. Such notable achievements of Old Sydneians are of great encouragement to the boys of the School.

We are constantly grateful to Mrs. Chase for her great generosity to the School, and we wish to thank her for her many gifts.

It is with deep regret that we record the death, last term, of Robert Rottenstein. He was well liked and greatly admired by those who knew him for the courage he quietly displayed during his illness. The School extends deep and sincere sympathy to his parents.

Of the one hundred and seventy boys who sat for the Leaving Certificate last year, thirty-six have returned this year and they include four Prefects and two Sub-Prefects. Those Prefects who have returned are John Cartwright, Brian Cross, Michael Dally and Jim Barkell, and the returning Sub-Prefects are Tony King and John Maltby. Barkell has been appointed Senior Prefect. The following were appointed Sub-Prefects: D. R. G. Arnott, R. I. Bacon, W. G. S. Boyd, G. R. Bushby, R. E. Cooper, N. Dettmann, P. C. Howard, J. B. Kenny, S. J. R. Murray, P. R. Smith, D. B. Stewart-Richardson, A. B. Tall, P. M. Thompson.

This year a Prefect's tie has been approved and will be worn by all Prefects and Sub-Prefects from the end of first term. The design is simple: a black background with a single School Coat of Arms. The object of this is to make Sub-Prefects, in particular, immediately recognisable.

The Arts and Interests Organisation is continually branching out into new fields, and Mr. Flecker has this year introduced Flute lessons. Last December's Eisteddfod was a great success and the Arts and Interests Day arranged for 8th May promises to be just as enjoyable. We have had some delightful music played to us during the weekly assemblies. It has included several Waltzes and Preludes by Chopin, some music played on the French Horn and a recital by Mr. John Germain, a baritone from the Elizabethan Theatre Trust.

In addition several Theatre parties have been arranged, one of the most enjoyable being that to see Chekhov's 'The Cherry Orchard' at the Old Tote Theatre.

In its series of lectures about Current Affairs, the Sixth Form has already had interesting talks from the Headmaster, Mr. DuToit and Mr. H. D. Black (from the University of Sydney). We look forward to the continuation of this informative series.

The Cadet Corps continues under the capable command of Major R. L. Rofe, who is now supported by several new members of the Staff. After very successful Junior Leaders' Courses at Singleton in November in which Grammar gained a first place in both

the Under Officers' and Senior N.C.O.s' Courses, the Corps looks forward to a successful year. By gaining first place in the Under Officers' Course CUO W. G. S. Boyd achieved the honour of breaking the Queen's Standard when she arrived at Hyde Park during her recent visit.

The added area of the new lower playground has been greatly welcomed by the Corps for training purposes. Already a Range Day has been set down for Tuesday, 23rd April at Long Bay. The Senior Under Officer for 1963 is J. J. Barkell.

The Air Force and Naval Cadets carry out their training at College Street and Rushcutter Bay respectively; P. C. Howard is the Naval Cadet Petty Officer.

The School's Service Committee is this year under the chairmanship of John Cartwright, and has already taken part in several worthy activities. A door to door appeal for the Asthma Foundation on 31st March was supported by the School through the Committee and a most successful collection has been organised within the School to finance the next undertaking of the Committee, that of painting the Cowley House for Children at Cronulla.

The Globe Players' production this year, entitled 'Adventure Story' by Terence Rattigan, is awaited with much interest. The play has already been cast and rehearsals are in progress.

Chess, Crusaders and Debating continue to flourish, and some most enjoyable open debates within the School have been held as well as those against other Schools. We wish Mr. Knock and his team the very best of luck in the G.P.S. Competition in which they were so narrowly defeated last year.

The merits of the Outward Bound Courses held during the Christmas holidays become ever more apparent, and those who attend them seem to benefit greatly from their instruction. The Duke of Edinburgh's Award has also created a great deal of interest in the School, particularly as the first gold medal to be awarded in Australia was presented to a boy of the School, Michael Dillon, by His Royal Highness Prince Philip himself, during the Royal visit.

The first half of the Cricket year has placed the School at the head of both competitions, although one match was completely washed out. Great enthusiasm has been shown during the term and this has undoubtedly helped to improve the standard of cricket. A most enjoyable game was played against the Old Sydneians and, although

it lost to a better team, the first eleven had a very pleasant match against Melbourne Grammar in Melbourne.

A rather wet Athletics Standards Competition finally succumbed to the rain despite the undiminished efforts of Stewart-Richardson, Clark and their committee. The rain has also made it an unhappy first term for the Tennis players.

The rowing this year has been of a high standard, and we had hoped for better results in the G.P.S. Regatta. The Eight and First Four had shown particular promise in their preliminary regattas and we hoped that their new racing shell 'Douglas Taylor' would have brought them better luck. We congratulate the First Four for their win in the Yaralla Cup, for the first time for twenty-five years.

Weight and calisthenic training continues in the gymnasium in preparation for the football and athletics seasons, and Mr. Green supervises numerous schedules for body building, physical training and wrestling.

Although not entirely successful in the G.P.S. Relay events, the swimming team gained a first and second place in two of the relays. The annual Swimming Carnival was again a credit to the organisation of Mr. Glenvale and Mr. Edwards, and in the Schools' Invitation Event Grammar's Peter Howard came second to John Pick from Scots for the second successive year.

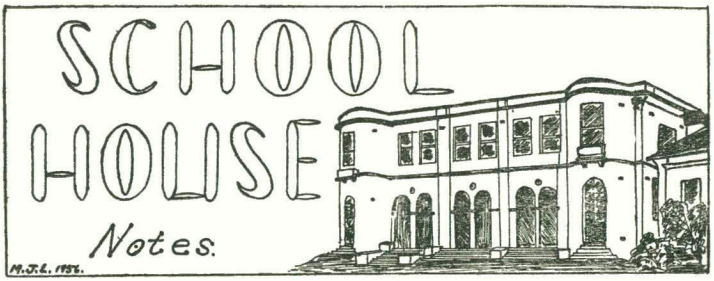

The Rifle Club has begun preliminary training for the G.P.S. Match in September and hopes for as successful a season under Mr. Birch as it had under Mr. Hill last year.

The School wishes to thank the Women's Association for their many services to us and their tireless work for the School both at Weigall and at College Street. We extend to the new President, Mrs. Maybury, good wishes for her term of office, and to Mrs. Layton our sincere thanks for all she has done for the School during the time she was President.

We also thank Mrs. Swan and her staff for their constancy and cheerfulness in serving the boys in the tuck shop and in the dining room, as well as the extra meals she so willingly provides on numerous special occasions.

Finally I wish to thank Sergeant Wells for his tireless work and ceaseless care for the School and its boys.

J.J.B.

This year the house welcomes 18 new boys. M. J. Abrahams, T. A. R. Anderson, R. J. Blanton, A. G. Cole, B. R. Dawson, D. L. de Groen, F. M. Farrar, M. A. Halloran, A. G. Herring, N. B. Kelly, D. J. Knight, J. Leonard, J. G. Lucas, P. Nicholas, J. J. Nott, R. B. Reznik, W. H. Sare and A. S. Wehby. There are now 58 boys at the house and we hope the year will be profitable both scholastically and in sport.

Mr. Flecker is with us once again and we welcome Mr. Hall, the School's music master, and Mr. Read, as Housemasters.

The following are to be congratulated on their appointment as House Prefects: H. Arthur, G. E. Davies, B. M. Lukin, J. N. Skarratt and C. D. Watt. S. J. Murray is House Captain and a School Sub-Prefect.

David Raffan is rowing in the Eight with Brian Lukin cox. Tony Mulhearn is in the 3rd IV and Haig Arthur is in the 4th IV. In cricket Stuart Murray and Bill Sare are playing in the 2nd XI, which is leading the competition with the King's School.

Although we lack outstanding athletes the House once again won the Athletics Standards Competition. Thanks go to Bill Burke who did a competent job as Athletic Standards Representative for the group, and to the many boys who participated.

Last year we had seven passes in the Leaving, the most notable of which were gained by Richard Cranna, Hamish Munro, John Younger and Nick Cowdery, the last two gaining Commonwealth Scholarships.

The grounds of the House have been improved by Mr. Searle and the boys. A lawn has been planted near the sixth form studies and part of the middle level wall has been replaced. The gym, the exterior of the sixth form studies and the dormitories have been painted.

With the regatta drawing nearer, the sixth formers have prepared the school totem pole and the House wishes all crews the best of luck.

S.J.R.M.

GILES GROUP

It will come as no surprise to anyone that Giles Group is still carrying on. The failure rate of groups is notoriously low. The group is represented in all sports, John Lomas playing in the 1st XI, P. W. Anderson and Hindle in the 15A's; Pritchett rows in the 1st IV, Richardson in the 4th IV and Chris Clark and Denis Hilary have been chosen for the football A squad. None of these sports, however, have captured the imagination of the boys as much as the group's 'national sport' i.e. the tug of war competition. The group has won the senior and intermediate divisions for the second consecutive year, making us undoubted School champions.

To disprove the popular rumour that members of Group One are specially selected for weight rather than scholastic merit we congratulate H. Andrew, R. F. Clark, W. D. Edmonds, D. A. Long, R. H. Roden, J. Rogers and P. Schmidt on passing the Leaving Certificate. Only one of these, R. F. Clark, has returned after treacherously accepting a 'parting' gift from the group. W. D. Edmonds was awarded the Captaincy of the School, a well deserved honour.

Group Captain this year is Chris Clark, who retains order admirably between 9 and 9.10 a.m.

The group is progressing well under the capable eyes of our tutor Mr. Scott, and great things are expected in the not too far distant future.

R.F.C.

CHASE GROUP

Committee: Tutor, Mr. D. E. Lloyd; Captain, G. R. Hobbs; Secretary, M. Dillon; Treasurer, R. Baxter; Vice-captain, J. Wade.

We welcome the new members to the group and hope that they will take a keen interest in the group's activities. Congratulations go to those who were successful in the Leaving Certificate, especially G. Eckstein who gained a Commonwealth Scholarship.

Response to the Athletic Standards, which was greatly encouraged by our representative R. Colvin, was good, enabling us to gain third place. At the swimming carnival we saw the group swim into 4th place; a good effort by Burgess helped the group secure this position. We are well represented in tennis this year with P. R. Anderson the Captain of Tennis and C. Lee, a member of the open team. In the junior team we have D. Sonnabend and J. Wade, who is the Captain. We have a strong group of rowers among the younger boys and we hope to see them do well in the future.

Our congratulations go to the wonderful effort by M. Dillon who became the first boy in Australia to win a gold medal in the Duke of Edinburgh's Award. It must have been a great honour for him to have received the award from the Duke himself. Several other boys are striving hard in this activity and we hope they too will be successful.

The five shilling termly contribution to group funds enabled us to have a most enjoyable evening at the cinema. We hope to have further outings during the year.

D. Watt keeps us informed about the Arts and Interests and we are looking forward to seeing a record number of entries on Arts and Interests Day.

We hope that the group spirit will keep up and that the next term will be even more successful than this one has been.

G.R.H.

GROUP THREE

We welcome Mr. Potten to the Group for his first full year as our tutor, after the unfortunate retirement of our previous tutor, Mr. Webster, who we hope has now recovered his health. Under Mr. Potten and the excellent example being set by our large 6th Form, 1963 should be a 'bumper' year for the Group.

We have two repeats this year in Jim Hamilton and Tony Rourke who takes over the Group Captaincy for the second successive year.

For a change we are well represented in all fields of school activity. In cadets Ron Danos and Nick Vida are sergeants, Kim Askew is a WO11, and Lex Tall a CUO. Several corporals are scattered through the group. Lex is also to be congratulated on his being appointed a Sub-Prefect, our first for several years. In the 2nd and 3rd IV's we had Wally Taylor and Nick Vida. From our cricketers, Graham Smith (4th Form) and Hugh Strath are in the 2nd XI, while Peter Jarman is in the 4th XI.

Tony Rourke, Peter Caney and Paul Goodman play G.P.S. tennis while Paul and his brother John are well known in debating circles.

Our Service Committee representatives are Goodman (snr.) and Danos. We have several boys participating in the Duke of Edinburgh's Award. Ralph Clarke is going for his silver medal and Julian Golding is trying for the gold. Greater interest should be shown by boys of this Group in the scheme.

We congratulate Kim Askew on being appointed Captain of Rifles.

And finally to the eighteen second formers who joined the Group at the beginning of the year, we hope you will take part in some of the many activities the school offers. You will find that the more you do, the more you will enjoy your school days. We welcome you to Group Three.

J.C.G.

GROUP FOUR

Once again the year has opened in harmony for the group, and a good spirit of friendship exists between the boys and our Tutor, Mr. Young, under whose direction all is progressing well. We welcome a large group of second formers and hope their stay in the group will be of benefit to them during their school career.

As usual, it goes without saying that the group is well represented in the cricket teams, special mention being made of the fact that the captains of the first three Open teams are members of the group, Kenny, Thompson and Evans respectively. Congratulations also go to the XI for leading the competition at the half-way mark. Rowers are scarcer than usual in the group, although David Keith ably strokes the 4th IV.

According to a tradition established in the last few years, the group again has an abundance of Prefects — no less than seven adorning

our room. We congratulate the four newly appointed Sub-Prefects, Arnott, Boyd, Kenny and Thompson.

Because of the predominance of cricket in the group, our athletic prowess has been subdued but we hope to show some form at the athletics carnival in August. The athletics standards competition has not been a great success this term, but we hope for better results when some of our cricketers are free to compete.

With the approach of football and exams, it is hoped that the group will continue to strive to attain a high standard of proficiency in both these fields. We have been proud of the fact that the group has not only produced sportsmen, but boys who can show their ability as all-rounders, scholastically and in the sporting field. This is indeed the true measure of an all-rounder, for the boy who strives for improvement in everything he attempts at school is the boy who benefits most from his school career.

J.F.C.

GROUP FIVE

On returning to school this year, we found that the 'hallowed quarters' of Group Five had been changed from I Room to K Room. We were also pleased to find many new faces who are, we hope, about to start a prosperous life in the group.

Congratulations are due for those who passed the Leaving Certificate Examinations last year. Patrick Guinness especially deserves congratulations for coming third in the State in Greek.

Our Committee this year consists of Mr. Macdonald, Tutor; Geoff Bushby, Captain; Dave Louden, Vice-captain: Nick Dettmann, Secretary; and Peter Blanton, Treasurer.

Sport this term took the form of cricket, athletics standards, swimming and rowing. We are represented in cricket by Mick de Saxe in the 1st XI, Jim Tait and Geoff Bushby in the 2nd XI, Stewart Frumar and Nick Dettmann in the 3rd XI. Athletics standards and swimming were rather disappointing for many boys did not really make an honest attempt to show their capabilities. I hope this will be rectified in future. Although we had no representatives in Regatta crews the group was whole heartedly behind the competing crews.

Other school activities in which the group takes part are the Service Committee and the Arts and Interests Course. Phillip Bushby and Peter Blanton are the group representatives in the former and Andrew

Blaxland keeps us up to date in the interesting and cultural Arts and Interests Course.

In cadets we are represented by Geoff Bushby, B Coy. Commander, Warren Gengos, CUO of Mortars (Warren has however, now left); WOII Nick Dettmann, Commander of Int.-Med.; the Corps RSM, Dave Louden, as well as many other NCO's.

We congratulate Nick Dettmann and Geoff Bushby on their appointment as Sub-Prefects.

With first term nearly over the group and Tutor, Mr. Macdonald, are looking to another two terms of hard work and sport.

G.R.B.

GROUP SIX

Committee: Captain, J. D. C. Willis; Vice-captain, T. J. Bowles; Secretary, R. J. Spencer; Treasurer, L. R. Mann.

Congratulations to members of last year's Sixth Form who passed the Leaving Certificate.

In the Cadets this year we have R. S. Heyde a WOII and H. N. Stockwell a Sergeant. The Standards Competition of first term has proved that the group has many promising athletes. We did well to come second to the House Group.

Cricket representation in the group is better than it has been for some time, I. G. Robertson is in the 1st XI and P. J. L. Hardy, J. D. Warman and R. Mockbell are in the 3rd XI. The 1st XI is leading the competition.

At the time of writing the regatta is drawing near. C. A. Burton is in the 2nd IV, P. R. Holmes is in the 1st IV and J. C. D. Willis is in the VIII.

J.D.C.W.

GROUP SEVEN

1962 was a very good year for Group Seven and we anticipate greater achievements this year. Last year most sitting for the Leaving and Intermediate Certificates from the group passed these exams and we congratulate them. We have a number of repeating sixth formers with us again and we extend a welcome to the new second formers in the group.

On return to school this year a group committee was elected. It consists of A. Bancroft, Captain; T. Helsby, Vice-captain; G. Cornwell, Secretary; J. Kearns, Treasurer and T. Ross and R. L.

Smallwood fifth form representatives and P. Smith ex-officio. We congratulate P. Smith on his appointment as a school Sub-Prefect

A. D. Bush has worked hard for the group in the fields of Arts and Interests, Debating and also the Standards Committee. We are well represented on the Service Committee.

In sporting activities the group has done quite well, with the best achievements in rowing and swimming. This year we have no one playing in either the 1st or 2nd XI's but there are boys playing in lower grades, and we are well represented in junior teams. In rowing, Geoff Glenwright is in the VIII, Peter Tanner is stroking the 1st IV, John Clark rows in the 2nd IV and John Schmidt in the 3rd IV. Guy Cornwell was a member of this year's school swimming team which finished second in the G.P.S. Championship. The group turned in a fine performance in the school swimming carnival, finishing second, this being mainly due to efforts by boys who, although not champion swimmers, were able to gain minor places in events and so win valuable points for the group.

With the football season and examinations both approaching rapidly, we look forward to a successful year in both sporting and academic fields.

A.G.B.

GROUP EIGHT

Last year, in the Leaving and Intermediate exams we got some very good passes. Notable was G. B. Elkington, winner of the Senior Knox Prize and among the top two hundred in the State at the Leaving Certificate. At Intermediate level M. L. Cohen shared the Junior Knox Prize.

This year we have sixty-two in the group. The committee is P. C. Taylor, Captain; C. K. Hindmarsh, Vice-captain; J. W. Littler, Secretary and R. A. Butler, Treasurer.

As sportsmen we do not excel, although the great majority of the group participates in a school sport most of the year. We came fourth in the recent Standards Competition, there are six members of the 4th XI in the group. We were represented in the G.P.S. Tennis Tournament by seniors P. Blake and J. Littler and juniors G. Abeshouse and R. Mullins.

We have many more N.C.O's in the Cadet Corps this year than there has been for quite a few years, Sgts.: R. N. England, G. A.

Fisher; Cpls: M. L. Cohen, D. A. Stewart; L/Cpl.: P. L. Blake, and one CUO; P. C. Taylor.

With the increase in the size of the group we have been forced to move into a more spacious residence in the new science block, where we are looking forward to a good year, under the able tutorship of Mr. Carr.

P.C.T.

MARKS GROUP

To the Third Formers we extend a hearty welcome knowing that their enthusiasm, under the helpful guidance of Mr. Taylor, will add strength to the Group.

Mr. Taylor this year is assisted by the following Group Committee: C. R. Bright, Captain; A. T. Vincent, Vice-captain; I. A. Campbell, Secretary; R. S. Hughes, Treasurer.

Form representatives are: VI Form, J. W. Wintraaken; V Form, P. H. Freeman; IV Form, J. Elmgreen; II Form, R. G. Stedman.

On the Services Committee we have J. L. Sainty, R. S. Hughes, J. W. Liddell and B. S. Patrick is our representative on Arts and Interests.

Our congratulations to J. Elmgreen, a Fourth Former, who gained selection in the 1st XI which is having a highly successful season. We would also like to congratulate P. Gilder who coxed the Third Four in the G.P.S. Regatta.

We did well in last year's Leaving Certificate with 10 of the group passing. G. R. Butler and G. B. Veitch must be commended on gaining Commonwealth Scholarships.

This term the group was well represented in the athletics, many boys received Standards. Unfortunately, our Tug-O-War teams were unsuccessful even though we had the lighter end of the rope. With the football season starting we hope to see more boys participating in this sport so that the high standard of previous years will be maintained.

C.R.B.

GROUP TEN

The Committee for this year is:—Captain, Brian Cross: Vice-Captain, Peter Howard: Secretary, Robert Cooper: Treasurer, John Battersby. Unfortunately Mr. Little has had to give up his position

as assistant tutor owing to increased work in the Science Department. We were all very sorry to lose him. Congratulations go to Peter Howard, Don Stewart-Richardson and Robert Cooper on their appointments as Sub-Prefects.

In the Leaving Certificate last year nine boys from the group passed. D. B. Stewart-Richardson, W. D. Wrench, D. O. Zines, E. K. Lippey, H. F. Thompson gained Commonwealth Scholarships.

This year we are well represented in all sport. In the 1st XI we have Alan Terrey, and his brother Peter and Graeme Wilson are in the 2nd XI. Both these teams are leading in their competitions. The group regained the swimming shield with outstanding performances by Peter Howard and Victor Keller who scored nearly all of the group's points at the Annual Swimming Carnival. In rowing, Brian Cross is completing his third year in the VIII and is Captain of Boats. Another group member, Geoff Heicher, is also in the VIII. Graeme Wilson is in the 2nd IV and R. L. Bruce is the cox of the 1st IV. Don Stewart-Richardson organised the Athletics Standards Competition as well as taking a very active part in it. Graeme Teale is the Group Arts and Interests representative.

In the Army Cadets, Robert Cooper is a Cadet Under Officer, while Kym Wilhelm and Graeme Wilson are Sergeants. In the Navy Cadets Peter Howard is the Cadet Petty Officer and John Battersby is a Leading Seaman.

And last, but by no means least, we all wish to thank Mr. Maclay for all his help and guidance throughout the term and his tremendous enthusiasm in the activities of the group.

R.E.C.

BARTON GROUP

And now it is time for another half-yearly tour of Barton Group. As we enter the hallowed hall known as WM I room, we are dazzled by an imposing figure in the centre of the room. As he passes, Sixth Formers hush their voices and step aside, Fifth Formers spring to attention, Fourth formers bow from the waist, Second formers fall to their knees, crying out 'Salaam'. Yes, this is the Group's pride and joy — Jim Barkell. Jim is the Senior Prefect, the Senior Under Officer, a player in the 2nd XI.

Behind the Great One march the sturdy figures of Roger Bacon and Tony King, the sun glinting on their Sub-Prefect's badges, their

eyes ever alert for any signs of disobedience. And then we have Philip Barron, the Group Captain, who does a fine job in running the People's Democratic Barton Group (excuse me, that was last year). Philip receives a lot of support from David Begg (a successful Outward Bounder) and Leigh Johnson, who are other committeemen, and he receives absolutely no support whatsoever from the Vice-captain, Stephen Scarlett.

Those who catch an occasional glimpse of Peter Austin say he is the Signals Officer, Reading Room Senior in the Library and Barton Group Arts and Interests representative. They may be right. Stephen Scarlett is allegedly a CUO and the Library's Staff Supervisor. The great Roger Bacon (see above) is a WOII, George Sved is a Sergeant. Other riff-raff are Corporals and the like. Tim Theeman does not hold any official position but he is a good bloke, anyway. So is Mr. Knock (he's our tutor, now).

Martin Gole and Richard Hill got Commonwealth Scholarships last year. Wow!

Mr. Hill got married last year. Even more Wow!

S.H.S.

GROUP TWELVE

This year Group Officials are Captain, Paul Samer; Vice-captains Bill Higgenbotham and Alister Rourke with John Parker as Secretary and Geoffe Drummond as Treasurer.

In the School's sporting activities this term the Group has been represented by Peter Brownrigg and Alister Rourke in the Eight for the 1963 Regatta. In the School Swimming Carnival the group was placed third by the brilliant efforts of the Fourth Former, Harry Loudon, and others.

We would like to congratulate Brownrigg and Rourke and wish them luck in the coming Regatta. Also we would like to congratulate Colin Rooke who has been appointed Drum Major of the School's Cadet Band.

Finally we would like to thank Mr. Lane for his co-operation and understanding and trust that the group will continue happily and prosperously throughout the rest of the year.

P.K.S.

Memorial library

A further generous advance in the Library estimate recently granted by the Trustees places the Library's resources in a better position than ever before; and when to this is added further and more generous gifts from Mrs. Chase little is wanted save the time to prepare the influx and to administer these riches wisely.

It comes perhaps as a counter to such a splendid beginning to realise that the Library is far more a learning tool (and even a shelter) than it is a source of recreation or pleasure. In an age when literacy is a purely relative term, boys feel little of the veneration for books which used to be not uncommon in their fathers' day: so often a book is merely a means to an end — a curricular end — and so rarely a source of interest, amusement and pleasure.

This is not to say that we are not lending plenty of books and daily tidying up stacks of periodicals; but it does say that most of our customers do not want the goods we are purveying: other things — television, time travelling, sport, and our national love of unreflecting activity — hold their interests and fill their days.

This explains why only a few boys find any satisfaction or fulfilment in the service of the Library — quite onerous, with two long reading sessions and an average of six classes a day. There can be little ideal of service where the service to be offered is not thought to be essential or life-bringing. To serve the Library well as an assistant takes more determination and fortitude — qualities sometimes summed up in one short single word — than many boys seem to possess.

Those bearing the brunt of the work this year are: J. M. Morris (Senior), S. H. Scarlett (Staff), P. W. Austin (Reading Room), G. I. Smith (Repairs, Stack and Store), T. Holgate (Records), with a few others in support.

In addition to our immeasurable debt to Mrs. Chase's generosity, we acknowledge with gratitude the generous gifts of the following: G. W. Hall & Co.; R. W. Maclay, Esq.; Mrs. C. Mackerras; S. J. Marshall, Esq.; J. A. Eisman; Sydney Grammar School Science Department; The Reverend and Mrs. H. W. Guinness; R. G. Colvin; R. Stedman. Also on loan a number of books from the City of Sydney Library.

SCIENCE DAY

Session 1 — Preparatory School

Particles

MR. L. G. LITTLE

The essence of science is inquiry, and the Prep. boys are probably still inquiring, wondering how Mr. Little managed to set his handkerchief on fire, let it burn for a while and then, after putting out the fire, have his handkerchief still as good as new! There was indeed a spirit of inquiry. Introducing his talk with a discussion of fire, he showed that fire can be coloured distinctively by various substances.

Mention that Dalton suggested the existence of atoms and that Faraday claimed there was some connection between atoms and electricity, led to demonstrations with cathode rays and electric currents flowing through strong magnetic fields, and the explanation of the results in terms of electrons.

Finally, after further spectacular displays of colour effects using Geissler tubes, the emission of these distinctive colours was explained in terms of changes in electron energy.

E.J.E.

Session 2 — Second Form

The Second Form session consisted of a film and a lecture. The film was 'The First Mile Up'. This showed details of atmospheric pollution in the large industrial areas of the northern hemisphere and efforts being made to control and reduce the causes of pollution. It also discussed radioactive pollution of the atmosphere due to nuclear tests.

The lecture on 'Some Aspects of Atomic Structure' was given by Dr. Simmons, Science Master, The Scots College, Bellevue Hill. Dr. Simmons discussed the structure of the atom and in particular the electron configuration in 'shells' or 'energy levels'. The method by which the electrons release electromagnetic radiation was dis-

cussed and some possible explanations given of the continuous nature of the energy release and absorption.

Session 3 — Sixth Form

Dr. J. B. Hickie, Senior Lecturer in Medicine in the University of Sydney, gave an extremely interesting address, illustrated with slides, on 'The Perennial Medical Student'. He pointed out that the student was just as important as the teacher in that the student's questions very often sparked off research into unknown fields and thus promoted the advance of knowledge. From Greek times medicine has been conceived both as an art and a science although there have been 'quacks' in all ages. The intending medical student needs to have the ability to cope with difficult subjects and to work hard. A good scientific background is essential.

R.J.H.

Session 4 — Fifth Form

Dr. W. R. Pitney, Associate Professor of Haematology in the University of N.S.W. spoke to the Fifth Form on 'Scientific Careers in Hospitals'. He spoke of the complexity of the modern hospital and outlined the various fields possible from radiographer and medical laboratory technologist through occupations requiring a university degree in a wide range of subjects such as pharmacy, physics, biochemistry and microbiology.

R.J.H.

Session 5 — Fourth Form

Research

Dr. D. F. J. Halmagyi.

The essential attitude of mind of the research scientist was described along with the advantages and disadvantages of taking up such a career. Although the financial reward is not as high as in many of the more lowly vocations, it is adequate, and any lack of financial reward is more than compensated for in other ways.

Questions raised by the boys after the main address led to an outline of some of the medical research being conducted, and the methods used, at the University of Sydney where Dr. Halmagyi is a Research Fellow.

E.J.E.

Session 6 — First Form

Mr. Maclay gave a talk entitled 'Waves and Breakers' in which he discussed and demonstrated the wave and particle nature of light.

The phenomena of polarisation, diffraction and interference were mentioned and many boys realised that they saw examples of these every day.

Finally the idea of quanta was introduced by the interesting analogy of breakers in the surf, a phenomenon with which many of the audience were more familiar.

Session 7 — The Official Opening

The speeches appear elsewhere. The Middle Playground was far from being a 'circus' with the huge marquee dominating the scene to protect visitors if the phenomenal rain of the previous weeks persisted or returned. The section of the playground under the Science Building, recently over-parked with cars, looked strangely melodramatic with potted greenery as a back-drop to the Official Dais.

It was indeed a gay day with ladies vying in autmn fashions and the paint as fresh, the grass as short, the waste paper as concealed, the weather as fine as possible. The occasion was worth remembering in particular for the keen interest of a great man, great for his human interest in boys and their achievements, great in his achievements as the Commonwealth's chief Executive, gracious in his acknowledgement of interrupting admirers, great in his comprehension of the purpose of the building's design and arrangement.

Our Science Building has now been opened in two stages. Sir Ernest Fisk turned a gilt key in the door of Laboratory 4 in November, 1958. The first stage has operated effectively since and, if it were to be rebuilt now, there is little that would be varied as improvement apart from slightly better designs now available in plumbing and electrical fittings. The expenditure on the New Extension has gone into fundamental structure and services, consistent with the terms of the Industrial Fund. It will take many years at the present rate of expenditure on equipment to stock it adequately for the task of challenging the brightest boys of years 3, 4, 5 and 6, especially the latter two. What are some of our needs? More visual aids are wanted, including closed-circuit television, effectively demonstrated during the day. We need a computer for statistical and other programmed use. We need photographic equipment. We would like to investigate the spectroscopy of electromagnetic radiation from micro-wave to

X radiation frequencies. We have a roof for solar observation, furnaces, radio and optical astronomy, cosmic ray density measurement. We need particle counters, isotopes and a mass spectrograph, Kymograph and microtome. We need more and more electronic developments, amplifiers and recorders of impulses. We would like to do precision magnetic and electric field measurements. We have a museum and biological living area to be developed and stocked with glass cases, fish-tanks, bird cages, plants, in appropriate installations. There is no end to the possibilities of use of smaller pieces of equipment. There is no end of opportunity for any one of good will and vision and means to help bridge the gap leading to realisation.

R.W.M.

Session 9

The well attended evening session of Science Day was an outstanding success. Interest was captured by a fascinating film entitled 'The Living Machine', this was a relevant film for this machine age and the rather fanciful picture of the world dominated by a machine was sufficiently far fetched to be frightening. Our interest once gained was not permitted to lapse and Dr. George brought to attention the various applications of physics in medicine. The matter of the lecture was intrinsically interesting but Dr. George made it all so very much more enjoyable by the manner of its presentation. We were privileged to witness a good range of demonstrations on such topics as the 'electricity of the body', 'sound and speech', and 'radioactive tracing', these were supported with well chosen slides.

An interesting part of the evening activities was the use of closed circuit television. This was in itself a good demonstration and it proved its usefulness in following, so that all could see, the demonstration of Galvani's Frog Leg Experiment. The television made certain that every member of the audience had a clear view of all demonstrations and slides.

Our thanks are due to Dr. George and his assistants for having presented such a memorable lecture.

L.G.L.

The S.G.S. Science Association Talent Quest

Awards for 1963 presented on Science Day:—

VI Form: J. M. Morris, R. N. England, *First equal.*
V Form: M. C. Simmons, D. W. Storey, K. J. Mutton, *First equal.*
IV Form: S. J. Gracie, R. A. Howard, *First equal.*
I Form: C. R. George, *Special Mention.*

The Judges were Associate Professor R. W. Green of the School of Chemistry, University of Sydney and Mr. W. R. Kemp of the Division of Physics, C.S.I.R.O.

The S.G.S. Science Association Committee for 1963

The Annual meeting on Monday 8th April, resulted in the following elections:—

Patron: Sir Ernest Fisk.
President: Dr. E. P. George.
Vice-President: Dr. R. G. Goivanelli.
Secretary: Mr. G. R. Pfeiffer.
Treasurer: Mr. G. F. Hinde.
Committee: Professor D. L. Wilhelm, Mr. W. S. Chambers, Mr. P. D. Brown, Mr. L. G. Little, Mr. R. W. Maclay (ex officio).

DUKE OF EDINBURGH'S AWARD NOTES

The most prominent event this year was the Duke of Edinburgh's presentation of a gold certificate to Michael Dillon. This was the first gold certificate awarded in Australia.

Other awards have been presented at lower standards. Silver awards were presented to W. Madden, P. Jennings, D. Begg, P. Barron, H. Arthur and R. Colvin, and bronze awards went to G. Marfleet, D. Alderdice, A. Simpson, P. Read and J. Hedberg.

During the Easter holiday, Mr. MacGillivray and Mr. Cooper took a party of boys and some old boys of the Outward Bound school to the Alpine Hut in the Snowy Mountains. They went out on various expeditions from the hut. Another party went to the Snowy for their gold test expedition.

At present sixty boys are engaged in the Award scheme; six others are engaged by correspondence to the school from other parts of New South Wales.

In the school a few senior boys are organising physical fitness tests and map reading classes are being held for the younger members.

The Award Scheme is steadily growing and each year more younger boys are joining. The Scheme is open to all boys over the age of fourteen.

SCHOOL ACTIVITIES

DEBATING NOTES

Debating has enjoyed strong support in the school this year, especially among the younger boys. Serious attention is now given to First Year debaters and results have been most rewarding. Most debates have attracted quite reasonable crowds but new faces are always welcome. As any debater will testify, a large audience is always reassuring and encouraging.

The parliamentary type debate against P.L.C. Pymble in Big School during third term last year must go down as one of the highpoints of this season's activities. An exceptionally large crowd attended to hear Grammar, as the Government, try to pass a bill restraining a Mr. C. Columbus from discovering the continent of America. The school 'cabinet' was composed of G. Kelen (Prime Minister) and his able ministers, Finkelsen, Billing and Goodman.

Middle and Lower School Debating

It is especially heartening to see First Year boys taking an active interest in debating. They have spoken on such diverse topics as: sisters, footpaths, wrapping paper and sticky messes. There have also been debates and discussions on more serious topics. Many speakers have shown considerable promise.

Debating has been going ahead rapidly in the Middle School. Verbal struggles have been waged over many topics, such as, 'Whether it is better to live today or in a past age', 'If America is the true democracy' and 'Australia's role in the modern world'.

An interesting new device is the tape recording of prepared four minute speeches. This has been done before but never on such a wide scale, having been limited, in the past, to G.P.S. speakers. I have heard my own efforts on tape in the past and they are far more damning than any formal adjudication. Errors in style and logic can be immediately detected, and, with practice, eliminated.

As stated in the Upper School notice First Term is very much the 'off season' of debating as far as inter-school competition is concerned. One very interesting series of debates has, however, been held since the last report. The programme included six First Year

prepared speeches, which resulted in a three all draw; a Second Year team (Billing, Cowan and Williams) successfully arguing for the abolition of school uniforms; the Third Year team (Sonnabend, Simpson and Finkelsen) denying with equal success that national radio and television stations were preferable to private ones; and the Fourth Year team arguing that our grandchildren were to be pitied. The afternoon was judged by all to be a great success.

Speakers in Middle School debates have been: Aronson, Carr, Inglis, Rogers, Powell, Stroud, Goldman, Raymond, Rosenwax, Patterson, Sonnabend, Simpson and Finkelsen. This necessarily partial list will give some idea of the widespread support for debating found in this age group. Lower School speakers included: Whitington, Fairley, A. Nicholas, J. Nicholas, Mortlock and Brown.

It should be remembered that these boys are G.P.S. debaters of future years, and any support given to them now will pay off then.

Upper School Debating

This year saw the retirement of Mr. Knock from control of Upper School debating, to take charge of the younger boys. Mr. Knock has been the driving force behind debating in the school for years, giving up countless afternoons and lunch hours to coach the boys. A measure of his success is the distinguished record of the school in debating over the past few years. It is unfortunate that his career could not be crowned by seeing his team win the G.P.S. competition as they so nearly did last year. All those Old Sydneians who were in any way associated with Upper School debating will remember his fine adjudications, critical, helpful, and always tempered by his unfailing patience and sense of humour. Before this begins to sound too much like an obituary, let me hasten to point out that he is still very actively engaged in debating, ever ready to lend a hand when called upon. Mr. Ferraro takes his place as Upper School debating master.

As is usual in first term there has been little inter-school activity, but several debates and discussions have been held on subjects ranging from the sublime to the ridiculous. Leading speakers have been Sharpe, Baxter, Clark, Bush and Goodman.

Open Debates

Although open debates have declined from their pinnacle of popularity where Big School might resemble parliament or a full scale

riot, they are still quite successful. Many boys and several masters have spoken; some wittily, some brilliantly but none badly. Open debates are recommended to all as a pleasant way to fill in a lunch hour. Our thanks go to Bush, their tireless and efficient organiser.

R.F.C.

GLOBE PLAYERS

With the acquisition of part of the upper floor of the Palladium building, the Globe Players has the opportunity of extra area both for rehearsals and for construction of scenery and properties. It is still possible for more use to be made of the rooms in the Palladium for play readings and a drama library, and in due course, with the purchase of books and periodicals, and copies of suitable plays, this will be a regular activity for interested boys.

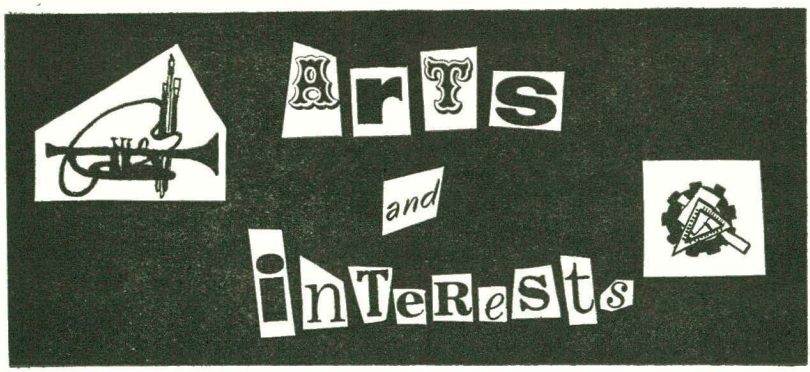

The main activity this year has been the planning of the 1963 production, 'Adventure Story' by Terence Rattigan. This rather unusual choice of play has aroused considerable interest, and many boys have auditioned for parts in a cast of about forty. The play is a modern rendering of the career of Alexander the Great, and while the play is set in Ancient Times, the dialogue and treatment is essentially modern. The Producer, Mr. K. B. Potten and the Designer Mr. P. E. Du Toit, have already worked out the settings for the play, and rehearsals have been taking place regularly.

Next term should see not only large numbers of boys involved in the complex task of staging the play, but also the annual visit of the Young Elizabethan Players, who perform shortened versions of the Shakespeare plays set for public examinations. We notice with interest that this latter production has been prepared by Mr. John Trevor, an Old Sydneian, and father of a boy in the School. Mr. Trevor has recently visited the School to talk to the Sixth Form on the Theatre.

The two television sets, bought by the Globe Players, and presented to the School last year, have received wide use, and as this aspect of educational assistance develops in Sydney, we look forward to employing these sets in many subjects.

Finally, we issue a cordial invitation to all friends of the School, as well as boys in the School, to attend the performances of 'Adventure Story', on 9th, 10th and 12th August. We know that this play will be fine entertainment, and be a rewarding experience for all.

H.A.M.

EISTEDDFOD

On Tuesday 4th December 1962 the first Sydney Grammar School Eisteddfod was held. Considering the fact that this was a new function for the school the number of entries was encouraging and the day was successful in that it gave an opportunity to boys interested in music, public speaking, reading and recitation to display their talents and also opened the eyes of many other boys to the pleasure that can be derived from these activities. Judging took place during the earlier part of the day and during the last two periods in the afternoon the judges announced their awards and selected competitors performed before a large gathering of masters and boys which filled Big School.

Mr. Cedric Ashton judged the music sections, Mr. Charles Parkinson the public reading and recitations, and Mr. Anthony Gallagher the public speaking. The public speaking entries were, generally speaking, of the highest standard thanks to the coaching given by Mr. Knock and other masters over many years. There were a few entries of a high standard in the music sections and now that our musicians have an Eisteddfod to look forward to each year we hope that both the standard and number of entries will improve. The recitation and reading sections were on the whole disappointing. Many competitors came ill-prepared. We hope that in future, entrants in this section will devote more time to preparation and seek the advice of masters or other qualified people on how to improve their performances. We are grateful to the judges for giving up some of their valuable time to judge the competitions and to the various masters who kindly helped in the organisation of the Eisteddfod.

Winners of class awards were as follows:—

PIANO, SOLO, MIDDLE SCHOOL:	Weaver, P. B.	*1st Class*
	Stackpool, A. M.	*2nd Class*
PIANO SOLO, LOWER SCHOOL:	Dalziel, P. R.	*2nd Class*
	Highfield, A. C.	*3rd Class*
	Maclay, J. B.	*3rd Class*
	Currie, J. S.	*3rd Class*
	Brown, G. P.	*3rd Class*
INSTRUMENTAL SOLO, UPPER SCHOOL:	Baxter, R. C.	*2nd Class*
	Teale, G. L.	*2nd Class*
INSTRUMENTAL SOLO, LOWER SCHOOL:	Opitz, S. P.	*2nd Class*
	George, C. R.	*3rd Class*
TRIO, OPEN:	Baxter, R. C. Danos, R. S. Wilhelm K. D.	*2nd Class*
SOLO SONG, LOWER SCHOOL:	Fairlie, D. G.	*3rd Class*
	Cutler, J. H. L.	*2nd Class*
RECITATION OF POETRY, UPPER SCHOOL:	Sharpe, J. L.	*2nd Class*
	Wilhelm, K. D.	*3rd Class*
PROSE READING, UPPER SCHOOL:	Wilhelm, K. D.	*2nd Class*
	Sharpe, J. L.	*3rd Class*
	Rybak, T. H. W.	*3rd Class*
	Tall, A. B.	*3rd Class*
PROSE READING, MIDDLE SCHOOL:	Williams, M. T.	*2nd Class*
	Jakubowicz, A. H.	*2nd Class*
	Holgate, T. D.	*3rd Class*
	Frisby, P. L.	*3rd Class*
	Fesq, G. M.	*3rd Class*
PROSE READING, LOWER SCHOOL:	Nicholas, R. R.	*3rd Class*
PREPARED ORATION, UPPER SCHOOL:	Goodman, J. M.	*1st Class*
	Sharpe, J. L.	*1st Class*
	Campbell, I.	*3rd Class*
PREPARED ORATION, MIDDLE SCHOOL:	Cowan, R. V.	*1st Class*
	Williams, M. T.	*2nd Class*
	Jakubowicz, A. H.	*3rd Class*
PREPARED ORATION, LOWER SCHOOL:	Nicholas, J. R.	*1st Class*
	Nicholas, R. R.	*2nd Class*
	Rankin, R. J.	*3rd Class*
UNPREPARED ORATION, UPPER SCHOOL:	Sharpe, J. L.	*1st Class*
	Goodman, J. M.	*2nd Class*
	Campbell, I.	*3rd Class*
UNPREPARED ORATION, MIDDLE SCHOOL:	Frisby, P. L.	*1st Class*
	Simpson, A. C.	*1st Class*
	Williams, M. T.	*2nd Class*
UNPREPARED ORATION, LOWER SCHOOL:	Nicholas, J. R.	*1st Class*
	Nicholas, R. R.	*1st Class*
	Fairlie, D. G.	*2nd Class*
	Whittington, R. L.	*2nd Class*

Visit of the Australian Ballet Company

At the end of Third Term the School was honoured by a visit from Miss Peggy van Praagh, artistic director of the Australian Ballet Company and three of the solo dancers, Karl Welander, Douglas Gilchrist and Robyn Croft. Most of the floor of Big School was cleared for the occasion, the seats being placed round the sides to enable all to get a good view of the demonstration. Miss van Praagh explained to us in a most friendly and entertaining way the training and disciplines required to make a ballet dancer, using the dancers to demonstrate her points, after which we were shown some examples of solo dancing and pas de deux. We were able to see at close quarters that ballet dancing is not the effeminate activity it is sometimes thought to be but an accomplishment which requires long and hard physical training as well as considerable strength as far as the men are concerned. We are very grateful to Miss van Praagh, the dancers and Mr. Reuben Fineberg who played the piano, for giving us such an interesting and enjoyable afternoon.

Theatre Parties

Thanks to the ready co-operation of most of the theatres in Sydney we are now able to arrange for masters to see new productions early in the run in order to assess whether they would be suitable for school parties. In consequence a number of theatre parties have been arranged, notably to *The Pirates of Penzance*, *The Cherry Orchard*, *Carmen* and *Show Boat*. We hope that more boys will begin to join these theatre parties and thus develop an appreciation for good theatre.

Assembly Music

The arrangement whereby we have a few minutes of music at the end of the weekly assembly has been continued this term. In the main school assembly this takes the form of live instrumental performances. We are fortunate in having on the staff at least three very competent pianists, namely Messrs. Hall, Holland and Riley, all of whom have played for us this term. We have also had two visiting artists, Mr. John Germain who sang arias from *Il Pagliacci* and *The Magic Flute*, and Mr. Campbell Barnes who played Mozart's Horn Concerto in E Flat (K 447).

In the Second Form assembly the music is presented in the form of recorded music introduced by various interested masters.

Other Arts and Interests Activities

The issue of the weekly Arts and Interests Bulletin to Masters and Tutor Groups has continued although the Bulletin is now shorter because it is designed to include only those items which are considered to be of significant importance instead of providing a general coverage of cultural activities in Sydney. A new series of Arts and Interests courses is being planned to start in Second Term and preparations are being made for the second Arts and Interests Day which is due to take place on May 8th.

MUSIC

The appointment of a full time music master has made it possible for a larger number of boys to take part in musical activities. The Orchestra has been reformed after a short recess during 1962. Although the orchestral group is still small its enlargement and success is ensured by the establishment of two violin classes. These, comprising eight members, are taken by Miss J. Mackerras on Wednesday afternoons. The violin pupils, taken so far from the Lower School, will join the orchestra on reaching a proficient standard. The school violins which are on loan, will be handed on to new members. This constant flow of string players into the Orchestra will compensate for loss of members who leave the school after the end of sixth form.

Mr. Flecker is teaching the flute to three boys and it is hoped to begin clarinet tuition early next term. Two descant recorder groups have been established. The advanced class enables first form boys who have been taught in primary schools to continue with this instrument at College Street. Lower and prep forms have one period per week devoted to recorder playing; thus it forms a major part of the music curriculum. It is hoped that some boys will learn the treble, tenor and bass recorders, thus forming a recorder family.

The chief problem facing the expansion of orchestral music in the school is the lack of instruments, particularly woodwind and brass. Should anyone have an instrument which is no longer played the school would be delighted to have the use of it.

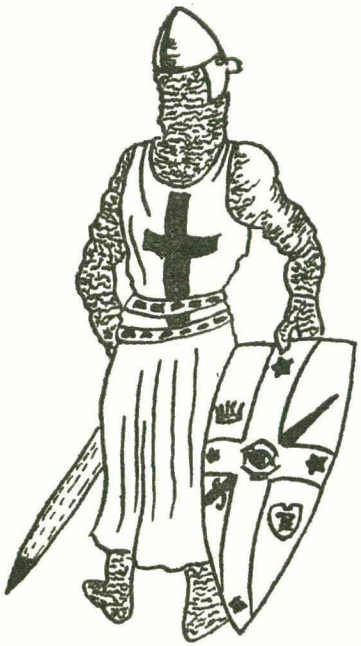

The School madrigal group comprises twenty-four voices, and meets every Tuesday. Boys from all levels in the School take part and Mr. Flecker, Mr. Searle, Mr. Cohen, Mr. Cavalouski and Mr. Holland provide this group with strong tenor and bass lines. Madrigals are essentially 16th Century vocal compositions and are an expression of life in the Elizabethan age. It is hoped that many boys more will join this group.

A Junior choir of sixty-five voices has been formed. The choir is preparing a programme for the combined music festival to be held on June 25th in Sydney Town Hall. It is hoped that a senior choir can be formed to enable us to learn four part choral works.

There is now an opportunity for boys to learn the guitar. This instrument is enjoying great popularity in Australia since the visit of the great Spanish guitarist, Andres Segovia. This class, which meets on Friday, has already a large following. Much of the credit for the success of this group must go to R. Baxter who has been tireless in his teaching efforts.

I would like to thank Mr. Flecker, the Music Committee and especially D. Watt (Music Secretary) for the assistance they have given in establishing the various musical activities.

G.E.W.H.

Crusader Notes

For Crusaders, the year has begun reasonably successfully. A large number of boys from Grammar attended the camps at Lake Macquarie during January, especially the Junior Boys' Camp, where our counsellor, Mr. Little was commandant.

Attendance at most of the Wednesday meetings has been quite encouraging. Mr. Little organised the first three meetings; a talk by Mr. Little comprising the first, with speakers giving talks on the other two occasions. The first film was shown with Mr. Little's talk, another film entitled 'Outpost Berlin', being screened just before Easter. The latter was very well attended, nearly filling the Science Lecture Theatre to capacity, and was obviously appreciated as the film put forward a challenging message through the lips of Billy Graham when he was conducting his West Berlin Crusade about five years ago. Our speakers have ranged from Christian masters on the staff to eminent churchmen outside the School. I would like to thank the committee for arranging speakers.

A series of Bible Studies on the 'Parables from the New Testament', was given by Mr. Argue during the first half of the term. These were most interesting, giving a clear picture of the Kingdom of Heaven through the parables. We thank Mr. Argue most sincerely and look forward to a series for the remainder of term that will be given by Mr. Fraser on 'Old Testament Characters'. These meetings have been quite well attended each Friday morning. A number of Prayer Meetings have been organised but it is hoped that a more regular system of these meetings will be organised for the next half term.

We look forward with pleasure to the coming annual Regatta Barbecue, which as usual, will be held at Mr. and Mrs. Hungerford's home, Penrith, straight after the Championship race. The 'Bike Hike', which takes place in the coming May holidays, is also looked forward to by many Grammar boys who will be joining it for its seven day duration as they tour the country north of Sydney.

Finally, we wish to thank the Headmaster, for allowing us to join in Christian fellowship in this school and Mr. Maclay, for making available the Science Auditorium and Laboratories for our meetings.

J.A.L.P.

CHESS CLUB

The Chess Club had a rather quiet first term this year, compared with the same period last year — mainly due to a falling-off in the number of players.

The main event this term has been the running of a chess competition which attracted about 25 players. The competition, a seven-round Swiss, was completed in four weeks. 'Hot favourites' de

Groen and Teale started well, but as they came into the straight, 'dark horse' Vuaran (7 points) drew away to win by a length from Milston (6 points) followed by Horsky (5 points), and de Groen, Teale and Wall (each 4½ points).

The prizes, one each for the best Upper, Middle and Lower School player, were won by Vuaran, Milston and Lawrence, respectively.

Since only a few players will be available at the right time, only two teams will be entered for inter-school matches. The teams are: 'A' grade — Fisher, Milston, Shaw, Teale, Vuaran; 'B' grade — Briggs, Horsky, Macdonald, Ross, Saxby, Wall. However, the competition brought to light great potential in the lower years, which augurs well for the future.

Finally, the Club extends its thanks to Mr. McGuinness for his interest and help during first term.

N.I.F.

THE EXTRA ART CLASS

The most popular of the varied activities of the Extra Art Class is pottery. Much of this is produced on the wheel, the shapes varying from small squat bowls to tall, thin vases. Larger shapes are produced by 'coiling', a slower process resulting in work of a rugged, hand-made character unusual in an era of commercial mass-produced pottery. Thin coils or 'ropes' of rolled clay are built one upon another and shaped as the work progresses.

To many the art of slip-casting is a mystery. Slipware is made by taking advantage of the absorbent properties of plaster of paris. Liquid clay (slip) is poured into a pre-cast plaster mould, and as the water is absorbed a layer of clay is deposited against the inside of the plaster mould. When the deposit is considered to be thick enough the liquid clay is poured out, and as the article dries further in the mould it shrinks, and is eventually released.

Modelling in clay offers unlimited range for originality — useful ornaments, animals, birds, wall-plaques and clay figurines are produced. All the work is then fired twice in the pottery kiln. The first firing to 980 degrees produces bisque ware ready for the application of glazes by dipping, painting or spraying. During the second firing up to 1,060 degrees the glaze fuses to a smooth glossy or matte coating.

The covers of form magazines have made us aware of silk-screen printing processes. Silk-screening is a simple way of reproducing

a design quickly, efficiently, and with no variation. A paper stencil is attached to the underside of silk tightly stretched on a frame. The paper to be printed is positioned below, then paint spread at one end of the screen, is dragged across the silk by a squeegee, and forced through the stencil to print on the paper below.

Oil painting is done on primed masonite boards. The idea of dividing the painting into small squares each with a different colour is both popular and unusual outside the school. The subjects of most paintings are simple with the accent on shapes and colours rather than the tedious detail of the realist painter.

Besides pottery, silk-screening and painting with oils, some metal work, including copper beating and wire figurines, can be done. Thus the Extra Art Class has many activities, all interesting and enjoyable. S.T.S.

ART, THE SUBJECT

In recent years little interest has been taken by the boys in Art for higher examinations. Although it could be taken for Intermediate and for Leaving Certificate, it was not a Matriculation subject.

Today Art is a Matriculation subject, providing that the whole field of history of Art and Architecture has been adequately covered.

Leaving Certificate examination in Art consists of two three-hour papers. The first covers the history of painting, architecture, and sculpture, while the second consists of a design project and a pictorial composition. In addition, examples of craft work have to be submitted to the Education Department Examiners in Art. For example, if pottery is chosen as the candidate's craft, he must submit a bowl at least six inches wide, a jug at least nine inches high, and a vase, measurements optional. These must have been executed by hand or on the potter's wheel, and glazed by the candidate, without any assistance, and the school must certify that this is all the candidate's unaided work.

One effect of the Wyndham Report is that more periods are allotted to Art in the Lower School, thus providing a good grounding for easy continuity through to Secondary level. Anyone wishing to teach Art can do a further three-year course assisted by the Education Department at the National Art School (East Sydney Technical College).

Art then, is an interesting and rewarding, but not necessarily easy subject. It is one that, as a hobby, can extend beyond school activities, and beyond school days. C.B.

WOODWORK

This year has seen the introduction of woodwork at Grammar. The workshop is situated in Palladium 2 and behind its double doors can be found ten dual woodwork benches constructed for us by Jack the school carpenter, and a varied array of woodworking tools. These tools were selected for their quality and fitness for school workshops and include such famous names as Stanley, Disston, Berg and Titan.

The workshop has seen much improvement since its opening in February. Each kit of tools is now housed in a separate rack at the end of the bench; sawing and chiselling boards have been made from timber originally used for the tops of desks. One set of carved initials was recognised by a delighted boy as that of his uncle! Planing stops are gradually being added and it is hoped to paint the underframes of the benches later in various clean bright colours.

Work under construction by the boys is of course rather elementary at present, the object being to establish a firm basis of workshop technique upon which to build subsequent work. A good standard has been attained by the majority of boys and the quality of some of the work gives promise of a very bright future.

N.H.

SERVICE COMMITTEE

This year the committee has been active once more in undertaking new projects to benefit the Smith Family and the Sydney City Mission. The committee has agreed to paint Cowley House at Cronulla for the Sydney City Mission and in so doing has undertaken quite an extensive project.

An appeal within the Tutor groups has raised almost £40 to cover the cost of paint and brushes. Thanks must be given to all boys for contributing to the appeal and it is hoped that future appeals will meet with the same generous response.

During the May holidays, the committee has been organised into groups of six to eight boys, to go to Cowley House each day for about a week to paint the exterior and a certain part of the interior.

Cowley House is a home for children whose parents are either dead or have deserted them. There are many children who are Wards of the State and there are nine whose fathers are in jail for murder. So by painting the Home, we hope to improve the at-

mosphere in which these children are being brought up so ably by the City Mission.

On the 31st of March, almost one hundred boys of the school took part in a large Door-Knock for the Asthma Foundation. All the boys were volunteers, and worked in the streets assigned to them by the Appeal organisers, often working away from their own districts. The Appeal was a great success and the organisers were very grateful for the wonderful assistance given by the boys and also for the highly efficient way in which they carried out their allotted tasks.

Several functions have been organised by certain boys to benefit the Freedom from Hunger Campaign. It is hoped that these functions will meet with success and support from members of the school. Next term the committee will again be organising a large clothing appeal for the Smith Family, which will be conducted in June. We hope to achieve similar results to those of last year's appeal, in which Grammar boys collected twelve tons of clothing out of a total of thirty tons collected in the whole of Sydney. With the co-operation of boys this result can once more be realised.

The committee will be making a visit to the Anti-Tuberculosis Clinic during the first week of the second term, to observe the measures being taken in this State to combat the disease.

The committee looks forward to the approaching activities and another successful year with the co-operation of all boys of the school.

J.F.C.

RAILWAY CLUB

The Club has had a moderately successful year so far, having held a slide show, movie show, and a two day tour over the Newcastle district.

During Easter the club visited Broadmeadow Loco. Depot, Port Waratah Loco. Depot, Cardiff Loco. Workshops, South Maitland Railway Company's Loco. Depot at East Greta Junction. We are indebted to Mr. Knock and Mr. Carbines for their help in this trip, also to the Mechanical Branch Staff in the Newcastle District for co-operation during the tour.

Our rail-motor tour was abandoned because of lack of funds. We intend to hold a film and slide show for the parents of members. This should be quite an interesting evening.

We are still a member club of the N.S.W. Schools Railway Club's Association and this membership has proved advantageous to our members.

R.A.H.

THE STAMP CLUB

Philately has appeal to people of all ages, and time spent at it gives returns of many kinds.

If you want a touch of aesthetic appeal, stamps are standing by to give it; if it's a yearning after knowledge you crave, stamps strain forward to point the way; if it's an idle hour you face, stamps present themselves for review.

Business men, at times, speak highly of stamps for they can be the means of turning a coin or two.

Join the Club. Meetings are in 'E' Room on Fridays at 12.30 p.m.

E.

VII EMPIRE GAMES TOUR REPORT — PERTH

18th November to 6th December, 1962

Late in July 1962, the School received an invitation from the Headmaster of Scotch College, Swanbourne, Perth, Western Australia, to send a party of boys to view the VII Empire Games which were to be held at Perth from 22nd November to 1st December, 1962. The invitation offered to billet the party at Scotch College and to provide any service which the party might require during its stay.

The party which was subsequently chosen to proceed to the Games comprised twenty-five boys from the II to VI Forms, together with Mr. J. H. Moore. The party travelled by rail both ways except between Perth and Adelaide on the return journey, when we flew by T.A.A.

The trip across to Perth was interesting and some notion of the welcome that awaited us may be gained from our being met on the Nullarbor by two representatives of the West Australian Government who brought to each boy a personal letter of welcome from the Lord Mayor of Perth, and also a special visitor's badge.

Desert winds delayed our arrival in Perth and we were forced to proceed direct to the Games Opening Ceremony. The boys were in uniform and sat for three hours in the open sun, and with the heat rising off the concrete of the Stadium, the Stadium temperature reached 134 degrees. However, upon leaving the impressive ceremony, they were approached by a Dr. Williamson, an Old Boy of about 1938, whose unconcealed joy at seeing the school colours so far afield, afforded them adequate recompense. This is the only incident involving the School uniform that I will mention, but we found

that no matter where or when it was worn, it attracted not only genuine enquiry and comment from the local people, but also very real joy from Old Boys who saw it. The uniform is a firm link between present and Old Boys, and it was abundantly clear throughout the tour that this School has much to be thankful for in the efforts of those who so assiduously strive to protect its uniform and maintain it.

The next 12 days were spent enjoying the truly memorable welcome which Perth gave us. Nothing was left undone to make our stay a wonderful one. The Press and T.V. welcomed us; the radio stations played 'pop' tunes for 'the Sydney Grammar boys staying at Scotch College'; the Transport Department re-routed buses to pass Scotch College if we required them; the Yellow Cab Company gave concession fares whenever we ordered five taxis; the firm of S. T. Brading Pty. Ltd. made a magnificent cruiser available to us for cruising on the Swan River; Western Command, by a special invitation, permitted us to attend the presentation by the Duke of Edinburgh of Queen's and Regimental Colours to the Royal Western Australian Regiment; the Deputy Mayor of Fremantle visited us at Scotch and distributed educational information about Fremantle and invited us to visit the town; eight invitations to parties were received, of which time permitted only two acceptances, whilst the citizens of Perth took boys into their homes and on car tours, and assisted in every possible way. We had not seen hospitality like it.

We were kept exceedingly though enjoyably busy, for we had a daily swim or some sport, attended all the athletics of the Games together with one session each of boxing, wrestling, cycling and rowing; went cruising on the Swan; visited Rottnest Island for two days; went to the city up to eight times; attended private outings and parties; and these are not to mention the chores which had to be done at the College.

We stayed at Scotch College, Swanbourne, which is about eight miles out of Perth. The hospitality of this College towards us can be neither too sincerely nor too highly praised. The two dormitories given to us were the best in the College (even equipped with inner spring mattresses); the food was plentiful and enjoyable and included such dishes as roast chicken, roast pork, ice cream and fruit salad — all of which could be had in multiple helpings. The College had installed T.V. for the boys and the College Council was prepared to

send us on motor tours if we had not had such a full programme. And yet for the 12 days of this wonderful service we paid a very small sum indeed — a sum which was a mere token.

Towards the end of our stay at Scotch, we established a link between the two Schools by presenting to the College a Shield for the Champion House in Cross-Country running. It was an impressive shield, with the Grammar Coat of Arms upon it and is so constructed as to list the Champion House for 20 years. It is hoped that in 1982 it will be possible to arrange its renewal. The Headmaster, Dr. Keys, accepted it on behalf of the College and he spoke very highly of Sydney Grammar's reputation throughout the country. It was therefore so distressing to us when half an hour later, after the presentation was made, Dr. Keys collapsed and after his admission to hospital, developed pneumonia and pleurisy. He was not expected to return to duties until the second term this year.

I felt that one of the aims of the trip should be to meet as many of the W.A. Old Boys as possible, for our presence in Perth was a unique one. The occasion for this was provided when the N.S.W. G.P.S. Old Boys' Association of W.A. held a reunion at the Military Club to which I was invited. They always meet on G.P.S. and Regatta Days to celebrate with their colleagues of the winning School. However, at the reunion about fifty G.P.S. men were present including some from Grammar. Our Old Boys over there are not numerous and many of them are in the country areas, whilst others are advanced in years. For example, our Old Boy contact in Perth, Mr. Brian Hughes (1933-37), had an offer to help defray the expense of any function which the Old Boys might arrange for us, from Mr. Heddemann who left Grammar in 1896. I therefore with four senior boys, visited him one afternoon, for though he was the Australasian Tennis Doubles Champion of 1911, he is now rather aged. We told him about the Grammar of 1962 and he reciprocated with a lucid account of the School of Weigall's time, and also of his days on the W.A. goldfields before the turn of the century. Coloured slides of the School had been made including some showing the new Big School windows, and one of Messrs. Taylor and Lenthall, and Sergeant Wells. These we showed to him and to other Old Boys and he was pleased by our visit. Before we left, we presented him with two glasses on which were engraved the School's crest.

There can be no doubt that the boys on the tour had a great time. They were most interested in all that they saw, and by meeting so

many Old Boys in such distant places they seemed to be most impressed by the universality of their School.

The tour seems to have brought credit on the School for Mr. Healey received some pleasant letters both from the West and also from grateful parents here in Sydney. Many of our parents wrote to Scotch College to thank them, and letters of thanks have also been sent to Dr. Keys, his Senior Housemaster, Chaplain and Bursar; to S. T. Brading Pty. Ltd. for their kindness in lending the cruiser and crew, and to Mr. Brian Hughes for his extensive and much appreciated help.

It is to be hoped that a special affinity will develop between Scotch College, Perth, and our School, for had it not been for the thoughtfulness of Dr. Keys and the College Council, this interesting, memorable and most enjoyable tour would not have eventuated.

Boys who Attended

D. B. Stewart-Richardson, J. C. Service, R. G. Colvin, P. C. Schmidt, P. C. Howard, S. J. R. Murray, H. N. Stockwell, H. N. Tanner, D. O. Keith, J. C. Lomas, P. D. Barron, P. H. Adelstein, T. F. Ross, P. R. Smith, J. A. Schmidt, P. G. Martin, J. M. A. Tait, R. F. Chadwick, D. A. Ross, P. G. Mountford, P. J. Martin, G. Smith, A. Hyde-Page, B. S. Aiken, D. H. Young.

J.H.M.

THE CADET CORPS

The Cadet Corps is enjoying a pleasant year with the added vitality provided by our new Adjutant, Captain D. Green, Quartermaster, Lieutenant R. Steanes and Group Commander of A and B Companies Lieutenant P. Groves. We farewell Captain R. G. Adcock from the Corps (and the School staff), and also Captain D. E. Lloyd, and thank them for their help, particularly Captain Adcock for his most effective training programmes last year.

The Ceremonial Parade was held on 29th October at Weigall and the Corps was inspected by the Minister for the Army, the Hon. J. O. Cramer M.P. Cadet Under Officers were presented with their Certificates of Appointment, and in addition the following presentations were made: Cpl. R. A. Hall, 4 Sec. 5 Pl., the Mitchell Trophy for the best L.M.G. Section; CUO P. W. Glasson, 2 Pl. A Coy., the Walcott Cup for the best Platoon in A and B Companies; Drum Major I. G. S. Blair, the Morgan Shield for the best

Platoon in Support and Headquarter Companies; Cadet B. M. Lukin, the Fussell Cup for the most improved cadet in Headquarter and Support Companies; CUO T. C. Healey, the H. A. Henry Sword of Honour.

Junior Leaders' Courses were held during December and the high standard of the Corps is indicated by the places gained by Grammar cadets. For the second year in succession we gained first place in both the Potential Under Officers' Course and Senior NCO's course at Singleton; Sgt. W. G. S. Boyd was placed first in the overall results of the Under Officers' Course, an achievement which enabled him to be selected to break the Queen's Standard in Hyde Park at the beginning of the Royal visit. Cpl. N. Dettmann was placed first in the Senior NCO's Course.

In addition to this, a most successful Junior NCO's course was held at Weigall during December by the School Corps, with the aid of WOII Galloway and of Capt. Boyce from S.U.R.

The following promotions and appointments at the beginning of the year were: Senior Under Officer CUO J. J. Barkell (OC A Coy); Coy. Comds.: CUOs G. R. Bushby (B), M. B. Dally (H.Q.), P. M. Thompson (Sp.); CUOs: WOI P. R. Smith, Sgts. P. W. Austin, W. G. S. Boyd, W. L. Gengos, S. H. Scarlett, P. C. Taylor, Cpls. R. H. Barry, R. E. Cooper, A. B. Tall, A. J. Wilson. WOI (R.S.M.): Cpl. D. H. Louden. WOIIS: Cpl. R. Heyde (R.Q.M.S.). N. Dettmann (O.C. Int-Med.), Sgt. C. D. Clark, Cpls. K. Askew, R. I. Bacon, A. B. Evans. Drum Major: L/Cpl. C. Rooke. Sgts.: Cpls. R. A. Hall, K. D. Wilhelm, G. Sved, R. N. England, R. Danos, G. Fisher, R. Baxter. L/Cpls. G. C. Wilson, H. Reid, J. G. Hedberg, J. Schmidt, H. N. Stockwell, N. S. Vida, P. A. Barry, T. Wimmer, S. R. McClelland. Cpl.: L/Cpls. A. J. Lowndes, J. A. McCausland, R. L. Dibbs, W. Boag, Cadets R. E. Bevan, A. P. Read, J. E. N. Rolfe, R. C. Dilger, P. A. Bushby, M. J. Perry, J. R. Lamplough, P. J. Caisley, J. M. Glasson, R. N. Cartwright, S. J. Gracie, D. A. Stewart, J. H. Wade, E. Wajnryb, M. L. Cohen, R. L. Tindall, A. A. S. Thurlow, I. E. Ballard, A. G. Blaxland, D. R. Pritchett, G. I. Smith, J. S. D. Oughton. L/Cpl.: Cadets J. R. Jameson, J. E. Finkelsen, A. S. Foley, P. Johnson, R. B. Badgery, S. T. Schilizzi, W. R. Andison, A. R. Macdonald, C. A. Trimble, J. G. Keeler, P. L. Blake, P. D. Jarman, R. D. Clarke, D. L. Rail, D. H. Sonnabend, R. L. Smallwood, P. H. Freeman, C. A. R. Mills, C. J. Dunston.

J.J.B.

R.A.N.R. CADETS

Our instructor this year is Chief Petty Officer Wright, who has been most helpful by giving us lectures on naval life. The R.A.N.R. cadets number twenty-six, with nineteen first year cadets and seven second year cadets.

The first parade consisted of drill at H.M.A.S. Rushcutter, followed by a medical inspection on the following Monday. The next two parade days were spent on kitting-up at H.M.A.S. Kuttabul.

Training on rigging, etc. has been delayed because of repairs being done to the whalers, but an interesting winter term is anticipated.

P.C.H.

FIRST ELEVEN, 1962 — G.P.S. CHAMPIONS

Standing: R. C. STEVENS, D. A. HUNT, P. C. ELLIS, B. M. KINSEY, D. R. PARKER, I. G. ROBERTSON
P. G. YOUNG Esq. *Seated:* J. B. KENNY, D. W. HORSFIELD (*Vice-Captain*), R. H. STOREY (*Captain*),
T. E. McCURDIE, H. D. MUNRO.

CRICKET

THIRD TERM, 1962

FIRST ELEVEN

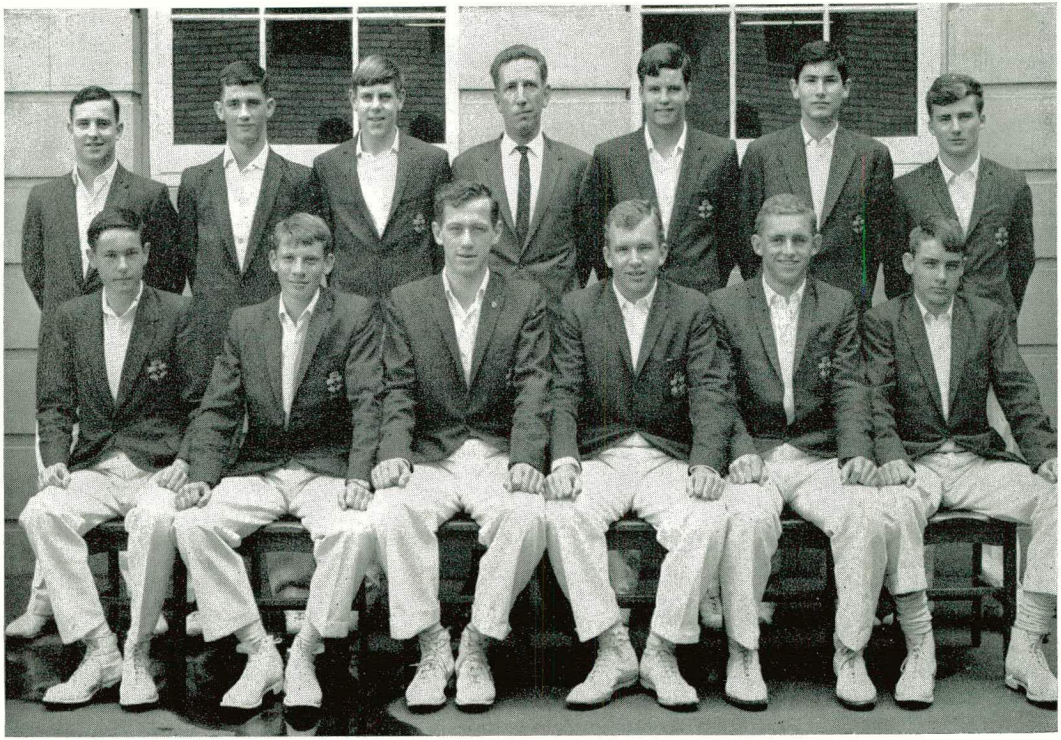

The 1962 Eleven completed the year winning all matches and were thus the first team to be styled G.P.S. Champions, as distinct from Premiers, since the Scots' Eleven of 1957. This performance coupled with an innings victory over Melbourne Grammar School earlier in the year, was one of unusual merit. It was all the more commendable because the team had at least two deficiencies — no effective opening batting pair until Third Term and no consistent spin bowler.

A long batting list, much excellent catching and Kenny's bowling proved to be foundations adequate for the tests of Third Term cricket, as they had been in the First Term. Batting depth rescued the St. Joseph's match, as it had rescued the Melbourne match. At second slip, Hunt took seventeen catches in seven matches; this performance has undoubtedly influenced those who have since stood in our slips and gullies. Kenny's 67 wickets in one year of G.P.S. Cricket are said to be a record.

Centuries are always notable, however dissimilar. McCurdie took five hours against St. Joseph's and almost certainly saved that decisive game. At Scots', Storey took two hours to score a century, which was only one of a number of picturesque innings during the term.

Storey (Vice-Captain), Kenny and McCurdie played in the G.P.S. First Eleven and were awarded Honour badges. Munro, Kinsey and Stevens played in the G.P.S. Seconds.

P.G.Y.

SECOND XI, 1962

FIRST ELEVEN COMPETITION MATCHES

Third Term 1962

v. I. ZINGARI at Weigall, 29th September.
S.G.S.5/176 (Ellis 56, McCurdie 27, Robertson 26)
defeated I. ZINGARI 156 (Kenny 6-57; Kinsey 2-35)

v. T.S.C.O.B.C.C. at Weigall, 1st October.
S.G.S. 5/209 (Ellis 25; Storey 52; Stevens 63)
drew with T.S.C.O.B.C.C. 9/167 (Kenny 5-67; Storey 3-58).

v. OLD SYDNEIANS' CRICKET CLUB.
S.G.S. 8/193 closed (Storey 87; Blair 42; Horsfield 26)
defeated O.S.C.C. 121 (McCurdie 3-29; Storey 2-6; Kenny 2-35).

COMPETITION MATCHES

v. ST. JOSEPH'S at Weigall, 20-27 October.

Grammar won on the 1st innings.

Play began on time despite the damp condition of the wicket. St. Joseph's won the toss and sent Grammar in to bat. Grammar lost two early wickets but a sound partnership between McCurdie and

M.G.S. AND S.G.S. FIRST ELEVENS, EASTER, 1963

Back Row: P. MAYO (S), R. SEWELL (M), A. TERREY (S), R. MILLER (M), R. CARTWRIGHT (S), P. SMITH (M), P. TERREY (S), B. DREDGE (M). *Standing:* A. R. TWIGG, Esq. (M), M. JACKSON (M), J. LOMAS (S), D. BEER (M), B. McGILVRAY (S), D. HONE (M), M. DE SAXE (S), R. GUY (M), R. JAMES (S), D. FITTS (M), J. ELMGREEN (S), P. G. YOUNG, Esq. (S). *Seated:* T. KNOTT (M), J. CARTWRIGHT (S), I. SMITH (M. V. Capt.), J. KENNY (S. Capt.), P. RHODEN (M. Capt.), I. ROBERTSON (S), P. COUSENS (M), D. ARNOTT (S).

Storey retrieved the position before Storey was dismissed for 25. Munro was run out before scoring, Grammar once again being in trouble with the total standing at 4-57. However it was at this stage that the depth of the Grammar batting was demonstrated. Throughout the season the side had been saved on numerous occasions by the depth of its batting and in this match, which was to decide the competition, Stevens at number 6 scored 40 and Ellis at number 7 scored 52. While the Grammar side's fortunes had been fluctuating, McCurdie who opened the innings, was the backbone of the batting and displayed great powers of concentration, determination and patience in an innings which lasted 340 minutes and produced 115 runs. Truly a match-winning effort.

The St. Joseph's batting, which had been its strong point throughout the season, collapsed under the pressure of accurate team bowling from Kinsey and Kenny. St. Joseph's were dismissed for 112, Kinsey claiming 4-46 and Kenny 4-62. The Grammar fielding in this innings reached a peak which would not often be exceeded by a schoolboy side.

St. Joseph's were forced to follow on and fared much better on this occasion, realising 9-242. Boyd, a St. Joseph's batsman who had scored heavily during many years in his School's 1st XI, made his first score against Grammar in this innings, which was not to affect the outcome of the match. Munro claimed 4-56 and Kenny 3-77 in perfect batting conditions. Munro bowled with considerable fire and had most batsmen in trouble.

v. SCOTS at Bellevue Hill, 3-10 November.

Grammar won on the 1st innings.

Scots won the toss and chose to bat. The Grammar bowlers opened with only mediocre success, the Scots total at one stage being 3-105. However they were bundled out shortly after lunch for 142, Kenny taking 7-77 and Munro 2-34. Grammar replied with some attacking stroke play, Storey batting with composure executing punishing

cuts and pulls mixed with a wonderful exhibition of controlled driving which brought him 100 runs. He was aided by Munro who scored 28 and McCurdie who made 23. Hunt batted extremely well to score a neatly compiled 43 not out.

Under conditions which gave no assistance to bowlers Scots scored 6-221 when they declared, leaving Grammar 122 runs to score in 40 minutes. Grammar accepted the challenge finishing at 3-79 with Munro having scored 46 in 35 minutes.

v. ST. IGNATIUS at Riverview.

Grammar won outright.

St. Ignatius won the toss and decided to bat but they had little success. Their innings finished with the total standing at 43. Kinsey took 5-19 and Kenny 5-21 while Hunt in the slips held two superb diving catches.

The Grammar innings got off to a good start McCurdie and Robertson sharing in an opening stand of 36. Horsfield then added 20 to the total and Storey, in fine form with the bat, made 65 using a wide range of strokes. The innings finished with the total at 179.

Riverview were forced to follow on and fared much better, totalling 157. Kenny taking 7-63 and Munro 2-46. The fielding once again was of the highest standard and special mention must be made of Hunt whose slips fielding was an inspiration to the bowlers throughout the season.

Grammar needed 16 runs to complete the outright victory and they were obtained by Munro and Storey without the loss of a wicket.

2ND XI
3RD TERM, 1962

The 2nd XI completed a very enjoyable and successful season by being runners-up in its competition. It played keen, lively cricket except in the match against St. Joseph's who became premiers for the year.

The batting was generally sound. Blair continued to show excellent form; Cartwright and James were unlucky to miss centuries. Arnott ran well into form in mid-term and the other batsmen, Hindmarsh, Anderson, Dezarnaulds and Mayo gave valuable support. The batting disappointment of the year was against St. Joseph's where only a vigorous last wicket partnership between Hindmarsh (46) and Strath raised the score to respectable proportions.

As in First Term, the most successful bowler was Strath, whose tally of 23 wickets at 9 runs each was well earned. McMillan and Sare also bowled well at times.

The ground fielding and catching were on the whole reliable, at times excellent, and the team was at all times well led by Dezarnaulds (who also achieved the notable figures of 1 over, 3 wickets for 2 runs in his last bowling effort of the year!).

Team:—P. D. Dezarnaulds (Captain), R. W. Hindmarsh (Vice-Captain), J. A. Anderson, D. R. Arnott, I. G. Blair, J. F. Cartwright, R. F. James, D. B. McMillan, P. J. Mayo, W. H. Sare, H. G. Strath.

The following also played:— M. A. de Saxe, P. R. Terrey.

Results

v. S.J.C. (at Hunter's Hill)
Result:— S.J.C. won on the 1st innings by 52 runs.
Scores:— S.J.C. 1st Innings — 138 (McMillan 4-29, Strath 3-31).
S.J.C. 2nd Innings — 4-123.
S.G.S. 1st Innings — 86 (Hindmarsh 48).

v. T.S.C. (at Weigall).
Result:— S.G.S. won outright by 9 wickets.
Scores:— T.S.C. 1st Innings — 127 (McMillan 3-29, Strath 3-30).
T.S.C. 2nd Innings — 117 (Strath 7-35, McMillan 3-47).
S.G.S. 1st Innings — 8-186 declared (Blair 60, Arnott 47, Cartwright 21).
S.G.S. 2nd Innings — 1-59 (Arnott 40 not out).

v. S.I.C. (at Weigall).
Result:— S.G.S. won on the 1st Innings by 4 wickets.
Scores:—S.I.C. 1st Innings — 186 (Strath 6-70, McMillan 3-58).
S.I.C. 2nd Innings — 132 (Strath 4-44, Sare 3-21).
S.G.S. 1st Innings — 6-190 declared (Cartwright 98, Anderson 36).

Other Games

v. CRANBROOK (at Rose Bay)
Result:— S.G.S. won on the 1st Innings by 105 runs.
Scores:— S.G.S. 1st Innings — 4-178 declared (Cartwright 68, Anderson 45, Arnott 32 not out).
CRANBROOK 1st Innings — 73 (Dezarnaulds 3-2, de Saxe 4-21).

v. TRINITY (at Weigall).
Result: —Match drawn.
Scores:— S.G.S. 1st Innings — 5-174 declared (James 93, Blair 42).
TRINITY 1st Innings — 2-24.

THIRD XI

S.G.S. 163 (McGilvray 56, Evans 51) and 1-17 d. S.J.C. 80 (Mockbell 6-36, Murray 4-21) and 97 (McGilvray 3-41, Murray 3-29).

S.G.S. 183 (Lomas 53, McGilvray 38) drew with Scots 2-1.

S.G.S. 183 (Lomas 46, McGilvray 28) d. S.I.C. 71 (McGilvray 5-30) and 3-57.

S.G.S. 203 (Frumar 58, Warman 42) d. Cranbrook 93.

S.G.S. 180 (Blair 69, Dettmann 31, Warman 28 n.o.) drew with Trinity 4-35.

COLTS A ELEVEN

With convincing wins at the end of the season, the Colts A team proved itself one of the most successful XI's in recent years. Many boys, gaining confidence as the season proceeded, began to show above average ability, and it is not surprising that so many found their way directly to the 1st XI in 1963. Jim Tait led the team with great energy and good discipline, as well as proving to be the most successful batsman; John Elmgreen, with a match-winning 70 against Riverview, justified our high opinion of his batting, and so established a claim to higher things. Mick de Saxe as both batsman and bowler, performed splendidly, and was well supported by Geoff Wirrell. Alan Terrey, a leg-spinner, always secured wickets, and deserved his promotion to the 1st XI this year. Younger players proved successful, especially opening batsmen Graham Smith and Robert Barnes from Under 14A XI. In all, an excellent team, with many boys of great promise, and all members keen to improve their game.

OTHER TEAMS

In a part of the season which thins out under other pressures, the 4th XI reported a couple of wins and good performances by players who began the year in lower teams. Colts B tended to be held to drawn games but Mr. Carbines reported this as a team of workers, the most successful of whom were D. Stewart, K. Ward, S. Schilizzi, A. Shaw, D. Rail and P. Lennox. For Colts C there was a win against St. Joseph's, of which the scores tell the interesting story: S.G.S. 83 and 252; S.J.C. 199 and 101. Rail and Lennox made performances which earned them promotion as shown above. Of the junior teams the most successful was Under 13C, who won their three G.P.S. matches by long margins — and then lost to Cranbrook, 44 runs to 49.

FIRST TERM, 1963

FIRST ELEVEN

At the end of Round 4 of the 1963 Competition, the G.P.S. table runs as follows:—

	WO	WI	D	LI	LO	TOTAL
Grammar	1	2	1	—	—	27
High	—	3	1	—	—	24
Shore	1	—	3	—	—	19
Newington	1	—	1	2	—	15
Riverview	—	1	2	1	—	14

Nine of the regular players are new to First Eleven cricket, although a few of them have had a year's valuable experience of competitive cricket in the Second Eleven. Of the others, two come from last year's Thirds and three from last year's Under 15A's. All have brought valuable skills and have worked hard to improve their play under the inspiring leadership of John Kenny, who has been a coach as well as a captain. Kenny and de Saxe have bowled superbly together, with very good, and sometimes sparkling, fielding support. The batsmen are so far undistinguished and have reached 200 only once, but there is a long line of them and most opponents have been frustrated by resistance, as unexpected aggression, somewhere along this line. We look forward to the match against the High School Eleven, close behind in second place, on 19th and 26th October at Centennial Park.

P.G.Y.

PRACTICE MATCHES

v. O.S.C.C. at Weigall, 2nd February.
S.G.S. 8-192 (Lomas 53, Robertson 34, De Saxe 31, not out) defeated O.S.C.C. 141 (Terrey 6-35, Kenny 3-23).

v. I. ZINGARI at Weigall, 9th February.
I. ZINGARI 8-161 (Kenny 4-15, Terrey 2-54) drew with S.G.S. 8-138 (Cartwright 32, Robertson 47).

v. OLD SYDNEIANS at Weigall, 20th February.
OLD SYDNEIANS 9-171 (Barkell 2-18, De Saxe 2-39, Kenny 2-59) defeated S.G.S. 123 (Kenny 24, Lomas 22, De Saxe 22, not out).

COMPETITION MATCHES

v. SCOTS' at Weigall, 16-23 February.

Grammar won on 1st innings by 38 runs.

Scots won the toss and sent Grammar in on a rain affected wicket. The damp conditions proved too difficult for the Grammar batsmen to handle, only Arnott 34, Mayo 31 not out and James 23 offering any resistance. The Grammar innings ended at 1.45 p.m. with the total standing at only 98.

With the wicket still slightly damp, Grammar's opening attack quickly penetrated the Scots' batsmen. Kenny took 7-44 and De Saxe 3-15, the Scots innings having produced only 60 runs. Arnott and James held two fine catches each, while the Grammar fielding generally was of the highest standard.

Grammar's second innings commenced at 4.23 and after an opening stand of 28, to which Cartwright contributed 21, the middle of the batting failed. De Saxe scored 30 not out, James 28 and Kenny 24 in an innings which realised 164. Scots were set 203 runs in 197 minutes but the challenge was not taken. Play drew slowly to an end with the Grammar bowlers unable to penetrate the Scots batsmen on an easy Weigall wicket. De Saxe bowled very well taking 2-31 while Terrey captured 2-47.

v. ST. JOSEPH'S at Hunters Hill, 2-9 March.

Grammar won outright by 3 wickets.

Grammar won the toss and decided to bowl on yet another damp wicket after play had been held up for an hour. St. Joseph's collapsed early, at one stage finding themselves 6-47, but recovered

using sensible tactics on the difficult wicket. Kenny took 7-60 and De Saxe 2-61. Once again sound fielding had supported the bowlers, Elmgreen and McGilvray both taking fine catches in slips. St. Joseph's totalled 138.

Grammar's innings commenced at 3.41 and wickets immediately began to fall. At the end of the first day the match was still wide open, the score standing at 4-66 after a light appeal had been upheld at 5.0 p.m. Kenny had scored 26 and when play commenced on the second day, once again an hour late because of rain, Arnott and McGilvray resumed the innings but they along with James were dismissed in the mid 20's. The Grammar innings had realised only 125, 14 runs short of the objective.

With nothing to lose, the Grammar bowlers threw everything they had into the attack. Kenny and De Saxe took only fifteen overs to dismiss the St. Joseph's side for 59 runs; the innings taking 69 minutes. The keeping of Mayo and the fielding had been superb. De Saxe took 5-41 and Kenny 4-18. The bowling of De Saxe in this innings was of the highest standard, his bowling having developed extremely well in the few matches played during first term.

The St. Joseph's total was not passed without difficulty, our winning score being 7-74 with Cartwright on 13 hitting the winning runs.

v. SHORE at Northbridge, 16-23 March.
Match drawn.

Owing to Sydney's 'Big Wet' the match was abandoned without a ball being bowled.

v. SHORE — *Washed out.*

v. NEWINGTON at Weigall, 30th March and 6th April.
Grammar won on 1st innings by 137 runs.

Grammar won the toss and elected to bat on a rain affected wicket, play not getting under way until 1.48 p.m. The Grammar openers overcame a difficult period, putting on 25 runs for the opening stand until Lomas was dismissed after 46 valuable minutes at the crease. McGilvray batted patiently, scoring 50 runs in 150 minutes against a strong attack. Robertson scored 28 while Cartwright made 60 runs in 78 minutes in a fine knock which included eight boundaries. The Grammar innings realised 200, which was the first time a G.P.S.

side had totalled 200 in a competition during 1963 — some indication of the number of rain-affected wickets which had been played upon, much to the batsmen's disappointment.

The Newington innings began at 11.07 a.m. and started soundly, the opening partnership registering 29 runs. However, having obtained the break through, Kenny and De Saxe maintained the pressure and dismissed the opposition on a good batting wicket for 73. Once again the fielding, particularly behind the wicket, was of a high standard.

Newington followed on and was left 160 minutes in which to bat, during which period 6 wickets fell for 99 runs. Kenny took 3 for 19 and De Saxe 2 for 18. In the second innings the wicket had given no assistance to the bowlers at all.

v. MELBOURNE GRAMMAR SCHOOL in Melbourne on 11th and 13th April.

Melbourne Grammar won on 1st innings by 146 runs.

Sydney Grammar won the toss on what was a good batsman's wicket, but the pace much faster than the normal Sydney wicket. Robertson handled the conditions extremely well along with Lomas and De Saxe. Robertson's 60 took 100 minutes and included seven fours and one five — a fine innings for a player who had experienced an unlucky run of outs. The innings finished at 1.52 p.m. having produced only 141.

After early success the Sydney Grammar bowlers were unable to penetrate the stubborn Melbourne batsmen, two of whom were dismissed within one shot's reach of their century. On a day when centuries proved most elusive De Saxe captured 4-94 and Kenny 4-97. M.G.S. closed at 9-287.

In Sydney's second innings only Robertson 32, Lomas 19 and Cartwright 16 proved themselves equal to the conditions. An appeal against the light was upheld at 4.58 with the score at 7-81. Play was resumed, owing to a surprising burst of sunlight at 5.08. Play ended with Elmgreen and Terrey defending grimly, the score being 9 for 90 and only one wicket standing between Melbourne Grammar and outright victory.

THE TRIP SOUTH

The plane left the ground smoothly, leaving behind Sydney and many stomachs. After a pleasant and rapid journey, we descended from above the clouds into a rather dismal day at Melbourne and in spite of the fears of a certain member of the team, made a safe landing at Essendon Airport.

After a short practice at Melbourne Grammar's Oval, the members of the team were met and escorted home by their hosts. With Wednesday night's activities being unrestricted by formal arrangements, the teams activities were varied, the main items of interest being a chess match, which Grammar forfeited and a billiards match at which the more experienced Sydney players prevailed.

Because of Good Friday the city was extremely quiet but in spite of this everyone had a good day and one to be remembered by the citizens of Geelong and Melbourne alike.

After Saturday's cricket there was another party in the gymnasium of the school. This was a very good dance in which we really got to know everyone. Indeed the friendship was by this time very close and it will not be forgotten by us for a long time.

On Sunday an enjoyable barbecue was attended at Mornington and our Melbourne hosts showed us a few Australian Rules tricks. However we all still preferred Rugby.

Peter Mayo will be remembered for a scorching round of golf at a local course, and a few others managed to fit in a game also, although unfortunately we were not able to be present and learn from Mr. Mayo. Bowling was also popular on Monday. On Monday night there was a small party and this was a terrific climax to a wonderful trip.

The take-off from Essendon Tuesday morning left many good friends behind, though we brought away many fond memories of an exciting trip and we thank Mr. Young and our Melbourne hosts for making it possible. J.F.C.

2ND ELEVEN

Despite a match and practice programme badly interrupted by the weather, the 2nd XI has had a successful term's cricket and, after the fourth round, is leading in its competition jointly with King's. The results have been two first-innings wins against Scots and St.

Joseph's, followed by an outright win against Newington. No play was possible against Shore.

The batting has shown great promise. Smith and Barnes are developing into competent opening batsmen, Thompson and Bushby have played several good aggressive innings in the middle of the order. McGilvray was promoted to the 1st XI after an excellent start to the season, and Tait, Terrey, Sare and Murray have all batted well at times. The art of concentration still has to be learnt in some cases, and running between the wickets has been uncertain. But several have shown that, with the added confidence that firmer wickets in third term should bring, they are capable now of high individual scoring.

Strath has taken the bowling honours of the term with many good performances, the best of which was 6 for 7 against Newington. Barkell, Sare, Wilson and Terrey have bowled well in support. The out-cricket has been good, much of this being due to the captain, Thompson, who has shown excellent control and judgment in his field placing and handling of the attack.

The following have played:— P. M. Thompson, (Captain); G. R. Bushby (Vice-Captain); J. J. Barkell, R. C. Barnes, B. T. McGilvray, J. N. Maltby, S. J. Murray, W. H. Sare, H. G. Strath, J. R. Tait, P. R. Terrey, G. J. Wilson.

K.B.P.

Results

v. T.S.C. (at Bellevue Hill).
Result: S.G.S. won on the 1st Innings by 76 runs.
Scores S.G.S. 1st Innings — 234 (McGilvray 61, Smith 49, Barnes 33, Terrey 29, Bushby 20).
S.G.S. 2nd Innings — 3-85 (Smith 35 not out, Barnes 32).
T.S.C. 1st Innings - 158 (Sare 4-42).

v. S.J.C. (at Weigall).
Result: S.G.S. won on the 1st Innings by 2 wickets.
Scores: S.J.S. 1st Innings — 119 (Strath 6-44, Barkell 3-41).
S.G.S. 1st Innings — 8-120 (Barnes 42, Thompson 39, Tait 23).

v. S.C.E.G.S. (at Weigall).
No play because of rain.

v. N.C. (at Stanmore).
Result: S.G.S. won outright by 76 runs.
Scores: S.G.S. 1st Innings — 99 (Thompson 31, Bushby 26, Smith 20).
S.G.S. 2nd Innings — 8-89 declared (Thompson 20).
N.C. 1st Innings — 26 (Strath 6-7).
N.C. 2nd Innings — 84 (Wilson 5-16, Sare 3-24).

Other Games

v. O.S.U. 2nd XI (at Weigall).
Result: O.S.U. won outright by 3 wickets.
Scores: S.G.S. 1st Innings — 125 (Bushby 50).
S.G.S. 2nd Innings — 1-78 declared (McGilvray 38 not out, Barnes 29 not out).
O.S.U. 1st Innings — 97 (Strath 5-29, McGilvray 4-26).
O.S.U. 2nd Innings — 6-121.

THIRD ELEVEN

Matches have resulted as follows:

S.G.S. 6-135 (Cooper 36 ret.) d. Old Boys 119.

S.G.S. 104 (Warman 35 n.o., Bancroft 26) d. T.S.C. 88 (Wirrell 4-21, Wilson 3-26).

S.G.S. 5-237 (Warman 70 n.o., Evans 69, Barry 26 n.o.) and 5-67 dec. (Wirrell 39) d. S.J.C. 142 (Hardy 3-30) and 92 (Wirrell 3-13, Dettmann 3-15).

S.G.S. 65 lost to N.C. 90 (Maltby 3-18, Warman 3-19).

The 1962 team, captained by Bushby, continued to show strong batting form, and finished the year unbeaten. Best batting per formances this year have come from Warman and Evans; the bowling honours have been shared between Wirrell, Wilson and Warman, with good support from others.

UPPER SCHOOL

The keen 4th XI also had a run of success, as follows:

S.G.S. 6-121 (Caisley 46) d. T.S.C. 8-86. Time match.

S.G.S. 201 (Ward 64, Stewart 42) d. S.J.C. 97 (Shaw 6-35 including hat trick) and 60 (Lennox 5-21, Stewart 4-20).

S.G.S. 7-97 (Shaw 23, Keeler 20) d. N.C. 57 (Lennox 7-21).

D. Stewart's captaincy is specially commended.

The 5th XI managed two one-day matches in intervals of rain. The fast bowlers dismissed St. Joseph's twice to aid an outright win there. A stubborn match against Shore was won in the last over. P. Jennings and T. Ross are mentioned for consistent batting. Captain, J. Rolfe.

6th XI played one match, Shore being the welcome opponents. Result: Shore 107 (Lee 3-5 from one over); Grammar 104 (Bushby 22, Freeman 21). R. Lee was the active captain.

MIDDLE SCHOOL

For Colts A, due to an extraordinary spell of wet weather, only three days of competitive cricket proved possible, and practices were severely curtailed. However, three decisive 1st innings wins were recorded on those days. R. Chadwick, with 18 wickets in three innings, was a devastating force in these games, and P. Anderson, who captained the team splendidly, managed to secure most runs. R. Harris shows great promise as a slow bowler, and all batsmen, while lacking necessary preparation, show promise of good things to come. Three first innings wins were gained.

P. Anderson (Capt.), P. Creagh, J. White, J. Gilchrist, D. Ross, R. Chadwick, G. Hindle, C. Blair, J. Peterson, R. Harris, G. Sheidow, T. Gregory.

Colts B won 2 and lost one, names of chief mention being Pollitt, Sheidow and Martin (bowling) and Higgins and Gregory (batting). Mr. J. Flecker is the current coach.

Of 14A, Mr. Malcolm Ives reports drawn matches with Scots and Newington and a loss to St. Joseph's. Improvements made during the season, however, augur well for future results, the bowling gaining aggression and the fielding in safeness. Players were: P. Marich (Captain), R. Allsop, D. Barnes, G. Bray, R. Cox, K. Gardener, P. Gulley, G. Hookham, I. Indyk, A. Maver, P. Murphy, A. Robertson, I. Wynn.

14B scored three wins. Coach: Mr. J. D. Leslie; captain, C. Barrack. Other names in the record are A. Freeman and one or two who went to the A's.

14C had two losses and the captain names bad fielding as the culprit — a sound mention. Good mentions are of Halliday, Berry and Rikard-Bell.

LOWER SCHOOL

13A played three drawn matches, another comment on the wet season, in which even the Tudor House engagement was not respected. Players were: R. Gillespie (Capt.), C. Beelaerts, G. Drake, F. Farrar, D. Freeman, A. Kent, A. Manzie, G. Pike, (4-6 against Scots), R. Scott, N. Bill, C. Nielsen.

13B played two losses and a draw; 13C, 2 losses and a win; 13D defeated Scots (Yeomans 26; Downs 5-8, McKenzie 3-1, Morris 2-5.)

RIFLE CLUB

During the absence of Mr. A. J. Hill from the school during the first and second terms of 1963 we are fortunate to have, as the Head of the Club, Mr. J. Birch who will be assisted by a new member of the school staff, Mr. H. Greenwood.

The club officials were elected early in the year: Captain, K. Askew; Vice-captain, W. Higginbottom, Treasurer, R. Melrose. Committeemen: R. Smallwood and J. Weihen.

Over one hundred new members, from the second form to the sixth form have enrolled in the club. They started miniature shooting very early in the term, once again on our old .22 range at school. Some promising shots have already been noticed among the new members.

It is hoped that once again the club will have a successful year.

K.A.

ATHLETICS STANDARDS

This term's Standards Competition was unfortunately marred by the long spell of bad weather. Out of the eleven events which had been scheduled, four, the 220 yds, 880 yds., cross-country and broad-jump had to be abandoned, while two, the hurdles and shot putt, were run under very bad conditions. Only one afternoon was available for the Lower School Competition, and this again was interrupted by rain, with the result that only three events, the 50 yds., 100 yds., and 220 yds., could be run.

The necessity to leave the competition incomplete was most unfortunate, as it is the only reliable early guide we have to the athletics team for later in the year, especially in the lower age groups. At this stage Grammar finds itself in the rather unenviable position of having some very strong age groups, where good runners are cutting each others' throats, as the metaphor goes, and other relatively weak groups. The under thirteen team is as yet an unknown quantity.

This year, in order to leave himself free for coaching, Mr. Moore handed over control of the Competition to the energetic and efficient Mr. Hobart, who was assisted by Mr. MacGillivray, Mr. Hinks and Mr. Ferraro. The Standards Committee consisted of D. Stewart-Richardson, Secretary; R. F. Clark, Assistant Secretary; A. D. E. Bush, R. G. Colvin, M. B. Dally, P. F. Gibby and T. R. Helsby. We would also like to acknowledge the co-operation of the Group Representatives, and particularly that of W. M. Burke of the House, and J. V. Battersby of Group 10.

In all, 614 Standards Certificates were gained. 397 third class, 188 second class, and 30 first class. There were no outstanding performances, due to the wet track and the cancellation of some events. Once again the School House emerged a clear winner with a total of 101 points, Group 6 was second, and Group 2 third. Relying on the law of averages, we are now looking forward to fine weather for the athletics season, and a more successful Standards Competition in the third term. D.S.-R.

1st Class Standards

GROUP 1
B. McConaghy, 100 yards.

GROUP 2
P. C. Sourry, 100 yards.
P. A. Murphy, Shot Putt.

GROUP 3
G. N. Epstein, 100 yards.

M. C. Harris, 50 yards.
G. J. Adelstein, 100 yards.

CLASS RL
M. S. Warat, 100 yards.
G. E. Hunt, 220 yards.

PREP.
R. D. Hastings, 50 yards, 220 yards.
G. D. Cox, 800 Yards.

SWIMMING
G.P.S. CHAMPIONSHIPS

Prospects at the beginning of the first term appeared at best very moderate in spite of the return of Peter Howard and Guy Cornwell. However, a series of trials revealed quite some talent in the persons of P. D. Long, V. Keller, R. Spencer and a breast-stroke specialist in P. Adelstein. These boys were able to make a very respectable impression, gaining two second places and unfortunately being disqualified after one winning effort.

The Scots College, with a particularly capable team, was able to secure three firsts. Our congratulations go to Scots for a very meritorious performance.

THE ANNUAL CARNIVAL

Threatening rain held off and all went quite well. Peter Howard broke two records in the process of performing the perhaps unprecedented feat of winning all nine senior championships. One other record was broken. Of recent years, the carnival had gone its steady way without the incidence of trophies. Acknowledgment here is made of a gift by the Women's Association which has purchased prizes for leading contenders this year.

OPEN DIVISION

55 YARDS FREESTYLE: 1. P. Howard; 2. G. Cornwell; 3. P. Long. 27.5 secs.
110 YARDS FREESTYLE: 1. P. Howard; 2. G. Cornwell; 3. P. Long. 62.2 secs. (*Record*).

OLD SYDNEIANS' 55 YARDS HANDICAP: 1. W. Phillips; 2. P. Glenn. 33.4 secs.

ROWING

The 1962-63 rowing season achieved a flying start with a splendid Christmas camp. Good organization, hard work and substantial food supplied by the chef, Mr. Mazer, assured us of a sound basis for a successful season.

This year four rowers returned from last year's eight, John Willis, Tony King, Peter Brownrigg and Brian Cross. The 1963 Eight included these members plus Geoff Heicher coming from last year's 1st Four, Dave Raffan from the 2nd Four and John Rourke and Geoff Glenwright from the 3rd Four. The cox, Brian Lukin, was from the 1st IV.

SENIOR BOAT CAMP 1963

Back Row: N. VIDA, P. JOHNSTON, J. SCHMIDT, A. MULHEARN, D. KEITH, H. ARTHUR, L. JOHNSON, D. RICHARDSON. *Standing:* C. BURTON, J. CLARK, W. TAYLOR, G. WILSON, P. SPENCER, Esq., J. MONKS, Esq., P. TANNER, P. HOLMES, D. PRITCHETT, S. SMITH. *Sitting:* A. KING, J. WILLIS, G. GLENWRIGHT, P. BROWNRIGG, P. DuTOIT, Esq., J. ARGUE, Esq., D. RAFFAN, A. ROURKE, G. HEICHER, B. CROSS. *Front Row:* P. GILDER, M. SPENCE, B. LUKIN, R. BRUCE, I. FRANCIS.

The Trustees provided the boatshed with a new Eight racing shell which has been named after a prominent master at the school, Mr. Douglas Taylor.

The senior crews this season have been under three coaches, Mr. J. Argue the VIII, Mr. J. Monks the 1st and 2nd IV's and Mr. P. Spencer the 3rd and 4th IV's. The rowers would like to thank them for the tremendous amount of time and patience they have given.

Also we would like to thank sincerely the coaches of the tub crews, especially Mr. Caswell and Mr. Schmidt.

Regatta results were as follows:

Drummoyne Regatta — Iron Cove 9th February.

Conditions on this day were quite warm with a slight following wind. For the first regatta of the season we only managed to gain one position. The 1st IV came second. The Eight came second to Cranbrook in the heat of the Maiden Eights event, there being only two crews in the race. Cranbrook won the final, two feet ahead of Newington, Shore coming third, Grammar was fourth, St. Joseph's fifth.

Glebe Regatta — Sydney Course, 23rd February.

Results in this regatta were a little more promising than the Drummoyne results. There was a north-east wind with the sun shining.

The 1st and 2nd IV's did not make their finals, coming fourth in both their respective heats. However the Tubs displayed fine efforts with our 1st Tub coming third and our 2nd Tub coming third in their heat and winning their finals.

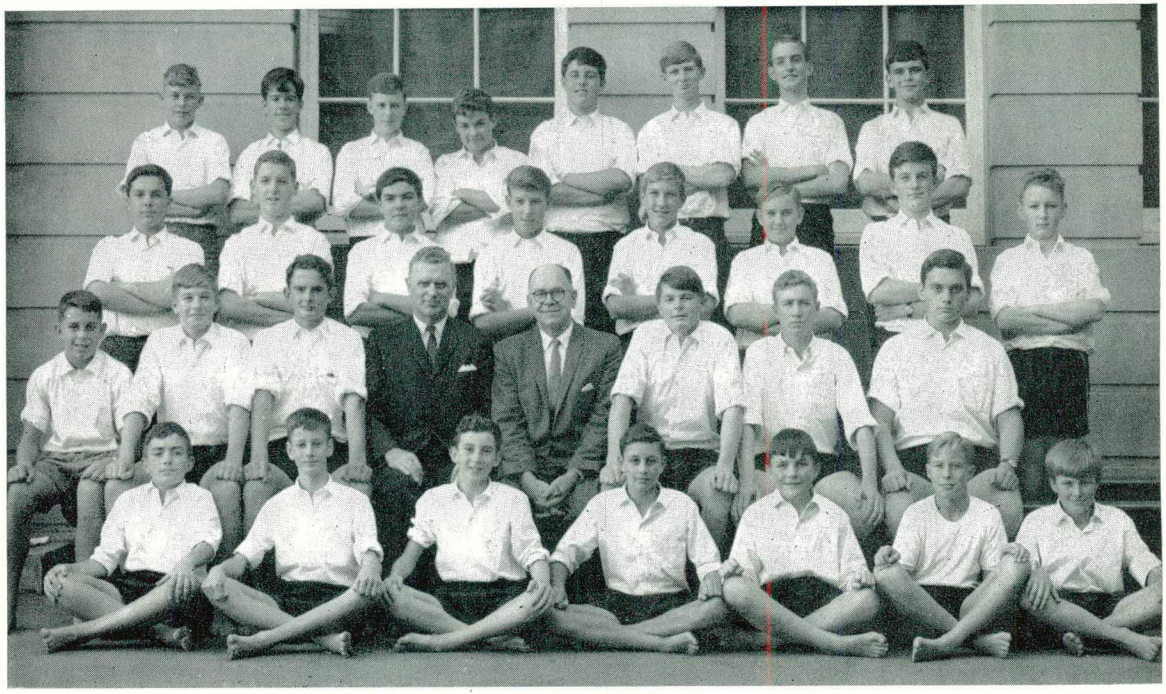

The Eight showed better form than previously by coming second in their heat. Scots who won the heat were disqualified because of their interference with Shore. Shore were than first, Grammar second with St. Ignatius third. The other heat was won by Cranbrook followed by Kings and High. Conditions had changed in the final with a stronger nor-east wind and the tide coming in. Cranbrook won the race with a $1\frac{1}{4}$ length lead from Grammar and St. Joseph's 3rd, half-length astern.

Balmain Regatta 9th March.

This regatta was held on the Iron Cove course in extremely rough conditions. Despite this fact the fours put up a good performance. The 1st IV won their race; the 2nd IV came equal second and the 3rd IV came third. The 2nd Tub again gained a place this being 2nd. The 1st Tub stroked by Grant came third. The Eight did not race.

Leichhardt Regatta, 23rd March.

The weather was perfect for a regatta. The 1st and 2nd IV's again

JUNIOR CREWS, 1963

Back Row: M. PATTERSON, M. LEWINGTON, A. CANVIN, I. POLKINGHORN, P. DARBY, S. GRANT, S. HOWARD, R. BROWNE. *Third Row:* P. JONES, D. BARRON, W. GROSE, J. WARREN, M. CHAMPION, D. BROWN, C. TRIMBLE P. STEDMAN. *Second Row:* J. TURNER, D. KELLOTT, A. STRONG, P. DuTOIT, ESQ., R. CASWELL, ESQ., D. GOURLAY, D. LETCH, D. LUSTHAUS. *Front Row:* R. NICHOLAS, J. CARRUTHERS, T. WALTER, W. ANDERSON, D. MILVERTON, H. WHITE, J. NICHOLAS.

put up a good performance, the 1st coming second in their heat and first in the final, The 2nd IV came second in their heat and second in the final. The 3rd IV did not race. The 4th IV raced, but did not gain a place. There were four tubs racing and they gained a second and a third placing.

The VIII rowed disappointingly coming 6th in their heat.

Riverview Regatta.

Once again it was a splendid day. Five tub crews rowed well in their respective heats, but failed to feature in the finals.

The 1st IV came second in their heat and rowed extremely well to win their final. The 2nd, 3rd and 4th IV's were unplaced.

The Eight in its heat came second to the Sydney Club crew. In the final of the Gold Cup, Newington held off the fighting Haberfield crew to come a fine first a canvas ahead, with Leichhardt third.

G.P.S. Regatta, 20th April, 1963.

It was a great day for the Regatta — quite a warm day with no wind.

The best result of the day came from our 1st Four. This four had done well during the season and we had high hopes for a win. They did not let us down, for almost from the beginning, they led the way, From the last quarter-mile they increased their lead and finished first, one and a half lengths in front. It has been twenty-four years since we have won the Yaralla Cup and our congratulations go to this fine crew.

The three other fours, however, were unable to emulate such a good performance, each of them finishing last in their respective races.

In the Eight's race Grammar was also unable to produce good form. High hopes were also held for this crew, but it never showed prominently in the race. The Newington crew rowed a well controlled race to come first, a canvas in front of the high rating St. Joseph's crew. King's, the surprise of the race, finished a length further behind in third position. Then came Shore, Scots, Riverview, Grammar and High.

We congratulate the Newington crew on the fine performance which they produced during the season and on the Nepean River.

B.N.C.

The following crews were boated:

VIII: Bow, A. E. L. King; 2, J. D. C. Willis; 3, G. C. Glenwright; 4, P. B. Brownrigg; 5, D. N. Raffan; 6, A. J. Rourke; 7, G. H. Heicher; Stroke, B. N. Cross; Cox, B. M. Lukin; Coach, J. R. Argue, Esq.

THE EIGHT

Left to right: Cox, B. M. LUKIN; Stroke, B. N. CROSS; 7, G. H. HEICHER; 6, A. J. ROURKE; 5. D. N. RAFFAN; 4, P. B. BROWNRIGG; 3, G. C. GLENWRIGHT; 2, J. D. C. WILLIS; Bow, A. E. L. KING.

FIRST IV, YARALLA CUP 1963

Bow, S. H. O. SMITH; 2, D. R. PRITCHETT 3, P. R. HOLMES; Stroke, P. A. TANNER; Cox, R. L. BRUCE.

IST IV: Bow, S. H. O. Smith; 2, D. R. Pritchett; 3. P. R. Holmes; Stroke, P. A. Tanner; Cox, R. L. Bruce; Coach, J. W. Monks, Esq.

2ND IV: Bow, C. A. Burton; 2, W. A. Taylor; 3, J. Clark; Stroke, G. C. Wilson; Cox, I. C. Francis; Coach, J. W. Monks, Esq.

3RD IV: Bow, N. S. Vida; 2, P. A. Johnston; 3, A. W. Mulhearn; Stroke, J. A. Schmidt; Cox, P. H. Gilder; Coach, P. E. Spencer, Esq.

4TH IV: Bow, D. L. Richardson; 2, L. B. Johnson; 3, H. Arthur; Stroke, D. O. Keith; Cox, M. M. Spence; Coach, P. E. Spencer, Esq.

TENNIS

During the summer tennis season (that is to say the third term 1962 and first term 1963, up to Easter) an increased number have played for the school on Saturdays, the number of teams now being seven.

The Under 14A and Under 15A teams were unbeaten, while the Open First team lost only one match. The B and C teams in all divisions were not so successful, but recorded hard-fought losses and some wins against opponents who were mostly A teams.

At the end of 1962 colours were awarded to J. A. D. Haddon, (captain), C. G. A. Pearce (vice-captain), J. A. E. Anderson, C. M. Lee and D. Zines. Pennants were awarded to B. Hungerford, K. Crocker, P. R. Anderson, and V. Topper.

In 1963 P. R. Anderson, as Captain, and N. B. Ainsworth, as Hon. Sec., have already shown enthusiasm and efficiency. Most Saturday matches so far in 1963 have been cancelled by rain, but for the first time in three years, the G.P.S. tennis tournament was held at the White City on April 17th. The senior team were beaten by 17 sets to 7 by the eventual winners, King's, but managed to finish third to King's and Shore. The junior team reached the final, only to be defeated narrowly by the winners, who were once again King's.

The Grammar No. 1 player in the Senior division, A. Rourke, deserves special mention, being unbeaten in the singles, and also in the doubles, partnered by the much improved P. Blake.

Teams

OPEN: A. Rourke, P. Blake, C. Lee, N. Ainsworth, S. Wilson, P. R. Anderson (Captain), R. Mockbell and I. Colburt. Reserves: J. D. Warman and J. W. Littler.

JUNIOR (UNDER 16): J. H. Wade (Captain), R. J. Mullins, J. N. Trevor, S. Finley, R. A. Hughes, P. Anderson, D. Sonnabend and G. M. Abeshouse. Reserves: R. Reiner and R. B. Badgery.

The White City restaurant was not available this year, so the S.G.S. Women's Association came to our rescue, providing an excellent lunch for one hundred contestants and parents at the Weigall pavilion.

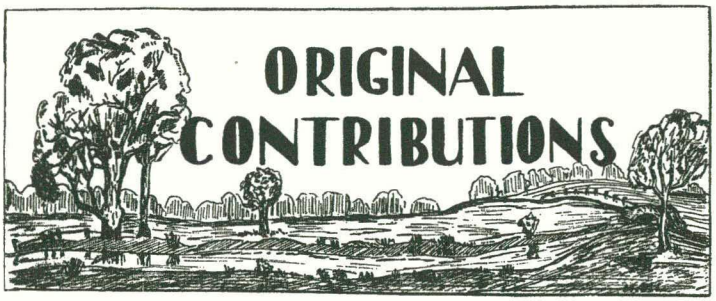

In Saturday competition matches, the following represented the school, in addition to the above:

OPEN: M. L. Mitchell, M. Schuller, P. R. Caney, C. J. Wood, I. Hopkins, J. Finkelsen, I. Campbell, W. Saxby, K. Mutton, P. Steel, L. Freeman, T. Rybak.

UNDER 15: S. Reeves, T. Wimmer, P. L. Goodman, D. Davies, J. Hedberg, D. N. McSweeney, G. Richardson, C. Aronson, A. Foley, S. Whitfield, M. Roe, D. Gowing, C. Schmidt, R. Rosenstraus, J. Rosenstraus, D. Morris.

UNDER 14: M. Arthur, S. Manley, E. Sanders, J. McSweeney, R. Rankin, D. Todd, J. C. Gold, B. Barrack, P. Korda, R. T. Orr, D. Watkins, R. Lewis.

Masters who have assisted Mr. P. Riley, Master-in-Charge, are Messrs. R. Carbines, W. McGillivray, D. Cohen, M. McGuinness, G. Hall and N. Gabriel.

DUSK

For a long time the old man had been too ill and weak to pay much attention to him, and he was hungry and disillusioned. With typical canine logic, however, he realized that something was wrong, very wrong.

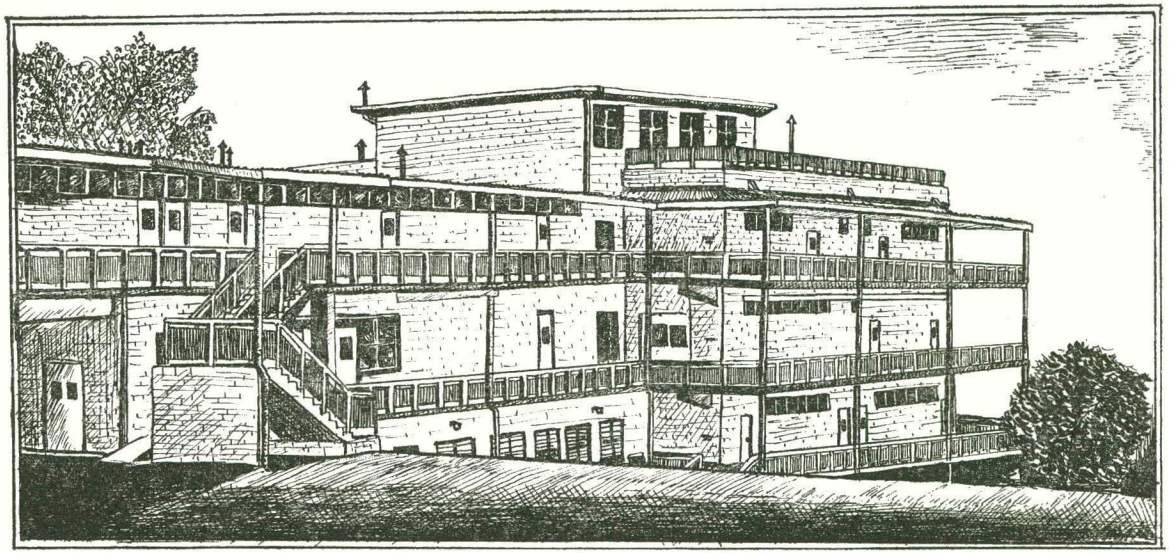

On this particular afternoon, he lay at the foot of his master's bed, where he was accustomed to keep vigil, with his paws outstretched and his head resting on his master's feet. From time to time he would lift his head and turn to look with big mournful eyes at the old man, trying to arouse him in some way — but in vain; the old fellow just lay there, quiet and still, breathing slowly, then the dog would return to his mournful reverie with a dejected sigh.

Today the old man was quieter than usual; his slow breathing was the only indication of his consciousness. The dog became more restless as the afternoon wore on and the pangs of hunger became more intense. Now dusk shrouded the outside world in a sombre grey mantle, and the last rays of the slowly dying sun crept through the old faded curtains and made little patterns of light which played almost on the old man's chest as it rose and fell . . . slowly . . . slowly.

The dog sat up, stretched, and whined. He looked at his master.

The patterns of light no longer rose and fell. The dog put his head on the edge of the sheet and looked enquiringly into the old wrinkled face. He whined again and licked the old man's hand . . . Suddenly he uttered a long, long howl. But his master remained still — peaceful as the last embers of the dying sun, still and hushed as the grey dusk outside.

J.G.P. — 6A — GP. II

THE NEW SCIENCE BUILDING
M. C. DILLON — 6A — CHASE GROUP (P)

I WATCHED A MAN

i watched a man today
consuming grapes, and knew

the secret things he told them
as he squeezed them
in his teeth,

then reached up high
to fling away the seeds
between his finger-tips:

old he was, and wrinkled
plaster-grey,
as fishes too long in the sun
will melt away the memories
of childhood —
like grape-pips
lie forgotten in the sand.

K.D.W—6A—GROUP 10

THE PLOT TO DESTROY GRAMMAR

'Gentlemen', proposed the leader, our Science master. 'I intend to destroy the main building, so that the only subject left at Grammar will be Science!'

'What?' exclaimed one. 'Blow up the main building?'

'Yes; blow up the main building!' At this, seven mouths dropped open, nineteen pairs of false teeth landed on the ground, and eight bodies hurtled towards Mother Earth in a convulsion. There were now two masters left.

'During next Thursday's double Science period in the afternoon', the master continued: 'I will slip out just before the first bell and set off an atomic chain reaction which will work up its power until Monday, when at nine-thirty, BOOOOM!'

I had heard enough; I took my ear out of the keyhole and thought of the disastrous effects the plan would have if it succeeded. The idea of seven Science periods a day and four Science homeworks a night flabbergasted me. I had to stop them! I had to! That night I couldn't get to sleep thinking of a way to stop this terrible scheme. If it wasn't

stopped by Thursday — that fateful Thursday — it couldn't be stopped at all.

Eventually, Thursday arrived, and I still had not thought of anything. I just couldn't pay attention to my work that day; I couldn't trust anyone to this information. Soon, the double Science period arrived. The master throughout that period had a gleam in his eye. He was obviously thinking of the dastardly plan, for in his eye was the gleam of one who has just set a month's homework! How could I distract him? Perhaps I could tell the person next to me of the disaster. He might be a help. I wrote him a note: 'Hay mate — last week I found that S. is going to blow up the main school building. In fact, he's going to set off an explosion (which will occur next Monday) this period. Don't tell anyone. Think of a way to stop him.'

Three minutes later, I received a very informative reply which read '. . . . . !'

I naturally concluded that he didn't believe me. I decided not to write any more notes, and instead decided to focus my attention on the chemistry experiment, in the hope that something might occur to me in the meantime. Unfortunately, I connected the Bunsen Burner to the water-tap instead of the gas-tap and had to spend at least ten minutes cleaning up the mess.

When the second period was rapidly drawing to a close the master announced that he was leaving: I had to stop him! I pretended to slip on the lino. 'O.....h! Owwwwww! Sir! Help!' I faked. 'I've broken my leg!' I was ignored. 'Help! I'm dying!' Still I was ignored. 'I'm going quick! Call the ambulance!' He aimed himself relentlessly at the door. 'I'm dead!' However, he just walked on, saying a casual 'You have a fatigue and write out the Oxford Dictionary eight times by tomorrow.' I felt like saying what I felt, only felt I would feel something very unpleasant. He was at the door now. What could I do? He was going — going — gone! Too late.

On my way home, as I popped into the bookstore to buy eight copies of the Oxford Dictionary, an idea hit me. Next Monday, at twenty past nine, I dashed out of the Physics period, rushed to the Atomic Lab., opened the 'Magnusbangusboomus Cabinet', reversed two wires, and made my way to the end of College Street.

I watched and waited. Then, I heard a rumbling noise and saw a great mushroom-shaped cloud. I ran back to the School and saw my success. The Science Block was gone!

FROM 'ZOT'

THE EAGLE

Out on the plains where the emus wander,
Out where the salt lakes, shimmering, lie.
Out where the wiry wilga withers
Under a melting, glimmering sky.
This is the home of the wedge-tailed eagle
Who in his splendid solitude reigns,
This is his Kingdom, this is his throne,
Out on the lonely Barcoo plains.

THE BURGLAR

One night when the wind was howling and the rain falling, I lay awake in bed.

Suddenly I heard a sound outside. It sounded suspicious, like a man's foot-fall. The first thought that entered my head was burglars. A burglar was in the house, I crept out of bed, fetched my cricket-bat, and stumbled across the room. At last I was out of my room and going down the stairs. Oh, how they creaked. Another flight of steps and I arrived at the door.

I opened the door and said, 'Who's there?' as confidently as I could, for my teeth were chattering with fear and cold. A voice came back out of the dark, 'I can't find your wretched milk bottle.'

B.W.R. — 5A — GROUP 12.

LYRIC

Shades of poets gone before,
  Stretch out to me your hand of Fame,
Imbue me with your art and lore,
  That I may some small honour claim.

Invoke from out the distant years,
  Some creative genius of yore.
The much maligned Wilde, his tears,
  Or laughter of the mighty Shaw.

The sultry 'Sphinx' is not for me;
  Nor yet the wail of 'Readings' pain,
Or saintly Joan's impassioned plea:
  My lay lies in a lighter vein!

O, Spirit of Aeolis, nurse
  On Grecian hills, the lilting string,
Fan the flame of lyric verse,
  And make my ode a living thing.

S.F.S. — 5A — GROUP 9.

DEATH IN THE ALLEY

The slums are dirty. Everywhere there is filth and never-ending scene of cracked masonry, dirt and unhappiness. It was here that 'the Big Blue' lived. He was an old canine scoundrel, a vicious, merciless fighter. For years he had been lord over this domain, but now a threat came to his supremacy. A threat in the shape of a dirty yellow mongrel; a scarred, ugly bully, incredibly strong, whose fangs had been responsible for countless injuries. He fought for no reason except his nasty disposition and his hate of all others. His unprovoked attacks and those unrelenting fangs that bit and maimed soon brought him respect. Whenever he came into the scene, all other dogs made a hurried departure.

But not Big Blue. He was lord; he was not going to let a filthy outcast rule. So he set out to find the bully.

A high-pitched yelping led him to the scene of a fight where a nine-months old pup was trying vainly to protect a fresh bone which he had found in a garbage-tin. The yellow mongrel had almost chewed his front paw off and the pup was bleeding from a dozen different wounds. Big Blue's hackles bristled. He paused a moment, gathering strength, then hurled himself at the mongrel.

Whereas the previous fight between the bully and the pup had been comparatively quiet, now it was a yelping flurry of snapping teeth and flying hair. Big Blue fought to get his teeth clamped about his opponent's throat. Twice he almost succeeded, and the third time he felt his teeth sink in. The mongrel uttered a strangled cry, and in a last despairing effort jumped at Big Blue's throat. But Big Blue, with an agile movement, avoided the deadly thrust, and the mongrel fell to the ground and lay still.

Big Blue gave his opponent one last look, then, knowing that the mongrel was dead, he lay down and licked his wounds. He had suffered badly — but he had won!

J.H.R.Mc.E. — 4A — CHASE GROUP.

Notes from St. Ives

On the 11th December, 1962 Lieutenant-General Sir John Northcott presented the prizes at the annual Speech Day. During this function Mr. E. R. Dent gave his ninth and last Annual Report as headmaster. Mr. N. Cowper, Chairman of Trustees, in thanking Mr. Dent for his outstanding services to the School and in wishing him well for his headmastership of All Saints College, Bathurst, called for three cheers, to which the boys of the school responded heartily.

The new headmaster will be Mr. T. G. Jones, who is at present Master in Charge of the St. Peter's College Junior School, Adelaide, South Australia. The school looks forward to welcoming him at the beginning of 2nd term.

Mr. W. Lowe and Miss E. Cavanough left us at the end of last year and in their places we welcome Mr. G. Mills and Mrs. D. Emslie.

PRIZE LIST

Dux of the School (*Weigall Chase Prize*)	A. F. Powell
Dux of Grade V	P. A. Stucken
Dux of Grade IV	A. F. Phippard
Dux of Grade III	J. P. Wall
Dux of Grade II	H. K. Leaver
Dux of Grade I	D. A. Major, P. A. Royle
Grade IV (*Weigall Chase Prize for English*)	J. R. M. Ffrench
Grade VI (*Old Sydneians Prize for General Proficiency*)	R. M. Gray
Manual Hobbies (*Dr. Miles Havyatt*): Senior	L. J. Shanks
Junior	P. W. Tout
Writing Prize: Senior	J. A. Dennett
Junior	T. J. Maddox, J. C. H. Staunton
GENERAL MERIT	
Grade IV	J. G. Havyatt, M. J. Abrahams
Grade V	W. G. Wilson, D. R. Sullivan, A. D. Batterby
Grade IV	D. M. Townend
Grade III	A. R. Stucken
Grade II	I. R. Vanderfield, A. J. Cohen
Grade I	P. W. Tout
Kindergarten	D. N. H. Miles

THE SYDNEY GRAMMAR SCHOOL ENTRANCE SCHOLARSHIP

Candidates for this scholarship sit for the N.S.W. Department of Education Bursary Examinations in English and Arithmetic and their papers are marked by departmental officers. Sydney Grammar

School awards up to six scholarships each year on the results of this examination. Andrew Powell, Dux of the School, gained first place in the 1962 Entrance Scholarship.

J.L.

DRAMATICS

Last year's play, Ali Baba, once again attracted capacity audiences. However it departed from tradition in some ways. Crowd scenes were cut to a minimum and the number on stage reduced as far as possible to allow quick entry and exit.

Scenery was designed for rapid changes and so was only representational and not very elaborate. Construction and painting was left in the extremely capable hands of P. Nicholson, K. Badgery, A. de Saxe, J. Skinner, R. Blanton and other boarders.

Lighting was arranged by C. Maver. It is due to his patience and ability that the lighting is so effective. All those taking part realised just how much the success of the play depended upon Chris. and his team of 'electricians'!

Costumes proved colourful and exciting and certainly were a credit to the makers. Who will forget the dashing Robber Chief in his scarlet cloak or Cassim's Wife in her spectacular finery?

The standards of acting and speaking were consistently high. M. Todman maintained his long role with sparkling enthusiasm while the zestful, tongue-in-cheek portrayal of the Matron by A. Cole nearly stole the show. P. Hellman's diction as the storyteller was a delight and his part in linking the scenes really maintained the smooth pace of the play.

I.D.D.

CAST

Storyteller	P. Hellman

SPORT

1st XI. Captain: J. Hyde.

Despite the rather dismal record of two losses and a draw, this team showed both promise and improvement. Whilst R. Badgery must be given the major credit as both batsman and bowler, J. Hyde, D. Sullivan, C. Kell, J. Bisley and T. Garrett also did well on occasions. In a team which generally fielded well C. Knevitt was outstanding while T. Garrett and D. Cook also deserve special mention.

Nevertheless, the team has still some way to go if it is to achieve success in the second part of the season. Points which require attention

include the overcoming of the reluctance of the lower batsmen to play their shots in matches despite demonstrating their ability to do so in practice and a concentration by the bowlers on consistent length.

S.A.H-W.

2nd XI. Captain: K. Mann.

Of the four matches played we lost against a strong St. Pius team, lost also in a one day fixture against Shore. Grammar fared much better against Mosman when the opposition was bundled out for 20 after Grammar had made 63. Rain affected play on 3 consecutive week-ends and the Grammar v. Barker fixture was cancelled. Towards the end of the season most of the boys were gaining more confidence in their stroke play and everyone is eagerly looking forward to next season.

G.M.

10s (1962) — 11s (1963).

The end of the 1962 season had revealed a commendable development of team spirit. The lads attended practices with abounding keenness and this attitude of course was reflected in the match results. I was pleased with the sportsmanship displayed and was delighted to find them able to fight back and turn seeming defeat into victory.

The 1963 season has seen only one narrow loss in the few matches played. It was most disappointing to miss so many matches through rain.

1962		
v. S.C.E.G.S.	— 51 and 36	S.G.P.S. — 94.
v. KING'S	— 50 and 5/51	S.G.P.S. 9/112.
v. ST. LEO'S	— 26 and 64	S.G.P.S. 9/165 (P. Scott 51).
v. ST. ALOYSIUS	— 58	S.G.P.S. — 66
1963		
v. BARKER	— 29	S.G.P.S. — 68.
v. ST. PIUS	— 6/78	S.G.P.S. — 7/66
v. S.C.E.G.S.	— 7/65	S.G.P.S. — 80 (D. Swan 22 n.o)

I.D.D.

11B's.

A very enthusiastic group, the 11B's played only 2 competitive games. They have practised consistently well and most have shown pleasing progress. At the moment perhaps bowling is the main weakness.

v. ST. PIUS	— 37	S.G.P.S. — 45.
v. S.C.E.G.S.	— 18	S.G.P.S. — 30

10A's.

v. KING'S	— 68	S.G.P.S. — 23 (Bradley 10).
v. ST. PIUS	— 88	S.G.P.S. — 35 (Bradley 25).
v. MOSMAN	— 92	S.G.P.S. 7 and 7/36 (Laine 14).

The team did not have a successful season, but it maintained an excellent spirit. Several of the team showed that with practice they will develop into sound batsmen. David Bradley hit the ball with confidence but must learn to hit it to the ground. Guy Betar and Ken Cappie-Wood obtained success in bowling. They maintained a good length but need to attain greater accuracy.

J.M.

SWIMMING

Inter School Carnival at North Sydney

Nine schools competed and our Junior Relay Team, consisting of L. Dawes, T. Murray, A. Baker, R. de Franck, A. Rusk and P. Scott, scored our only win in an exciting dead heat with Barker. C. Baynes came second in the Junior Dive; Morrish and D. Sullivan came third in their 'A' division freestyle races and J. Hile, A. Rusk and P. Moniez gained thirds in 'B' division freestyle.

Invitation Carnival at Knox

Six schools competed and in the freestyle events T. Murray won in the second division and our under 11 relay team came second. In addition the team gained 4 seconds, 7 thirds and 8 fourths.

School Swimming Meeting.

JUNIOR DIVE: 1. C. Baynes; 2. M. Bauer; 3. R. de Franck.
SENIOR DIVE: 1. P. Bodor; 2. D. Sullivan.

UNDER 9, 25 YDS. FREESTYLE: 1. K. Morrish; 2. P. Burnham; 3. J. Gill. 19.1 secs.

UNDER 10, 25 YDS. FREESTYLE: 1. J. Hile; 2. T. Murray and M. Goldstein *equal.* (18.5 secs.)

UNDER 11, 33 YDS FREESTYLE: 1. P. Scott; 2. A. Baker; 3. A. Rusk. 22.0 secs.

UNDER 12, 33 YDS. FREESTYLE: 1. D. Sullivan, 2. W. Pfeiffer; 3. D. Cook. 20.5 secs. (*Record*).

OPEN CHAMPIONSHIP, 55 YDS. FREESTYLE: 1. W. Pfeiffer; 2. A. Rusk; 3. R. de Franck. 40.0 secs.

JUNIOR BACKSTROKE, 25 YDS.: 1. R. de Franck; 2. L. Dawes; 3. J. Barry. 21.4 secs.

SENIOR BACKSTROKE, 33 YDS.: 1. J. Hyde; 2. P. Moniez, 3. J. Bisley. 31.5 secs.

JUNIOR BUTTERFLY, 25 YDS.: 1. P. Little; 2. A. Rusk; 3. R. Schroder. 21.3 secs. (*Record*)

SENIOR BUTTERFLY, 33 YDS.: 1. J. Yates; 2. J. Bisley; 3. D. Foster. 31.1 secs.

JUNIOR BREASTSTROKE: 1. P. Little; 2. L. Dawes; 3. G. Draper. 21.5 secs.

SENIOR BREASTSTROKE: 1. D. Sullivan; 2. P. Moniez; 3. J. Yates. 31.0 secs. (*Record*).

JUNIOR RELAY 6 x 25 YDS.: 1. Gold; 2. Green; 3. Blue. 1 min. 55.6 secs. (*Record.*)

SENIOR RELAY 6 x 33 YDS.: 1. Gold; 2. Green; 3. Blue. 2 min. 39.4 secs. (*Record*).

HOUSE POINT SCORE: Gold 45½; Green 34½; Blue 27.

J.L.

SOFTBALL

Matches were played against Newington and Barker, of which 5 were won and 1 lost.

HOUSE MATCHES: Gold 1st; Green 2nd; Blue 3rd.

Sydney Grammar Preparatory School, Edgecliff

SPORT

Cricket

THIRD TERM 1962

1ST XI

Three matches were played this term and only two were completed as rain washed out play on the second day in the match against Cranbrook.

The team was very grateful to the parents and friends who regularly provided transport and 'moral support.'

During the season the team as a whole improved their standard of play, while some members individually made some very good scores and completed pleasing performances with the ball.

Results

v. CRANBROOK.

Edgecliff were given an object lesson in the art of batsmen playing themselves in. Cranbrook's first wicket fell for 32 runs one hour after play commenced. They continued to bat until noon and scored 92 runs.

A. Hinkley took 4 wickets for 20 runs, S. Taylor took 6 wickets for 40 runs.

Match drawn as rain washed out play.

v. TRINITY.

Trinity were 8 wickets down for 62 runs when the 'tail-enders' 'swung the wood' and eventually were dismissed for 116 runs.

Edgecliff went in to face full tosses on the middle stump and lost three wickets very quickly.

S. Taylor came in and looked set to score the runs himself but gave his wicket away.

J. Willis and G. Ford made a good stand but the team was all out for 88.

Edgecliff set about the task of dismissing Trinity — a number of smart catches were taken by G. Ford while J. Willis from mid-off threw down the wicket to run one batsman out. Trinity were dismissed for 88 thus leaving Edgecliff 116 runs to make.

S. Taylor scored 95 before being caught and Trinity's score was passed in 50 minutes for the loss of 4 wickets.

v. SCOTS.

Because neither school could provide a pitch for both weeks it was decided to play two separate games.

The first was played at Weigall.

Edgecliff batted and were dismissed for 79.

Scots after being 6 wickets down for 23 had a partnership which produced 50 runs thus helping Scots to win by 20 runs.

The second game was played at Trumper Park. Scots batted and scored 83.

A. Hinkley took 4 wickets for 30 runs and S. Taylor took 3 wickets for 40 runs.

Edgecliff although 43 for the loss of only one wicket were racing the clock and managed to win on the last ball of the match with 2 wickets in hand.

A most exciting match with which to close the season.

K.P.

2XI.

The seconds played two games and though we lost, the margins were close.

In the first we played Cranbrook — the first innings on both

sides was fairly even — Cranbrook 36, Edgecliff 39 — Cranbrook won on the second innings.

Players of note in this match were, Ian Grady, W. Downs and Lobban who all bowled well, each taking wickets.

In the second game we lost to Scots 106 to 135.

Again Lobban, Downs, Ford and Cowan played well — (Cowan as wicket-keeper). P. Bennett is also worthy of mention for a splendid catch. I.D.

COLTS 'A' XI — 1962

Three matches were played in third term. All were lost but all were played well. The Edgecliff team, captained by Leslie Cohen, were keen fieldsmen and in this sphere did well. In one innings against Scots College eight catches were taken. Our opposition frequently had bowlers of superior ability and proved too strong for our batsmen. Cohen, Charody, Freilich and Grant were our most consistent batsmen.

UNDER 10 'A' XI — 1962

This group consists of a very enthusiastic band of boys, not only enjoying their cricket but reading about the game and following senior matches.

For the most part they are an attacking team — very keen in the field and capable of hostile bowling spells.

Close fielding support has been a feature of much of their play and many wickets have been taken by this method of attack.

Some individual performances have been very good with the bat. Particular mention must be made of Goode, an aggressive batsman when in the mood and J. Allsop a most able Captain and opening batsman. D. Sonenfild and M. Mather also made their contribution with the willow.

Results

v. CRANBROOK.

Cranbrook — 118.

Edgecliff — 4 for 155 — *Won.*

D. Goode — 103 not out. Allsop 4 wickets, Hooke 2 wickets.

v. TRINITY.

Edgecliff — 5 for 129.

Trinity — 1st Innings 44 — 2nd Innings 21 — *Outright Win.* Goode 50, Allsop 31, M. Mather 22. *Bowling* — Sonenfild 3 for 14, Goode 7 for 6, Allsop 4 for 16, H. Mather 4 for 11.

v. SCOTS — 1st Day.
Edgecliff — 176.
Scots — 1st Innings 37 — 2nd Innings 56 — *Outright Win.*

v. SCOTS — 2nd Day.
Scots — 1st Innings 38 — 2nd Innings 48.
Edgecliff — 3 for 126 — *Outright Win.*
Batting — Allsop 38, Goode 74, 64, Hooke 21 not out).
Bowling — H. Mather 5 wickets, M. Mather 10 wickets, D. Sonenfild 7 wickets, C. Hooke 13 wickets.

R.W.B.

FIRST TERM 1963

1ST XI

Inclement weather and shortage of playing fields during the first term led to the cancelling of most of our fixtures. In fact only two one-day matches were played. The first, against Newington at Stanmore, resulted in an overwhelming defeat by a stronger team. The performance of our own team was very disappointing and little true fighting spirit was displayed. The second match, against Newington, Killara, gained us a victory.

Our Captain Ken Tickle and wicket-keeper Peter Charody are to be commended for their efforts. We have several bowlers of promise and many reliable fieldsmen, which could well mean an improved record in third term.

L.C.N.

COLTS 'A' XI

In common with other schools — conditions were more suitable for swimming or rowing throughout the term. However, we managed to play two days' cricket the whole term.

v. NEWINGTON (Stanmore).
Newington — 72.
Edgecliff — 53 — *Lost.*

v. NEWINGTON (Killara).
Edgecliff — 62.
Newington — 35 — *Won.*

R.W.B.

10A XI.

Rain was our arch enemy only allowing us to play three games before Easter.

v. NEWINGTON (Stanmore) at Weigall.

Newington were dismissed for 11 runs.

G. Bostock took 3 for 5 runs, P. Hammon took 4 for 6 runs, M. Sheaffe took 3 for 0 runs.

Edgecliff batted and in order to have some match practice batted each player and when play was stopped had scored 66 runs.

v. ROSE BAY CHRISTIAN BROTHERS at Weigall.

Play was cancelled on the first day, but although wet underfoot on the second day play commenced at 9.30 a.m.

Rose Bay were dismissed for 53 runs.

G. Bostock took 4 wickets for 17 runs, P. Hammon took 5 wickets for 9 runs, R. Clifford took 1 wicket for 0 runs.

Colburt scored 29 runs of the total and most of them were fours swept from the off stump to square leg boundary.

Edgecliff batted and scored 70 runs, having retired three boys to allow the others to bat.

G. Bostock scored 19, B. Stannard scored 9, R. Clifford scored 8. Sundries were 18.

v. NEWINGTON (Killara) at Weigall.

Newington batted and were dismissed for 15 runs, although playing twelve men.

P. Hammon took 2 wickets for 2 runs, G. Bostock took 4 wickets for 2 runs, C. Stannard took 2 wickets for 3 runs, M. Sheaffe took 1 wicket for 5 runs, R. Clifford took 2 wickets for 0 runs.

Edgecliff again retired several players to allow the rest of the team to bat and were 66 when play was stopped.

M. Ridge scored 11 runs, A. Field scored 9 runs, R. Polkinghorn scored 9 runs, R. Clifford scored 8 runs, I. Freed scored 8 runs, D. Farrar scored 7 runs, M. Sheaffe scored 6 runs.

This shows that the team has a core of players who are capable of making strokes and scoring a 'tidy' number of runs.

It is to be hoped that the boys will continue to play in the enthusiastic manner in which they have begun the season. If they can maintain their present rate of progress they should develop into a very pleasing and strong combination. K.P.

COLTS 'B'.

The team played three matches this season, winning one against Scots and losing the other two to Scots and Cranbrook. Fielding and bowling was quite good but the standard of batting in the team was mainly responsible for the low scores.

SWIMMING

A number of boys from the School represented Edgecliff at the Main School Swimming Carnival. Places gained by Edgecliff were:

UNDER 10, 33 YARDS FREESTYLE: R. Polkinghorne *1st;* I. Oatley *2nd.*

UNDER 12, 33 YARDS FREESTYLE: K. Tickle *2nd.*

UNDER 12, 55 YARDS FREESTYLE: K. Tickle, *1st.*

UNDER 13, 33 YARDS BACKSTROKE: K. Tickle *3rd.*

PREP. SCHOOLS' RELAY: Edgecliff *1st.*

In the Under 12 55 Yards Freestyle, Tickle broke the record.

THE ALUMNI SCHEME

There is no doubt that since the introduction of the Alumni Scheme last year, Old Boys are taking a much greater interest than ever before in the activities and welfare of the School. This is largely a result of the renewing of old acquaintances through the many class reunions which have been held, and is exemplified by the enthusiastic support given 'Black and Gold' and Younger Set Balls in numbers and in spirit.

The number of Old Boys now enrolled in the Alumni Scheme is over 1,400 and they have contributed handsomely to the future development of the School.

The Membership Committee set up late last year to continue the implementation of the Alumni Scheme has, after much deliberation, produced a most ambitious, practical and acceptable programme for the future. This programme is outlined in the latest edition of *Black and Gold* and is well worthy of your perusal.

OUTSTANDING O.S.U. FUNCTIONS

Highlights of the O.S.U. Year so far include a best ever 'Black and Gold' Ball, a record attendance at the 'Younger Set' Ball, an enthusiastic Inaugural Dinner of the A.C.T. Branch and sporting fixtures against the School in cricket and football.

Details of these newsworthy occasions are included in the latest edition of the *Black and Gold* which is being continuously developed as a publication of real and varied interest to all Old Sydneians.

NEWS & NOTES

Dr. Roger Vanderfield (1943) has been awarded an Overseas Travelling Scholarship by the Hospitals Commission of N.S.W. He left for London on the 29th May, 1963.

*

Gordon Bray (1945), now in Melbourne, will shortly be transferred to the London branch of his firm.

*

Ken Bangs (1945), who has returned to Sydney, has been elected to the O.S.U. Committee to fill the vacancy left by Gordon.

Other wanderers include Committeeman, Alistair Hazard (1948), currently in the U.S.A. on business and Vice-President, Jim Crawford (1940), who has returned to O.S.U. affairs after another of his regular excursions abroad.

*

Harry Turner (1958), hard at work for his current series of exams, sends his regards from Harvard University. Harry is looking forward to commencing his Summer vacation as a lifeguard at a country club outside Boston.

*

Douglas Hungerford (1956) has been elected to fill a vacancy on the Board of Directors of the Sydney University Union. Doug, who is in his final year of medicine, recently flew to Adelaide as leader of a Sydney delegation to the Medical Students' Conference.

OLD SYDNEIANS', LONDON

It might well be asked why the report of our London annual reunion held on October 25th last is reaching the *Sydneian* only now. The news went to you months ago — somehow it just failed to arrive. Apologies to all for the mishap.

Our old Headmaster, Mr. H. N. P. Sloman presided yet again, erudite, witty and enchanting as ever, and seemingly untouched by the years. He read a cable from the present Head, gave the toast of the School and brought those of us who are exiles up to date with Grammar's affairs. Then, in the tradition of these annual occasions, everybody around the table had something to say.

Mr. Sloman had spoken of 'Bill' MacCallum of his day as the outstanding schoolboy of his lifetime which embraced, in addition to Grammar, such great schools here as Eton, Westminster, Rugby and Tonbridge. Among us to hear it all was none other than the famous 'Bill's' son, J. M. MacCallum, in England with an accountancy firm. He was deeply moved to hear such acclaim for his father.

As usual, the dinner was a mixture of joy and sadness. Each year one or more of the old regular residents is no longer with us. But happily the younger visitors come along to prove that Grammar flourishes and to show the ancients that the School continues to produce the right quality.

Those present, in addition to Mr. Sloman, were: Dr. Barr-Brown, J. M. Banks, F.R.C.S., L. Bannatyne, W. Collis, P. N. Cutner, F.R.C.S.,

(who continues to do all the organising and the work), D. Collier, B. Dickey, P. Florence, Dr. Horniman, E. C. Holroyde, J. M. MacCallum, P. Mylos, H. N. Rogers, C. M. Reynolds, Trevor Smith, W. J. Ward, J. Windeyer and R. B. Watson. Apologies for absence came from Dr. K. Blatchley, N. Buchanan, G. Campion, Major-General Drew, E. H. Deck, S. E. Finlay, P. Hall, R. J. Nettey, D. B. Reid, A. Sommerlad and A. C. K. Yates, F.R.C.S.

— TOO OLD SYDNEIAN.

UNIVERSITY LETTER

University of Sydney

Dear *Sydneian*,

Perhaps the most notable news from the University this year is the introduction of quotas in all faculties, made necessary by the growing unwieldiness of numbers. It seems that few who applied to enter the University this year were refused, but several have had to be content to enter faculties which were not their first choice. Another important change has been the opening of the new Fisher Library, which, despite some early inefficiency and a very noticeable lack of books, is a very fine building, where working conditions are a vast improvement on the primitive and overcrowded Old Fisher.

The annual Dinner in the Union, attended by Old Sydneian graduates, undergraduates of both Universities, and the School Prefects, has been held, again with great success. The toast of the School was proposed in an excellent speech by Mr. Bruce Mason, an Old Sydneian barrister and lecturer at the Law School. Jim Barkell, the Senior Prefect, responded, again with an excellent speech. Mr. G. K. Herring, the President of the O.S.U., gave us an interesting outline of recent improvements made at the School, and the part played by the O.S.U. This annual Dinner is a valuable contact between the professions, the Universities and present Sydneians, which should be maintained in the future.

Several Old Sydneians graduated last year. Among them were Dick Buttfield in Medicine, Morton Rolfe who graduated with Honours in Law, and Tony Brown, who obtained First Class Honours in Agricultural Science, and is now working with the C.S.R. in Fiji. Mick Lawson and Fred Johnson graduated in Architecture, Ian Brett in Dentistry, and Mick Willis in Engineering. Among some outstanding results in other years, Stuart Cumming won the William and Jane Grahame Prize for proficiency in Mechanical

Engineering III, and John Edwards was awarded a Shell Prize, also in Engineering.

Prominent sportsmen are Malcolm Ives and Warwick Caisley in First Grade cricket, and Bob Grant in the Seconds. Jorgen Nielsen and John Mathieson both row for the University; Warwick Caisley has been appointed Vice-Captain of football, and played with the New South Wales team in trial matches. Philip Harry, who captained two Rugby Union Premiership sides, has just completed one hundred matches in First Grade football; he was Vice-Captain of the State team against the Wallabies. John Antill is Captain of Athletics, and Paul Vrachnas is on the Committee of the Athletics Club.

Among those holding various responsible positions are Stuart Cumming, who is a member of the S.R.C., and Alan Obrart who is President of the Engineering Undergraduates' Association in succession to Mick Willis; John Shenstone is Vice-President of the same Association. In the University Regiment, Alan Anderson has recently been commissioned.

An encouraging sign is the increased number of Old Sydneians who have entered the residential Colleges this year. Hamish Munro and Robert Storey have entered St. Andrew's, while Nick Cowdery, Tim Healey, John Bowie Wilson and Frank Windeyer are at St. Paul's, and Tim Little and Hugh Thompson at Wesley College. In the inter-college competition for the Rawson Cup, so far St. Andrew's have won the swimming, and St. Paul's the rowing.

We congratulate the School on the opening of the new Science block, and wish it a successful year in every way.

Yours sincerely, UNDERGRAD.

University of N.S.W.

Dear *Sydneian*,

This is the first letter from the University of New South Wales. Although this University has only been functioning for approximately fifteen years, the number of Old Sydneians who are students is astonishing.

In the Faculty of Architecture Prof. Shaw heads the list of distinguished old boys. Geoff Danks graduated last year with Second Class Honours and Ian Wyness has been prominent in the faculty. John Dezarnaulds from the School of Building within this faculty has achieved outstanding success on the field with the Uni. football team.

Within the Faculty of Commerce, Grammar probably boasts its largest influence. John Greathead (Uni. Rowing team), Hugh McConnel (football), John Gleeson (Secretary, Commerce Society), Dick Carlton, Bob Segaert, George Conomos and Ian Maxwell (Arts Graduate from New England) are representative.

Warren Lesnie graduated in Engineering last year and Peter Barbour is a hard working Chem. Engineering student.

Although there are many more Old Sydneians at the University, lack of co-ordination has made compiling names and information for this letter difficult. I do urge all Old boys to leave their names and information about themselves for me at the Students' Union Office in the Round House so that true justice may be done to a letter of this kind.

In early 1964 the O.S.U. University Dinner will be held in the Round House at the University of N.S.W. for the first time. Old boys from N.S.W. will be there in force and it is hoped that our Sydney 'brothers' will take this opportunity to visit our University and enjoy a pleasant evening with other Old Sydneians.

Yours sincerely, UNDERGRAD.

OLD SYDNEIANS' MASONIC LODGE

The Old Sydneians' Masonic Lodge meets on the third Tuesday of every month at the Royal Arch Temple. Eligible Old Sydneians are cordially welcome to visit on any occasion. Inquiries may be addressed to K. J. F. Brearley, 36-3881.

AUSTRALIAN OLD COLLEGIANS CRICKET ASSOCIATION WORLD TOUR, 1964

During the months of March to October, 1964, cricketers are invited to join any section of this Cricket Carnival which will include the Olympic Games, World Fair, Australian XI in England, Wimbledon, Royal Agricultural Show etc.

The cost of the Tour — Sections from £600.0s.0d. upwards.

Countries to be visited include South Africa, West Indies, South America, North America, United Kingdom, Ireland, Europe and Japan and possibly Russia and China.

Inquiries to be addressed to:

THE HON. ADMINISTRATOR,
BOX 3847, G.P.O.,
SYDNEY.

ENGAGEMENTS, MARRIAGES & BIRTHS

We should like to print a full and accurate list of Engagements, Marriages and Births and the Sydneian *Committee relies on Old Sydneians to notify the Assistant Secretary, 31-9831 whenever they hear of an event which should be recorded in this section. If full details are not known the Committee will make further enquiries.*

Engagements

SHEPPARD — DUNCAN: Reverend E. D. M. Sheppard of Guildford to Miss Patricia Duncan of Mascot on 19th March, 1963.

PRICE — MITCHELL: Keith W. Price of 'Innesfail', Gurley to Miss Rhonda Kathleen Mitchell of 'Glen Luna', Gurley on 12th June, 1961.

MAYBURY — WORTON: J. R. (Ross) Maybury of Balmoral to Miss Heidi Worton of Sussex, England on 30th March, 1963.

FALK — MCBETH: Peter R. A. Falk of Rose Bay to Miss Fay McBeth of Christchurch, New Zealand on 17th November, 1962.

Marriages

MCLEAN — GOWE: David J. McLean to Miss Lynda Gowe of Toronto, Canada, on 21st October, 1961 in Toronto, Canada.

BRUWELL—O'FARRELL: Ross Bruwell to Miss Christine O'Farrell of Milson's Point, at St. Phillip's, Church Hill on 1st December, 1962.

JAMIESON — WHELAN: John Jamieson of Hunter's Hill to Miss Lorraine Whelan of Glen Iris, Melbourne on 15th April, 1963 at Melbourne.

EDWARDS — MEDCALF: John C. Edwards of Denistone to Miss Marion L. Medcalf of Epping at St. Phillip's, Church Hill, on 15th November, 1962.

ALCOCK — HAYTER: F. J. G. (John) Alcock of Mosman to Miss Carol Hayter of Mosman on 24th April, 1963 at All Saints Church, Woollahra.

RAMSBOTTOM-ISHERWOOD — ROBERTSON: Paul D. Ramsbottom-Isherwood of Double Bay to Miss Suzanne Robertson of Mosman on Saturday 12th January, 1963, at Scots Kirk, Mosman.

COLLINSON — BURGESS: Dr. David Collinson of Mosman to Miss Deidre Burgess of North Ryde on Saturday, 12th January, 1963, at St. Phillip's Church, Church Hill.

HALL — WILLIAMSON: Peter Hall of Hong Kong, formerly England, to Miss Elizabeth Ann Williamson of Chester, Cheshire, England on 17th November, 1962, in England.

VASSALLO — MCRITCHIE: William Vassallo of Woollahra to Miss Dawn McRitchie of Marrickville, on 30th March, 1963.

QUILTER — BOURKE: John Quilter to Wendy Bourke of Cowra, N.S.W., 25th May, 1963.

OBITUARY

Harold Raymond Cowdery, C.B.E.

Harold Raymond Cowdery, who was at Grammar from 1902 to 1909 died at Scone on 16th March 1963 at the age of seventy-one. In his time he played in the 1st XV and rowed in our last and winning Championship IV. His

father, Robert, and his two brothers, Eric and Frank, who pre-deceased him, also attended Grammar. On leaving School he went as a jackeroo to the J. H. Doyle Estates Co. Pty. Ltd., and later he became its Chairman of Directors and Managing Director. He served in the Great War in the 47th Battery, 12th Army Brigade, and was commissioned.

He had been a member of the Central Wool Growers' Committee, a member of the Australian Wool Realisation Commission, a life member of the Australian Wool Growers' Council, President of the Executive Committee of the Graziers' Association, 1942-44, and vice-president of the Graziers' Federal Council. In 1956 he was created a Commander of the British Empire in recognition of his promotion of Australian Wool here and overseas.

In Scone he was well known for his many interests and benefactions. Except in so far as failing health began to circumscribe his activities, he remained in control of his business and fully aware of the School's progress.

G.F.R.C.

'The Sydneian' regrets to record also the deaths, of which it has been advised since the last issue, of the following Old Sydneians.

THOMAS BUTLER late of 30 Parnell Street, Strathfield on 4th December, 1962. Age 77.
THOMPSON, W. J.
COY, F. W., of Cremorne.
HARRIS, DR. R. G. S.
WALTER, V. B.
SCOTT, D. M.
BLANTON, D. S.

LIST OF NEW MEMBERS AS FROM OCTOBER 24, 1962
