FRONTISPIECE

The great surprise expressed by many boys when they see a pre-1940 Sydneian *is sufficient justification for the frontispiece that appears in this number of the magazine.*

It is of course the old front cover design from the Sydneian, *now a piece of Grammar history. It first appeared on the* Sydneian *of April 1899. The previous cover, of somewhat simpler design, had been discontinued because, as correspondents in the magazine had pointed out, it was not sufficiently striking to grace the cover of the leading school publication in Australia. This design was used, with a few minor changes and in many different colours, until 1940, when a design similar to today's cover was used for the first time.*

So although it is a quarter of a century since the old cover was last seen, it has appeared on more than three times as many Sydneians, *155, as the present cover, which makes its fiftieth appearance in this number.*

SYDNEY GRAMMAR SCHOOL

THE VISITOR TO THE SCHOOL

HIS EXCELLENCY LIEUTENANT GENERAL SIR ERIC WOODWARD, K.C.M.G., K.C.V.O. C.B., C.B.E., D.S.O., GOVERNOR OF NEW SOUTH WALES

TRUSTEES OF THE SCHOOL

Chairman: NORMAN COWPER, Esq., C.B.E., B.A., LLB.

Vice-Chairman:
W. E. R. FRANCIS, Esq., C.B.E., B.A., LLB.

THE SYDNEIAN

No. 352 **JULY 1964**

EDITORIAL

School Editor: N. DETTMANN

Assistant Editor: R. N. CARTWRIGHT

A glance through past *Sydneians* shows that one subject which seems to appear regularly is poor attendance at football matches. However the time has come when this subject must be taken up once again. There is a hard core of regular supporters who watch every match, a group that sometimes comes, and, though we are loth to say it, quite a large group that does not see a football match from one year's end to the next. Although it may not now be true as was said in the *Sydneian* in 1927 by 'J.O.N. SIXTH FORM' that 'the majority of chaps nowadays prefer to go to the pictures in their Oxford bags and sports coats', many boys do still seem to want to be somewhere other than at the football on Saturday afternoons.

It is of course too drastic a measure to make attendance at the football compulsory; when asked to do this by a group of keen footballers one former headmaster is said to have agreed on the condition that at the same time he should make attendance compulsory at the cricket during the summer.

Strangely the footballers did not press the matter.

While there may be boys who for some reason or other can gain no enjoyment from watching a game of football, they are very few in number. The other thousand boys at the school should surely come and support the senior teams.

Many of the boys would agree that there are few experiences at school equal to watching an exciting game of football, barracking hard for the Grammar side and at the same time knowing that sitting within a few feet of you are many other fellow Grammar boys, all hoping desperately, just as you are, that the team can score that one try or hold off their opponents' onslaughts for those last few vital minutes. To sit with the school through such a match as this year's

trial against High or the great match against St. Joseph's in 1961 is really to appreciate the meaning of the term school spirit.

Unfortunately it is not possible to barrack the team to a thrilling last minute victory every Saturday.

> 'We have not been winning the competition lately, but this should be no reason for not going. In fact, it should be all the more reason for a boy to urge his school on. It is a poor sort of chap who only goes to see his school when it is winning. Moreover, it has a demoralizing effect on the team when it gets such little support from the school. Encouragement is fifty per cent towards winning a match.'

Written for the *Sydneian* thirty-one years ago this extract fits the situation just as well today as it did then. For on the face of things it does seem unreasonable for the school to expect the members of the First Fifteen to give of their best, to play themselves into exhaustion, if half the school is not even interested enough to come and watch.

This year we all hope for and expect some football successes. But whether we are outplayed or not, at least let us not be outbarracked.

LETTERS TO THE EDITOR

Sir,

I can no longer remain silent on the subject of the Prefects' tie.

Last year a special tie was introduced for Prefects and Sub-Prefects. The purpose of this innovation was to make Sub-Prefects more easily recognisable, particularly during the winter months, when the badge worn by these gentry is often obscured by an overcoat. Thus this badge was made superfluous, and is no longer worn.

But is there any need to make Sub-Prefects so easily recognisable? Surely the prestige and authority of the Prefects does not stem from their badges, ties and hats, from the fact that they wear different clothes from the rest of the school. Any Prefect who has to hide behind a tie is surely not worthy of his office.

A metal badge, preferably smaller than that worn before by Sub-Prefects, would be sufficient identification for them, and would be comparable to the inconspicuous laurel branches worn under the badge on the coat pocket of full Prefects. I would like such a badge to be worn by the Sub-Prefects, and all Prefects to be allowed again to wear the normal Grammar tie.

If, however, this proposal is not adopted and Prefects are still to wear a special tie, could the design be altered to give an effect more pleasing to the eye and also to bring the tie within the rigid regulations as regards breadth which must be observed by the rest of the school.

I realize that the question of appearance is a very subjective one, for 'beauty is in the eye of the beholder' and everyone is entitled to his own opinion on such a question, but I for one can find very little beauty in the present Prefects' tie.

Yours etc.,
DISSATISFIED

Sir,

Why have the old Sub-Prefect badges been cut out?

I think that these badges should be presented to the acting Sub-Prefects when they are appointed so they may be identified by younger boys of the school who don't know these boys by sight.

Yours etc.,
J.A.T.

Sir,

Compared with those of other schools, our school library is very comprehensive and generally well organised. But when can we use the books constructively? Rule 19 of the library says that the library

is open from 8.30 a.m. until 4 p.m. but this may be varied without notice. In this time we have 25 minutes before school, about 40 minutes at lunchtime and a further 45 minutes after school. Before school and during lunchtime talkers are reminded of the recently acquired notice, 'SILENCE', which state usually prevails in the near full library at these times. But beware, any studious fellow who intends getting any profitable study done in the longest period available, after school. It is just not possible, because about half a dozen librarians are there without fail, whistling, singing or carrying on conversations from one end of the library to the other, while putting stray and used books away and, job completed, they drift together to participate in loud communal discussions on a not too wide range of subjects, not caring if there are two or ten in the library trying to study. They have their own room, so why don't they use it for such things?

Rule 1 of the library states 'Silence is to be observed as far as possible in the reading room. Ordinary good manners and normal behaviour is expected at all times.' The librarians and their assistants are the main offenders of this most important rule. Can't something be done about this, so the library can become of full use to the boys?

A library is a place where people should be seen and not heard.

Yours etc.,
J.C.G.

Sir,

During the recent half-yearly examinations the question arose of what to do between exams.

On the last day of the exams, after a morning Chemistry examination, I began to assemble a paper aeroplane. I did this for the following reasons.

Firstly, I was relaxing after the stress of a thorough two hour exam and my mind needed a break, something different to focus on.

Secondly, it is a fact that if, say, ten columns of figures are added up at speed, it will take considerably longer to add the last column than it took to add the first, for the mind will be working more slowly. I was keeping my mind off Maths.

Thirdly, from the invigilator's dry remark, made after he had closely watched the whole operation, 'Don't you think that you had better get on with something more profitable than that?' the question of profit arises. Will it not profit me more to get a good mark with a

mathematically fresh brain than to get a poor one with a mathematically tired brain?

Finally, my aeronautical undertaking was all of three things, relieving, enjoyable and interesting.

I ask but one question. Does not a person know, himself, how best to prepare for an exam?

Yours etc.,
I.C.F.

PRIZE GIVING, 1963

At the Annual Speech Day, on 11th December 1963, the Official Visitor to the School, the Governor of New South Wales, Lieutenant-General Sir Eric Woodward presented the prizes.

In his address the Governor remarked on the fact that quite a number of the boys receiving prizes for Maths. and Science gained awards for Arts subjects, and said that this was evidence of the school's attempt to give boys a full and wide education.

THE CHAIRMAN'S ADDRESS

I welcome His Excellency and Lady Woodward on behalf of the School. We are always delighted, Sir, when you are able to accept our invitation to visit us for the Annual Speech Day.

The first matter to which I must refer is the departure from the School next year of the present Headmaster. We understand and respect the reasons why he has accepted the invitation of the Council of Scotch College, Melbourne, to assume the headmastership of that School, but we are deeply sorry that the Sydney Grammar School is losing him. From the time when he took up his position with us twelve years ago he showed a remarkable understanding of the peculiar nature of this School and of its needs. No man could have accomplished more for it, and no man could have served it with greater devotion. The two fine preparatory schools are part of his achievement. The immense improvement in and expansion of the buildings and equipment of the School are due mainly to him. The standards of the School in scholarship, sport, culture, discipline and manners have been greatly enhanced. The School has never stood higher in the estimation of parents, old boys, educational authorities and the general public. Mr. Healey's achievement would not have been possible if his fine qualities of mind and character had not been driven into action by intense energy and incessant care for details. Nor would it have been possible if he were not a very humane, thoughtful and generous man, with a never-flagging interest in the boys under his stewardship. And it would not have been possible if he had not always been helped and sustained by his wife,

whose lively humour, good Yorkshire common sense, kindness and strength have made us all admire and love her.

Mr. Healey has indeed been a great headmaster here and we wish him and Mrs. Healey the same success and happiness at Scotch College as they have had with the Grammar School.

I remember a former Headmaster, Mr. Dettmann, speaking at a dinner to welcome a Victorian scholar who had taken a chair at Sydney University. Mr. Dettmann remarked that the presence of Professor X showed that good men can come out of Victoria, and when they can they do. Here we have a good man indeed who is defying the laws of nature and going out of Sydney to Victoria. His decision dismayed us, but in my experience things never turn out to be as bad as they seem to be when they happen.

The Trustees are embarking at once on the search for someone to replace Mr. Healey as soon as possible. We feel, as Mr. Dettmann felt, that the laws of nature are in our favour and we expect that this time next year we shall be able to present to you a new Headmaster who will bear comparison with Mr. Healey.

The Headmaster's printed report, and his address which he is about to deliver, indicate achievements during the year of which the School may be proud. I shall not refer to them further, but shall mention certain developments of great importance to the future of the School.

Relying on the continued strong support of the Old Sydneians' Union and of our other benefactors and with the assistance of the School's bankers, the Trustees have resolved upon the following matters, all of which are being put into effect. First, a fine site for the Edgecliff Preparatory School, which at present occupies premises in New South Head Road leased from the Church of England, has been bought from the New South Wales Lawn Tennis Association, plans for the school buildings including a headmaster's residence have been approved, and construction will commence early in the New Year. I hope that the new school will be ready by the second term of 1965. Extensions to the School House at Randwick, providing more quiet study rooms for senior boys and better accommodation for resident masters, will be commenced early in the New Year. At St. Ives Preparatory School a large sum will be spent in providing additional class rooms, a new junior dormitory block, a residence for the assistant headmaster, a new common room for masters and adequate administrative accommodation. These developments will enable better provision to be made for music, arts and crafts and hobbies. They will greatly enhance the facilities of this fine preparatory school. Through the enterprise and hard work of a committee of parents, and with some assistance from the Trustees, enough has been raised to warrant the signing of the contract for the construction of a swimming pool, which has long been desired by the parents of the boys at St. Ives, and which the Trustees regard as a valuable addition to its equipment. The facilities of the main School are gradually being increased by the use of space in the Palladium building as it is released to us by the Commonwealth.

The other matter to which I wish to refer is the decision of the Trustees to establish the Sydney Grammar School Scholarship Fund. Frequently cases

are brought before the Trustees of boys already at the School for whom, because of the death of a parent or for some other reason, it has become impossible to provide the usual fees; and other cases of boys of high quality, whose parents are very anxious to send them to the School, but cannot afford the fees. In many of these cases the fathers are Sydneians. In nearly all of them the boys are deserving of the kind of education which the Grammar School can provide — deserving because of ability and character — and we are entitled to think that if they were given that opportunity they would be helped to contribute to the community after they leave school more than they otherwise could do. Through the generosity of benefactors in the past certain scholarships are already available — the Chauvel Scholarships, the Orwell Phillips Fund, the Grainger, the Women's Association scholarships. But the assistance that can be given through them is not nearly enough, and it is much less than many other great schools are able to provide. Consequently the Trustees have established the Sydney Grammar School Scholarship Fund, which they hope will attract the interest and generosity of benefactors. They have been able to make initial contributions to the Fund by the munificent bequests which were made to the School by the Will of a Sydneian, the late Colonel J. B. Pye. He gave a legacy of £2000, and a share of residue, on account of which £10,000 has been received. The Trustees with the approval of Col. Pye's executors have decided to devote the total sum, which may amount to £14,000, to the Scholarship Fund.

I conclude as usual by expressing the gratitude which the Trustees feel to the Old Sydneians' Union, the Sydney Grammar School Women's Association, and the Sydney Grammar School Fathers' Association, for their invaluable support, to the masters for their efficiency, enthusiasm and hard work, and to the boys for their strenuous endeavours and happy achievements.

THE HEADMASTER'S REPORT

THE number of boys enrolled at College Street this year was a little higher than last year, being 1,044; at St. Ives there were 277 and at Edgecliff 238, making a total of 1,559 boys in the three schools.

The year has been marked for us by sadness. A second scholar of this year's Leaving Certificate class, Ian Campbell, died in May. It was only a few months previously that Robert Rottenstein, of the same class, had died. Ian Campbell was a most promising scholar, for whom the prospect in Mathematics seemed particularly bright: his death was a great shock. Not long after this there occurred the tragic death, during a football match with our First XV, of Richard Marshall of 'Shore'. An article concerning this tragedy will be found in the December number of *The Sydneian*. The deep sympathy of the school with Mr. and Mrs. Marshall and with 'Shore' has been allowed expression by participation in the memorial to be erected to Richard Marshall at the Shore playing-field at Northbridge.

In May, 1963, Mr. T. G. Jones, B.A., A.P.Ps.S., M.A.C.E., came to us from St. Peter's College, Adelaide, to take over the headmastership of the Sydney Grammar Preparatory School, St. Ives — Mr. and Mrs. Jones have immediately

shown how fortunate we are in their coming. At College Street during the year Mr. G. Stathakis, B.A., joined the staff from Sydney University. Mr. G. F. R. Cowdery left us in June, for reasons of health; Mr. Hobart, already on the staff, has succeeded him as Librarian. Leaving this term are Mrs. K. Lenthall, who has been so skilful in teaching Zoology and Biology; Mr. K. B. Potten, Second English Master and expert dramatic producer; Mr. J. C. L. Nelson and Mr. P. Spencer, who are both going to teach for a year or two in England; and Mr. J. W. Flecker, who is returning to England. Their places will be filled by Mr. A. M. Thomson, from Southport School; Mr. A. H. Hunt, who is completing his Science degree at Sydney University; and Mr. N. J. Windred, B.A., (New England). Two other vacancies remain to be filled.

The developments in the curriculum made possible by the Wyndham scheme have been most ably handled by Mr. G. McAuslan (Art and Craft, especially Pottery), Mr. G. E. Hall (Music), Mr. D. H. Green (Physical Education) and Mr. N. Hodges (Woodwork). Though their rooms and facilities are by no means perfect, the work they achieve is admirable. It was especially pleasing to see and hear a school orchestra, with music written specially for the occasion, taking part in the Globe Players' dramatic production, Rattigan's *Adventure Story*, superbly produced by Mr. K. B. Potten. In Music, Mr. Hall has been greatly assisted by Mr. J. W. Flecker and by Miss J. Mackerras, who teaches Violin classes. Music should now increase in skill and popularity. Mr. Holland continues to give us the benefit of his playing as accompanist at the concerts held after weekly assemblies, a feature of the 'Arts and Interests' courses and functions which Mr. M. Searle organises. His weekly bulletins publishing events of cultural interest in Sydney, the courses he arranges for Second and Fifth forms in school time, the theatre and concert parties that are increasingly well supported, and the Arts and Interests Day of exhibitions in May and the Eisteddfod in December, all bring the greatest credit to Mr. Searle's knowledge and enthusiasm, and are an increasing benefit to our school life.

The traditional scholastic progress of the school has been satisfactory. In 1962 127 boys passed the Leaving Certificate examination. In contrast with 1961 almost none who were on the border-line had that extra good luck which perhaps they needed. However, there was the greatest number of Honours (74, 28 1st Class and 46 2nd Class) ever gained by the school: five boys were in the first 200 — W. D. Edmonds, 50th; P. J. Harris, 69th; G. B. Elkington, 70th; J. A. D. Haddon, 88th; M. B. Dally, 198th — two boys gained first place in their Honours subjects: H. T. Andrews, 1st in Ancient History; J. A. D. Haddon, 1st in Economics; W. D. Edmonds was 2nd in Modern History and P. H. Guinness 3rd in Greek. Thirty-one Commonwealth Scholarships were gained: eleven of the year's Leaving Certificate candidates had already gained their scholarships in 1961. 174 boys gained their Intermediate Certificate.

Awards both in Science and Mathematics have been gained by pupils of the school during the present year: the Science Teachers' Association of New South Wales made awards in the Senior Section of their competition to J. Hedberg and P. Anderson, G. Epstein, G. Drummond, R. England and J. Morris; and in the Junior Section to R. Howard and S. Gracie. In the School Mathematics

Competition arranged by I.B.M., in the Senior Division G. Teale was one of the 3rd Prize winners, and D. H. Sonnabend won a Certificate; in the Junior Division H. B. Loudon was one of the 3rd Prize winners and J. Elmgreen, G. Perry and P. Weaver won Certificates.

The school is increasingly indebted to the Sydney Grammar School Science Association, under the Presidency of Dr. E. P. George, for financial support both for the Building and Equipment Fund and for scholarships; for arranging lectures for parents interested in the new secondary Science course; for sponsoring the Conference on 'Chemistry and the Higher School Certificate', resulting in the formation of the Chemistry Education Committee; for providing Science lectures open to boys and girls of all schools during August; and for assisting Mr. Maclay and the Science Staff in the organisation of our annual Science Day.

This year's Annual Science Day, the sixteenth, was made memorable by the opening of the additions to the Science Building by the Right Honourable Sir Robert Menzies, K.T., C.H., Q.C., M.P., Prime Minister of Australia, who was accompanied by Dame Pattie. Representatives of the two organisations whose contributions made this building possible also spoke to us: Mr. G. K. Herring, as President, for the Old Sydneians' Union; and Mr. L. C. Robson, C.B.E., M.C., former Headmaster of 'Shore' and an Old Sydneian, for the Industrial Fund for the Advancement of Scientific Education in Schools. The Science Building now contains seventeen large rooms and a lecture theatre: of these, eleven as well as the lecture theatre are in use for science teaching; and four of these eleven are designed, with sub-divisions into separate smaller rooms, for advanced work and research. Five more rooms in the new building can be later converted to Science, so that we should have ample room for the expansion of this department. This part of the school's planned building and re-organisation may therefore be regarded as complete or nearly complete.

The Trustees have now made the necessary financial arrangements for the commencement of the next phase of our development: the Preparatory School at St. Ives will have substantial additions in the provision of better accommodation for the boarders and both resident and non-resident staff, of class-rooms doubling the intake at a point lower in the school, and of such amenities as a swimming-pool and better facilities for art, craft, music and administration.

The purchase from the New South Wales Tennis Association of the hard tennis-courts adjacent to Alma Street, close to the Weigall Ground, has enabled the Trustees to instruct our architect, Mr. Peter MacCallum, partner of Mr. T. M. Scott to whom we owe so much, to proceed with the plans for a new home for the Edgecliff Preparatory School.

Substantial additions have been ordered for the School House, so as to provide slightly larger dormitory space, better accommodation for resident masters, and much more accommodation for quiet study-rooms.

Within a very short time now we hope to receive full possession of the Palladium site (and begin paying for it!), where we have already been able to move into the upper floor at the northern end and where considerable temporary construction, to be done these holidays, will give us three more class-rooms and better access to the five class-rooms newly in use this year on the upper floor.

The sporting record of the school this year is as follows. In Cricket we won the premiership for the second year running with only two of last year's side, and for the fourth time in six years, a great tribute to the captaincy of J. B. Kenny and the coaching of Mr. Young. At the time of writing the Second XI was in second position. Other teams did well and the school is most lucky in having the help of Mr. J. D. Leslie, a former school cricket captain, as coach of the Under 14 B XI team and Mr. R. J. Stevenson, who retired two years ago, with a Lower School XI. Several masters are playing 1st grade club cricket, including Mr. Ives who gained selection in a N.S.W. Colts XI against Queensland.

Over 300 football matches were played, a good majority being won. The First XV began most promisingly, but had a most unhappy season, as already mentioned. The Second XV were runners-up in their competition. A feature was the improved strength at lower levels, e.g. the Fifth to Eighth senior teams and the Under 14 E to H teams, showing that it is a game for all, not just for the experts. The contribution by boys as assistant coaches, referees and First Aid assistants is most valuable. It is important to remember, too, that though a great majority of boys play football, not all are compelled to do so, as is sometimes thought. Besides the fact that for Sixth Form boys sport is optional, boys at all stages in the main school may take alternatives to football, if they show sufficient interest or are deemed better fitted for the alternatives (tennis, gymnastics, running, basket-ball).

In Athletics, the Senior Team finished 5th in the G.P.S. competition, in a close group all of whom were well behind the winners, St. Joseph's. The Junior Team scored a splendid victory, 'coming from behind' to score impressively in the last events of the meeting. Perhaps the most enjoyable part of the season, because far more boys can participate, is the series of four practice meetings with various schools. 1,042 Standards were gained this year, many fewer than in 1962: to some extent rain accounted for this reduction in number, but it must be observed that many boys who could do well do not train sufficiently to this end. There have been more coaches this year to help Mr. Moore in this big task, and senior boys gave admirable assistance in the administration of the standards competition, which is no light task.

The Rifle Team were premiers again for the fifth time in seven years and the third year running; three trophies adorn the walls of Big School. The second team were runners-up. Mr. Hill, who was away for part of the season, and Mr. Birch are to be congratulated, as are the Captain and members of the teams.

In Rowing the school First IV coached by Mr. Monks won the Yaralla Cup by 1½ lengths; this is the first time for 24 years. Other crews had looked promising, but showed the effects of lack of experience on the Regatta day. Thanks are due to Old Sydneians and parents, Messrs. R. Caswell, T. Heath and C. Schmidt and Dr. J. Matheson, who helped the masters at the Boat Shed and, of course, to the Parents and Friends of the Boat Club.

About 100 boys took part in school tennis, with many Saturday matches: the 1st team was beaten by the premiers in the G.P.S. competition, but won another knock-out competition among 8 schools.

Our swimming teams won 2nd places this year in unofficial G.P.S. events, the outsanding swimmer being P. Howard, who won 9 senior events with 2

records in our swimming carnival, a probably unprecedented achievement. The Women's Association made a generous gift of trophies for this sport.

I must emphasize two aspects of our physical education: first, the great contribution that is being made and will be made by the increased use of the Gymnasium under Mr. D. H. Green; and secondly, that it is often disappointing for a boy to find that he cannot get into a team — it must be remembered that some of our opposing schools cannot always produce as many teams as we could provide. It is of interest to note that both last year and this year we were the only school to win two premierships and that we have therefore been premier school both years.

An innovation is the Sydney Grammar School 'Swap Shop', the venture of some energetic fourth form boys. It is being conducted in a business-like way, with younger boys being trained for succession to management. It offers second-hand clothes and books for sale and has also taken over the management of the Lost Property Office.

It gave us all great pleasure to see the efforts of Mr. R. C. Knock and his helpers rewarded by the winning of the G.P.S. Debating Competition, a reward they certainly deserve for the keenness in debating inspired in the school generally.

The Outward Bound Memorial Foundation continues to receive a steady number of boys from this school. The Duke of Edinburgh's Award Scheme has also been conspicuous firstly through Australia's first gold medallist, M. C. Dillon, receiving his award from His Royal Highness himself, at the time of the Royal Visit to Sydney, and now for there being two more boys already qualified for the Gold Award, D. E. Begg and J. C. Golding, and two more still to come. Also Silver awards have been won by R. Colvin and G. Marfleet (the latter an Old Sydneian), but so far only three bronze awards (A. Simpson, P. Read and J. Hedberg) out of 36 boys taking part, which is a smaller number than in the past. Senior boys are now playing a leading part in the conduct of the scheme, but it must be recorded that the response by boys generally in the school has been less satisfactory this year than in 1962.

On the other hand the Cadet Corps has obviously increased in popularity, if we may judge by the unprecedented number of applicants for the Junior NCOs' course to be held in December. This may well be due to the enlightened policy of the Army authorities, and not least of the Chief of the General Staff, in encouraging the idea of what we may call Adventure Training — a realisation that increasing urbanisation makes it all the more important to ensure that cadets at camp get out into the country, on bivouac, as much as possible. The attendance at camp was excellent; and the raising of the establishment by one platoon was most welcome. The Corps had the privilege of being inspected by one of the Trustees, Major General The Right Honourable Sir Victor Windeyer, K.B.E., C.B., D.S.O., E.D.: the Sword of Honour was presented to the Senior Under-Officer, J. J. Barkell, by the Representative Colonel of the Australian Cadet Corps, Brigadier F. G. Galleghan, D.S.O., O.B.E., I.S.O., E.D. The performance of the cadets both at this ceremony and in camp reflects the greatest credit on the O.C., Major R. L. Rofe, and his Officers and Under-Officers: and they are greatly indebted to Major W. F. Robeson, M.B.E., Administering Commander of 2 Cadet Brigade and Major A. H. Lofts, Commanding 7 Cadet Battalion. Cadet Under-Officer W. G. S. Boyd was chosen to break the Queen's Standard

at Queen's Square on the occasion of the Royal Visit; and Cadet Under-Officer R. E. Cooper to assist children of Legacy in the laying of wreaths at the Cenotaph during Legacy Week.

The R.A.N.R. Cadets had a most successful training period aboard H.M.A.S. *Supply* in August and were congratulated by Captain G. V. Gladstone, R.A.N., under whose command they were.

The A.T.C. Flight has been reorganised: Mr. D. G. Hinks has taken Mr. L. O. Scott's place as the school's representative on the commissioned staff; and we are, as before, indebted to Flight Lieutenant B. Randall, an Old Sydneian, who is in command.

The Service Committee has continued its good work under the chairmanship of J. Cartwright. About 120 boys took part throughout Sydney in the Asthma Foundation Appeal; a much greater number assisted the Smith Family with the Lord Mayor's Clothing Appeal in June and July. £40 was raised to paint Cowley Home, the Sydney City Mission's Children's Home at Cronulla, and the boys also carried out this work in the May holidays. £142 was raised for the Freedom from Hunger Appeal, pamphlets were distributed for the Rice Bowl Appeal, and the collection of tinned fruit for the Smith Family's Christmas distribution is now in progress. I must emphasize that it is the work done by the maximum number of boys—I would hope, in time, by every boy in the school — that matters, not the amount of money which may be contributed by the boys themselves, though it is important that they should learn to give.

The discipline of the school has again been good, under a Senior Prefect who is an example to all for his diligence, courtesy, leadership and sense of propriety. The School House has been well led by its Captain, S. Murray.

It has clearly been a year of great material progress and reasonably sound scholarship, though public examination results this year are not likely to be better than average. The soundness of the staff at a time of great curricular changes is a matter for great thankfulness and I am sure that we can look forward to the future of the school with the greatest confidence. It is surely not irrelevant to note that, among many successes by young Old Sydneians at universities, B. K. Dickey recently gained a brilliant First Class in Modern History at the University of Cambridge in 1963, H. E. Doran shared the Medal for Applied Mathematics in Class 1 of the Final Honours B.Sc. examination in the University of Sydney in 1962, and R. A. M. Wilson, who had gained a 1st Class at Sydney, won his Ph.D. at Cambridge in the field of Chemical Engineering.

C. O. Healey,
Headmaster.

11th December, 1963.

THE HEADMASTER'S ADDRESS

Your Excellency, Lady Woodward, Mr. Chairman, Gentlemen of the Board of Trustees, Ladies and Gentlemen,

May I too welcome Your Excellency and say how glad we are that Lady Woodward is able to be present?

I have the honour to present my printed report on the school: it is to be found inserted in the Prize List which you all, I hope, have.

You will, I am sure, allow me to speak on this occasion of myself, though I hesitate to do so, because it seems to make one out to be too important. But I feel that it must be expected.

As you all know I have accepted the invitation of the Council of Scotch College, Melbourne, to go there as Headmaster some time next year. The Trustees of Sydney Grammar School have been aware of the possibility of this invitation from the day I received an intimation that it might be made; and they have throughout the past few weeks acted with the greatest kindness towards me in the matter. I must make it plain that the invitation was entirely unexpected and that I in no way intimated to anyone nor even thought myself of the possibility of a change. The offer having been made, however, I accepted it for quite simple and obvious reasons.

Firstly — and perhaps you will think this selfish — a change often has a rejuvenating effect. I have now been nearly thirteen years here and I do think that in my case that is long enough. I don't think that anyone could at present criticize me for lack of drive, but it would be deplorable if I were gradually to relax my efforts and I think that this could happen if I stayed on here to retirement. Alternatively, I might become too powerful an influence, thus weakening the chances of my successor having the freedom to go his own way. This does happen sometimes and it can be very bad for a school. Thus I believe that it is both in my own interest and in the school's interest that a change should occur: and the unexpected chance has occurred just at the right moment, as I shall in a moment explain.

Of course there are plenty of people to be glad at my going, I have no doubt. One cannot take part in great changes, such as have occurred in the last twelve years, without upsetting some people. Indeed, one gets reminders of this now and then. Not long ago, for some reason best known to the tortuous mind that connected my name, and my office as Chairman of the Headmasters' Conference, and Roman Catholicism with each other, I received a tasteful little advertisement obviously suggesting that I was ripe for a 'Catholic Funeral'. May I remark that my name is, in fact, a perfectly good Anglo-Saxon word? But Headmasters are fair game for this sort of thing and I was reminded of a letter my Headmaster in England, Mr. Flecker's father, once received from the mother of a boy in my house. It ended something like this: 'By the way, I hope that my friend Major Blank will be calling on you soon; he is a very good Big Game shot'.

Headmasters may or may not be big game, but they are sometimes shot at, verbally at any rate.

But I do think that we have reached a particular point in the school's development at which a change may be made. We may be said to have reached the top of a mountain and to be able to look to the more fertile fields beyond. We have, partly with the aid of the Old Sydneians' Union and partly through our Bankers, established new ways and means of financing our development. We look forward to the immediate improvement of our school at St. Ives, where we are lucky to have such an excellent Headmaster, Mr. T. G. Jones (and so charming a Headmaster's wife, too) with the enlargement of the classroom blocks, improved common room and administration facilities, much

better provision for music, art, craft and hobbies, expecially valuable for boarders, and boarding accommodation for younger boys, together with a residence for a married housemaster, and, by the noble efforts of the parents, a swimming pool. I am overjoyed that Mr. R. W. Billing will soon see his school buildings, to which the Edgecliff school will be transferred, rising on the area bought from the N.S.W. Tennis Association, adjoining our Weigall Playing field. Our Architect, Mr. P. MacCallum, has designed a most interesting set of buildings, which will eventually be completed by a splendid new pavilion, serving also as an assembly hall for the Preparatory School, in the S.E. Corner of the Weigall Ground. The School House is about to receive extra study-rooms, an enlargement of dormitory space and better rooms for the assistant masters. And, probably by 1965 we shall be getting the rest of the Palladium at the main school and new and fascinating plans for the betterment of the main school will be produced. This will be the most interesting and ambitious task of all.

At the same time there is the development of the new curriculum to look forward to. This then is the prospect before our eyes.

If we look back along the road up this mountain — and it has been a hard climb — we see what a lot has been done. I want particularly to emphasize that all has been done under the inspiring leadership of Mr. Norman Cowper, who first as Vice-Chairman and then as Chairman has been the moving spirit in our great advance. It is he who has led us, he has had the courage to embark on these great plans of past and future, he has carried this tremendous responsibility. With him has been associated a group of Trustees such as few headmasters have had the good fortune to serve under. The Governing Body of a school is usually little known. Headmasters are praised, their portraits painted, and their going regretted (until it is found that the next man is far better!) Ladies and Gentlemen, you should not forget that the ultimate responsibility falls upon the Governing Body and, if they are not forward-looking, their agent, the Headmaster, can do nothing. But, in addition, as individuals our Trustees have given generously not only of their money, but of their skill and time, each in his own particular way; and I am very conscious of the debt we all owe them.

But I will briefly summarize what we have done. Firstly, the discipline of the school is pretty good: and this includes the main objects with which the school was founded — the advancement of religion and morality and the promotion of useful knowledge. As to the latter, I think back to the state of our examination results twelve or thirteen years ago: when only under 45 per cent of our candidates were passing the Leaving Certificate and under 60 per cent the Intermediate, and that badly. You know how these figures, especially the Leaving Certificate, have improved; and only on Monday I had the pleasure of announcing that 181 out of 189 boys had been recommended for Intermediate Certificates this year. A change indeed, due to a young and vigorous staff. If we look at sport, we see the same picture — and not only just the picture of the first teams, but the high and the low and the greater variety of games played. And now Mr. Green is laying the foundation in the temporary gymnasium of much better physical fitness among the boys. We shall see the fruits of this in a few years' time. If we turn to first teams we see magnificent coaching,

such as Mr. Young's of the cricket team, Mr. Hill's of the rifle team, and others, supported by twice as many young and active coaches as there were twelve years ago. Indeed, over forty masters take part in coaching. I think that some Old Boys tend to forget the importance of teams other than the firsts. A school is good if there is the maximum of participation.

In these two traditional spheres, work and sport, Grammar has regained her former reputation — and I am not afraid of saying this now: that reputation was not so high a few years ago. At the same time there is an increased and proper awareness of the value of Art, Music, Debating, Cadet training and Adventure training. The administration of the school has been re-organised through the Tutor System and parents have much greater access to advice through Tutors. I cannot speak too highly of the immensely valuable work that Tutors do. And it is no small matter for congratulation that there is established a sound principle for the adjustment of salaries, enabling us to attract competent men to our staffs. Finally — and very dear to my heart — the Trustees, aided by some recent handsome bequests — have established in principle a great scholarship fund, which I hope will grow to magnificent size in twenty or thirty years' time. Moreover the Commonwealth Government, in its election proposals, has promised to make grants to parents to help with school fees, an implied recognition of the Independent Schools, whatever their denomination, which as Chairman of the Headmasters' Conference I welcome most heartily.

The school is in many ways unique. Though it is an undenominational school, it nevertheless seems to attract to its staff men of profound faith in God and to allow a freedom for religion to thrive among its boys. It is unique in Sydney, in that it really does derive its pupils from about every suburb. And it is unique in its extraordinary physical dispersion.

It is partly for this reason that I believe it will be good for the school to have a change of headmaster. Our empire is far-flung! The headmaster must have great physical vigour and, I suggest, an insatiable curiosity to know what's going on. I should not like to relapse into being an old character; an inert, if grand, old man; an institutional old nuisance. But I hope that I shall remain a member of the Old Sydneians' Union, just as I retain similar bonds with Christ's Hospital where I taught, and Brasenose College, Oxford, and Lancing College, where I was educated. Too many Old Boys forget their ties with their old schools, through distance and time. They are at fault. And so I hope that the new Alumni Scheme will go on and prosper, an example to all the rest of Australia — though I don't know what Year Group they can put me in!

Before I pass to the customary farewells that have to be made on Speech Day, I should like particularly to congratulate the 1st XI on again winning the Cricket Competition, for the fourth time in six years; the Rifle Team on winning for the third year running; and the Junior Athletic team on their victory. And then let us thank Mr. Glenvale for his devoted coaching of the 1st XV; it is a task much in the lime-light; and it has been fraught with sorrows recently. Mr. Glenvale has asked that another undertake this task and I am sure that we shall all have the greatest confidence in his successor, Mr. Duffy.

You will be sorry to hear that he has recently had a most trying operation on an eye, which we all hope has been fully successful.

To this year's Senior Prefect, J. J. Barkell, the school owes a very great deal. As many of you know, he had a most distressing and tragic experience in mid-year: I think that we must all have admired his fortitude and unfailing goodness. He has led the school splendidly, excellently supported by the prefects.

May I now express our thanks to various people? Mine especially are due as always, to the School Sergeant, Mr. Wells, without whom the school could not run. He never fails us; and, still more remarkable, he never forgets a name!

To the President of the Women's Association, Mrs. Maybury, for all that she and the Association do for the boys. We hope their Fete will be most successful next year.

To the President of the Old Sydneians' Union, Mr. G. K. Herring, with congratulations on his recovery from his illness.

To the President, Mr. R. H. Stroud, and Members of the Fathers' Association and the past President, Mr. N. J. Cross, and new President, Mr. R. J. Pritchett of the Parents and Friends of the Boat Club Association, to the President, Professor P. Gray, and members of the Science Association, and to Mr. S. J. Marshall, Chairman of the Sports Fund Committee.

I am very glad that Mrs. Chase's health does permit her to be present: no one fully knows the extent of her loving generosity to the school.

And now may I particularly thank two masters who make my lot so much easier? The Master of the Lower School, Mr. A. Mackerras, who besides being so good to his boys, is kind enough to save me from making a hash of the time-table, by doing the task himself; and Mr. R. Rofe, Assistant to the Headmaster, who takes a great deal of the daily and hourly worries away from me.

And lastly my very sincere thanks to those long suffering ladies, Mrs. Standen, Mrs. Rowling and Mrs. Miles, who run the office, try to read my hand-writing and have to put up with my ways.

We must now say farewell to several of the staff. Mr. Cowdery left in mid-year, because of his health — which I am glad to say is much better now: our Memorial Library is also a memorial to his planning and devotion.

Mrs. Lenthall leaves us. Like her husband, who retired last year, she has given, without stint of time or effort, her knowledge and skill to many boys who are interested in Zoology and Biology. We shall miss her greatly.

Mr. Potten is returning to England, a great loss to the English Department, to the Globe Players, to the 2nd XI, to Group 3 and to his many friends among masters, boys and parents. We wish him and Mrs. Potten the greatest happiness.

Mr. Nelson and Mr. Spencer are going for a year or two to teach in England. Mr. Flecker is returning to England. We wish them all happiness and success and thank them for all they have done for us.

As to myself, though it is my last Speech Day, I am not leaving for some months yet. I am sure that the Trustees will most successfully select their new Headmaster. I hope that you will all support him immediately.

ADDRESS BY THE HEADMASTER AT THE FUNERAL OF MR. HERBERT ALEXANDER RITCHIE

AT ST. JAMES' CHURCH, KING STREET, SYDNEY, ON 23RD APRIL, 1964

In the last verse of the XVth Chapter of the First Epistle of St. Paul to the Corinthians, which has just been read to us, are the words: 'Therefore, my beloved brethren, be ye steadfast, unmovable, always abounding in the work of the Lord, for as much as ye know that your labour is not vain in the Lord.'

Steadfast and beloved indeed was Herbert Alexander Ritchie. Here is the very pattern of the Christian Gentleman. Has any of us ever known another man of whom we are so certain that no evil was spoken throughout a long life of service to others? Certainly his labour was not in vain; and the Sydney Grammar School was abundantly blessed in receiving nearly forty-five years of service from this great school-master.

As a husband, as a father, he was utterly unselfish; and, as he was in his own family, so he was in the large and ever swelling family of the school and its Old Boys. He caught and held the affection of many thousands of boys and men; no master could set so steadfast, unmovable an example of strict attention to duty, superb skill, and inexhaustible patience and dear gentleness.

Born on the 12th May, 1890, Mr. Ritchie came from the country with a State Bursary to Sydney Grammar School in July, 1903; and left for Sydney University at the end of 1909, winner of the Senior Knox Prize (or 'Dux' of the School), a Prefect, and a member of the First XV and the Second XI. After graduating B.A. at Sydney, he served brief terms on the staffs of Barker College, Toowoomba Grammar School, and The Armidale School. It was at this last school and at the Cathedral nearby, he once told me, that he, who had been brought up a Presbyterian, learnt to love the Book of Common Prayer and the services of the Church of England. He was not the man to obtrude his religion upon those whom he met, but he was steadfast in it, taking especial pleasure in listening to the services broadcast on Sundays, especially from the Church of England, and — while his eyes were yet strong— watching and listening to the televised services, which he would discuss with us, perhaps, the next day at school.

From Armidale he returned to Sydney Grammar School in 1916. An able classical scholar, he now became known as a brilliant and lucid teacher of Mathematics. From 1924 he was Second Mathematics Master; but in 1946, at Mr. Phillips's earnest request, he became Master of the Lower School, responsible for the organisation and discipline of all the younger boys of the school and, by reason of his office, Senior Master (or Headmaster's Deputy). He still retained some Sixth Form Mathematics; and in 1955, at his own request because of advancing years, he gave up control of the Lower School and became officially Senior Master, acting as Headmaster during my absence on leave in 1959.

He thus served with five Headmasters and I, the last of these, cannot adequately tell you the full measure of the kindness, patience and unswerving support and friendship which he showed to me, a man much younger and completely unknown to him, during a time of very great change, such as might well have caused a lesser man than he to doubt or oppose the newcomer. Like all of you, I have lost one of the greatest friends a man could ever have.

I think that he was very glad to act, for a time, as Headmaster of his old school; and glad, too, to lay down the office, remarking wryly that 'it was no sinecure'! The school was happy and supremely well run during his six months of just, humane and firm leadership.

He continued as Senior Master for another year and retired, honoured by all, in 1960.

All of us who were taught by him, or who were lucky enough to have our sons taught by him, know what a loss this meant. He was clear and thorough; he made no attempt to conceal from his pupils that there is no escape from necessary drudgery; yet it could be no drudgery to learn from him and to do the work he set, secure in the knowledge, as one of them said to me, that the written work he gave them would be promptly collected, corrected, marked and courteously returned the very next day without fail. In this, as in all he did, he was a living and immovable example to all his colleagues, abounding indeed in the work of the Lord. So, too, he came to be the confidant of all his colleagues, young and old: he heard their troubles and he gave his advice which — even when it was unpalatable — was always as gentle as it was firm. I never knew his judgment to be wrong; and he was not afraid to tell me when I was wrong.

For he had the greatest dignity, while acting always with the humility of the good Christian. He, who sought no praise, no honours, earned the respect of everyone. In himself he had little confidence; in the rightness of his standards he had abounding confidence. He told me how he worried, waking always early in the morning — about the numbers in the school, the enrolments being his task when he was Master of the Lower School; about the Third XV and the First XV when he coached them; and so on. Thus he understood the anxieties of his colleagues with responsibilities; and he could lighten them with his humour.

But he never let us know much of his own private distresses. Only occasionally did one catch some slight sign of his own private anxieties and emotions:

'This was the generous spirit, who when brought
Among the tasks of real life, hath wrought
Upon the plan that pleased his boyish thought:

. . . . .

Who, with a natural instinct to discern
What knowledge can perform, is diligent to learn;
Abides by this resolve, and stops not there,
But makes his moral being his prime care;
Who, doomed to go in company with Pain, ...
Turns his necessity to glorious gain.'

When he retired, honoured by the Old Sydneians' Union, of which he was a Vice-President until his death, honoured by the Trustees of the School, by his colleagues past and present, and by the boys, he looked forward to his regular visits to the school, as to his club. But his visits had to become less frequent as his eyes gave him increasing trouble. He had more and more to forego the pleasures of reading and of television. Recently we heard with joy that his latest operation had been successful; and he visited us at school once more for lunch. We looked forward to a renewal, therefore, of his weekly visits to Common Room. Meanwhile he had found joy and solace in his membership of the Eastwood Bowling Club and in the company and love of his family.

Uncomplaining, even in his pain, steadfast, loving husband and father — indeed, father to us all — he passed quietly out of life on Tuesday, 21st April, dying as gently as he had lived.

We all of us are here to bear our tribute to this great man; I hope that we shall all treasure the example and affection of this most clubbable of men: we should rejoice in the memory of him; and we offer our deepest sympathy to Mrs. Ritchie and her family.

Can we not herein truly echo the simple words of our School Coat of Arms in respect of the blessing which Mr. Ritchie has been to all of us? LAUS DEO — The praise belongs to God.

PRIZE LIST, 1963

Senior Knox Prize for Proficiency in Sixth Form: *G. L. Teale.*

Junior Knox Prize for Proficiency in Fourth Form: *J. Elmgreen.*

Wigram Allen Prize for Mathematics in Sixth Form: *G. L. Teale.*

Wigram Allen Prize for Science in Sixth Form: *Not Awarded.*

Wallach Memorial Prize for Proficiency in Literary Subjects in Sixth Form (Captaincy of the School): *J. G. Powys.*

Jack Rich Memorial Prize for Proficiency: Fifth Form, *M. L. Cohen, G. N. Epstein;* Second Form, *R. W. Holgate.*

Old Sydneians' Lodge Prize for Proficiency in First Form: *M. J. Field.*

Freeman Meeks Memorial Prize for English in Sixth Form: *J. G. Powys.*

Cyril Rennie Memorial Prize for English: Fifth Form, *T. D. Holgate;* Fourth Form, *H. A. Billing.*

William Shepheard Laidley Memorial Prize for English Essay in Sixth Form: *R. F. Clark, S. H. Scarlett.*

Arthur Moorehouse Watkins Memorial Prize for English Essay in Fifth Form: *D. H. Sonnabend, K. E. Ward.*

Russell Jones Prize for Greek in Sixth Form: *Not Awarded.*

Sir John Sheppard Prize for Interest in Greek Literature: *D. N. Vuaran.*

George Knox Prize for Latin Prose in Sixth Form: *D. B. Stewart-Richardson.*

Mary Fairfax Prize for Latin: Sixth Form, *D. B. Stewart-Richardson;* Fifth Form, *P. G. Lennox.*

Geoffrey McLaughlin Memorial Prize for French in Sixth Form: *R. C. Baxter.*

Citizens' Prize for Modern Languages in Sixth Form: *Not Awarded.*

George Docker Memorial Prize for Modern History in Sixth Form: *A. G. Bancroft.*

John Estell Memorial Prize for Modern History in Fifth Form: *R. N. Cartwright, B. R. Dawson.*

William Yabsley Prize for Mathematics in Fifth Form: *M. L. Cohen, G. N. Epstein.*

Charles Stanley Forster Memorial Prize for Physics: Sixth Form, *G. L. Teale;* Fourth Form, *D. R. Walker.*

Edward Rennie Memorial Prize for Science: Fifth Form, *M. L. Cohen, G. N. Epstein, D. W. Storey, D. H. Sonnabend;* Fourth Form, *J. H. R. McEvoy.*

Robert Vicars Prize for Science in Fifth Form: *D. W. McSweeney, M. C. Simmons.*

Brian Kentwell Memorial Prize for Science in Fourth Form: *Not Awarded.*

Godfrey Cureton Memorial Prize for Applied Mathematics: Sixth Form, *Not Awarded;* Fifth Form, *Not Awarded.*

Sylvia Weigall Chase Prizes for Chemistry (The S.G.S. Science Association): Sixth Form, *R. C. Baxter;* Fourth Form, *J. Elmgreen.*

Godfrey Cureton Memorial Prize for Ancient History: Sixth Form, *P. R. Anderson;* Fifth Form, *J. E. N. Rolfe.*

Edward Carter Memorial Prizes for Arts and Interests: *P. R. Caney, C. A. Copeland, B. N. Goold, B. R. O'Brien, P. B. Weaver.*

Christopher Tayler Prizes for Spoken English: Sixth Form, *R. F. Clark, J. P. Loh, J. L. Sharpe, K. D. Wilhelm;* Fifth Form, *M. L. Cohen, T. D. Holgate, P. J. Steel.*

Alroy Cohen Prize for Oratory: *R. F. Clark.*

C. E. Ranger Prize for Art: *S. T. Schilizzi.*

The Old Sydneians' Lodge Prize for Spoken French: Sixth Form, *R. C. Baxter, C. H. Watson;* Fifth Form, *G. N. Epstein, K. E. Ward;* Fourth Form, *J. Elmgreen.*

Citizens' Prizes for Spoken German: Sixth Form, *M. L. Flegg;* Fifth Form, *P. J. Steel;* Fourth Form, *J. Elmgreen.*

Wallach Memorial Prizes for Credits: *I. R. Indyk, M. C. D. Lewington.*

John F. Fenwick Prizes: *R. E. Cooper, S. E. Peipman.*

Isabel Van Heuckelum Prize: *D. C. Watt.*

Arthur Giles Memorial Prize: *G. H. Pike.*

School House Cup: *S. J. R. Murray.*

The Rawson Cup: Awarded to the Senior Prefect: *J. J. Barkell.*

Farrar English Prizes: Form VI, *P. R. Anderson, J. P. Loh, J. F. Cartwright, R. F. Clark;* Form V, *K. E. Ward, G. N. Epstein, M. L. Cohen, D. H. Sonnabend;* Form IV, *M. W. Inglis, B. R. O'Brien, J. L. M. Stewart;* Form II, *D. G. Fairlie, J. R. Nicholas, R. R. Nicholas, H. C. White, R. W. Holgate;* Form I, *O. P. Phillips, M. J. Field, J. R. M. Ffrench, P. J. D. Rosenwax.*

Latin Prizes: Form VI, *J. M. Morris;* Form V, *K. E. Ward, B. R. Dawson;* Form IV, *D. R. Walker, J. Elmgreen;* Form II, *W. H. Fowler, R. H. Shaw, R. J. B. Allsop, R. W. Holgate;* Form I, *M. J. Field, G. H. Pike, W. B. McKenzie, P. J. Stamell, R. R. Michaelis.*

Greek Prizes: Form VI, *G. L. Teale;* Form V, *P. G. Lennox, D. W. Storey;* Form IV, *D. R. Walker, M. T. Williams,* Form II, *D. G. Fairlie;* Form I, *P. R. Campbell.*

Citizens' French Prizes: Form VI, *R. J. Howson;* Form V, *G. N. Epstein, K. E. Ward;* Form IV, *J. Elmgreen, T. A. Gregory, M. T. Williams;* Form II, *R. H. Shaw, S. J. Rosenman;* Form I, *C. P. Taylor, M. J. Field, G. H. Pike, D. P. Norton.*

Citizens' German Prizes: Form VI, *J. H. Kent;* Form V, *M. L. Cohen, K. E. Ward;* Form IV, *J. Elmgreen, T. A. Gregory, P. R. Hofstetter;* Form II, *S. A. Kent, S. C. Finlay.*

Modern History Prizes: Form VI, *J. F. Cartwright, M. C. Dillon, D. A. Epstein, T. Hyde-Page, J. P. Loh;* Form V, *J. E. N. Rolfe, R. B. Spinak, J. H. Wade;* Form IV, *R. S. Cowan, J. R. Sommerlad, M. W. Inglis, A. H. Jakubowicz;* Form II, *L. R. Brown, R. R. Nicholas.*

Social Studies Prizes: Form I, *S. E. Peipman, I. W. Greenhalgh, B. L. Cohen, S. C. Thouard, R. Clifton-Smith, R. Pennell-Johnston.*

Ancient History Prizes: Form VI, *J. F. Cartwright, J. N. Maltby;* Form V, *R. N. Cartwright, G. Sved.*

Sixth Form Special Essay Prize: *J. G. Powys.*

Geography Prizes: Form VI, *T. McNamara, J. G. Powys, C. K. Hindmarsh;* Form V, *J. Fegent, G. C. Wirrell, R. E. Bevan;* Form IV, *J. G. E. Warren, G. J. Smith, R. D. MacDonald, G. M. Jones;* Form II, *R. J. B. Allsop, R. A. May, R. W. Holgate, P. L. Marsh.*

Economics Prizes: Form VI, *R. F. Clark, A. E. L. King;* Form V, *Not Awarded.*

Accountancy Prizes: Form VI, *P. R. Caney;* Form V, *P. D. Goodman.*

Business Principles Prizes: Form IV, *J. W. P. Lewis, J. J. McSweeney.*

Commerce Prizes: Form II, *P. G. Lamplough, K. C. Bate.*

Mathematics Prizes: Form VI, *D. B. Stewart-Richardson, J. M. Morris, M. B. Dally, P. C. Taylor;* Form V, *D. H. Sonnabend, D. W. Storey, B. R. Dawson;* Form IV, *C. J. Dunston, J. Elmgreen, P. B. Weaver, T. A. Gregory;* Form II, *R. W. Holgate, R. G. Stedman, B. F. Walker, W. H. Fowler;* Form I, *G. H. Pike, M. J. Field, O. P. Phillips.*

Physics Prizes: Form VI, *D. B. Stewart-Richardson, M. B. Dally, J. M. Morris;* Form V, *E. Wajnryb, T. D. Holgate;* Form IV, *P. R. Thompson, M. S. Boyd.*

Chemistry Prizes: Form VI, *R. N. England, L. A. Milgate, J. M. Morris;* Form V, *T. D. Holgate, K. J. Mutton;* Form IV, *W. A. Green, D. R. Swinbourne, B. R. O'Brien.*

Combined Physics and Chemistry Prizes: Form VI, *R. A. Butler;* Form V, *A. S. Glass;* Form IV, *G. B. Hindle, J. A. Milston.*

Science Prizes: Form II, *J. R. Nicholas, S. A. Kent, J. R. D. Hughes;* Form I, *O. P. Phillips. M. J. Field, P. J. D. Rosenwax.*

Biology Prizes: Form VI, *R. C. Baxter, A. K. W. Wood;* Form IV, *J. P. Horsky.*

Geology Prizes: Form VI, *T. McNamara;* Form V, *D. M. McCarthy, J. Reksten.*

Debating Prizes: *H. A. Billing, R. C. Baxter, R. F. Clark.*

'Sydneian' Prizes: *S. F. Skinner, R. S. Stroud.*

Manual Hobbies Prizes: Form I, *D. R. Stewart, S. J. Dibbs.*

Bible Study Prizes: Form V, *K. J. Mutton;* Form IV, *D. R. Walker;* Form II, *R. J. B. Allsop;* Form I, *A. T. S. Ryrie.*

Junior Writing Prizes: *D. R. Stewart, M. R. Paterson.*

Art Prizes: Form II, *G. B. Goodare;* Form I, *F. J. B. Frizell.*

Music Prizes: Form I, *M. J. Field, D. L. Jacobs.*

Remove, Upper and Lower: Dux, Remove Upper, *N. H. Bill;* Dux, Remove Lower: *R. C. Clarkson.*

Wallach Memorial Prizes for Credits: *G. I. Bradshaw, R. J. Gillespie;* English, *J. S. Greenwood;* French, *N. H. Bill;* History, *R. G. Hardy*; Latin, *H. K. S. Perndt;* Geography, *J. Economos;* Bible Study, *G. J. Murray;* Mathematics, *N. H. Bill;* Writing, *D. R. Talbot;* Art, *D. R. Talbot.*

Preparatory Form: Dux, *W. S. Brooks;* Dux, Lower Division, *V. M. Rafae;* English, *W. S. Brooks;* Reading, *W. S. Brooks;* Mathematics, *W. J. S. Bailey;* Writing, *D. McAuslan;* History, *W. S. Brooks;* Bible Study, *W. S. Brooks;* Geography, *R. C. B. Nixey;* Art, *D. McAuslan.*

H.; Stewart, P. G.; St. Leon, M. V.; Stow, R. A.; Straton, P. J.; Street, I. E.; Street, K. J.; Stucken, P. A.; Sullivan, D. R.; Suthers, M. D.; Swan, D. H.; Sydenham, M. A.; Temin, J. W.; Tickle, K. G.; Tompson A. C.; Trevitt, L. B.; Trimble, M. J.; Vickery, J. B.; Vickery, R. C. F.; Vos, M. B.; Wade-Ferrell, S. D.; Wait, P. J.; Wallace, B. L.; Ward, E. J.; Ward, S. J.; Wilson, W. G.; Wood, C. W. S.; Wurth, P. J.; Wythes, M. D.; Yates, J. R.; Yates, K. R.

At the opening of the 1964 school year we had cause to reflect on the progress of our school under Mr. Healey's headmastership because we knew that during second term he would be leaving us. Both the spirit and status of the school and the tangible evidence of its expansion will always remind us of a notable period in the school history and of Mr. Healey's abiding humanity and selfless dedication to our interests.

The School regrets the retirement of Mrs. Lenthall, who is sadly missed in the Science Department by boys and masters alike, and also the loss of Messrs. Flecker, Nelson, Spencer and Potten to England. We welcome as new masters to the School Messrs. Bishop, France, Houghton, Hunt, Leete, Mendel, Thomson and Windred, all of whom have shown interest and enthusiasm in school affairs as well as in their teaching. It was happy news that Mr. Scott had recovered

from his grave illness to return to take his classes and tutor group again.

The Leaving Certificate results for 1963 were not as good as usual, only 72.9 per cent of the boys who sat passing and twenty-two gaining Commonwealth Scholarships. Of the five Grammar boys who were placed in the first two hundred in the Leaving Certificate, Teale gained the highest position, coming 39th. The Intermediate Certificate results were, however, far more encouraging.

Three prefects, N. Dettmann, S. Murray and J. Kenny, have returned this year, the last of these being Senior Prefect. The following have been appointed Sub-prefects during the course of the year: P. Barron, R. Barry, D. Begg, P. Bushby, R. Cartwright, C. Clark, G. Davies, P. Gibby, J. Glasson, R. Hall, T. Hull, J. Keeler, D. Keith, J. Lomas, D. Louden, M. Perry, P. Read, P. Sanders, S. Smith, H. Stockwell, J. Wade and G. Wilson. All prefects enjoyed a very fine dinner at the Roundhouse at the University of New South Wales and were most grateful to have been afforded the opportunity to meet those Old Sydneians connected with the Universities. The humorous speech by Mr. Justice Herron and the fine dinner competed in their excellence.

An Old Sydneian returning to inspect his old Cadet Corps would notice a marked change in its organisation. The old system of having four companies, each of three platoons has given way to an arrangement of three companies each of four platoons. The new Jungle Greens and black webbing have greatly improved the general standard of dress.

The Arts and Interests Organisation, under the supervision of Mr. Searle, again organised a very interesting term of entertainment in Assembly. The cultural interests of second and fifth formers are also catered for and they can test their skills as dramatists, debaters, musicians and so on.

A most interesting series of lectures was heard by the Sixth Form during first term. Mr. H. D. Black spoke on such topics as Sino-Russian relations and also on the present situation in the near north. Mr. Macdonald discussed appreciation of literature in one of the lectures while in another the Headmaster taught us how and when to write letters. Such lectures help to prepare Sixth Form boys for their day of departure from the school.

The high standard of production and acting in last year's performance of Terence Rattigan's 'Adventure Story' causes boys to await eagerly the production of 'The Pirates of Penzance'.

Debating has won a large following in the school, not only because of those occasional debates against S.C.E.G.G.S., Darlinghurst, and P.L.C., Pymble, but also because of the popular open debates held during the lunch hour in the Big School. It is hoped that these will be revived in second term.

The Service Committee was very active during the term, having undertaken three major projects. A collection was organised to raise funds to purchase a 'Talking Book Machine' for a blind person. This collection was made through tutor groups and quickly reached the target of £85. A small party of boys went to Haddon Hall at Woodford to help improve the condition of the grounds of this girls' home. Some boys agreed to give one day of the holidays to cut wood for the old people in the parish of Chippendale. The Service Committee continues to afford boys the opportunity to learn how to work for charity and second term promises to be as active as first term with the Lord Mayor's Clothing Appeal.

The popularity of the Duke of Edinburgh's Award Scheme and attendance at the classes of the Outward Bound School have increased recently. Several boys have secured bronze and silver awards and so far three boys have won gold awards. The award scheme in the school is being particularly well run by Mr. Cooper and Mr. MacGillivray. Recently about ten boys from the school completed courses at the Outward Bound School and one served as an instructor.

Cricket in the school has continued to be successful and enjoyable in both junior and senior teams. The Old Sydneians fielded three teams against the school when the annual matches were played at Weigall in February. The 1st XI managed to hold the strong Old Sydneians' XI to a draw. The Melbourne Grammar School Cricket Team visited Sydney this year, their players being billeted by members of our 1st XI. The Melbourne boys were defeated on the first innings but it is hoped that off the field they saw enough of Sydney to enjoy their stay. Both First and Second Elevens have had a good number of wins and at the end of first term the First Eleven remains unbeaten and eagerly awaits the chance to play Scots, the only other unbeaten school.

The School Swimming Carnival was held in fine weather and although performances generally were not up to the high standard set in recent years the success of the day was a credit to the organisa-

tion of the Swimming Master, Mr. Glenvale, and the Sportsmaster, Mr. Edwards.

The Standards Competition in First Term was extremely successful with a record number of standards won. The competition, which was well organised by Gibby and his industrious committee, was aided also by a new recording system instituted this year.

During the term, tennis at Grammar remained very popular and the season was highlighted by the G.P.S. Open Tournament at White City on 15th April. In the first round Grammar was narrowly beaten by Scots but easily beat Shore in the second round. Fine leadership and play by Captain of Tennis P. Blake and Vice-Captain S. Wilson enabled the season to be quite successful and most enjoyable. The junior team, although unsuccessful this season, has shown great promise for future G.P.S. Tournaments.

The rowing season started off very well with all boys, from the tub crews to the Eight, being particularly keen. Unfortunately the Eight was twice struck by injury during the season and although it had little success at the Regatta it had worked very hard during the school term and also Christmas Camp.

The gymnasium, under the supervision of Mr. Green, has been well used this year by athletes, rowers and footballers and it is hoped that some benefit will be shown, particularly during the football season; and the school is deeply indebted to the Old Sydneians' Younger Set for their generous gifts in the gymnasium. A plaque records their generosity.

The school thanks the President, Mrs. Maybury, and all the members of the Women's Association for the tremendous work they do for the school both at Weigall and College Street. Mrs. Swan and her assistants are to be thanked for their kindness and tolerance with the boys at the tuckshop and also their readiness to provide snacks for boys after school. Sergeant Wells earns our thanks for his tireless work around the school, which would hardly function without him.

J.B.K.

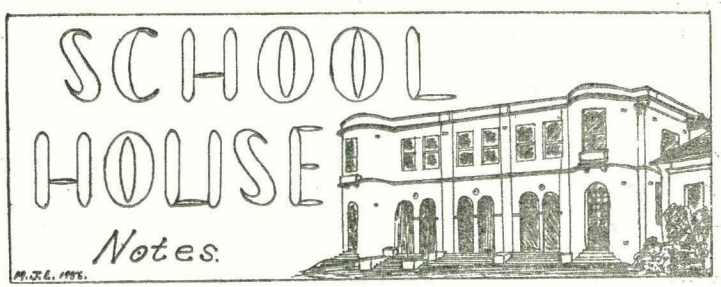

FETE

When the headmaster officially opened the Fete, the grounds already contained many of the parents and friends — as well as boys, who were to visit the school during a very successful day.

The stalls on both upper and middle playgrounds were stocked high with all manner of goods and home-cooking either for sale or raffle. The school 'radio station' broadcast bravely throughout the afternoon against the chorus of rifles on the mini-range, the splash and tinkle of coins, the clattering of the wheel of fortune and the rhythmic crash of a nailing competition! Only the art display was as quiet as it was colourful and well set-out.

So the exodus of cars late in the afternoon set the seal on an enjoyable and, we trust, profitable day for the hard working Women's Association.

K.D.W.

A normal day (if there is such a thing at the House) begins at 6.40 a.m. when boys are gently awakened from their slumbers by a charming little bell. All (except the aristocrats of the House — the sixth form — who doze until about 7.00 a.m.) rise, shower and dress in readiness for prayers at 7.25 a.m.

Immediately after prayers we have breakfast; boys sit at tables according to forms with a prefect who serves the food at the head of each. This routine is followed for all meals.

After numerous small happenings such as locker inspection, clean-up etc., a 'special' bus leaves at (very) approximately 8.20 a.m. transporting the eager scholars to College Street.

There is a large range of activities (the taking of impromptu trips to Queensland not included) by which boys may amuse themselves on returning to the House. At present there are two tennis courts, a practice 'knock-up' board, a cricket practice pitch and

nets plus an area for football or athletics, whichever is in vogue. A very well-equipped Hobbies and Darkroom, a comprehensive record collection and an excellent library cater for those not particularly sports-minded. By obtaining permission, boys are able to venture to the small shopping centre at the end of St. Mark's Road.

Evening routine begins at 5.30 p.m. with showers for first, second and third forms and is followed by tea at 6.00 p.m.

No sooner is the evening meal over than prep. begins. Fifth form and below work in a special 'Prep. Room' with a prefect as general overseer whilst a master is on duty in the adjoining library to give any help required with school work and help the prefect crush evil-doers.

Whilst the remainder of the House is thus spending an enjoyable evening (divided between harassing both prefect and master and doing the minimum amount of prep. to see them through the next day), the glorious 'sixth' are diligently preparing themselves for the coming end-of-year horror in their own private study rooms.

The steady flow of work is broken at 7.20 p.m. when a daily assembly is conducted. Here the Housemaster attends to matters concerning the House and the representatives of the assorted school activities, e.g., standards, arts and interests, give their notices and occasionally deliver the most stirring and inspiring harangues.

After a break of five minutes, prep. continues until 8.20 p.m. when supper is served and first formers retire. Half an hour later the second form make their way to dorms and prep. finishes at 9.30 p.m., at which time showers are taken by the fifth and sixth forms.

The House then usually becomes remarkably silent as the majority of boys are in bed by 10.00 p.m. The one exception to this rule is, however, the area of the sixth form studies as the occupants are permitted to sit up late and increase their prowess in 'scholastic' affairs.

Interest is stimulated throughout the year by a number of dances with nearby girls' schools; St. Catherine's, St. Gabriel's and Claremont; by the House plays in December; and by an end of year dinner with the House Trustees plus occasional spontaneous activities that occur during the year.

The law is laid down by Messrs. Searle, Houghton, Arkinstall and Campbell and enforced by House Captain Grahame Davies, House Prefects Robert Badgery, Brett Dawson, Brian Lukin, Stuart Manley and Paul Sanders.

G.E.D.

GILES GROUP

We would like to thank Mr. Ross who was acting as tutor in Mr. Scott's absence, for keeping a watchful eye on the group. We congratulate Mr. Scott on his return to health and welcome him back.

The Group Committee has been revitalized with the addition of a new Treasurer, Dave Pritchett, and a new Secretary, John Lamplough, while the Group Captain and Vice-Captain remain as last year, Chris Clark and Mick Soulos respectively.

The group is strongly represented in Cricket by John Lomas and Bill Sare in the 1st XI; John represented for a Combined G.P.S. XI against the touring Ceylon schoolboy team. Peter Anderson is in the 2nd XI, Martin Evans and Graham Sheidow are in the 3rd XI and both Tony Freeman and Kingsley Wynn are 15A members. We have the Vice-Captain of Boats, Ian Ballard who rows in the 1st IV, Dave Pritchett who is a member of the VIII and David Richardson who strengthens the 4th IV.

The group rarely does well in the Cadets. However, this year we have two CUOs, Richard Hall and Ian Ballard, and three Sergeants, John Lamplough, Dave Good and Dave Pritchett.

The control of the group has been strengthened by the additional power of Full Prefect Stuart Murray and Sub-Prefects John Lomas, Richard Hall and Chris Clark. The group looks forward to a successful year under the guidance of Mr. Scott, the Group Committee and the Prefects.

C.D.C.

CHASE GROUP

The Group Committee consists of : Captain, R. Bevan; Secretary, D. H. Sonnabend; Treasurer, G. Epstein; Vice-Captain, D. Matheson.

Rowing is well represented in the group this year, though the rowers come entirely from the Fifth Form. David Matheson is in the VIII while Grose and Lusthaus are in the IV's. In cricket, R. Bevan is in the Thirds and many of the younger members of the group play in lower teams. Under the able leadership of S. C. Shaw, the group ran fourth in the Athletics Standards Competition. John Wade, besides being a CSM in Cadets, is a Sub-Prefect.

Last year in the Leaving Certificate R. Baxter and P. Anderson both came in the first two hundred in the state, gaining Commonwealth Scholarships along with M. Dillon, while J. Hedburg gained a Teachers' College Scholarship. Also D. Storey (this year's Sixth Form) was selected for the Summer Science School, which is a great honour. We hope this year's Sixth Form can keep up this standard.

R.E.B.

GROUP THREE

Welcome Mr. Knock! . . . I suppose you've heard that Mr. Knock is our new tutor? — the third in two years, and permanent, I think, this time. Well, after getting that off my chest, what's next on the agenda?

I could possibly write about Jonathan Goodman who came 38th in the State in Ancient History in last year's leaving examinations, or of the several other pleasing results achieved by members of Group Three.

On the other hand, I could write about Hugh Strath and Graham Smith who have excelled themselves and are again in the 1st XI, as well as Wally Taylor who is our representative in the VIII and Nick Vida who is in the 4th IV. However, while we didn't do as well in the Standards Competition as last year, it would be the proper thing for me to tell you that we are going to try to repeat our last year's performance in the Arts and Interests day which we won.

Another thing I could say is that the group thanks Bill Turner and Ian Lever for enhancing our reputation in the swimming carnival, and that we have great hopes for both football and rifle-shooting . . . but that is yet to be seen.

I know Julian Golding would appreciate it if I told you that he was awarded a Duke of Edinburgh's Gold Medal last year and that he is now the Cadet Petty Officer in the Naval Cadets being second only to the 'Admiral' himself.

But rather than tell you all that, I'll merely welcome the second-formers who have joined us this year.

By the way, Jim Dellit and Tim Rybak are group-captain and vice-captain respectively, not forgetting Paul Goodman who is also on the committee.

P.L.G.

GROUP FOUR

The group extends its congratulations to John Kenny, this year's Senior Prefect and O.S.U. Scholarship winner of 1963. Robert Barry, Robert Cartwright, Peter Gibby, John Glasson, Jeffrey Keeler and David Keith all deserve our congratulations on their appointments as Sub-Prefects.

This year's Group Committee is: Captain, Jeremy Rolfe; Vice-Captain, Tim McNamara; Secretary, Peter Caisley; Treasurer, Geoff Wirrell. The Committee has been rather active this year in leading on the group to participate in School Activities.

John Kenny is once again Captain of the 1st XI while R. Barnes, R. Chadwick, J. Gilchrist and G. Wirrell are in the 2nd XI. In the Thirds are Caisley, Keeler and Creagh. Allsop, Barnes and Robertson play in the 15A's while the Captain of the 14A's, G. Pike, and three other members of the team are members of Group Four. Simon Wilson is in the Open Tennis Team and thus makes the claim of being the group's biggest tennis player. Jeremy Warren is in the 4th IV, but is the only rower in the group who represented in the G.P.S. Regatta.

Leading members of the Cadet Corps are CUOs Barry and Cartwright, the latter being A Company Commander and the former being Second in Command of C Company. Also Glasson is a CUO in charge of a Platoon.

The group has responded fairly well to the appeal by the Service Committee in connection with the Talking Book for the blind. However, it is a great pity some boys do not have a greater sense of duty to those who are less fortunate than themselves and thus contribute more generously.

P.F.G.

GROUP FIVE

Following the customary democratic election, the following were chosen as officials for the year: Captain, Peter Blanton; Vice-Captain, Mark Cummings; Secretary, Hugh Reid; Treasurer, Jim Tait.

With the return of Nick Dettmann and the promotion of Philip Bushby, Terry Hull and Dave Louden to Sub-Prefect, the group total of prefects has now reached four. The new prefects deserve our heartiest congratulations.

Several high promotions have been gained by group members in the Cadet Corps this year. Nick Dettmann is Senior Under Officer, Philip Bushby is B Company Commander while Dave Louden is a CUO and Hugh Reid the RSM.

There is a great wealth of cricketing talent in the group. Mick De Saxe and Jim Tait are in the 1st XI while Nick Dettmann and Ken Hopkins are in the 3rd XI. In swimming, we are represented by Peter Adelstein who swims in the School Medley Relay. In the two sporting competitions run this term the group has had great success, coming fourth in the Swimming Carnival and second in the Athletics Standards.

With these achievements behind us we hope to carry on to greater successes.

P.S.B.

GROUP SIX

Last year most boys sitting for the Leaving and Intermediate Certificates from the group passed those exams. We congratulate them along with T. Hyde-Page who gained a Commonwealth Scholarship.

This year's committee is: Captain, I. G. Robertson; Vice-Captain, W. R. Andison; Secretary, J. K. Ferris; Treasurers, P. R. Holmes and D. J. Jackson. We congratulate H. N. Stockwell on his appointment as a Sub-Prefect.

We are well represented in sport this year, with I. G. Robertson Vice-Captain of the 1st XI; P. J. L. Hardy, J. D. Warman and R. W. Harris are in the 2nd XI. We also have P. R. Holmes and C. A. Burton in the VIII. In other sport R. Mockbell is in the First Tennis Team and R. J. Spencer is the Open Swimming Champion. In Cadets

W. Andison, J. Jameson and A. Foley are Sergeants while H. Stockwell is a CUO.

One of the most diligent pupils is our learned tutor Mr. Fraser who is working towards his Master of Arts degree. The whole group wishes him success.

I.G.R.

GROUP SEVEN

A Group Committee has been elected and comprises: T. F. Ross, Captain; R. L. Smallwood, Vice-Captain; J. A. Schmidt, Treasurer and Secretary; D. A. Ross, Fifth Form Representative.

The main event in group activities this term was our success in the Annual Swimming Carnival — R. L. Tindall, a member of the School Swimming Team, and H. D. Keller being the outstanding, although we could not have done so well without the help of those boys who gained minor places.

D. A. Ross and J. G. White represent the group in the 2nd XI, C. D. Blair in the 3rd XI and many others play for the school in lower grades. J. E. Clark rows in the VIII, J. A. Schmidt in the 1st IV and R. L. Smallwood in the 3rd IV. We are also represented well in the Cadet Corps by R. L. Smallwood who is a CUO and T. F. Ross as Drum Major.

The group keeps up the good work on the Service Committee and in Arts and Interests while looking forward to the football and athletics seasons.

T.F.R.

GROUP EIGHT

Group Eight has started well this year, despite six repeating Sixth Formers; and we welcome sixteen new Second Formers who help decorate Lab II before school. Congratulations go to those who passed the Leaving last year, especially P. C. Taylor who gained a well-earned Commonwealth Scholarship.

This year's Group Committee consists of: M. L. Cohen, Captain; A. S. Glass, Vice-Captain; P. L. Blake, Secretary; D. A. Stewart, Treasurer; P. G. Martin, and ex-officio C. K. Hindmarsh and J. W. Littler.

The group features prominently in the Cadet Corps, with CUOs P. L. Blake and D. A. Stewart, WOII M. L. Cohen and Sgt R. C. Dilger. Our two CUOs distinguished themselves on their course,

coming fourth and third respectively. The Naval Cadets have M. Fisher brandishing an anchor.

On the sporting side, our main cricketer is D. Stewart who captains the 2nd XI, while P. G. Lennox and A. L. Shaw play in the 3rd XI. P. Blake has appeared as Captain of Tennis and both he and J. Littler represent in open teams, while G. M. Abeshouse and R. J. Mullins make racquet and ball meet (we hope) for junior teams. The group is well represented in the Library and most school activities. The group distinguished itself by coming third in the Athletics Standards Competition and we hope this success will continue.

M.L.C.

MARKS GROUP

Our organisation for the year 1964 is as it was announced last year: Captain, P. Freeman; Vice-Captain, J. Liddell; Secretary, J. Mitchell; Treasurer, J. Raftos. These are ably helped by the form representatives: A. Mulhearn, Sixth; J. Elmgreen, Fifth; D. Barron, Third; C. Beelaerts, Second. These act as tax-collectors. The organisation is running very smoothly and although we do not have a great number of sportsmen, we have the keen few who foster 'school spirit' with encouraging results.

In sport we have J. Elmgreen in the 1st XI, while in rowing we find that D. Letch is stroke of the 1st IV and D. Barron is in the 2nd IV. The most notable piece of news in the sporting world is the appointment of John Weihen as Captain of the Rifle Club and we wish him well as such. In Cadets, P. Freeman is RQMS and D. Letch and D. Brown, are Corporals. However, we do not seem to be athletically minded in this group. Athletic Standards should have had better representation but we congratulate those who participated and did so well. John Liddell is a 'big-wheel' on the Service Committee and under him the group has generously donated to all its good works. We hope it will continue to do so in the future.

P.H.F.

GROUP TEN

The year began with the customary salute to new members, when their happy parents could meet our esteemed leader, Mr. Maclay, and the group committee — K. D. Wilhelm, Captain; E. Wajnryb, Vice-Captain; G. C. Wilson, Secretary; M. Schuhevych, Treasurer and Arts and Interests Representative. Already G. Wilson has been appointed a Sub-Prefect and is to be congratulated by all.

Also in the claim-to-fame department, Graham is Captain of Boats and a CUO in Cadets, the latter distinction falling on J. Finkelsen as well. R. Bruce is the cox of the VIII; both Alan and Peter Terrey play in the 1st XI; N. Ainsworth and S. Whitfield are playing G.P.S. tennis.

The next major event in the term was the Annual Swimming Carnival in which the group gained third place — thanks mainly to the efforts of V. Keller who came third in the individual points-score and is Captain of Swimming.

The rest of the group is comprised of cricketers, tennis players, standards competitors, Sixth Formers, and Science Day volunteers!

We, in the core of the science block, look forward to the regatta, the football season and another good year in the go-ahead group.

K.D.W.

BARTON GROUP

So far this year Barton Group has shown continued interest in the widespread activities of the school. The Group Committee consists of: A. P. Read, Captain; M. J. Perry, Vice-Captain; L. Johnson, Treasurer; S. H. Smith, Secretary; and our Fifth Form Representative is J. Chapman.

We are again well represented by Sub-Prefects — D. Begg, M. J. Perry, A. P. Read and S. H. Smith. A notable reputation in the Cadet Corps has been continued — A. P. Read being a CUO, J. McCausland a CSM, C. J. Dunston and M. J. Perry Sergeants.

In the field of sport we seem to excel in rowing. S. H. Smith is Vice-Captain of Boats and stroke of the VIII and M. J. Perry is stroke of the 2nd IV. R. J. Robinson and G. E. Gill are coxes of the 1st and 2nd IV's respectively and R. A. Howard, stroke of the 1st Tub, is Junior Captain of Boats.

We also have some promising rifle shooters but had few representatives in the Swimming Carnival. However the group managed to gain a very respectable position due mainly to the fine efforts of G. Bray and G. Bathgate. We have several ardent followers of Crusaders, notably the leader S. H. Smith.

The group looks to success and advancement as we go on to complete the school year.

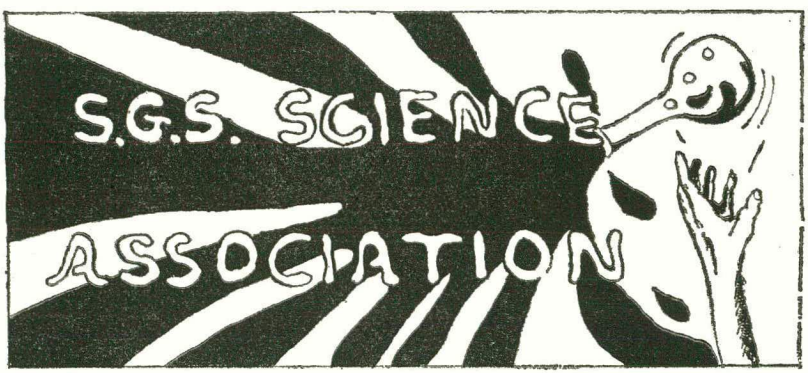

M.T.W.,
A.P.R.

GROUP TWELVE

This year Mr. Lane has instituted a system of Group Prefects to replace the elected officials. Paul Samer retains his position as Group Captain, whilst the other Group Prefects are John Parker, Bruce Robinson and Colin Rooke. Their job is to keep order within the group.

We have done well in sporting activities this year; we were placed second in the Swimming Carnival and were also well placed in the Athletics Standards Competitions. In addition, many members of the group represent in cricket and rowing.

J.W.P.

SCIENCE DAY

Science Day this year (Science and the Citizen, No. 17) was held on the 18th March. The topic of the day was Australia's natural resources and the principal lecturer was Professor T. D. J. Leech of the Snowy Mountains Hydro-Electric Authority. Both the day and evening sessions were judged by all those who heard them to be very successful.

Topics discussed were:

Preparatory Form: 'Playing By Ear', by Mr. Little.

First Form: 'Time On Your Hands', by Mr. Holland.

Second Form: 'Cold Comfort', by Mr. F. H. S. Tebbutt, Science Master, Cranbrook.

Third Form: 'Fuel Energy and Australian Resources', by Dr. J. A. Dalhunty, Reader in Geology, Sydney University.

Fifth Form: 'What and Where is Oil', by Mr. A. W. Easton, Caltex Oil (Australia), Pty. Ltd.

Sixth Form: 'Where Men and Mountains Meet', by Professor T. D. J. Leech,.

Open Demonstrations

There were the usual demonstration films and displays. Professor Leech spent much time with the boys as they explained their experiments. He was particularly impressed by the work of T. D. Holgate and K. O. Preshaw on the Nernst Equation in the Sixth Form competition and by J. M. Burkitt's work on essential oils from eucalyptus in the Fifth Form competition. The entries in this section were particularly promising and augur well for the inter-school competition to be held later this year for School Science Research awards.

Entries from boys in other forms were not sufficiently advanced to merit an award at this stage.

Professor Leech wrote later: 'I was intensely interested in the exercises which the boys had undertaken in the science laboratories . . . the extra-curricular work of the boys in senior classes as demonstrated during Science Day each year is quite striking.'

*

We are very grateful to the mothers of boys of Group Ten for their gifts of cash and kind which greatly helped the catering arrangements.

*

At the evening session Professor Leech gave us some sobering facts about the high standards demanded in the specification of components for use by the Authority.

Using the Snowy scheme for illustration, he went on to suggest how it would be possible to bring about some permanent storage within the centre of the continent, using atomic explosions to move the material for the reservoirs. He led up to this interesting development by referring to the behaviour of explosive charges in general by their being set off at various depths. He reminded us of the huge natural holes being created by meteors striking the Earth.

The bringing together of all the sciences in such an enterprise is an appropriate theme for the present when we are learning to get used

to the idea in our school courses of Science being undivided. To preserve biological life, a subterranean explosion through its physio-chemical effects on the adjacent geological strata may produce a spherical cavity in which it is possible to store water which would otherwise evaporate if stored at the surface.

Engineering is a profession which brings all the sciences together with their appropriate mathematical components. Professor Leech gave us a glimpse of the national importance and achievement of the profession in a convincing and also entertaining fashion.

His address was an appropriate end to another great Science Day. He illustrated the introduction to his talk by an excellent film and the large crowd of more than 350 received him with enthusiasm.

R.W.M.

S.G.S. SCIENCE ASSOCIATION

The following is an extract from the Annual Report, 1963-64 Presented at the Sixth Annual General Meeting on March 18, 1964

The Annual Science lectures were held in August last year and were a great success; about 400 students attended each day.

The lectures given were:

The Language of Life — Dr. G. W. Grigg.

Surface Chemistry in Theory and Practice — Dr. A. E. Alexander.

Space Research — Dr. D. F. Martyn.

A State-wide Conference on the teaching of chemistry in years 5 and 6 was held in June. This was highly successful and a full report published and submitted to the Department of Education as a series of proposals for consideration in implementing the final stages of the Wyndham Scheme. It is a pleasure to record the formation of a second Science Association, in this case at Abbotsleigh School. I was able to attend its inaugural meeting and our Vice-President, Dr. R. G. Giovanelli is also President of the Abbotsleigh Association. Through our close connection, it was arranged that the Abbotsleigh Science Association would organise a conference on the teaching of Biology. This was held recently and Sir Macfarlane Burnet was the principal speaker. Over 250 teachers, University lecturers and parents attended, and one resolution called for the institution of a Biology Committee similar to those already operating in Physics and Chemistry.

Parents' meetings were held on 21st October 1963 and 2nd March 1964 at which the teaching of science in this school was reviewed. Arising out of the former meeting, the Association agreed to join with the Science Staff in revising the present Science Text Book used in the School and in the preparation of new material for it. An intensive effort was made over the Christmas vacation and a large part of the programme accomplished. However, the book is not yet complete and this work needs to go on with the help of the association.

The Association continued its policy of assisting the development of Science

inthe school and, in addition to giving many prizes, was able to subscribe £200 towards the purchase of equipment urgently needed for the new Science Block.

It is estimated that a further £500 will be required from the Association over the next three years and in order to achieve this we need more members. Mr. T. E. Schilizzi was co-opted to the committee to act as Membership Secretary, and he has been very actively concerned with this problem.

It is a pleasure to record the following benefactions during the year:

Mr. Carmichael. Isotope shielding, door and balance.

Mr. Hedberg. Donation £20.

Dr. J. B. Rudd. Equipment.

I would also like to record our pleasure at the award of the AIDA Medal for 1963 to Mr. R. W. Maclay, in recognition of his outstanding contributions to the teaching of Science.

E. P. GEORGE, *President.*

The Science Association Committee for 1964-5

Patron: Sir Ernest Fisk

President: Dr. E. P. George

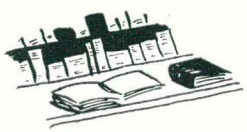

Vice-President: Dr. R. G. Giovanelli

Hon. Secretary: Mr. P. G. Dalziel

Hon. Treasurer: Mr. G. F. Hindle

Committee: Professor D. L. Wilhelm, Mr. W. S. Chambers, Mr. J. E. Pfeiffer, Mr. L. G. Little, Mr. R. W. Maclay (ex officio)

Memorial library

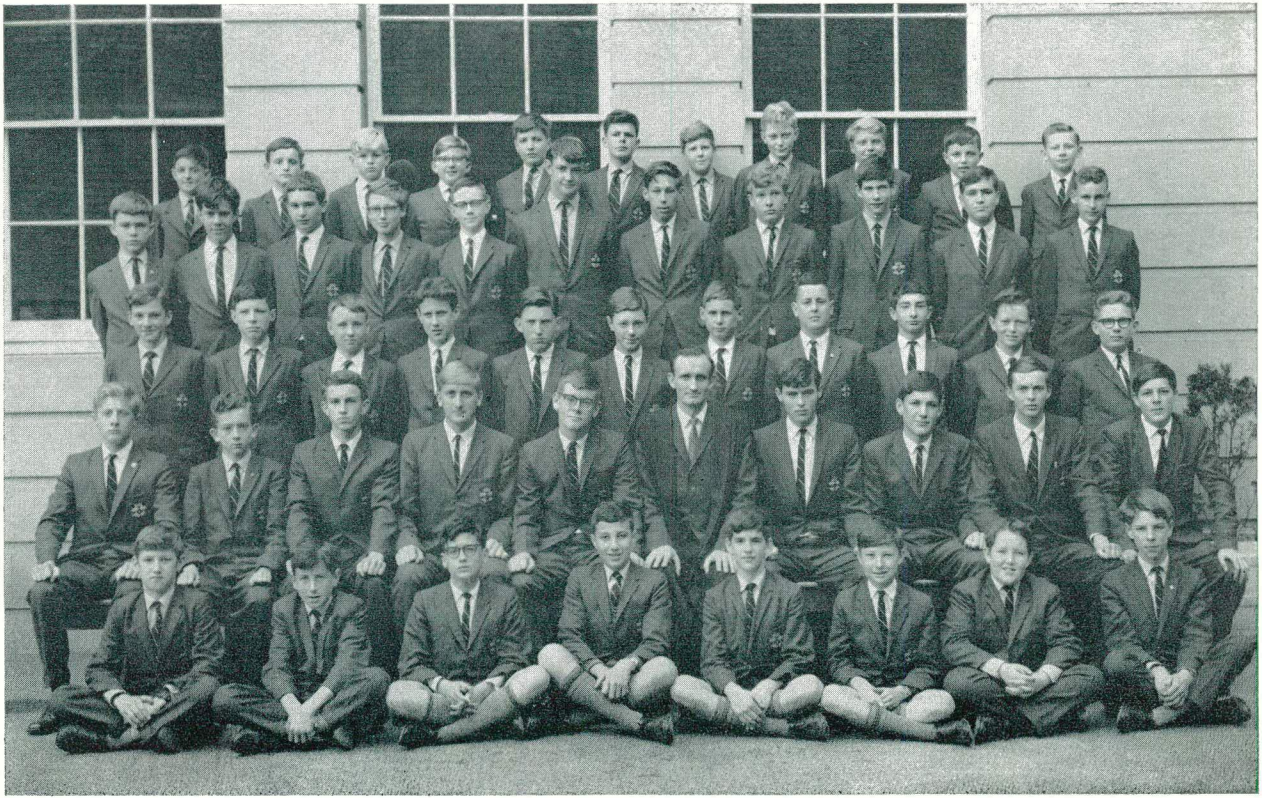

The library looked very fresh and clean this year when we returned to school, for it had been painted throughout during the vacation. The rooms have been re-arranged so that the Senior staff now have

a small common-room. Quite a number of first year boys have joined the staff and, at the moment, a series of lectures on the functioning of a library is being conducted by the senior staff to train these boys. An examination in library practice will be held for all staff up to Third form at the end of this term. Those who pass will be issued with a certificate and a library badge.

At the end of last year thirty boys of the library staff worked most conscientiously during the stocktaking. The purpose of a stocktaking is to determine exactly what books the library has left of its original purchases. This involves checking every book in the library against its shelf-list card — some 15,000. As this is done a check is made for books which need repairing — about 400 books were repaired during the week. The results of this stock-taking have already been announced at an Assembly so I shall not dwell on them here, except to say that they clearly display the need for closer supervision of the use of the library. It is to this end that boys are now checked as they leave the library.

Next term a new borrowing system will be introduced to remove some of the problems caused by the present system. Each boy will be allowed — as at present — to borrow three non-fiction books and two fiction books, for two weeks. However, each boy will be issued with three pink non-fiction cards and two blue fiction cards. When a boy borrows a book he will leave with the assisting librarian at the borrowing desk, one of his cards. If he borrows three books, he will leave three of his cards etc. When he returns the books he will receive back his borrowing cards. If he loses his borrowing cards this will reduce the number of books he can borrow for the rest of that term. Honours students will be issued with a special card and will be allowed to borrow three books for the usual two weeks and three more books for four weeks.

We are happy to be able to thank publicly the very generous gifts to our library by the following people: P. J. Switzer, Esq.; S. J. Marshall, Esq.; Mrs. D. M. Blackemore; Broken Hill South Ltd.; Mrs. Chase; W. A. Stening; P. Tanner; R. S. Champion; Richard Proctor and Julian Pavey.

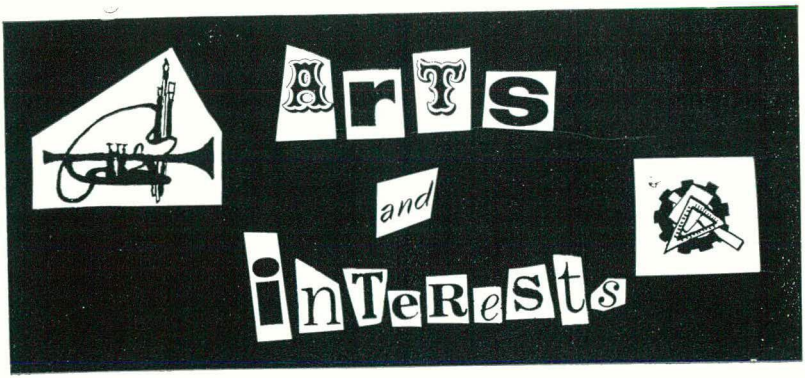

THE LIBRARY STAFF 1964

HEAD

S.T.S.

ARTS AND INTERESTS DAY

This year's Arts and Interests Day was held on 6th May. There were approximately 302 entries from the school, a percentage of just over thirty. The quality of the entries varied greatly between the many different sections but there was a general improvement on last year.

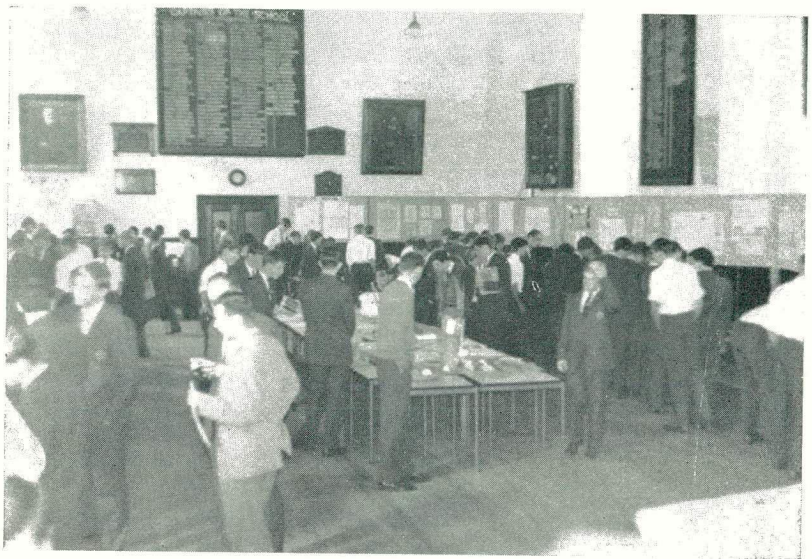

The electronics exhibits were vastly improved but at the same time the photography had considerably deteriorated. The collections of coins and stamps were of higher quality and better presented than in previous years. There was an improvement in the standard of the models which were not so often made from kits, principally because the judges gave more credit to skill and technique in design and to hand-built construction. David Begg's yacht and Peter Robinson's regulation four were two outstanding examples of such hand-built construction. There were again some excellent paintings and much pottery done in Art classes was displayed, revealing in Schilizzi's case some very fine work. The Literary entries were of an extraordinarily high standard, especially in the poetry section where Dransfield submitted four very promising poems.

Points were awarded for 1st, 2nd and 3rd Class exhibits, with five points for 1st Class, three points for 2nd, two points for 3rd and one point for an entry. The competition was won by Group Ten with 60 points. Group Three gained second place with 49 points while Groups Eight and Two tied for third place with 42 points each. In the Lower

School the competition was won by 1D, second place was gained by RU and 1B came third.

The day was most successful, providing much enjoyment and an interesting spectacle for the school.

M.S.

ARTS AND INTERESTS DAY

THE SIXTH FORM VIEWS THE EXHIBITION

EISTEDDFOD

The second Sydney Grammar School Eisteddfod was held on December 3rd, 1963. The judges were Mr. A. Gallagher of St. Ignatius' College (Public Speaking), Mr. D. Mawson of Newington College (Music) and Mr. J. V. Trevor of the Elizabethan Theatre Trust (Reading and Recitation). There were more entries this time than there were in the previous year and in general the standard was better. At the announcement of awards at the end of the day Mr. Gallagher said that the standard of public speaking was very good all round although the stars were few and far between. He had therefore given all competitors at least a third class certificate although only one had gained a first class award. In the musical sections Mr. Mawson found

the overall standard good but on the whole the standard of performances were better in the Lower and Middle School than in the Upper School. The number of entries from the Upper School was disappointing and it is hoped that more senior boys will enter next year. Although the 1964 Eisteddfod is in December, all Grammar musicians are urged to begin preparing now.

The entries in the reading and recitation sections were of a higher standard than last time, but generally speaking were still not up to the quality of those in the public speaking and music sections. Mr. Trevor said that many entries showed signs of hasty preparation whilst others showed some lack of effort and imagination in the sense that passages were chosen which boys were studying in their English courses already. Nevertheless there were this time entries of sufficient merit from the reading and recitation sections to be included in the final concert. Another interesting innovation at this concert was an unprepared speech by D. H. Sonnabend who spoke very entertainingly on 'Special Occasions'. This final concert was attended by a large number of boys, so many in fact that Big School was completely full and many had to be turned away. This in itself is evidence of the growing interest in the occasion. Our sincere thanks go to the judges and to Messrs. Hall, Knock and Nelson who heard the preliminary rounds and assisted on the day of the Eisteddfod itself.

Eisteddfod Results, 1963

SECTION 2 — PIANO SOLO (MIDDLE SCHOOL): Barakat, S. F., 3rd class; Currie, J. S., 3rd class; Dalziel, P. R., 2nd class; Weaver, P. B., 1st class.

SECTION 3 — PIANO SOLO (LOWER SCHOOL): Stern, J. M., 3rd Class; Highfield, A. C., 3rd class; Nott, J. J., 3rd Class; Orsman, K., 2nd class; George, M. A., 2nd class; Tomlinson, P. J., 2nd class; Brooks, W. S., 2nd class.

SECTION 7 — INSTRUMENTAL SOLO (UPPER SCHOOL): Sare W. H., 1st class.

SECTION 8 — INSTRUMENTAL SOLO (MIDDLE SCHOOL): Opitz, S. P., 1st class.

SECTION 9 — INSTRUMENTAL SOLO (LOWER SCHOOL): George, C. R., 3rd class; Huber, D. E., 3rd class; Gilkes, G. G., 3rd class; Stewart, J. R., 3rd class; Cox, P. L., 3rd class; Champion, I. D., 2nd class; Campbell, P. R., 1st class; Field, M. J., 1st class.

SECTION 12 — DUET FOR TWO INSTRUMENTS (LOWER SCHOOL): George, M. A., George, C. R., 2nd class; Gilkes, G. G., Field, M. J., 2nd class; Stern, J. M., Field, M. J., 1st class.

SECTION 15 — SOLO SONG (UPPER SCHOOL): Read, A. P., 2nd class.

SECTION 17 — SOLO SONG (LOWER SCHOOL): Baum, J. C., 3rd class.

SECTION 18 — RECITATION OF POETRY (UPPER SCHOOL): Burnham, C. B., 1st class; Rybak, T. H., 3rd Class.

Section 19 — Recitation of Poetry (Middle School): Cutler, J. H., 2nd class; Williams, M. T., 2nd class; Jakubowicz, A. H., 2nd class; Trevor, J. N., 3rd class; Krygier, M. E., 3rd class; Ferrow, G. B., 3rd class; Vaughan, R. H., 3rd class; Frisby, P. L., 3rd class.

Section 21 — Prose Reading (Upper School): Fisher, M., 1st class; Burnham, C. B., 2nd class; Sunman, A. D., 2nd class; Holgate, T. D., 3rd class; Sapsford, B. K., 3rd class.

Section 22 — Prose Reading (Middle School): Williams, M. T., 2nd Class; Whitington, R. L., 3rd class; Krygier, M. E., 3rd class; Nicholas, R. R., 3rd class.

Section 23 — Prose Reading (Lower School): Nott, J. J., 3rd Class.

Section 24 — Prepared Oration (Upper School): Rybak, T. H., 3rd class; Goodman, P. L., 3rd class.

Section 25 — Prepared Oration (Middle School): Jakubowicz, A. H., 3rd class; Frisby, P. L., 3rd class; Rogers, T. J., 3rd Class; Rankin, R. J., 3rd class; Fairlie, D. G., 3rd class; Brown, T. M. C., 3rd class; Nicholas, R. R., 3rd class; Whitington, R. L., 3rd class; Cowan, R. S., 2nd class; Williams, M. T., 2nd class.

Section 26 — Prepared Oration (Lower School): Michell, B., 2nd Class.

Section 27 — Unprepared Oration (Upper School): Simpson, A. C., 3rd class; Sonnabend, D. H., 1st class.

Section 28 — Unprepared Oration (Middle School): Fairlie, D. G., 3rd class; Cowan, R. S., 3rd class; Barnes, R. C., 3rd class; Rankin, R. J., 3rd class; Williams, M. T., 2nd class; Jakubowicz, A. H., 2nd class; Nicholas, J. R., 2nd class; Harris, D. G., 2nd class; Krygier, M. E., 2nd class; Frisby, P. L., 2nd class; Whitington, R. L., 2nd class; Nicholas, R. R., 2nd class.

MUSIC

Music in the school continues to flourish and progress. The Orchestra, consisting of twelve players, has begun its regular Monday rehearsals. This small but enthusiastic group has already achieved a considerable standard. It is expected that there will be considerable growth in the size of the Orchestra as the woodwind and string classes have doubled their numbers this year.

Two of the three violin classes are in their second year of tuition, and the clarinet classes contain twelve boys. There are also some boys receiving instruction on the flute, oboe and cello. The woodwind classes are taken by Mr. G. Matheson who spends most of Friday at the school. We take this opportunity to thank him for his help and guidance.

Guitar classes have been established this year. The classes are held at 3.15 p.m. on Tuesday and Wednesday afternoons, instruction being given by Mr. P. Aston. The Spanish classical style is taught and it is

hoped that many boys will avail themselves of this opportunity to learn the guitar.

The Junior Choir has begun its weekly rehearsals. The Lower School has some excellent voices this year which will help improve the performance quality of this choir. One of the main tasks this year, apart from the Annual Concert will be the Globe Players production of the 'Pirates of Penzance'. Part of the Junior Choir will provide some of the chorus sections.

The Recorder group meets as usual every Tuesday. Boys from R Upper, R Lower and Prep come to this group for extra tuition and pleasure. The Third Forms have music periods this year and the course has been designed to enable Fourth Year boys who wish to take this subject to do so.

With these varying musical activities we hope that many more boys will find something that will interest them.

G.E.H.

ASSEMBLY MUSIC

The practice of including a short musical recital in the weekly assembly has continued on most Friday afternoons. Since our last report recitals have been given by Mr. Hall (piano), Mr. Riley (piano), Mr. Littlefair (piano), W. H. Sare (saxophone) and by the following following visiting artists: Miss Charmian Gadd (violin), Miss Marilyn Richardson (soprano), Mr. Brian Phillips (baritone), Mr. Gary Shearston (Australian Folk Singer), and Mr. Peter Richardson (flute). Mr. Holland has kindly assisted on several occasions as accompanist to the visiting artists. Mr. Shearston's recital was so popular that we had to persuade him to return later for a special lunch-time concert which was attended by nearly 200 boys.

In the Second Form assemblies also music is played but on the school record player. Mr. Shearston, however, who did not require a piano accompaniment, sang in the Second Form Assembly as well as in the main assembly.

VISIT OF THE SYDNEY BRASS ENSEMBLE

Towards the end of Third Term we had a visit from the Sydney Brass Ensemble. This is a group made up of the leading players of the Sydney Symphony Orchestra. They played an hour's programme of works ranging from Bach to Sousa to an enthusiastic audience which nearly filled Big School.

M.S.

GLOBE PLAYERS

The main activity this year will be the production of the 'Pirates of Penzance' by Gilbert and Sullivan. This will be the Globe Players' first attempt at a musical production. This opera, which has three choruses and twelve soloists, has a cast of boys from both Upper and Lower school. The first act is set on a rocky shore on the coast of Cornwall and the second in a ruined Chapel by moonlight.

The services of Mr. P. E. Dutoit have been obtained to advise on the settings which will be traditional in design and colour. The actual music for this production will be provided by Orchestral players from within and outside the school. There has been much enthusiasm and interest in the opera and both solo and group rehearsals have begun.

We issue a cordial invitation to all friends of the school, as well as the boys, to attend performances of the 'Pirates of Penzance', on the 7th, 8th, 10th August. We know that this opera will be fine entertainment and prove to be a worthwhile adventure.

G.E.H.

THEATRE PARTIES

At the end of last year theatre parties were arranged for three of the operas which were presented by the Elizabethan Theatre Trust Opera Company. This term we have taken parties to 'The Importance of Being Earnest' at the Old Tote Theatre, 'The One Day of the Year' at the New Theatre and 'Macbeth in Camera' at Anzac House. It may not be generally known that great care is taken to assess the quality of these performances before a party is arranged and every effort is made to ensure that each theatre party will prove to be a valuable experience for those attending. Where possible we are glad to welcome parents as members of our theatre parties too, but the terms under which the parties are organised with the theatres do not always permit this.

YOUNG ELIZABETHAN PLAYERS

On 1st April, the Young Elizabethan Players came to College Street to perform two of Shakespeare's plays in Big School. The troupe of seven actors first put on this year's Leaving Certificate play, the tragedy 'Macbeth'. Peter Whitford who played Macbeth gave a very able performance and was well supported by Tony Crerar as Banquo. This play, during the first two periods, was attended by

Sixth and Fifth Forms who no doubt gained understanding of the play by seeing it actually performed. After break, the players gave their impression of 'The Merchant of Venice'. This was very well received by the Third and Second Forms and several English Honours students present. Jan Leeming especially was well liked by the audience in her role as Portia and Mark Albiston gave a very energetic performance as Shylock. We would like to thank Mark Albiston and his troupe for their very helpful visit under most difficult conditions, and hope to see them again in 1965.

J.H.W.

THE HOUSE PLAYS

A very enjoyable way of spending the last Friday night of third term is to go to the School House plays. The visitor is politely greeted by boys at the gate, when he makes his way past the Christmas beetles dive-bombing the upper terrace to the playhouse nestling in its grassy retreat above the gully. Having been thus far impressed he could be excused for expecting three one-act plays, with a cast drawn from only a fraction of the main school at a rushed time of the year, to compare quite unfavourably with the magnificent Globe Players' efforts in August. This, however, was not the case. The acting and stage management were very good all through, and only once was prompting required. The stage properties were excellent — for example, the very genuine-looking bar rail in the second play — and Fesq, Burnell, John, and M. Patterson deserve congratulations for their work behind the scenes.

The first course on the bill of fare was the old favourite, 'Shivering Shocks'. The six actors were second formers, all of whom managed to appear quite adult in their parts. Whitington was a mature Captain Dallas, and Cole made quite a convincing drunk. The main course was 'The Black Bag', a play in three scenes, about Jack the Ripper. The éclat of the play is not helped by the plot, whose development is rather easy to predict; all the more credit, therefore, goes to the producer, Mr. Searle, and the dramatis personae, for a very human rendering. The women were outstanding: Hofstetter had plenty of feminine grace, Rankin was an attractive barmaid, and J. Nicholas was a pert young miss who deserved a better fate than to fall into the clutches of the villain, a role played with appropriate 'deceitfulness and suavity' by E. P. Sanders. The good casting was continued with Burnham, the knowledgable and reminiscing landlord of 'The Sailor's

Rest', and with Anderson, Boag and Steel, who were typical occupants of the average pub.

At a time when he was not scaling the heights in drama G.B.S. wrote 'Passion, Poison and Petrification', the evening's rather rich dessert. A play with such goonery for a plot would quickly have palled if done badly. Instead we enjoyed the nonsense to the very end. Mr. Hall is obviously not only a musician but a producer. The outstanding actors, in order of merit, were Manley, who was excellent, whether in his new suit, or dying, or stiff with plaster; Goold, who achieved a big hit as the revoltingly luxuriant female of the piece; and Dawson, who was the typical villain of melodrama. All this was a humorous end to a very pleasant evening — but not quite the end, because supper followed on the upper lawn, unaccompanied by the Christmas beetles, who had gone to bed.

R.C.K.

ARTS AND INTERESTS COURSES

Courses were arranged for the Fifth and Second Forms in Second Term last year and for the Fourth and Second Forms in Third Term. New courses included a Woodwork course for Fourth Form and a Hobbies and Pursuits Course for both Second and Fourth Forms. We are grateful to the various masters who undertake to run the courses.

ART IN THE SCHOOL

Art may now be taken as a subject from Prep. to Sixth Form: continuity has been established. This year sees the appointment, beginning in the second term, of an assistant art master, Mr. P. Ashton — an 'old boy' of the school and one who has maintained his connection with art since the time when he attended the Extra Art Class some years ago.

Lower School art and craft is regarded as introductory to Leaving Certificate art. The more advanced course (beginning in Third Year) must, to satisfy the requirements of the Education Department, cover the fields of History of Painting, Sculpture and Architecture from the times of primitive man to the present day — and it must cover to some extent the arts and architecture of non-European peoples, e.g., the Chinese and the Indians, the Mayan and Inca cultures.

The present 'Leaving' examination takes the form of two three-hour papers, the first dealing with Art History as mentioned above,

and the second requiring the candidate to produce a small pictorial composition using human figures or perhaps a still-life painting. Its second half is given to Design, i.e., 'Make a design for a poster . . .' or 'Make a design for a piece of material suitable for beach shirts. Four colours allowed.' A wide choice of subject is given.

In addition to the written and practical papers the candidate must submit to the Education Department set examples of one kind of craft work, and the Headmaster of his school must be able to certify that the work is entirely the candidate's own — that he has had no assistance of any kind. Should pottery be the craft chosen, the boy must submit a set of three shapes made on the potter's wheel, or by hand building, or by casting: (a) a bowl at least six inches across, (b) a jug at least five inches high, (real problem here is the handle) and (c) a vase, measurements optional.

One could specialise in other crafts at S.G.S. — silk-screen printing or linocut block printing.

All this sounds a formidable array, but it is a pleasant enough study for a boy of average intelligence and a bent for art, and it could be recommended for those intending to be commercial artists, designers, teachers specialising in art, and architects, as well as those very few who may hope to go on to an Art School and that most hazardous of professions — art.

SCHOOL ACTIVITIES

THE CHESS CLUB

Our every increasing Chess Club is now situated in Mr. Carr's room behind Lab. 11, near the Science Masters' Common Room. Chess was unavoidably disrupted while Mr. McGuinness looked for a suitable room for the Chess Club. Now that we are settled there are plenty of sets and boards available for all players.

We are arranging a school chess competition to be held soon and all interested in taking part are welcome. Inter-school chess commences next term and will be held on the most convenient day after school. We would like to have as many teams as possible so all interested should come down to the Chess Room. All will be eagerly accepted.

In the August holidays there will be chess competitions, in age sections, held at the Y.M.C.A. in Liverpool Street. Entry forms can be obtained from R. H. Shaw or Mr. McGuinness at the Chess Club. Last January R. H. Shaw came eighth out of thirty four in the Australian Junior Championship held in Adelaide. We would be pleased to see boys taking part in all these competitions even if only for the fun of it and not for the mild acclaim.

R.H.S.

CRUSADERS

The attendance at meetings for this term has been a big improvement over that during the previous two years. A lively committee of Senior Boys and an interesting film programme have had much to do with this. The Bible studies are held in Lab. 9 on Thursday mornings and have been devoted to a study of the minor prophets.

A large number of boys attended the January Sailing Camps at Lake Macquarie and found them most enjoyable and worthwhile. We hope that attendance at similar activities will continue to be just as high. May vacation will see the Crusader Union conducting two bike tours and a conference for senior boys. A new activity for the September

vacation will be a Study Camp at Stanwell Tops for Fifth and Sixth Form boys.

Our thanks are due to Mr. Maclay for allowing us to use the Science Auditorium, and also to the many masters who have assisted in our programme.

S.H.O.S.
L.G.L.

SERVICE COMMITTEE

Once again, the committee has concentrated upon projects which will benefit organisations within the City of Sydney. On the first day of the May holidays fourteen boys will be going to Woodford to assist at Haddon Hall which is run by the Sydney City Mission. Haddon Hall is a home for girls who have been neglected or deserted at some time during their lives by their parents. The committee has undertaken to clear an overgrown area of land, which, when cleared, will provide further space for the home to use.

During the holidays the committee will also be helping the Reverend K. L. Child of St. Paul's Church of England, Chippendale: ten boys are going to saw some wood for the older members of the parish to use in Winter. Mr. Child is a hardworking man and it is hoped that we will be able to assist him again in the future.

Next term we will once again be organising a clothing appeal for the Smith Family, which will take place in June. Last year the boys collected eighteen tons of clothing and the Smith Family have told us that they now rely on Grammar boys to make the appeal a success. With full participation from boys there is no reason why we cannot achieve these results again. It is hoped that we can make a visit to the Smith Family Headquarters to see how the clothing is organised for distribution.

It is the aim of the committee to collect, also next term, enough money to buy a Talking Book for a blind person. A demonstration of one of these books took place in Assembly and was conducted by a man, who himself was blind. Great interest was aroused and it is hoped that every boy will contribute freely.

The committee hopes that these activities will be successful, but this will only be so if all boys of the school co-operate to their fullest ability.

H.N.S.

WOODWORK, 1964

Woodwork facilities continue to improve for 1964. The workshop has been extended to include most of an adjoining room and with the extra windows and clearance between benches it now has a more spacious look. Storage cupboards and timber racks have been constructed and most of the expenditure for this year has been used to build up a good stock of hardwoods.

The mortise and tenon joint in its various forms has been introduced and articles of work are planned which incorporate this joint. These include book and magazine racks, folding stools and table lamps. Boys in the second and third years may choose which article they wish to construct and also the timber from which it is to be made.

More advanced and ambitious work is being attempted in the extra woodwork classes held after school on Mondays and Thursdays. Work ranges from basic principles to coffee tables and bookcases and timbers in use include Pacific and Queensland Maple, Ramin, Tasmanian Oak and Japanese Beech.

We look forward to another year of progress and achievement.

N.C.H.

DEBATING

This year's committees are as follows: Upper School; Ward, Krygier, Billing: Middle School; Nicholas, Rosenwax, R. Brown.

Last September Grammar again did battle with S.C.E.G.G.S. at Darlinghurst. Neither sex emerged victorious however, as each school won three debates. The evening was very enjoyable and we are looking forward to the next fixture with S.C.E.G.G.S. this term.

Other inter-school debates included fixtures with Joey's and Trinity. These both proved successful for Grammar with our teams winning eleven of thirteen debates and two of the three prepared speeches against Joey's (on October 11th) and three of the four debates against Trinity (on October 18th).

This year's activities have started well, with the selection rounds for the G.P.S. team in an interesting and rather difficult position. Grammar will be endeavouring to retain the G.P.S. Shield and we are looking forward to next term's competition. Middle School debating has got off to a good start with the competition under way. Lower School activities are beginning to bloom.

There are a large number of boys especially in Fifth and Sixth Forms who take part in after-school debating, not with any particular view to inter-school competition but rather to gain experience in public speaking. This is to be encouraged as most boys are rather reluctant to speak to an audience.

We would like to thank all those who arrange and organise debating in the school, especially Mr. Knock. Thanks are also due to those boys of Middle School who helped with catering last year. This was greatly appreciated by both parched debaters and audiences.

H.A.B.

DUKE OF EDINBURGH'S AWARD NOTES

Last December Gold Awards were presented to Julian Golding and David Begg as well as three Shore boys, by the Governor-General, Lord de L'Isle, at Admiralty House in Sydney. The Governor-General seemed very interested in the Award Scheme.

Three others are very near to completion of their Gold Awards. This year, first aid classes have been organised with St. John's Ambulance Association for junior and senior levels. Mr. Cooper will be taking forestry and fire-fighting classes with the intention of doing some practical work as well. Classes in map reading and compass work are also being organised. Phillip Barron is helping Mr. Cooper by assisting in organisation of the physical fitness tests for all awards.

Since late last year twenty five boys have started in the Bronze Award. At the Silver Award level, there is a bicycle trial expedition planned for the May holidays. Messrs. Cooper and Knock will lead this expedition, which will be somewhere west of the Blue Mountains.

The Award Scheme is open to any boy above the age of fourteen. Mr. Cooper or Mr. MacGillivray would be very pleased to see any boy interested in the Scheme.

D.E.B.

CADET CORPS NOTES

Since the last cadet notes were written, three important events in the life of the Corps have taken place. Firstly the Annual Ceremonial Parade and Inspection was held on Monday 28th October, 1963.

Practices for this were hampered very much by rain; however a change of weather occurred on the great day to allow the Inspecting Officer, Major-General The Right Honourable Sir Victor Windeyer, K.B.E., C.B., D.S.O., E.D., to be greeted by the Corps clad in Service Dress, on an afternoon of intense humidity. All went well, Sir Victor being satisfied with everything he saw.

Secondly, the annual Junior Leaders' Courses were held at Singleton. For the third time in succession boys from this unit gained top places in both the Potential Under Officers' Course and the Senior NCO's Course, Cpl. E. Wajnryb topping the potential CUO's Course and Cpl. J. Wade the Senior NCO's. All other results were most satisfactory.

Thirdly, our own Junior NCO's course was held at Holsworthy East immediately after School broke up in December. In addition to the potential junior NCOs, all potential CUOs attended. The verdict on the course was that it was tremendously successful; so successful that this year it is planned to take all potential CUOs, WOs and Sgts as well as the junior NCOs. Once more we were assisted by the SUR — Capt. D. J. S. Boyce and Lt. A. Anderson, an old boy, were of invaluable assistance. Capt Boyce has been a very good friend to the Corps for several years, his help being much appreciated, and he is warmly welcomed whenever he appears.

1964 began with the pegged establishment of the Unit remaining at 352 all ranks. Within this establishment there has been some reorganization aimed at promoting efficiency. The two recruit companies have been increased from 3 platoons each to 4 platoons each, whilst the old Headquarters and Support Companies have been amalgamated into a new company, C Company. This change seems to be working quite well.

Two changes in uniform have occurred. Jungle Greens have taken the place of the old KD's, and black webbing is now the order of the day. The reason for this change is to bring the Australian Cadet Corps into line with the other branches of the Australian Army.

On a wider scene, Lt. Col. Ian Hutchison has been succeeded by Lt. Col. S. R. B. Peach as Commander 2 Cadet Brigade. Our thanks go to Major W. F. Robeson, M.B.E., the Officer administering Command for his help, which has been considerable.

We congratulate Mr. D. E. Lloyd, formerly a member of the Corps, on being awarded the Cadet Forces Medal.

R.L.R.

The following awards were made at the Ceremonial Parade in October 1963:

H. A. Henry Sword: CUO J. J. Barkell.

Morgan Shield: Assault Pioneer Platoon. CUO P. R. Smith.

Walcott Cup: 2 Platoon, A Coy. Sgt R. A. Hall.

Mitchell Trophy: 4 Sec. 2 Pl. A Coy. Cpl. P. A. Bushby.

Fussell Cup: Cdt. J. L. Dellit.

The following promotions and appointments were made at the beginning of the year.

To CUO: WO2 N. Dettmann (Senior Under Officer, OC C Coy), Cpl. P. A. Bushby (OC B Coy), Cpl. R. N. Cartwright (OC A Coy); WO1 D. H. Louden, Sgts. R. A. Hall, H. N. Stockwell, G. C. Wilson, Cpls. I. E. H. Ballard, P. L. Blake, J. E. Finkelsen, A. P. Read, R. L. Smallwood, D. A. Stewart, E. Wajnryb. To WO1: (RSM) Sgt. H. N. Reid. To WO2: Cpls. J. M. Glasson (6 Pl. Comd.), P. H. Freeman (RQMS), M. L. Cohen, J. A. McCausland, J. H. Wade. To Drum Major: Cpl. T. F. Ross. To S/Sgt.: Cpl. A. S. Foley. To Sgt.: Cpls. W. R. Andison, R. B. Badgery, S. E. Barnes, A. G. Blaxland, R. C. Dilger, C. J. Dunston, D. M. Good, S. J. Gracie, J. R. Jameson, J. R. Lamplough, M. J. Perry, D. R. Pritchett, J. E. N. Rolfe, P. S. Steel. To Cpl.: L/Cpl. C. Mc M. Trimble, P. A. Johnston, Cdts. P. W. Anderson, G. N. Bangel, S. R. Benson, D. L. Brown, J. A. Chapman, R. N. Critchley, J. K. Ferris, W. G. Frew, J. A. F. Gilchrist, A. N. Gunn, D. G. Harris, C. J. Healey, A. H. Jacubowicz, H. D. H. Keller, D. R. Letch, J. W. P. Lewis, J. H. R. McEvoy, D. M. Matheson, R. R. Nicholas, G. C. Perry, S. T. Pollitt, R. D. Robertson, M. P. Roe, G. J. Smith, J. R. Sommerlad, M. C. Stephens, A. C. A. Strong, R. S. Stroud, J. N. Trevor, J. G. W. White, R. L. Whitington. To L/Cpl.: Cdts. M. S. Boyd, D. J. Cooper, G. B. Evans, I. C. Francis, R. M. Lee, P. G. Mountford, A. M. Stackpool, J. L. Stewart.

R.A.N.R. CADETS

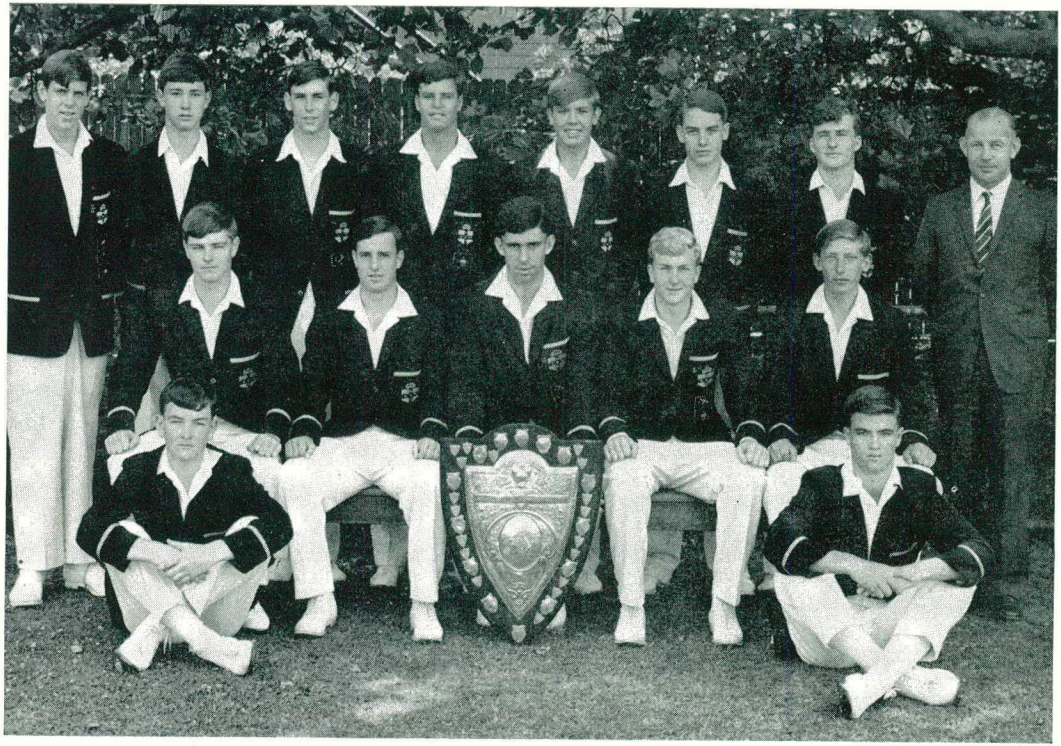

This year J. C. Goulding has been advanced to Cadet Petty Officer. This was the rank held last year by Peter Howard who recently joined the Royal Australian Naval Reserve. S. M. Mallarkey, M. Fisher,

W. H. Mitchell and T. D. Holgate have been advanced from cadet ranks to Cadet Leading Seamen. At the beginning of this year twenty four new recruits joined the R.A.N.R., to bring the total force to thirty. This is considerably more than previous years.

Lt. Trimble, R.A.N.V.R., is our Commanding Officer and Chief Petty Officer Wright, R.A.N.V.R., is our instructor. Up to Easter this year, all lectures have been conducted at the school covering such subjects as parts of the ship, reasons for such divisions, Plimsoll line, derivation of parts of the uniform and how they are worn. So far, cadets have only had brief glimpses of H.M.A.S. Rushcutter and H.M.A.S. Kuttabel, two of the Navy's shore bases. It is hoped that facilities at H.M.A.S. Rushcutter will become available as the year goes on because at the school the R.A.N.R. Cadets suffer from an old College Street complaint, lack of space, and because it is not possible to get practical experience at the school.

We look forward to an interesting second term and an even more interesting draft in August.

J.C.G.

FIRST ELEVEN — G.P.S. PREMIERS, 1963

Standing: H. G. STRATH, J. ELMGREEN, G. R. BUSHBY, R. F. JAMES, M. A. DE SAXE, P. J. MAYO, D. R. ARNOTT, P. G. YOUNG, ESQ. *Seated:* J. C. LOMAS, J. F. CARTWRIGHT, J. B. KENNY (*Captain*), I. G. ROBERTSON, B. T. McGILVRAY. *Front Row:* G. J. SMITH, A. S. TERREY.

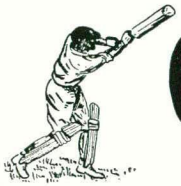

SECOND ELEVEN — RUNNERS-UP, 1963

Standing: J. M. TAIT, A. S. TERREY, J. ELMGREEN, K. B. POTTEN Esq., G. C WILSON, S. J. MURRAY, R. C. BARNES.
Seated: D. R. G. ARNOTT, W. H. SARE, P. M. THOMPSON (*Captain*), J. J. BARKELL, P. R. TERREY.

SEWELL(M) *Captain*, I. ROBERTSON(S), D. HONE(M), M. DE SAXE(S).

CRICKET

THIRD TERM, 1963

FIRST ELEVEN

The Grammar Eleven won its fourth premiership in six years at 5.24 p.m. on the second day of Round Six at Parramatta. It was a particularly satisfying premiership for the eleven Grammar boys who were present at that picturesque ground when the last Kings wicket fell and for the three who played in the team throughout First Term but were now absent. Exceptionally strong in morale and unity of purpose, this inexperienced but most teachable team had lived through a succession of crises chiefly through the striking power of its bowlers, whose works of destruction were on a few occasions sudden and merciless.

Last year provided an interesting study in team selection. Readers may recall that it was very wet in the First Term of 1963 and that wickets were almost always soft. Under these conditions, two good bowlers, both able to move and cut the ball, were considered a sufficient attack, provided they were well supported by the fieldsmen behind the wicket.

Then came the trip to Melbourne, where the same two bowlers got no help either in the air or from the hard, shiny Domain Road wicket and where an innings defeat was most narrowly averted. Sydney in Third Term would be something like this: there would have to be more bowlers and a boy could hardly earn a place as a slip or gully fieldsman if he were not batting or bowling well. Three changes were made. The batting and bowling were better in Third Term and, although the in-fielding slipped a little, it was no longer the supreme factor. The new team was the one for Third Term, but it would have failed, probably, in First Term.

Having led a very green team to success, Kenny was appointed captain of the G.P.S. Eleven, in which McGilvray was opening batsman and Lomas a replacement. Lomas and Strath played in the G.P.S. Second Eleven.

P.G.Y.

Trial Matches

v. WAVERLEY COLLEGE at Queen's Park, 21st September.
S.G.S. 129 (Lomas 33, McGilvray 21, Smith 20)
defeated Waverley College 108 (Kenny 6-40, A. Terrey 3-37).

v. I. ZINGARI at Weigall, 28th September.
S.G.S. 160 (James 41, Mayo 30, Elmgreen 32)
drew with I. Zingari 7-132 (Kenny 4-31).

v. O.S.C.C. at Weigall, 5th October.
S.G.S. 127 (Lomas 40, Robertson 36)
defeated O.S.C.C. 126 (Kenny 8-63).

v. T.S.C.O.B.C.C. at Weigall, 7th October.
T.S.C.O.B.C.C. 127 (Robertson 4-27)
defeated S.G.S. 89 (McGilvray 16, Bushby 15) and 5-57 (Robertson 26, Bushby 19).

v. TRINITY at Trinity, 7th December.
S.G.S. 7-223 (dec.) (Lomas 41, James 44, Bushby 44, de Saxe 48)
drew with Trinity 0-0 (Rain stopped play).

Competition Matches

v. SYDNEY HIGH SCHOOL at Mackay Oval, 19th and 26th October.

Won outright by six wickets.

Grammar won the toss and sent High into bat on a green wicket. High started badly, losing Smith (2) with the score 18. Wilson and Sinclair then had a long partnership scoring 43 and 28 respectively, and the score was 3-107 at Lunch. The rest of the batsmen offered little resistance and High were all out for 136. Strath (5-22) and Kenny (5-60) shared the bowling honours.

Grammar started badly, losing Lomas for 12 with the score 17. McGilvray and Smith then carried the score to 83 before Smith was dismissed for 24. The rest of the batsmen offered some resistance for Grammar to be 7-140 at the end of the first day and all out for 176. McGilvray top-scored with a solid 50. Mock was the best of High's bowlers, taking 7-70.

High started their second innings at 11.30 on the second day and were still 4 runs behind Grammar at Lunch, after which they lost wickets in an attempt to score runs quickly.

Grammar was set 95 runs in 2 hours to win the match outright. Lomas and McGilvray started well scoring 60 in 60 minutes before

Lomas was dismissed for 36. Three quick wickets then fell before McGilvray hit the winning run at 5.25 to complete a neat double of 50 and 45 not out.

v. SYDNEY HIGH SCHOOL.

v. THE KINGS SCHOOL at Parramatta on 2nd and 9th October, 1963.

Won outright by 63 runs.

Kings won the toss and sent Grammar in to bat. Lomas (20), McGilvray (28) and Smith (27) were the best batsmen in Grammar's total of 131.

Kings went into bat and lost wickets very quickly to be all out for 50. Kenny (6-28) was the best of Grammar's bowlers.

Grammar batted again and were 1-16 at stumps. Lomas did the best of the Grammar batsmen, top-scoring with 62. He received good support from James (33) and Bushby (24). Grammar declared at 8-185, and set Kings 266 runs to make in 180 mins. Kings accepted the challenge but lost 3 quick wickets to be 3-48. Byron (62 not out) and Westgarth (60) pulled Kings out of trouble but the later batsmen gave them no support and King's were all out for 203. Strath bowled very accurately to take 5-34.

v, ST. IGNATIUS at Weigall, 16th and 23rd November, 1963.
Lost on the 1st innings by 11 runs.

Grammar won the toss and sent Riverview in to bat. Riverview batted very slowly for 5 hours and only scored 114 runs. Grammar started batting at 5.20. Lomas square cut the first ball for 4, then had his appeal against the light upheld.

On the second day Grammar batted poorly to be all out for 103, 11 runs behind Riverview. Riverview started their second innings on a beautiful batting wicket. The openers put on 136 before McCormack was dismissed for 80. Shortly afterwards at the fall of the second wicket, Riverview declared. Grammar were set 146 runs to win in 70 minutes. Grammar accepted the challenge but the task proved too great and were 7-123 at stumps.

G.J.S.

FIRST TERM, 1964

FIRST ELEVEN

Grammar and Scots are the two unbeaten teams in this year's G.P.S. cricket programme. Scots has more outrights and, on the old basis, would have more points. However, the conception of a point-score will probably come apart in Third Term when schools make bi-lateral agreements about hours of play. These two teams are due to meet on 17th and 24th October at Bellevue Hill — in the same week of October as Grammar teams met previously unbeaten St. Josephs and High School teams in decisive matches in 1962 and 1963.

The record of the Grammar Eleven is three wins and one favourable draw — plus a clear win over Melbourne Grammar School at Easter. It has played some excellent cricket. One thinks of the second dismissal of Riverview, the eighth wicket recovery against Shore, the fielding against Shore, two recoveries against Kings and many phases of the Melbourne match.

Some of these sessions, however, must be described as recoveries from depths rather than processions at great heights. One naturally

asks the question which is inevitable about the golfer who is magnificent at getting out of bunkers. Partly the erring tee-shots have been caused by winds of spirited opposition of which the Grammar team has noted much this term from its four determined Sydney opponents. The fielding of Riverview and Kings, the whole of the second day at Newington and Shore's fine attempts to recover from 3 for 8 were efforts big enough to drive fairly competent players towards the out-of-bounds fence.

Our team has, nevertheless, shown unusual resourcefulness in withstanding this pressure from its opponents. Every member of the team has, at least once, played a vital part in saving or winning a match.

P.G.Y.

G.P.S. Matches

v. ST. IGNATIUS at Riverview, 15th-22nd February.

Won outright by 38 runs.

Winning the toss, Grammar batted, and lost 2-6 in the first five overs. A solid partnership between A. Terrey (12) and Smith (34) who both batted well, took the score to 33. With some support from the middle order, including a breezy 22 (two 6's, two 4's) from de Saxe, Grammar reached 115, after a quick fall of wickets after lunch.

A dogged, and at times fortunate, partnership for the second wicket took Riverview's total to 39 before Zions and Price were separated. However, very little other resistance was offered to Kenny (6-47) and Strath (4-40) and Riverview had a deficit of 15 runs. Batting on, Grammar had lost 1-5 in the quarter-hour before stumps.

The Grammar batsmen opened the second day very quietly, scoring only 7 runs in the first half hour. But Smith displayed excellent strokes and 29 runs were taken from 2 overs. A. Terry batted well again (15 in 89 mins.) and he and Smith registered their second valuable partnership of the match (49 runs). However, although Robertson batted well for 21, the remainder of the Grammar innings folded up just before lunch, with a lead of 114.

Riverview were soon in trouble at 4-39, with McCormack batting well for 26. Excellent bowling from Kenny (7-32) and de Saxe (2-43), who bowled better than his figures indicate, together with good catches, kept wickets falling regularly. Riverview was all out for 76, and so Grammar opened the season with an outright win, with one-and-a-half hours to spare.

v. S.C.E.G.S. at Weigall, 29th February-7th March.

Drawn.

Grammar chose first use of a perfect Weigall wicket. After a steady start, A. Terry and Tait put on a valuable 35, when Grammar had lost 3-43. However the loss of three quick wickets before lunch left the total at 7-109. Aggressive tactics from the tail-end batsmen subdued the Shore bowlers, Sare (24) and Elmgreen (36) adding 46 in 42 minutes, and so, Grammar having added 81 in the hour after lunch, were all out for 190.

When Shore batted, de Saxe took the first 3 wickets for a total of only 8. However a stodgy, but effective, partnership between Scanlan (34) and Armati (33) added 71 in 95 minutes, to dismiss Grammar's hopes of a 1st innings win on the first day. Kenny (4-26) and de Saxe (3-33) both bowled well and enjoyed excellent fielding support. Shore was left at 7-104 at stumps and with the second day washed out, the game was drawn.

v. NEWINGTON at Stanmore, 14th-21st March.

Won on 1st innings by 85 runs.

A dull day saw Newington win the toss and bat. However, they were soon in trouble at 2-11. At the only break before lunch, because of rain, they were 2-31, but excellent bowling from Kenny took four wickets in one over, and at lunch Newington were 6-49. With 7th wicket resistance after lunch, and Strath's taking the last three wickets in one over (3-5), Newington totalled 70, Kenny taking 5-16 off 13 overs. In this innings a number of brilliant catches were held, Robertson and Tait sharing 5 between them.

Despite the loss of early wickets, Robertson (68 in 91 minutes) batted aggressively, supported by Tait (19) and with three stoppages for rain, Grammar was 6-123 at stumps. The side totalled only 155, having added 32 runs in 45 minutes on the second day, and the lead was 85.

A 50 opening partnership, and bad luck for Grammar with near chances being missed early, laid the foundation for good batting by Trollope and Carroll, who added 53 for the 7th wicket. Strath again bowled accurately taking 5-41, and Sare took three catches but Newington totalled 201 at 3.25.

Being left 116 runs to get in 86 minutes, Grammar at once attacked with Lomas and De Saxe hitting out freely. Lomas provided the backbone of Grammar's innings, batting excellently for 42 in 62 minutes. But with middle order wickets falling and two run-outs, Grammar was forced to abandon the chase in the last quarter-hour before stumps, ending at 8-95, 21 short of outright victory.

v. MELBOURNE GRAMMAR at Weigall, 26th-28th March.

Won on 1st innings by 172 runs.

Melbourne was sent in by Sydney Grammar, but found the damp wicket difficult. De Saxe, with 8-39, took advantage of this and, getting the ball to lift disconcertingly, troubled all batsmen. From his bowling Robertson accepted three good catches at leg slip. Although some of the M.G.S. batsmen showed resistance, they could total only 98.

After two wickets had fallen for 30, Lomas and Robertson took over and, with brilliant batting, completely battered the Melbourne bowlers, hitting 16 boundaries between them. When a light appeal was upheld at 5.12, the total stood at 2-157, Lomas 70 and Robertson 69 being not out. The 150 was up in 139 minutes, the last 50 in 30 minutes. The second day saw Lomas out quickly, but Robertson batted well to pass his century. With others of the middle order staying with him, Grammar was able to declare at lunch at 8-270, Robertson being 151 not out (twenty 4's, two 6's) in 238 minutes.

Melbourne fared better in their second innings, Smith (43) and Sewell (30) being notable. The Grammar attack, although reasonably accurate, lacked sufficient penetration, with seven bowlers used to capture the last three wickets. Strath bowled well with 3-20 and Melbourne were 7-153 at stumps.

v. THE KINGS SCHOOL, at Weigall, 4th-11th April.

Won on the 1st innings by 30 runs.

Winning the toss and batting, Grammar lost 5-81 by lunch. Smith,

having experienced the doubtful honour of Grammar's first 'pair' in G.P.S. cricket for four years (against Newington) found form in a solid 100 minute innings for 37. After the slow pre-lunch session Tait (44 in 121 minutes) and de Saxe (28 in 49 minutes) attacked resolutely, adding 54 in 38 minutes. But there was no resistance with these two out, and Grammar were dismissed for 174. Byes were notable on the Grammar score card, totalling 24. Horwitz took all five wickets after lunch, to finish with 6-49.

Kings started well, the openers putting on 32, but thereafter, with splendidly controlled bowling from Strath, who bowled ten overs for 5-11, wickets fell regularly and they were left at 5-76 at stumps. The second day, in windy conditions, was unfavourable to bowlers, but with de Saxe taking the last three wickets in two overs, Kings were out for 134 after one-and-a-quarter hours' play. White (24) and Gall (28) both batted well, putting on 37 for the 6th wicket.

Grammar opened brightly, and Smith (19), Tait (28) and de Saxe (20) completed good doubles. Then an excellent 8th wicket partnership in which Kenny (32) and P. Terrey (21 n.o.) found form, took the score from 93 to 151 in 62 minutes, and Grammar declared.

Left 192 to get in 112 minutes, Kings at once began waving their bats, and Brazier notched a beautiful six off Kenny. However, they were soon in trouble at 6-48, and so Christmas (20 n.o.) and Horwitz (18 n.o.) dourly played out the last hour.

SECOND ELEVEN

This comparatively young 2nd XI has shown a steady improvement in its performances throughout the season. Uncertain batting brought about losses on the first innings in the opening two rounds, against St. Ignatius and Shore; in each case the decision might well have been reversed in the second innings with more time. The match against Newington produced a remarkable finish, when Grammar dismissed Newington for 24 in the second innings and won outright. The

following week against the same opening bowlers Kings could manage only 36 and 76, and Grammar thus completed the season with two successive innings victories. The credit for this belongs especially to the very fine bowling performances of Geoff Wirrell and Rex Chadwick, supported by sound captaincy from Dave Stewart, sprightly 'keeping by David Ross and excellent fielding. Barnes, Chadwick and Ross showed out best in an inconsistent batting side. Aside from G.P.S. matches, the game against the Old Boys was thoroughly enjoyed both as a social occasion and a cricketing experience.

Grammar 62 (Chadwick 20 n.o.) and 6-133 dec. (Chadwick 44 n.o., Stewart 44 n.o.) lost to St. Ignatius 95 (Chadwick 3-19, Stewart 3-4) and 4-60.

Grammar 54 (Gilchrist 15) lost to Shore 88 (Chadwick 4-30) and 2-10 (Chadwick 2-8).

Grammar 9-160 dec. (Barnes 65, Ross 29 n.o.) defeated Newington 122 (Wirrell 3-18, Harris 3-32) and 24 (Wirrell 6-8, Chadwick 4-12).

Grammar 119 (Barnes 27, Warman 24, Wirrell 24) defeated Kings 36 (Chadwick 6-15, Wirrell 4-19) and 76 (Chadwick 6-30, Wirrell 3-19).

Grammar 6-184 dec. (Barnes 51 ret., Anderson 51 ret., Warman 26 n.o., Ross 23, Gilchrist 19) lost to Old Boys 212 (Stewart 3-51, Harris 2-9).

THIRD ELEVEN

The coach was Mr. A. M. Thomson, who joined the School staff this year, and the captain N. Dettmann.

Matches went as follows:

v. S.I.C. Won on 1st innings by 70 runs.
S.G.S. 146 (Keeler 27, Creagh 23 n.o.) and 2-112 (Caisley 64). S.I.C. 76 (Blair 4-15, Lennox 3-35, Evans 2-1) and 9-127 (Dettmann 3-35, Sheidow 3-30.).

v. OLD SYDNEIANS. Lost on 1st innings.
S.G.S. 97 (Shaw 20, Dettmann 11, Creagh 11). O.S. 8-102 (Hopkins 3, Sheidow 2 wickets).

v. SHORE. Match drawn. No play on second day.
S.G.S. 2-100 (Shaw 39 n.o., Keeler 23 n.o., Caisley 21). Shore 117 (Blair 5-17, Sheidow 3-19).

v. N.C. Won outright by 9 wickets.
S.G.S. 6-189 declared (Creagh 87, Keeler 31). N.C. 83 (Blair 4-27, Lennox 3-18, Evans 2-2) and 113 (Sheidow 4-10, Lennox 3-34).

v. T.K.S. Won on first innings by 29 runs.
S.G.S. 176 (Keeler 55, Blair 28 n.o., Creagh 28). T.K.S. 147 (Sheidow 5-16, Hopkins 3-25).

FOURTH ELEVEN

The coach was Mr. N. Windred, another new member of the Staff, and the captain, P. J. Martin.

Matches were as follows:

v. S.I.C. Won on first innings.
S.G.S. 143 (G. Hindle 58). S.I.C. 56 (J. Lewis 1-1, T. Gregory 5-10).

v. SHORE. Won on first innings.
S.G.S. 6-129 (P. Martin 56, P. Higgins 30). Shore 114 (J. Lewis 4-36, J. Peterson 3-26, P. Higgins 3-14).

v. N.C. Lost on first innings.
S.G.S. 112 (P. Martin 32) and 1-50 (G. Hindle 21). N.C. 142 and 73 (P. Aiken 5-17).

v. T.K.S. Won on first innings.
S.G.S. 134 (S. Schilizzi 37). T.K.S. 88 (G. Hindle 7-20).

FIFTH ELEVEN

Mr. P. Groves and R. Mostyn. This team had the distinction of being undefeated in the four matches. Individual mentions are of G. Erby and R. Robertson (batting) and R. Critchley, E. Cortis and P. J. Martin (bowling).

A 6th XI came into existence for the match against Shore and flourished for a day. The second day it rained.

MIDDLE SCHOOL

COLTS A XI

Colts A XI. Mr. H. A. Macdonald reports the Colts A XI, capably led by P. L. Marsh, had a successful season, winning three games convincingly, and drawing the game against Shore because of rain, after dismissing four Shore batsmen for 12 runs with 174 runs on the board. The batting over the season was particularly sound with many excellent individual performances — Wynn's 46 v. S.I.C.; Barnes 48 and Robertson 41 n.o. v. N.C.; and Kelly's excellent 62 n.o. v. T.K.S. Openers Frumar and Murphy were sound, and added 62 for the first wicket on a rain affected pitch v. N.C. — the team scoring 219 as a result. Barnes was also most consistent.

Bowling honours were spread, with Kelly the outstanding wicket-taker (6-36 v. N.C., 4-26 v. S.I.C.) Wynn and Marsh proved excellent in the spin department, and opening bowlers Gardiner and Allsop usually broke through early. Bray kept wickets soundly.

In all, an improving team, undefeated as yet, and possessing players of great keenness and promise.

Team: Marsh (Capt.), Freeman, Murphy, Barnes, Kelly, Wynn, Hegarty, Robertson, Allsop, Gardiner, Bray.

Colts B XI. The coach was Mr. W. France, an Old Sydneian and now a member of the staff. Team: C. Barrack (Capt.), I. Indyk, B. May, H. Rikard-Bell, R. Stroud, N. Best, L. Brown, D. Cunneen, G. Eggleton, R. Hall. One win, a draw and two losses were recorded. However, it is interestingly reported that a total of 15 minutes cost the team two outright wins and resulted instead in first innings losses — in the matches v. Newington and Kings. An interesting and exciting season, in which honours were shared, Barrack's 58 being the highest score and Cunneen, Sourry, Indyk, Best and Barrack showing good bowling figures.

Colts C XI had an even season with one win, two draws and a loss. Names appearing are Archbold, Lake, Berry, Barrett, Allingham (11 wickets against Kings), Currie (7 catches in a match) and Halliday (88 runs against Newington).

14A XI. Mr. M. Ives' team was G. Pike (Capt.), J. Barraclough, C. Beelaerts, G. Clark, G. Drake, F. Farrar, D. Freeman, A. Kent, A. Manzie, C. Nielsen, R. Scott, S. Taylor, B. Ward, A win, two draws and a loss was the record. Special mentions are of sound captaincy, some strong performances and some failures, and interest of parents.

14B XI. Mr. J. Leslie was again coach and P. Gilchrist, this year's captain. Three wins and a loss was the record. Individual mentions are of A. Hinkley (14 and 8 wickets in two matches), R. Blanton and P. Gilchrist in batting and G. Swan for all-round play.

14C XI. Mr. Little, with A. Highfield the captain. A win and three losses, with Highfield, Stewart, Kent, Ford and Clark appearing as bowlers and Kent, Ford and others as batsmen. A senior boy, Robert Lee, assisted well as coach in this company and also sponsored an U14 D XI which played for an outright win against T.K.S. with G. Symonds as captain.

LOWER SCHOOL

A XI (Mr. D. Hinks and R. Gillespie) had two wins, two narrow losses and a draw. R. Gillespie and N. Bill are mentioned as batsmen and D. Sullivan, C. Robertson and R. Barron as bowlers.

B XI (Mr. T. Blackbarrow and K. Tickle) had three wins and a draw, a very good record. Willmott was a very good all-rounder; Tickle and Creagh are mentioned for bowling and Hyde scored a 46.

C XI (Mr. R. Carbines and D. Drake and A. Patrick) had two wins,

a draw and an exciting match with Kings which was lost on the last ball of play while trying to force a win. Special mentions are of Drake's promotion to the A XI and a hat-trick by P. Helman.

D XI (Mr. R. J. Stevenson and C. Hooke) had two wins and a loss. Names appearing are Kell, Dieppe, Brown, Haneman, Chambers, McKellar and the captain's.

Prep. Mr. A. Cooper. Four wins, a loss and a draw is the impressive record. And a 2nd XI beat Edgecliff 2nd. P. Catchlove, captain, was a useful batsman-bowler. Other names are S. Lasker, D. McAuslan, R. Nixey and D. Gray.

THE RIFLE CLUB

When Sunman returned after his unfortunate illness the Club had thirteen of its old hands back, a much larger number than usual. Elections in February produced a good committee to lead and administer the Club in 1964: Captain J. Weihen, Vice-Captain R. Smallwood, Members H. Reid and A. Blaxland.

There are many promising shots among the new members and this should provide keen competition at the May Shoot.

A.J.H.

ATHLETICS STANDARDS

This term's Standards Competition was fortunately helped by the good weather. All events were run, with good attendances each day. Some promising performances were noted, and overall the competition was of a high standard.

As figures show this year has been the most successful since the introduction of the competition, and it is hoped that the attendance will increase even more in the years to come. The Standards Competition is useful as an early guide to the athletic team for later in the year, especially in the Under Thirteen division.

This year recording of results was facilitated by a revision of the former recording system and much less paperwork is now involved. The assistance of Mr. Moore, Mr. Hinks, Mr. MacGillivray, Mr. Hunt and Mr. Grierson is greatly appreciated. The Standards Committee consisted of P. Gibby, Secretary, H. Billing, Assistant Secretary, C. Clark, M. Fesq, D. Keith, P. Kinsey, D. Louden and H. Stockwell. We would also like to acknowledge the co-operation of the Prefects and the Sixth Form.

In all 1018 Standards Certificates were gained, 614 Third Class, 312 Second Class and 92 First Class. Once again, the School House emerged a clear winner with 152 points, Group Five was second and Group Eight third. This is the third year in succession that the House has won the Competition, a very meritorious achievement.

P.F.G.

FIRST CLASS CERTIFICATES

GROUP 1: B. McConaghy, Under 16 220; I. C. Hayden, Under 16 100, 220, 440; A. J. de Saxe, Under 14 440; P. J. Stamell, Under 13 100, 220.

GROUP 8: M. L. Cohen, Under 16 100; D. E. Spratt, Under 16 Mile; P. B. Bennett, Under 14 440; D. Brigden, Under 14 440; N. J. Wall, Under 14 440.

GROUP 9: J. W. Mitchell, Open 440; P. B. Breeze, Under 16 Mile; G. B. Evans, Under 16 440, Mile.

GROUP 10: P. E. Berry, Under 16 100, 220, 440; M. G. Wilson, Under 14 220; S. J. Dibbs, Under 13 Broad Jump; R. G. H. Keller, Under 14 Cross Country; A. C. Weale, Under 14 220.

GROUP 11: J. A. Fegent, Under 17 Broad Jump; C. Stannard, Under 16 100, 440.

HOUSE: M. A. Halloran, Under 16 100, 220, 440; K. Gardiner, Under 15 440, Shot Put; P. B. Mortlock, Under 15 220, 440, Cross Country; H. White, Under 15 Cross Country; R. L. Whitington, Under 15 220, Shot Putt; J. F. Leonard, Under 13 220.

TOTAL 61.

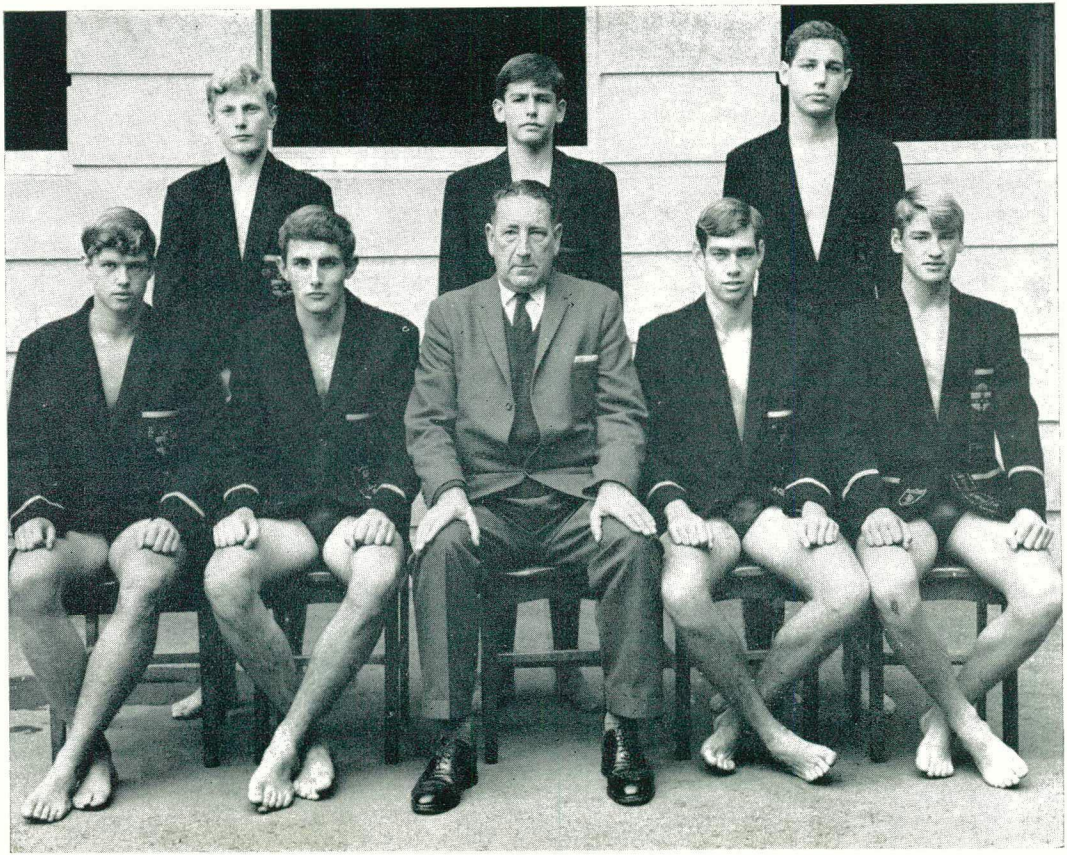

LOWER SCHOOL

1A: Bradshaw, G. I., 50 yards, Hurdles; Smith, R. A., 220 yards; Kell, 100, 220 yards.

1B: George, M. A., 100, 220 yards, Hurdles; Ross, A. D., 220 yards; Smith, R. D., 220 yards.

1C: Hunt, G. E., 220 yards; Wallace, B. L., 220 yards; 1E: Clark, R. C., 75 yards.

REMOVE UPPER: Brown, G. A., 50 yards; Lesnie, R. L., 50 yards; Street, K. J., 220, 50 yards; Vickery, R. C., 50 yards.

SWIMMING TEAM, 1964

Standing: H. D. KELLER, G. S. P. BRAY, P. H. ADELSTEIN.
Seated: R. J. SPENCER, V. W. T. KELLER, R. M. GLENVALE, ESQ., J. W. LIDDELL, R. L. TINDALL.

Remove Lower: Cox, G. D., 100, 220 yards; Foster-Spink, S. R., 75 yards.
Prep. Upper: Farrant, G., 50 yards; Graham, R., 50 yards; Koppstein, M., 50 yards; Rafels, V., 50 yards; Stewart, P., 50, 75 yards; Vickery, J., 220, 50, 75 yards.
Prep. Lower: Mallin, H., 75 yards.

SWIMMING

G.P.S. EVENTS

The standard of swimmers was not as high as in recent years, despite the return of V. Keller, R. Spencer and breaststroker, P. Adelstein. R. Tindall and J. Liddell and juniors H. Keller and G. Bray filled places. Against strong competition, the best that could be gained in relays was two fourth places and a fifth. Again T.S.C. secured three firsts. Our congratulations on their meritorious performances.

THE ANNUAL CARNIVAL

A smooth afternoon's recreation was seen, with good times, though only one record. Again the Women's Association came forward with a generous contribution for trophies.

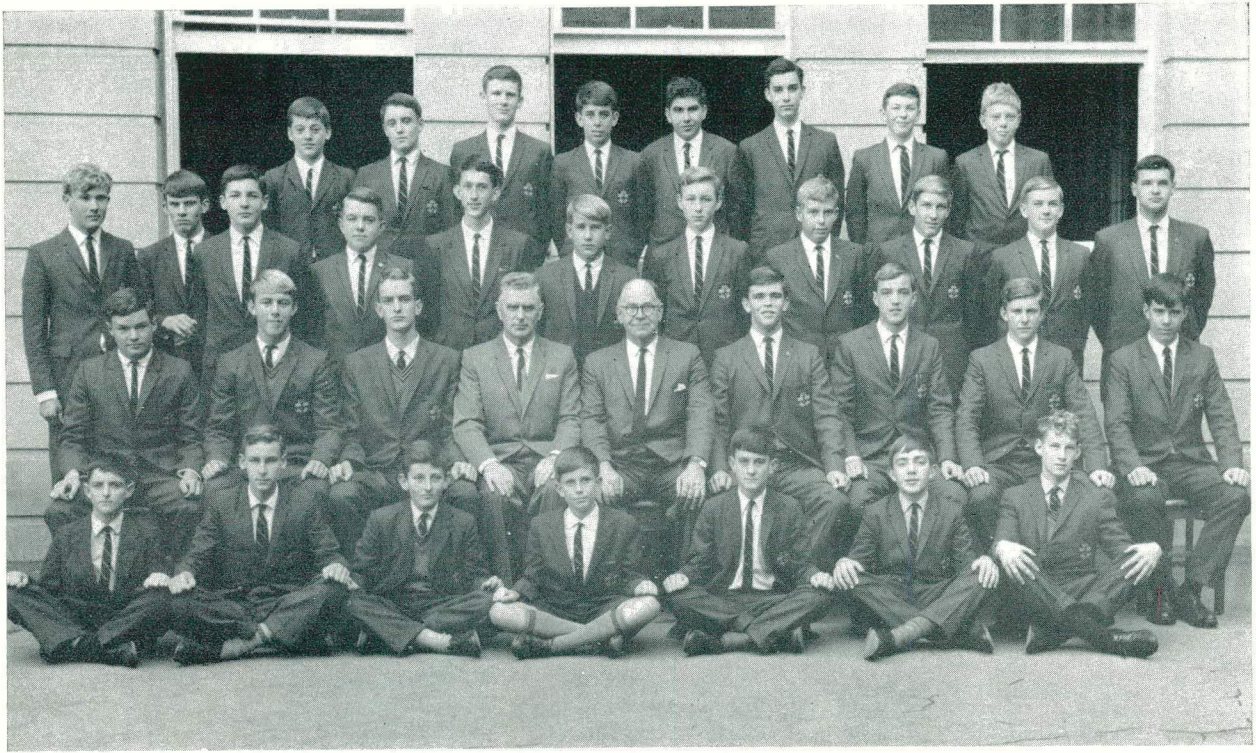

Results of events were as follows:

Open Division

55 Yards Freestyle: 1. R. Spencer, W. Turner (*equal*); 3. I. Lever. 31.2 secs.
110 Yards Freestyle: 1. V. Keller; 2. R. Spencer; 3. W. Turner. 1 min. 11.1 secs.
220 Yards Freestyle: 1. V. Keller; 2. H. Loudon; 3. R. Spencer. 2 min. 46 secs.
440 Yards Freestyle: 1. A. Kent; 2. A. Glenn; 3. D. Burgess. 5 min. 45.2 secs.
880 Yards Freestyle: 1. A. Kent; 2. A. Glenn; 3. V. Keller. 11 min. 47 sec.
110 Yards Breaststroke: 1. R. Tindall; 2. P. Adelstein; 3. D. Burgess, W. Turner (*equal*). 1 min. 33.4 secs.
110 Yards Butterfly: 1. R. Tindall; 2. R. Spencer; 3. W. Turner. 1 min. 24.5 secs.
110 Yards Backstroke: 1. C. Rooke; 2. R. Spencer; 3. J. Liddell. 1 min. 30.7 secs.
220 Yards Medley: 1. M. Hook; 2. R. Tindall; 3. R. Spencer. 3 min. 4.5 sec.
55 Yards House: 1. D. Gowing; 2. E. Sanders; 3. K. Grice. 33.9 secs.
55 Yards Novice: 1. I. Robins; 2. A. Mulhearn; 3. J. Lamplough. 34.4 secs.
Dive: 1. R. Michaelis: 2. R. Tindall.

Under 16

55 Yards Freestyle: 1. R. Tindall; 2. H. Loudon; 3. V. Keller. 30.5 sec.
110 Yards Freestyle: 1. R. Tindall; 2. V. Keller; 3. H. Loudon. 1 min. 6.5 secs.
220 Yards Freestyle: 1. G. Bray; 2. A. Kent; 3. R. Tindall. 2 min. 35.2 sec.
110 Yards Breaststroke: 1. R. Tindall; 2. D. Burgess; 3. V. Keller. 1 min. 31.2 secs.

JUNIOR BOAT CAMP, 1964

Back Row: D. STEWART, R. MANN, K. GRICE, J. TURNER, J. COHEN, K. McLEAN, J. DIXON-HUGHES, J. AUSTIN. *2nd Row:* P. MORTLOCK, A. BLAXLAND, D. COOPER, L. MUIR, C. GARDINER, D. JACKSON, R. STEDMAN, M. PATTERSON, M. CHAMPION, D. BROWN, H. REID. *Seated:* J. POLKINGHORNE, D. HARRIS, R. HOWARD, P. E. DUTOIT Esq., R. CASWELL Esq., R. BROWNE, N. CLUBB, T. CANVIN, M. LEWINGTON. *Front Row:* A. McPHEE, W. NEILL, G. MOORE, D. STEVENSON, D. SADLER, R. NICHOLAS, I. ROBINSON. *Absent:* C. HARRIS.

110 Yards Butterfly: 1. R. Tindall; 2. H. Loudon; 3. V. Keller. 1 min. 27.1 secs.
110 Yards Backstroke: 1. R. Tindall; 2. H. Loudon. 1 min. 30.4 secs.
55 Yards Novice: 1. J. Milston; 2. M. Inglis. 36.1 secs.
55 Yards House: 1. E. Douglas; 2. P. Frew; 3. A. Fenbury. 35.5 secs.

Under 15

55 Yards Freestyle: 1. H. Keller; 2. N. Clubb; 3. G. Letts. 31.6 secs.
110 Yards Freestyle: 1. H. Keller; 2. G. Bathgate; 3. I. Polkinghorne. 71.2 secs.
55 Yards Breaststroke: 1. H. Keller; 2. P. Newstead.
55 Yards Butterfly: 1. I. Polkinghorne; 2. H. Keller; 3. G. Taylor.
55 Yards Backstroke: 1. I. Polkinghorne; 2. H. Keller; 3. N. Clubb. 40.8 secs.

Under 14

55 Yards Freestyle: 1. G. Bray; 2. A. Kent; 3. M. Hook. 30.9 secs.
110 Yards Freestyle: 1. G. Bray; 2. A. Kent; 3. M. Hook. 1 min. 8.4 secs.
55 Yards Butterfly: 1. M. Hook; 2. G. Bray; 3. R. Ekas. 37.6 secs.
55 Yards Backstroke: 1. G. Bray; 2. D. Rhydderch; 3. A. Kent. 41.1 secs.
33 Yards House: 1. D. Knight; 2. A. Wehby; 3. J. Leonard. 20.8 secs.
55 Yards Novice: 1. P. Sourry; 2. S. Finlay; 3. G. Gilkes. 33.5 secs.

Under 13

55 Yards Freestyle: A. Glenn; 2. K. Tickle; 3. R. Keller. 33.5 secs.
33 Yards Freestyle: 1. R. Keller; 2. A. Glenn; 3. K. Tickle. 18.6 secs.
33 Yards Butterfly: 1. R. Keller; 2. R. Wilkins; 3. A. Glenn. 22.8 secs.
33 Yards Backstroke: 1. A. Glenn; 2. R. Keller; 3. I. Garven. 24.6 secs.

Under 12

33 Yards Freestyle: 1. P. Boyce; 2. R. Vickery; 3. L. Dawes. 21.3 secs.
55 Yards Freestyle: 1. R. Wilkins; 2. R. Vickery; 3. R. Polkinghorne. 37.6 secs.

Under 11

33 Yards Freestyle: 1. R. Vickery, I. Garven (*equal*); 3. R. Polkinghorne. Time 21.2 sec. (*Record*)

Under 10

33 Yards Freestyle: 1. J. Kingsmill; 2. G. Montague; 3. R. Vickery. 24.5 secs.

Form Relays

VI: 1. 6C1; 2. 6F; 3. 6E, 3 min. 19.4 secs.
V: 1. 5B; 2. 5C2; 3. 5A. 3 min. 23.6 secs.
III: 1. 3C1; 2. 3D; 3. 3C2. 3 min. 25.3 secs.
II: 1. 2C1, 2. 2B; 3. 2E. 3 min. 36.8 secs.
I: 1. 1E; 2. 1B; 3. 1C. 4 min. 15.2 secs.
Preps.: 1. R. Upper; 2. Edgecliff; 3. R Lower. 4 min. 42.3 sec.

ROWING — SENIOR CREWS 1964

Back Row: A. STRONG, R. SMALLWOOD, P. SCALES, W. GROSS, D. RICHARDSON, N. VIDA, P. JONES, J. WARREN. *2nd Row:* D. BARRON, D. LUSTHAUS, G. CROSS, M. PERRY, D. CRAIG, Esq., W. MONKS Esq., D. LETCH, I. BALLARD, J. SCHMIDT, P. DARBY. *Seated:* G. WILSON, D. PRITCHETT, J. CLARK, C. BURTON, P. DUTOIT Esq., *Rowing Master,* J. ARGUE Esq., *Chief Coach,* P. HOLMES, W. TAYLOR, D. MATHESON, S. SMITH. *In front,* T. WALTER, W. ANDISON, R. BRUCE, I. HARDWICK, G. GILL, P. ROBINSON.

Other Events

INVITATION 110 YARDS FREESTYLE: 1. P. Christy (Trinity); 2. L. Trengrove (Scots); 3. G. Cooper (Cranbrook). 60.6 secs.
OLD SYDNEIANS' 55 YARDS HANDICAP: 1. W. Phillips; 2. P. Schmidt; 36.1 secs.

SENIOR CHAMPIONSHIP: 1. R. Spencer; 2. R. Tindall; 3. V. Keller.

LOWER SCHOOL CHAMPIONSHIP: 1. R Upper; 2. 1E; 3. 1B.
GROUP CHAMPIONSHIP: 1. Group Seven; 2. Group Ten.

R.J.S.

ROWING

The 1963-1964 rowing season was a very happy one, even if our efforts only met with partial success. We were unfortunate to have two members of the eight with injured backs, P. Holmes during the Christmas camp and S. Smith in the last week of the Regatta camp.

The rowers were indebted to a number of people for their untiring help and time they spent with the crews. Firstly, Rowing Master Mr. P. Dutoit; Coaches: (VIII) Mr. J. R. Argue; (1st and 2nd VI's) Mr. J. W. Monks; (3rd and 4th VI's) Mr. D. A. Craig, and all coaches of the Tubs, Messrs. R. Caswell, C. Schmidt and T. Heath. To all these gentlemen our most grateful thanks.

During the whole period the speedboats gave excellent service and mention must be made of the drivers: H. Reid, A. Blaxland, R. Graham, S. Foley; also I. Hardwick who assisted Mr. Argue keeping the ratings and times of the Eight.

This year it was our turn to have Shore's Eight for dinner, a tradition of some years now. Many parents came on other occasions and enjoyed the food cooked by Mr. Hubbard, the chef.

It was very pleasing to see so many parents at the Assembly when Mr. Healey presented the singlets to the Regatta crews.

The Parents and Friends Association again came forward with truly wonderful generosity. A new 10 h.p. motor and a large De Havilland hull transformed the position for the junior Coaches. Not content with that a superb new Four, the 'Colin Healey', which was named by Mrs. R. Pritchett, was presented to us.

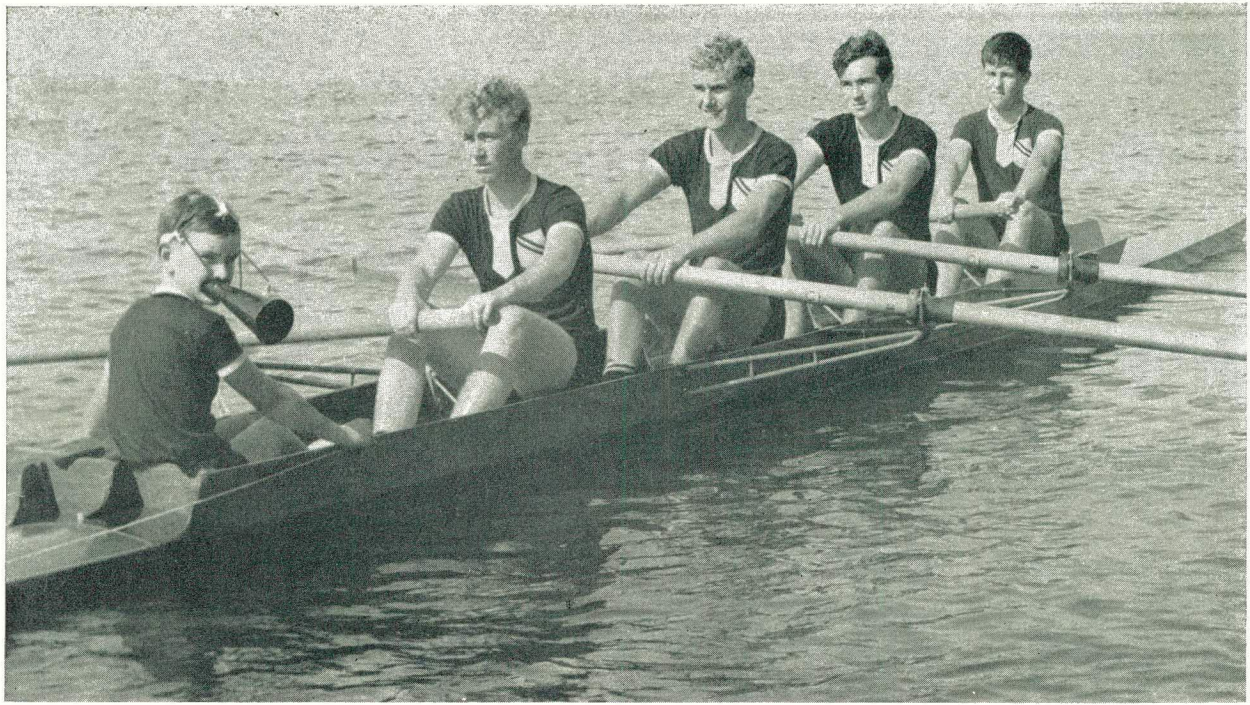

New curtains for the dining room and a fine set of racks for the collection of historical blades were also Parents' gifts.

The usual 'Open Day' was held on March 28th in conjunction with the Metropolitan Regatta. It was pleasing to notice the large number of visitors. Many thanks to all who helped to make it such a success.

THE EIGHT, 1964

Right to Left: Bow, G. WILSON; 2, D. PRITCHETT; 3, J. CLARK; 4, C. BURTON; 5, P. HOLMES; 6, W. TAYLOR; 7, D. MATHESON; Stroke, S. SMITH; Cox, R. BRUCE.

FIRST FOUR, 1964

Right to Left: Bow, P. DARBY; 2, J. SCHMIDT; 3, I. BALLARD; Stroke, D. LETCH; Cox, P. ROBINSON.

PRELIMINARY REGATTAS

Our crews did not compete in the Haberfield Regatta owing to rough weather, or the Leichhardt Regatta as the entry forms were lost in the post.

BALMAIN REGATTA, February 22nd: Conditions were very bad. The Eight was swamped at the finish of the heat, and had to be very carefully towed ashore. No damage was done and we were able to row back to the shed.

Fours: 1st IV, 4th; 2nd IV, 2nd; 3rd IV, not placed; 4th IV, 4th.

METROPOLITAN REGATTA, March 28th, Easter Saturday: The Eight qualified for the final but did not get a place.

Fours: 1st IV, unplaced; 2nd IV, 5th; 3rd IV, 3rd; 4th IV, 4th.

Tubs: Final — Tub 1 first and Tub 11 third.

UNIVERSITY REGATTA, March 30th, Easter Monday: The Eight did not qualify for the final.

Fours: 1st IV, unplaced; 2nd IV, 3rd; 3rd IV, 3rd; 4th IV, 5th.

Tubs: Two crews entered and Tub 1 won and Tub 11 was second.

RIVERVIEW REGATTA, April 4th: The Eight did not qualify for the final.

Fours: 1st IV, 4th; 2nd IV, 5th; 3rd IV, 3rd; 4th IV, 2nd.

Tubs: Won 4 heats and 4 finals — a unique achievement.

G.P.S. REGATTA, APRIL 18, 1964

1ST IV: J. A. Schmidt, Bow; J. D. Lusthaus, 2; I. E. H. Ballard, 3; D. R. Letch, Stroke; P. C. Robinson, Cox.

2ND IV: D. Barron, Bow; P. J. Darby, 2; G. A. Cross, 3; M. J. Perry, Stroke; G. E. Gill, Cox.

Coach: J. W. Monks, Esq.

3RD IV: R. L. Smallwood, Bow; A. C. Strong, 2; P. M. Scales, 3; W. J. Gross, Stroke; W. R. Andison, Cox.

4TH IV: J. G. Warren, Bow; P. L. Jones, 2; N. S. Vida, 3; D. L. Richardson, Stroke; T. J. Walter, Cox.

Coach: D. A. Craig, Esq.

EIGHT: G. C. Wilson, Bow; D. R. Pritchett, 2; J. E. Clarke, 3; C. A. Burton, 4; P. R. Holmes, 5; W. A. Taylor, 6; D. M. Matheson, 7; S. H. O. Smith, Stroke; R. L. Bruce, Cox.

Coach: J. R. Argue, Esq.

For the final Regatta training the crews travelled daily to Penrith by bus, returning to the shed at night.

The day of the Regatta was fine and warm.

Results: 1st IV, 3rd; 2nd IV, 5th; 3rd IV, 3rd; 4th IV, 7th. The Eight did not get a place and our performance was not as good as we had hoped.

St. Igantius rowed a wonderful race, with both rhythm and strength. We congratulate them most heartily on an excellent win, reported as six lengths.

We look forward eagerly to next season as there will be several rowers returning and the prospects for success seem good.

G.C.W.

TENNIS

The number of boys taking tennis as a sport increased to over 100, and of these about 60 contended for places in the seven teams playing Saturday competition matches.

The three senior teams had a good term, winning or being narrowly beaten when playing teams of equivalent grade.

There was a relative scarcity of under 15 players, but a wealth of competition in the under 14 division, many of whom will become a source of strength in future years.

The climax to the term's matches, as is usual in the first term, was the G.P.S. tournament at the White City on 15th April. Both Senior and Junior teams lost their morning matches, though the Senior team lost by only 5 games on aggregate, being drawn 6 all on sets.

In the afternoon both teams played better and more relaxed tennis, to defeat their opponents and finish third.

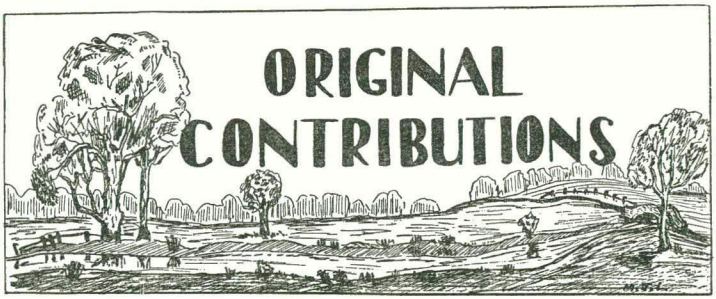

The worthy winner of both divisions was The King's School.

Our senior team for the G.P.S. match consisted of P. Blake (capt.), S. Wilson (vice-capt.), N. Ainsworth, J. H. Wade, J. Littler, A. Terrey, P. Terrey and P. Freeman. Reserves (who in fact played in the winning afternoon team) were J. Warman and G. Epstein. A. L. Shaw and J. Finkelsen were unlucky not to be selected, though part of the training squad, while R. Mockbell, who won his Tennis Colours last year, was not considered for selection because of a suspect wrist, the result of a fracture.

Our junior (under 16) team, who should have had a chance of winning the event, except for morning-match nerves, consisted of R. Mullins (capt.), J. N. Trevor, R. Hughes, P. Anderson, S. Finley, P. Wynn, G. Abeshouse and S. Whitfield. Reserves (who played in the winning afternoon team) were M. Roe and L. Brown.

Mr. Carbines coached the junior team during the last weeks, although he is also a cricket coach, while Mr. Cohen and Mr. Riley were in charge of the senior team.

P.R.

DE RERUM NATURA

A rainbow streaked in golden splendour through a domèd sky,
A mountain raising proud and lofty battlements on high,
A flower etched in simple beauty in a living lawn,
And sunlight, gentle sunlight, herald of approaching dawn.
Of clouds in hues unknown daubed upon no canvas screen,
Of roses smiling welcome from omnipotent demesne,
And songs, and gentle laughter on a soft and simple theme —
In a world of smoke and concrete, these are but a wistful dream.

M.J.P.D. — 5A — GROUP 10

SUNSET

He flaunts his fiery banner in the sky,
Where pale ideals amid confusion lie,
And empty night would end the passing day,
For he has lived in glory and must die.

Apocalyptic horses thunder by
And draw their cloudy carriage slowly nigh,
The sunset is a reeling world of fire
That with the Stygian night must surely die.

The scarlet spears reflect a desperate flame,
No man can tread the fire-trail he came,
Nor pacify the angry gods of war,
And only night the battle-field reclaim.

M.J.P.D. — 5A — GROUP 10

BEFORE AUTUMN

short breaths of wind
follow me now,
and in them I find
a shallow glee
as how
the grass lets its jacket fly open
and the lining
is a yellow fleece,
the sparrow's hand defining
it in the dark soil —
spent stubble of the harvest
and the summer season's toil;

only the smell remains
of long mornings,
drowsy afternoons,
close evening cricket-calls
and warm cloudy rains.

K.D.W. — 6A — GROUP 10

DESOLATION

The dying sun etches the stark mountain:
Crown'd by its diadem of ruined stone.
Builded by might and labour wrought in vain
To rear a great edifice to enthrone
The dwellers on Olympus. Deep shadow
Cast across the sandy wastes — long faded:
By fluted colonnades reveal'd aglow.
Burning sun-seared rubble lies scattered.

Steps lead nowhere and arches uphold nought
Shimmering capitals rise into the air,
And crumbling lies the art so dearly bought:
By craftsmen labouring without despair!
The last rays burn the violated dome,
Powerful yet shatter'd symphony in stone.

S.F.S. — 6A — MARKS GROUP

TORCH OF DARKNESS

'The Earth and the Works that are therein shall be burned up' —

. . . . . .

The metal giant waited to hurtle into time and space. Ant-like shadows crept around the base of the ship. Soon these figures dispersed, the astronouts waited, tense and anxious. In a blast of heat and exhaust the eight flame-tongued thunders suddenly erupted, shattering the still night atmosphere. A brilliant flash of light and the ten storey giant laboured into the rudely awakened stillness of the night sky. Rapidly the momentum increased as it bulleted into the eternity of space. Inside dials were altered and the ship slipped into a celestial curve. The journey would last three years. At the end of the first year the capsule was in deep space heading towards destiny and the planet Xi Gamma, which revolved around the sol-type sun of Krazeon.

Two years later it reached Xi Gamma. The following month Earth was shocked to receive a distress signal. The ship was never heard from again. On Earth worried frowns creased the foreheads of many great scientists. What had happened on the newly discovered planet? A meeting of the Western Bloc ensued. Another ship would have to investigate.

Six months later, the Zetian Torch left a world of fear, caused by the hatred between the communists and the Western Bloc. The ship was captained by Commander Anderson, a large well-built fellow, with broad shoulders and dark curly hair. His stern face was punctuated by a small mustache and a wrinkled forehead revealed an age of about 40.

The crew passed the weary weeks and months on the voyage to Xi Gamma. On Earth war had broken out and the situation was serious. One 'day' Johann Isen the radio officer, a short young man with grey hair, rushed into the control room, ashed faced and obviously shocked.

'A report just came through that a nuclear exchange has taken place on Earth. Britain is defenceless.'

There was little activity in the ship for a long period afterwards. A rumour that the rocket would return home was quickly quashed by Anderson. Frederick Thompson, one of the biologists, became very upset, being the only Britisher in the complement. However Zetian Torch finally came into the influence of the great planet Xi Gamma.

From a height of several thousand miles it had a green, hazy ap-

pearance, which became distinguishable as land masses and seas as the Torch cautiously slipped further into the gravity of the huge orb. Soon the ship was casting its shadow on the planet as it moved into the starlit hemisphere and preparations were made for the descent. Slowly the metal giant settled into a vast continent. It finally came to rest in a large clearing amidst a confusion of tree-like bushes, vividly coloured foliage and a profusion of tangled creepers rising several hundred feet into the sky. A mile or so away, the jungle ran into a sea.

A routine oxygen check was completed. The steel doors rumbled open. Not a sound disturbed the oppressive stillness. One by one the crew clambered from the ship and gazed in wonder at the dark green jungle profusion, dark ground and rocks. A gentle breeze blew in their faces.

'This planet is believed to be devoid of life, isn't it?' asked Anderson.

'A report by the original expedition said they had found no animal life,' replied Thompson. However about a mile away a single pair of hideous eyes was trained on the ship. Suddenly it turned away, dropped out of the tree, bounded off on four webbed feet and disappeared into the sea.

Night fell.

The following day search parties left the ship to reconnoitre. Thompson, greatly devoted to his work, and another biologist Gilvray, busied themselves with the collection and study of the many plant organisms.

The jungle was a battleground for survival. 'This area seems to be dominated by THAT,' said Gilvray, pointing to the creeper which coiled itself among the trees, slowly choking the life out of the limbs. The creeper was about as thick as a man's leg, dark green in colour, with long needle-like razor sharp leaves.

'The most amazing thing is that it grows at the rate of yards a day. We'll have to watch it very closely, or it may endanger the ship.'

That afternoon the search parties returned. Many strange types of plant life were handed to the biologists. However, the party led by Isen had not come back. An hour later the group burst out of the jungle and Isen stumbled ahead, white-faced and breathless.

'We have found one of the missing men!'

* *

Anderson, Frederick Thompson and Isen returned to the spot where the latter's party had found the skeleton and safety-helmet of the astronaut.

'We'll make a search of this area immediately. But help will be needed. Fred, go back to camp and bring back two of the crew. Go along the seashore; you'll reach the ship much quicker that way.'

The morning sun was shining brightly, as the two men watched Thompson disappear into the jungle in the direction of the sea. They then set about searching the area for clues of the missing ship. The place where the skeleton was found lay only about a quarter of a mile from the sea and an hour's journey from the ship along the shore. The jungle was very thick and the atmosphere was heavy. Soon it began to rain. Fortunately it lasted only a while although it poured heavily. However the two men were wet and uncomfortable, and it would be another half an hour before Thompson was due back.

'I didn't know it rained here,' said Isen.

'It rained shortly before the first expedition disappeared, according to the radio records,' Anderson replied.

Thompson never returned. Neither did the two ship's crew arrive. Late in the afternoon Anderson decided to return to camp. 'It seems strange that a man like Thompson should fail his duty.'

'But maybe he became lost,' Isen said.

'I don't think so. Thompson is reliable. He would be able to see the rocket from the seashore, once within a half a mile of it. Then he could simply head into the jungle in the direction of the ship.'

Only the sound of small waves against the shore broke the silence, as the two men headed along the beach. About halfway to the ship, horror suddenly overcame the two astronauts, when they found great footprints in the stony, sandy soil. They were about three feet across.

'Hardly human footprints,' said Anderson dryly.

Around this area were patches of congealed blood which trailed into the sea. Suddenly Isen gave a startled cry and pointed behind a large, weather-torn rock. Anderson followed his finger to a human arm, completely severed, lying on the ground.

'I wonder who that was,' said Isen in a shaky voice.

'Most probably Thompson, or one of the other two,' Anderson replied. 'This is proof that there must be some animal life on this planet.'

'I think we had better get back to camp in a hurry,' Isen said quickly.

On arrival back at the ship, they learnt that Thompson, and two members of the crew, had left the base to go back to the skeleton. It had just started to rain after they left.

'From now on, no one will sleep outside the rocket and everyone is to be armed,' Anderson announced to a rather uneasy crew, that night.

A strained atmosphere prevailed in the control room throughout the evening. About half past eleven the co-navigator decided to leave the rocket for a little while in order to take several photographs of the clear night sky. Not a sound could be heard as he left the ship. Ten minutes after his departure a sudden terrifying scream pierced the night. Anderson raced from his cabin into the corridor and down the steel ladder to the ground floor. The great steel doors were open, revealing a black night. Men were running about in confusion. Soon the co-navigator was found 200 yards from the ship. The monster creeper held him in its hideous clutch. The man stared in mute silence at the sky as a great coil slowly cut him in two; blood rushed from his mouth and ears. Slowly Anderson approached the dead man. The rest of the crew stood a little way off, their faces illuminated by the glow from the ship lights. However, a hidden coil of creeper slowly inched along the ground towards Anderson. Suddenly with ship-like fury the tentacle struck. It gripped Anderson around the legs, and he fell, screaming with agony, to the ground. The onlookers rushed forward. Someone produced an axe, and hacked the creeper away from the captain's legs. His only injuries were two badly bruised and cut legs.

The following day, the co-pilot of the Zetian Torch, a thin man with a very straight face and small, slightly turned down mouth, called Jackson, came to the Captain.

'Sir, the crew and myself feel that we should leave this planet immediately, before there is further loss of life.'

Anderson stared at him with cold, hard eyes, lips drawn in a thin line. He spoke in a short, clipped voice.

'Mister Jackson, when I want your advice, I will ask for it. This expedition was sent here to discover the reason for the disappearance of the first ship. You all signed on voluntarily. The dangerous nature of the mission was emphasised. We will not leave until its purpose has been fulfilled.'

In stony silence Jackson left Anderson's cabin.

During that day the vine was cut back from around the base of the ship. 'The rain is the only cause for the phenomenal rate of growth of that hideous thing that I can think of,' Isen remarked to Anderson during the afternoon.

'I have an idea the rain might also have had something to do with the death of Thompson and the other two,' Anderson replied.

'Do you think it was the creeper?'

'No, that doesn't explain the huge footprints.'

The following evening it rained.

It came down in torrents for nearly three hours; all security measures were double checked, leaving the safety of the metal hull was forbidden. Tension showed on the faces of the men.

The first indication of trouble came when a faint sliding sound on the steel casing told the occupants something was moving outside. Inside not a sound was made by anyone. Everyone froze. Suddenly there was a lurch. The whole ship slowly rocked as a crescendo of giant footsteps echoed through the thick walls.

Outside the killer vine slowly wound hideous crawling tentacles around the base of the rocket. The exhaust nozzles were blocked. The crashing footfalls heralded the arrival of the sea creatures.

Five monstrous glistening bodies stood towering into the night sky; each animal was about 80 feet high, its nasty body surmounted by a relatively small ugly head, a long snout containing two rows of iron tough, razor-like teeth, and ghostly, dark blue iridescent eyes, shining evilly in the coal-blackness of the night. The body, twenty feet thick, tapered towards the head. It was black and shiny. Four horrible stocky legs supported the creature on webbed feet. The animals stood around the ship on their hind legs striking viciously at the hull, with needle sharp claws. Scathing claw marks appeared in the metal.

Inside, panic suddenly seized the crew. Blindly the co-pilot staggered to the controls and pressed the ignition button.

'Get away from that control panel!' screamed Anderson, as pandemonium broke out as the clawing echos rang through the tomb. 'We are safe here!' No one took any notice, Jackson turned to the Captain, raised his revolver, and in a blind panic shot him through the head.

Suddenly a thunderous explosion rocked the night as the engines burst into flames. A flash of lightning and the Zetian Torch exploded in a huge fireball, lighting the sky, with a dull orange glow.

Blind terror of the supernatural destroyed two expeditions on Xi Gamma. The answer would never reach Earth. There was no human life on Earth. A thermonuclear war had seared and fused the earth into an orb of rock and water.

★

Slowly the long, thin, black missile hovered in the twilight of a Martian evening. Then it noiselessly descended into one of the two large Martian seas, settling on the bottom. A large door crept open. Suddenly two pairs of hard, dark blue eyes shone out of the dark recesses of the ship. Then slowly the black bodies of two Xi Gamma monsters appeared in the doorway. Between them they carried a human body. Up from the dark, watery void they swam.

Once the surface was reached, they swam with the man to a shore a mile or so away whence they left him.

After a while, slowly the body began to move. The eyes opened, the limbs moved and Thompson stood up. He remembered nothing of the Zetian Torch or his two friends killed by the sea monster. His eyes had a glassy, terrifying stare. He was wet and dishevelled. His lips were drawn in a hard, thin, cold smile. He began to walk through the red Martian wasteland from the beach to the only human colony on Mars, consisting of several hundred thousand people. His mission? Create fear and hatred in the minds of the people. The colony must be destroyed . . . An easy job compared to that of the crew member of the original Xi Gamma spaceship, who had caused the destruction of Earth.

Already many of the Xi Gammian sea monsters had moved to Earth waters.

TOWN HALL AT PEAK-HOUR

In Autumn, the farmer picks his summer-ripened crop

Five o'clock. A bell rings and the doors fly open,
Like a bursting dam, spilling gallons of people
To drench the dry pavement.
They tumble down the streets, joined by other fleeing rivers
Till at last they eddy round the corner and suck
Down, down under the city, and spew on to the platform.

Peace and television until they are planted again.
A crop grows, water flows.
Humans rot.

THE MYTH OF OSIRIS

On which the following poem is based.

The source of the myth was principally Plutarch, but other sources confirm his books.

Osiris, Seth (also called Set) and Isis were three main gods, established about the Fifth Dynasty, and were all children of Ra, the Sun god, and the Egyptians' concept of the creator. In addition to these three children of Ra, there were other gods and other Pantheons, dominating different districts of the Lower Egypt region.

Seth was the personification of the forces of Evil, as opposed to Osiris and Isis. The lesser gods and godesses, of which Nephthys, sister of Isis is an example, were divided between these three as their leader. According to the legend, they formed a pantheon of interbred, god-rulers of Egypt.

Seth became jealous of the superior power of his brother, Osiris, who was his foremost male opposition, and plotted to destroy him. He tried to accomplish this difficult task by holding a great feast in Osiris's honour, placing in the ante-room of the great hall, a very beautiful and expensive golden sarcophagus.

(In Egypt at this time, the residing place of the dead was considered of prime importance, because of the connection maintained between the Ka, or spirit, and the body in the after life; hence the desirability of a beautiful sarcophagus).

He promised to give this sarcophagus to the god whom it fitted best. As he had measured Osiris secretly, prior to the feast, he was sure his brother would fit. When Osiris lay down in the casket, Seth and his fellow conspiritors nailed down the lid and sealed it with molten lead. They threw it into the Nile and it drifted down to the Nile delta. (Alternatively one version has it that it landed on the shores of Phoenicia).

Some years later Isis chanced upon her husband's sarcophagus and took it with her to Upper Egypt, where she had fled from Seth. One day, however, Seth discovered the hiding place of Isis and reclaimed the sarcophagus. He opened it, dismembered the body and cut it into fourteen parts, which he strewed throughout the length and breadth of Egypt. Plutach concludes his narration with Isis's recovery of Osiris's essential parts, and her use of magic by which she and Nemphthys breathed life into Osiris. Horus their son eventually overcame Seth, the power of darkness.

THE LEGEND OF OSIRIS

O, Hail to Seth, The Evil One,
  Who nearly murdered Osiris:
Both sons to Ra; God of the Sun.
  Although he fail'd, because Isis
Found the great gold sarcophagus,
  And revived her faithful husband,
But this to the God Seth, was told.
  Cut up, and strewn over the land,
Where he had once reigned as king.
  All fourteen parts of Osiris,
Save one, which the Great Seth, now king,
  Had kept, that Isis' plan would ruin.
But now with magic and with power,
  Isis and the Nemphthys did breathe
Back into the body, the flower
  Of life, that he be saved from death.

S.F.S. — 6A — MARKS GROUP

SATURDAY NIGHT

It was Saturday night, and the heavy mist covered the bay like a shroud; the cover of death. The waterfront was abandoned — except for two silhouettes, running, their footsteps ringing on the hollow piers. They ran past the now sullen warehouses, past the cranes and jibs, used to hoist the cargo from the lockers and holds of the vessels which anchor for the sporadic period of unloading, only to sail once more and return again. As they rounded the corner they reached the 'Seamen's Cafe', its piercing light and joyful noises an oasis of life in a desert of death.

The noise was shattered to intense quiet as the first man ran in crying, 'Murder, murder, John Thoms is dead.' The other man arrived and echoed his partner's cries with equal enthusiasm. The stillness was broken by the murmur and later uproar that followed. 'Johnny Thoms dead. But he was only here a minute ago. You're mistaken.' was the general reply. The two men explained that they had seen his body and soon, armed with torches, the men from the cafe went in search of the body.

The two men could not understand the other men's hesitancy. True they were new around the docks and not well-known but they had seen him dead, his blood staining the cold concrete floor where his corpse lay. 'What killed him?' some asked. 'What was it this time?' 'Was it a gun or a knife, maybe it was a monster, eh?', came their taunts. The two men did not understand these jibes but still encouraged the other men on.

At last the men from the cafe called a halt. 'Keep going, it's not far, the body is this way,' the two pleaded. At last one of the men from the cafe told them that John Thoms had been doing this for years. 'He likes to fool you young swabs. He was an actor, you know. Oh yes; likes a joke too; third time he's done it, soon tire of it though; so don't feel too bad, you aren't the first suckers, you know.' At this the rabble broke into fits of laughter teasing those who had been fooled before.

The two did not feel like laughing, they could not understand how anyone could be so callous. 'But he was dead,' one said. More laughter followed the innocence of the plea. Finally the crew found their way to the warehouse where the body was lying. One sailor said in a salt-spotted voice, 'He certainly went all out this time, he does look dead, . . . Hey John m'lad you can get up now, we told them about your joke.' The body did not move. 'I said you can get up now,' the

voice repeated nervously. Another bent down to the pallid face and staring eyes. The murmur rose again as the corpse did nothing. 'He's dead,' was the general whisper and then the shout, 'He IS dead.'

Confusion followed and, as all of them were running about, here and there, a voice said, 'What are you doing, you blaggards? Can't a man get a little sleep?' Of course it was John Thoms. He had fooled them all. But he had fooled himself, for in the uproariousness and excitement that followed, John Thoms collapsed with a heart attack and died.

Next Saturday night the bay was quiet — there were no more jokes, only the bitter memory of one that had failed.

J.L.D. — 6A — GROUP 3

WAIT

How long must I wait,
I fear the time will come too late
When the exam will end,
And hearts will blend, to discuss
The three hourly horror;
The clock above me purrs,
And the traffic outside has no thought
For the two hundred boys at work;
I sit and wait and meditate,
How great a percentage will I gain?
The masters whisper and patrol the aisles
And, somewhere behind, a chair scrapes,
A nose is blown, paper rustles, all noises close to home;
And still I sit and meditate,
I think of problems of Sin and Cos
And wonder what the answer really was,
And boys impotently fume at problems long
And gaze as I, on the clock, and wait.
Free children go by, their voices gay and sprite,
But wait I must for time to pass
Some go to sleep and dream and think of
Sin and Cos.
Trucks groan as from the traffic lights they move
And all my thoughts are in one groove

How long must I sit and wait?
I studied hard but that's no good
To answer problems never seen before.
My brain's a turmoil of formulae, rules and lines
With angles and planes thrown in;
Is this the end of another week?
Have I still two days to study Physics?
To practise problems long and answers short?
How futile it seems to work so long, and then,
To have an answer so short and sweet!
And surds like curds and whey
Cross my mind in search of prey;
I summon courage and dismiss the thought
That some of the problems should have been
Made for me and my sort,
Meditating, meditating, slowly churning problems
But on my mind are thoughts; how nice it would be
To talk of percentages of ninety-two or three,
But the most I can gain is twenty-one, and that,
Only if the examiner is kindly.
And so I sit on blindly.

A.S.F. — 6D — GROUP 6

THE CARRION EATER

That speck! dark against the pale blue sky,
Waiting, watching, hovering aquiline.
That point! stark It glides on high,
And as such, of death the sign.
It is patient.

Jackal, feathered breast, haunting desert air,
Dead and dying, blood and fleshen beasts
It's diet. The azure sphere Its lair,
Reptile, man and animal Its feasts.
It is patient.

That speck! dark against the yellow sand,
It is a man who walks, walks and then he falls.
The Watcher drops towards the distant land.
The object's prone, then he slowly crawls.
It is patient.

More painfully he moves, much slower now,
Struggling on beneath that cobalt ceiling,
Stays still, the Vulture now drops low
Over the victim, heeling, gliding, wheeling.
It is patient.

Wracked beneath the celestial orb,
Through the sand the human claws his way
The Vulture waits for what the desert won't absorb
The Vulture waits, It knows Its prey.
It is patient.

Spasmodically the man writhes on,
But now, the life has ebbed, is still
Lower drops the Bird, intent upon
The thirsting being that is Its kill.
It is patient.

The body kicks and squirms its last,
The Feathered Jackal descends and lands.
Long before the death, the die was cast
Over the spoils the Vulture stands
It is no longer patient.

G.B.E. — 5A — MARKS GROUP

FIFTH WICKET DOWN

You sit down on the grass and watch the batsmen walk out to the middle. You've checked with the scorer: you're batting number seven. Pity old Jones didn't know a genius when he saw one. Still, number seven is good enough for a start.

It's a perfect day, and you haven't got a care in the world. The openers are going well . . . Good Grief, he's caught! No, he's dropped! . . . . still, fairly well. 'Oh, well bowled, Sir!' you groan, as the scorer chalks up one wicket, and the next man walks in, swishing his bat as he goes, trying to look confident.

'Tricky blighters,' mutters the unfortunate who has just been

bowled. 'Must have swung a mile,' he adds. You smile. 'Tough luck, old boy,' you say sympathetically, but you really despise him: you know he can't bat for nuts.

'Oh, Bloggs is out!' you say. 'I bet it was his glasses.' Bloggs comes back, and explains that his glasses had misted up just as the bowler was about to bowl. 'Dashed lucky shot, what?' you say, as Smith, who has played in seven Test Matches, hits the ball into the pond over the road.

But finally, even Smith gets out, and it's your turn at last. You casually put on your new batting gloves, tighten up the buckles on your new pads, pick up your new bat, and try to look as though you have been playing cricket for years. 'Watch your step,' says the outgoing batsman, but you just smile. You'll show 'em how to bat. You, too, play a few imaginary strokes, and pull your cap down further over your eyes. The spectators applaud politely as you proceed towards the wicket. You can just see yourself batting brilliantly. You hear the shouts and applause of the spectators, and the captain's praise when you get back. 'Never seen a century like it — absolutely brilliant!' You glow with pride.

What a long way it is to the pitch, you remark as you come back to the present. You finally get there, and a kindly old gentleman says 'centre'. You haven't got a clue what he's talking about but you say 'thank you' all the same.

You hadn't noticed how close the fielders stood, when you were watching from the side. However, you would soon spread them out. You grip the handle of your bat, and the kind old gentleman at the other end says 'one to come.' You can't see the bowler — surely that isn't him right out in the distance? It must be, because he is pawing the ground like a bull, and starts to run in, as though he were an arrow shot from a bow. The ball hits your leg, and all the fieldsmen leap high into the air. There is a horrible cry from the bowler of 'Owzatsir?' The umpire, for that must be the identity of the white haired old man, seems unconcerned and calls 'over'. That was a well-earned rest!

From the other end, your partner is playing well, his shots being well punctuated with fours and sixes. At last it is your turn once more, and your thoughts go back again to that magnificent century. You

are suddenly shocked back to reality by the shaking of the ground. Is it an earthquake? No, the bowler is merely running up to the wicket. Before you have time to untangle your bat from the straps of your pads, you are struck bodily by a red leather thunderbolt. Once more the pleading 'Owzatsirpleasesirowzat?', and the kind old gentleman is about to . . . but no, he has changed! No longer the kindly old gentleman in the white coat, he gives you a look of contempt, and in a voice as loud as the bowler's, yells 'OUT' and raises his finger. He is an alien: they all are now.

You walk back dismally. What are you going to tell them? What excuse can you think of? The next batsman walks past, but you do not notice him. You walk dejectedly towards the pavilion, until you are swallowed up by the spectators. They take no notice of you now: they are too busy applauding a four hit by your successor.

T.D.H. — 6A — CHASE GROUP

AFTER THE WAR

after the war there yet remain
the few
who can't forget
the days of coves together.

self-centred soldier boys
thin lipped and overweight
in grey pants
straight-seamed
and as wide as
waist-line — none of this
modern nonsense.

let's reminisce
let's wait for Anzac Day
be boys again —
forget the other side
the ones who died,
the ones who lie
crippled, maimed,
ashamed . . .

we wild boys of self-acclaim
will triumph over darkness,
    over no success
    beyond the khaki dress,
the landings in the bloody mess
    of sea fear
    angry
    in the beer-brown wake
where, far below the chummy froth,
small bubbles rise
above the noise superfluous

in each of these
comes back the face,
    the rabbit eyes,
    the form of someone left
behind all crumpled
limp and life —
less in the final
now the greatest sacrifice.

SENIOR RELAY 6 x 20 YARDS: 1. Green; 2. Blue; 3. Gold. *Time 1 min. 23.2 sec.*
TOTAL HOUSE POINTS: Gold 42, Blue 37, Green 34.
The Stedman Shield was won by Gold House.

THE NORTH SIDE PREPARATORY SCHOOLS CARNIVAL

Ten schools competed. T. Murray came 2nd in the 10 years A division freestyle and K. Morrish came 3rd in the 9 years A division freestyle. In addition the team secured one 4th, seven 5ths and five 6ths.

Sydney Grammar Preparatory School, Edgecliff

CRICKET

This term the school was fortunate to secure, on Saturday mornings, the use of three wickets at Centennial Park. This not only allowed the playing of matches 'at home' but also gave opportunity for intra-school games. At some time or another this term, nearly all boys in 4th, 5th and 6th Classes have played in these matches.

The interest in, and standard of cricket played within the school is rapidly improving. Many boys who previously lethargically participated in coaching groups on Wednesday afternoons are now enthusiastically striving for places in the School Teams.

COLTS A XI

As a number of players in last year's Under 10 team were still eligible for that team, this year's Colts were seriously depleted in bowling and batting strength.

The team has, however, settled into a tight fielding unit, thus giving sound support to the limited attack available.

As the following results indicate, the team during the term has improved considerably.

v. NEWINGTON — Stanmore.
Drawn (Play abandoned through rain).
A most disappointing display by Edgecliff. At one stage the game was virtually won, but, because the team, as a whole relaxed and lost concentration, Newington were well on top.
1st Innings — Edgecliff 68, of which G. Bostock scored 21. Newington 62 for the loss of 4 wkts. after losing 1 for 9, 2 for 20, 3 for 23.

v. SCOTS.
Edgecliff won outright.
1st Innings — Scots 43; 2nd Innings — Scots 42.
Gary Bostock 11 wkts. for 26 runs from 10 overs. Derek Davidoff 5 wkts. for 26 runs from 10 overs.
1st Innings— Edgecliff 29; 2nd Innings — Edgecliff 57 for 7 wkts.

v. WAVERLEY.
Waverley won outright.
1st Innings — Waverley 63 for the loss of 3 wkts. Edgecliff 62 all out.

v. ST. IVES.
Draw.
1st Innings — Edgecliff declared 8 wkts. for 102 runs. This gave St. Ives one hour's play to score the runs.
1st Innings — St. Ives lost 9 wkts. for 50 runs when time ran out. At last the 'Colts' played as an alert enthusiastic team.

v. COLLEGE ST.
1st Innings — Edgecliff, 116.
1st Innings — College St. 66 for 9 wkts.
The game is still in progress. However, Edgecliff appear to be in a sound position.

FIRST XI

Carrying on the tradition of last year's Colts 'A' team the 1st XI has developed into quite a powerful side.

Its greatest strength lies in its bowling and fielding which generally reaches a very high standard.

Batting strength has come from individuals rather than the team as a whole. Good individual scores have been made.

v. SCOTS PREPARATORY SCHOOL.
Scots — 1st Innings 43; 2nd Innings 64.
Edgecliff — 1st Innings 103; 2nd Innings 0 for 6.
Edgecliff won by 10 wkts. and 2 runs. D. Sonenfild 50 n.o., H. Mather 7 wkts.

v. NEWINGTON — Stanmore.

Edgecliff — 29.
Newington — 69.
Match abandoned — owing to weather. Lost on 1st Innings.

v. WAVERLEY.

Waverley — 55.
Edgecliff — 6 for 58.
Match Won. Fine fielding by Edgecliff. D. Sonenfild 3 wkts.

v. ST. IVES.

St. Ives — 1st Innings 24; 2nd Innings 14.
D. Sonenfild 9 wkts. for 13, M. Mather 6 for 17. Fine fielding by the team.
Edgecliff — 7 for 82 (dec.)
D. Sonenfild 42 n.o., M. Mather 15. Match won outright.

v. NEWINGTON — Killara.

Edgecliff 61.
D. Sonenfild 15, J. Allsop 13.
Killara 44.
D. Sonenfild 4 for 11 M. Mather 3 for 7. Match won.

R.W.B.

UNDER 10 XI

The 10's team played five matches in the first term and were just a little unlucky in not being able to claim more victories. The final result was one win (v. St. Ives), one loss (v. Scots) and three drawn games, two of which were progressing well in our favour when they were abandoned due to wet weather.

Much credit must go to the captain, David Farrar of 5A, who set a very fine example with his sportsmanship and careful play. The team as a whole played well in all games. Roger Clifford batted very forcefully and scored the greatest number of runs; James Holgate proved the most reliable amongst the bowlers and Bradley Stannard showed his ability as an all-rounder. Wicket-keeper Graham Walker has improved considerably and is to be commended for his efforts. The younger members of the team, mostly from 4th Class, have made good progress in most aspects of the game and should develop into a sound nucleus for next year's team.

L.C.N.

SWIMMING

As usual Edgecliff was invited to participate in the 'College St.' Swimming Carnival which was held at the North Sydney Olympic Pool on Thursday, 12th March.

A group of six swimmers represented Edgecliff and did very well indeed!

Individual Scores

UNDER 10 YEARS, 33 YARDS FREESTYLE: John Kingsmill, 1st; Gregory Montague, 2nd.
UNDER 11 YEARS, 55 YARDS FREESTYLE: Ron Polkinghorne, 3rd.
UNDER 11 YEARS, 33 YARDS FREESTYLE: Ian Garven, 1st (equal). Record.
UNDER 12 YEARS, 55 YARDS FREESTYLE: Ron Polkinghorne, 3rd.
UNDER 13 YEARS, 33 YARDS BACKSTROKE: Ian Garven, 3rd.

These boys with the addition of Rex Dupain and Simon Moriarty were also the members of the Relay Team which managed to win the event despite a six second handicap.

SYDNEY UNIVERSITY LETTER

Dear *Sydneian*,

It is a tribute to Old Sydneians that they are represented, usually prominently, in every part of the life of our ever enlarging University. The widely separated interests of so many people make it very difficult to give credit to everyone for their achievements. These short notes must therefore always be accompanied by apologies to those whose interests have been overlooked.

We are always very pleased to welcome Old Sydneians as freshers. Their numbers increase every year despite the presence of quotas for First Year in all faculties. Our representation in the residential colleges continues to be maintained. Jim Barkell is a fresher in Andrew's, Don Stewart-Richardson in Wesley, and Bill Burke and Michael Dally in Paul's.

The academic achievements of Old Sydneians continue to be very high. Last year there were a number who graduated, with a liberal smattering of prizes and honours. They were — Medicine: Paul Roy, Doug Hungerford, Peter Caspari, Dick West, Mal Dent; Law: Geoff Spring, Gerald Bayliss; Engineering: Stuart Cumming, John Edwards, Alan Obrart and Tony Graham; Science: Humphrey Gastineau-Hills (Honours I in Pure Mathematics); Economics: Ian Storey; Agricultural Science: Peter Johnston; Dentistry: Peter Kaleski; Arts: Richard Mills. In other undergraduate years, Phil Harris (Med. I) and Ian Curthoys (top of Psychology III) achieved outstanding results. There were many others who added to the long list of distinctions and credits.

In University student life, Dean Letcher co-edited *Honi Soit* until June, Stephen Wilson is still a member of the Union Board.

Our sporting representation is very strong. John Antill is again Captain of Athletics. He is a member of the Blues Committee and Management Committee of the Sports' Union. John represented at Intervarsity together with Paul Vrachnas and Don Stewart-Richardson. Paul was a member of the Australian Universities team. John Matheson is still prominent in the Boat Club and is also a member of the Blues Committee of the Sports' Union. Phil Harris and Kim Santow were members of this year's successful University crew. John Edwards is captain of the Rifle Club and represented at Intervarsity together with Kim Murchison, Kerry Bos and Duncan Leslie.

Mal Ives, Warwick Caisley, Robert Storey and Bob Grant played Grade cricket. Mal captained the Australian Universities team which played the touring South Africans at Toowoomba. Warwick Caisley, Keith Newman, Mick Galland and Robert Storey are playing grade football. Warwick toured New Zealand in May as vice-captain of the Australian Universities team. Rod Skiller played Intervarsity Golf and was runner-up in the University championship. Peter and David Nash represent in Judo. Tom Karsai and David Schreiber are vice-presidents of the Fencing Club. Ian Downing is a vice-president of the newly-formed Sailing Club. Richard Oswald-Sealy plays pennant squash. Gordon Davies is the University 'Robin Hood' — president of the Archery Club.

We were all extremely sad to hear of the passing of Mr. Ritchie. We were very privileged to have known him and to have been under his guidance. We extend our deepest sympathy to Mrs. Ritchie and his family.

We should like to wish the Headmaster every success in his new post at Scotch College. His dynamic leadership will be greatly missed by Grammar.

We send our best wishes to present Sydneians for a happy and successful year.

Yours sincerely,

'UNDERGRAD.'

REPORT FROM OVERSEAS

Extract from a Letter received from Dr. G. N. B. Storey

Dear *Sydneian*,

I left Sydney with the intention of spending twelve months in England and find that I am still away. In London I saw a lot of Jock MacCallum and Pat Harvey. Murray Lloyd joined us in the middle of a snow storm and Tod Davis found there just wasn't enough food to be obtained. We watched several 'Internationals' at Twickenham Rugby Ground and all left with the same thoughts — why can't Australia win these games? We did not feel the standard was very high but it was obvious that it was played in a different spirit to grade Rugby in Sydney.

I played several games with Guy's Hospital which is the oldest

Rugby Club in England and for the first time appreciated Butch Edward's attitude to the sport. I was surprised how much publicity was given to school sport in the London papers. There was a lot of international sport in progress — almost every weekend, either in England, the continent or Scandinavia — athletics, swimming or boxing tournaments. As so many Old Sydneians have been to England there is no point in reiterating the virtues, but one thing I did feel was how fortunate we were in Australia with our climate and recreation facilities.

At the moment, I am in Baltimore at The John Hopkins Hospital — a somewhat famous research centre. What struck me about Baltimore was the 'sloppy' attitude of the school children. It is 90 per cent. co-ed, with all walks of life attending the district school. There are innumerable students (15-17 years) who drive to school. Teachers have considerable trouble with discipline, for corporal punishment is forbidden and even a verbal admonishment is frowned upon. One teacher told me they receive no backing from the authorities and in New York teacher assault is common.

I witnessed the U.S.A. equivalent of a Joey's-Grammar football match — played in the city stadium with publicity for weeks. The noise was terrific, school brass band — school jazz band — bungers being let off every five seconds. The teams are 35 in number, though only 11 play at one time. They have an attack, defence, kicking and catching team, so they are constantly changing. It is interesting to watch but it seems that if one doesn't make the squad, then NO football for that season. They didn't believe me when I said we fielded up to twenty teams on such a day.

Their education system is very different to that which we know at home. The standard of each College and University varies enormously. Some sort of a degree is necessary for nearly all 'white collar' jobs. Their society is affluent but after living in London for so long one appreciated the different attitude to law and order in this New Continent. The television coverage of 'Dallas and President Kennedy' emphasised how impersonal life is here. As I knew Australia in 1960 I don't think it is very much like America.

All the best,

BRUCE STOREY

UNIVERSITY & PREFECTS DINNER

The University and Prefects Dinner was held this year for the first time at the University of New South Wales. Approximately one hundred and thirty people were present including the Chairman of Trustees, Mr. Cowper, the Headmaster, Mr. Healey, undergraduates from both universities, Prefects of the School and many distinguished Old Sydneians.

We were fortunate to have as our guest on this occasion The Honorable L. J. Herron, the Chief Justice of New South Wales, who is himself an Old Sydneian. The Chief Justice in proposing the Toast to the School, reminded us all that the greatness of the school today was in no small way due to the influence of English headmasters who have, over the years, guided its destinies.

In a most able manner, John Kenny, the Senior Prefect, responded to this Toast, on behalf of the School.

After a most enjoyable dinner the evening closed at approximately 10 p.m.

HONOUR FOR BROTHERS

Two brothers, David and Michael Nelson, Old Sydneians, have recently been awarded the degree Ph.D.

While at school their names appeared on the honour roll as winners of the Senior and Junior Knox in the same year (1951).

Michael is an Arts graduate, 1st Class Honours, and is now a lecturer in German at Sydney University, having spent some time doing postgraduate work in Germany. He gained his Ph.D. at Sydney.

David, who is a medical graduate, is continuing research studies at St. John's College, Cambridge. He obtained his Ph.D. at Australian National University, Canberra.

FATHER JOHN HOPE

Sydney Grammar School, although undenominational, has contributed substantially to the life of the Church in Australia. One of the most famous of Grammar's sons is Father John Hope, at College Street in the early 1900's, who on April 30th retired as Rector of Christ Church, St. Lawrence, at Central Railway, after 38 years. This Church, ever since its consecration in 1845, has established a rich Anglo-Catholic tradition, and under Father John has developed a fame which has made it known throughout the Anglican Communion. The activities of the parish, which in effect ranges from Bondi to Penrith and Hornsby to Sutherland, have included student

and business hostels, a Boys' Welfare Bureau, a Boys' Home, a soup kitchen in the Depression, and a 'settlement' in Ultimo. The Second World War saw the Clergy House turned into a residential Club for Servicemen.

Wherever souls or bodies have needed the ministration of the Church, there has Father John been to care for them. A wonderful ministry of healing has been carried out, with many people finding alleviation or actual cure of their afflictions.

Two stories will serve to point the moral about this great man. A few years ago, when the Rector was ill in hospital, a member of Sydney's underworld came to visit him and cheered him up (!) by saying 'When you die, Father, all the "crims" in Sydney will be at your funeral'. The other, perhaps an observation rather than a story, was made at a farewell dinner of about 800 people at the Trocadero. The speaker said that if Father John were given a halo, he would, when he went to bed, put it away in a drawer and forget all about it. When, however, someone in need came along, he would suddenly remember it, take it out, and give it to him. LAUS DEO.

R.C.K.

ENGAGEMENTS, MARRIAGES & BIRTHS

We should like to print a full and accurate list of Engagements, Marriages and Births and the Sydneian *Committee relies on Old Sydneians to notify the Secretary, 31-9831 whenever they hear of an event which should be recorded in this section.*

If full details are not known the Committee will make further enquiries.

Engagements

Peter C. Whitehead (1957), of Vaucluse, to Miss Margaret Morrow, of Cassilis, N.S.W., on 21st March, 1964.

James R. Brett (1960), of Gordon, to Miss Jocelyn Lindsey, of Seaforth, on 29th April, 1964.

Robert W. Matheson (1956), of Strathfield, to Miss Wendy McPhee of Gordon on 16th May, 1964.

Anthony G. Edgar (1953), of Strathfield, to Miss Sylvia Pirie of Dundas, Ontario, Canada on 27th February, 1964.

John V. Bradshaw (1960), of North Bondi, to Miss Merlyn Nimmo, of Waverley, on 29th April, 1964.

Peter J. Vickery (1954), of Strathfield, to Miss Elizabeth Gee, of Turramurra.

David Barkla (1947), of Lindfield, to Miss Grace Dudley, of Wahroonga, on 21st March, 1964.

Constantine Issaakidis (1954), of Randwick, to Miss Christine Hepworth, of Wahroonga.

John Crosby (1954), of Kirribilli, to Miss Ann Levey, of Newcastle.

William H. Watts (1956), of Lindfield, to Miss Lindsay Ullrich, of Wahroonga, on 18th January, 1964.

Peter Benjamin (1954), of Vaucluse to Miss Megan Colefax, of Moruya, N.S.W.

Alan Robinson, of Epping, to Miss Lynette Cade, of Epping.

Marriages

James M. M. Gosper, of Pymble, to Miss Annette Rowe, of Chatswood, on 17th February, 1964, at the Church of the Holy Trinity, Brompton Square, London, England.

Ian G. Walker, of Vaucluse, to Miss Marie Travis, of Cremorne, at Canberra, November, 1963.

Ross Barnett, of Rose Bay, to Miss Suzanne Lamotte, of Harbord, on 4th April, 1964, at St. Marks, Darling Point.

John Humphries, of Orange, to Miss Alison Geary, of Fairfield—March, 1964.

John Vicars, of Lindfield, to Miss Gillian Davies, of Sutton Forrest, N.S.W. on Saturday 23rd May, 1964, at Holy Trinity Church, Berrima.

Mr. Martin (Happy) Addison, of Lane Cove, to Miss Carolyn Crisp, of Brisbane, on 16th May, 1964, at St. Margaret's School Chapel, Brisbane.

Warren Marks, of Dover Heights, to Miss Margo Vygen, of Edgecliff (late of Holland), on 27th February, 1964.

Peter Lane, of Kirribilli, to Miss Jann Marks, of Manly, at St. Augustine's, Neutral Bay, on 5th June, 1964.

Births

To Major and Mrs. Ian B. Mackay, of Canberra — a daughter, born 26th February, 1964.

To Mr. and Mrs. John Baird — a son (Stephen John), on 23rd March, 1964.

To Mr. and Mrs. Hilton Krone — a daughter, born 30th April, 1964.

To Mr. and Mrs. Michael Forsyth of Chatswood — a daughter (Karen Elizabeth), born 16th March, 1964.

To Mr. and Mrs. Douglas King of Rose Bay — a daughter, born 29th March, 1964.

OBITUARY

Mervyn Finlay

Mervyn Finlay, who was at Grammar from 1902-1909, was killed in a road accident near Goulburn on the 23rd April, 1964, at the age of 73 years. He was the third of six sons of the late Dr. Sinclair Finlay. All six brothers were pupils at Grammar, his youngest brother and his son both being Senior Prefects of the School.

The late Mr. Finlay was head of his firm of solicitors and actively engaged in practice until his death. He was a man of wide and generous interests and always retained an active interest in the School. He is survived by his widow, daughter and son.

Charles William Sutherland Dun

Charles Dun was at the school from 1913 to 1916. He was an above average scholar and represented the school in distance races. He was a prefect in 1916.

Between School and University he served in World War I, in 55 Battalion A.I.F.

He graduated in Medicine at Sydney University in 1923, winning a prize in his final year. He first practised in Warialda and then for many years in a big group practice in Manly until his death in June 1963.

He obtained a post-graduate degree in surgery in Edinburgh in 1938, and in 1959 became one of the few who have been elected an Honorary Fellow of the Royal Australasian College of Surgeons.

Distinguished as was his career in medicine, he will probably be best remembered for his sterling character, the devotion he inspired in his patients, and his effortless ability to make and retain friendships throughout his life.

R. L. (PUP) RAYMOND.

Granville Gilbert Sharp., M.D., Ch.M., B.Sc.
Born Adelaide 13 July 1878. Died Sydney 19 February 1964.

At the age of six weeks Dr. Sharp was brought to Sydney from Adelaide, South Australia, and lived at St. Paul's College, within the University of Sydney, until he graduated from Sydney University. His Father, Canon William Hey Sharp, was Warden of St. Paul's College for about 30 years.

He attended Sydney Grammar School, matriculating in 1898 with First Class Honours in Mathematics. At school he won the Wigram Allen Prize, and the Knox Prize for the best all-round boy of the year. He entered Sydney University holding the Morehead Exhibition for General Proficiency.

In 1901 he graduated Bachelor of Science. In 1903 he graduated Bachelor of Medicine and Bachelor of Surgery, with Honours for the whole course. He was fourth in a year of forty-six.

He obtained his Master of Surgery (Ch.M.) degree in 1904 while a Resident Medical Officer at Sydney Hospital, where he was Resident Pathologist in 1905.

During 1906-07 he studied in England where he was Assistant Physician in Shadwell Hospital for Children. He also worked in Central London Ear, Nose and Throat Hospital, The Hospital for Diseases of the Skin and The Royal Westminster Ophthalmic Hospital.

From 1911 to 1921 he was an Honorary Assistant Physician at Royal Prince Alfred Hospital.

He was awarded the degree of Doctor of Medicine in 1918 for original work in connection with the diagnosis of typhoid fever.

From 1923 he was a consultant physician in Sydney.

In 1943 Dr. Sharp was Senior Examining Officer at R.A.A.F. Recruiting Depot, Woolloomooloo. Later that year he joined the Merchant Navy and was Ship's Surgeon on S.S. Nellore when that ship was torpedoed and sunk by Japanese submarines in the Indian Ocean. He was rescued after 12 days in a lifeboat, and later lost the sight of one eye from injuries received at this time.

He served in a number of merchant ships until the end of the war, continuing on passenger ships and freighters after the war, and retired at the age of 81

Dr. Sharp represented Sydney Grammar School in tennis, cricket and football, and Sydney University in tennis. He first played tennis for N.S.W. as a schoolboy of 16. He was a member of the 1909 Australasian Davis Cup team. During fifteen years in first class tennis he was N.S.W. singles and doubles

(with G. W. Wright) champion 1903-04-05-06. He won outright the original N.S.W. doubles challenge trophy.

In 1911 he married Jane, daughter of E. G. Blackmore, CMG, who died in 1942. He is survived by his three daughters, Mrs. T. R. Park of Edinburgh, Miss M. Sharp and Mrs. A. O. Watson of Sydney.

L. S. AITKEN

The world is a duller place for the passing of 'Bill' Aitken for no one ever left him after a conversation, however short, without a smile on his face.

His happy personality was seen from the bottom to the top of the School for eight and a half years from 1910 to 1918. He played for the 1st XI for three years, captained tennis for two years, was a prefect for two years, took his place on all Committees and passed the Leaving Certificate without difficulty. He was one of the most popular boys of his time.

His working life was spent as a highly respected solicitor and his friendly nature undoubtedly contributed to his election as Captain of the Royal Sydney Golf Club.

'The Sydneian' regrets to record also the deaths, of which it has been advised since the last issue, of the following Old Sydneians.

BASIL-JONES, DR. OWEN BRIERLEY. Died 20th October, 1963. Attended Grammar from 1932 to 1938.

BEGGS, CHARLES NOEL. Died 30th March, 1964. Attended Grammar from 1927 to 1929.

BENNETT, JAMES JARMAN. Died 8th February, 1964. Attended Grammar from 1918 to 1919.

CAMERON, EWEN ALEXANDER. Died 16th February, 1964. Attended Grammar from 1930 to 1931.

CONNAH, GRIFFITH WILLIAM. Died 14th February, 1964. Attended Grammar from 1904 to 1907.

CLAPIN, RICHARD EDMOND. Attended Grammar from 1916 to 1918.

GILL, JAMES EWAN MACDONALD. Died 12th March, 1964. Attended Grammar from 1922 to 1924.

GLYNN, CLARE WALLACE. Died 16th May, 1964. Attended Grammar from 1934 to 1935.

HARRIS, CECIL WENTWORTH (DR.). Died 6th March, 1964. Attended Grammar from 1916 to 1917.

HAWKINS, WILLIAM OWEN. Attended Grammar from 1941 to 1942.

MCLACHLAN, WILLIAM HENRY. Died 24th April, 1964. Attended Grammar from 1921 to 1922.

NATHAN, FRANK JUSTICE. Died 11 th April, 1964. Attended Grammar from 1919 to 1922.

PRIMROSE, NOEL CECIL BURTON. Died 13th May, 1964. Attended Grammar from 1925 to 1926.

RAYMOND, DR. RONALD LIONEL ('PUP'). Died 30th January, 1964. Attended Grammar from 1911 to 1916.

RITCHIE, HERBERT ALEXANDER (BILL). Died 21st April, 1964. Attended Grammar from 1903 to 1909.

STOREY, DAVID ANDREW. Attended Grammar from 1901 to 1906.

TAIT, JOHN MITCHELL. Died 19th March, 1964. Attended Grammar from 1911 to 1914.

THOMPSON, HAROLD ROBERT. Died 10th May, 1964. Attended Grammar from 1917 to 1922.

TOMPSON, WILLIAM ALAN. Died 15th March, 1964. Attended Grammar from 1925 to 1929.

DOBBIN, VERNON (1910-1916) who died 20th July, 1963, aged 64 years was a practising Chartered Accountant. He saw active service with the 1st Australian Light Horse Regiment during World War I. In World War II he served with the Royal Australian Engineers at Darwin and attained the rank of Major.

LIST OF NEW MEMBERS AS AT 5TH JUNE, 1964

AUSTIN, J. S., 126 Stuart Street, Blakehurst.

BARKELL, J. J., 12 Beauty Point Road, Mosman.
BARNES, W. H., 176 Midson Road, Epping.
BATTERSBY, J. V., 910 Barrenjoey Road, Palm Beach.
BEEMAN, R. J., 29 Carnarvon Road, Roseville.

CARR, B. D., 1 Raymond Road, Bilgola.
CLARK, R. F., 3 Wangi Avenue, Cronulla.
COLBURT, I. L., 28 Churchill Street, Bardwell Park.
COOPER, R. E., 56 Warrangi Street, Turramurra.
CROSS, B. N., 70 Pentacost Highway, St. Ives.

DAKIN, DR. W. P. N., 40 Balfour Road, Rose Bay.
DALTON, L. A., 38 Hannell Street, Wickham, Newcastle, N.S.W.
DAVIS, S. D., 108 Middle Harbour Road, Lindfield.
DREDGE, K. H., 16 Brilliant Street, Mt. Isa, Queensland.

ECONOMOS, W., 36a Noble Avenue, Greenacre.
EDMONDS, W. D., 46 Killeaton Street, St. Ives.
ELKINGTON, G. B., 39 Tryon Road, Lindfield.
EVANS, M., 13 Telopea Street, Wollstonecraft.
EYRES, E. DE M., Flat 53, 355 Old South Head Road, Bondi.

FIELD, R. J., 7 Davidson Parade, Cremorne.
FISHER, N. I., 37 Rosedale Road, Gordon.
FLEGG, M. L., 88 Roseville Avenue, Roseville.
FRUMAR, S. R., 5 Weeroona Avenue, Woollahra.

GOLDING, D. J., 480 Mowbray Road West, Lane Cove.
GOODMAN, J. M., 1 Holt Street, Double Bay.
GOULDING, W. R., 5 Serpentine Road, Hunters Hill.
GOURLAY, J. A. D., 22a Whitton Road, Chatswood.

HEATH, D. R., 127 Springdale Road, Killara.
HELSBY, T. R., 308 Sailors Bay Road, Northbridge.
HILL, A. E. C., 4 Culworth Avenue, Greenacre.
HOWARD, P. C., 26 Carbeen Avenue, St. Ives.
HULL, R. D., 16 Putarri Avenue, St. Ives.

JENNINGS, P. H., 44 Powell Street, Killara.
JOHNSTON, M. R., 34 Quinlan Parade, Manly Vale.
JOYCE, R. W., 44 Hopetoun Avenue, Mosman.

KELEN, G. J., 2 Toocooya Road, Hunters Hill.
KING, A. E. L., Unit 7 Camelot, 11 Merlin Street, Neutral Bay.

LAING-PEACH, J. A., 76 Warrimoo Road, St. Ives.
LENTON, R. C. R., 19 Monash Avenue, Killara.
MELROSE, R. R., 15 Fortescue Street, Bexley North.
MILGATE, L. J., 481 Burwood Road, Belmore.
MOCKBELL, R. K., 44 'Kings Lynn', Ithaca Road, Elizabeth Bay.
MOORE, A. T., Cnr. Sydney Road, Whistler Street, Manly.
MURRAY, N. H., 66 Chaytor Street, Karori, Wellington, New Zealand.

NATHANS, R., 3 Tabalum Road, Balgowlah.

OPITZ, S. P., 5 Higgs Street, Coogee.
OUTHRED, R. B., 39 Belmont Avenue, Wollstonecraft.

PALM, J. R., 29 Hardy Street, Dover Heights.
PLAYER, G. E., 5 Hatfield Street, Blakehurst.

ROSS, C. J., 25 Ben Boyd Street, Neutral Bay.
ROURKE, A. J., 4 Kylie Avenue, Killara.

STEWART-RICHARDSON, D. B., 21 Memorial Drive, St. Ives.

TEALE, G. L., 88 Bellevue Avenue, Denistone.
THURLOW, A. A. S., 69 Darling Point Road, Darling Point.

WALKER, J. N., 650 Pacific Highway, Killara.
WATT, C. D., Box 109 Tenterfield.
WILHELM, K. D., Gardeners Road, North Tunstall Avenue, Rosebury.
WILSON, G. J., 33 Woonona Road, Northbridge.
WITHYCOMBE, M. M., 46 Lord Street, Roseville.
WOOD, C. J., 12 Rosetta Avenue, Killara.

SET UP AND PRINTED BY G. W. HALL & CO. PTY. LTD., 468 VICTORIA AVENUE, CHATSWOOD, SYDNEY, USING MONOTYPE BEMBO TYPE. THE PUNCHES FOR WHICH WERE ORIGINALLY CUT BY FRANCESCO GRIFFO OF BOLOGNA, THE TYPE BEING FIRST USED AT VENICE IN 1495 BY ALDUS MANUTIUS ROMANUS. HEADINGS SET IN MONOTYPE GILL SANS. DESIGNED BY ERIC GILL AND APPEARED IN 1933.
